EARLIEST OF ALL TOMATO.

"Earliest of All" is our great early Tomato. It will produce large sized fruit in great abundance in large clusters, which are always very smooth, solid, heavy, free from cracks or ridges and contain only a few seeds. Is not only perfect in form and quality, but very solid all through, and a perfect wonder for earliness. No variety can surpass it in this respect. Plants begin to bear fruit when quite small. Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.; 1/2 oz., 15c.; oz., 25c.

SUMATRA FIG TOMATO.

The Sumatra Fig Tomato is quite an interesting novelty. Plants grow strong and yield large quantities of fruit of a yellow color. When dried they look and taste like figs.

Directions how to make figs out of this Tomato sent free with every order. Be sure to try this valuable and interesting Tomato. Pkt., 8c.; 3 pkts., 20c.

DWARF GIANT TOMATO

The Dwarf Giant Tomato is a magnificent variety. Grows about two feet high, very strong, and produces enormous sized Tomatoes; larger than any other dwarf tomato and a whole crop will average very large throughout the season.

The fruits grow in large clusters, from four to six, and weigh from one to two pounds each; color is a rich purple-crimson, skin is thin, easily peeled, but very strong; flesh is firm and solid, no core, delicious flavor, almost seedless.

Pkt., 8c.; 3 pkts., 20c.; 6 pkts., 30c.

TOMATO GRAPE

Tomato Grapes can easily be raised from seed in 4 months, and the growth and fruiting of a vine will astonish anyone. It will trail on an arbor, veranda, fence or trellis, as shown. They climb fast and throw out blossoms which soon form clusters of fruit that grow rapidly and in a short time the entire vine is covered with large clusters of handsome red fruit, which is excellent for preserving and using in many ways. One vine will yield enormous quantities of fruit.

Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

SEED BOOK FREE ON APPLICATION

C. A. WEEKS, Pres. & Manager.

SYRACUSE, N. Y. January 2, 1911.

TO OUR PATRONS :-

In presenting this 1911 Seed Book, we wish to thank our customers for their most liberal patronage in the past.

The enormous increase in our business during 1910 so far exceeded our expectations that we have been obliged to greatly extend our facilities to enable us to give our customers the most prompt and satisfactory service this season.

The results obtained from our seeds in the past have certainly been astonishing. Just imagine a tomato plant growing to the enormous height of twenty feet. This is just what Mr. J. B. Gilbert, of Richmond, Ind., did with our **World's Giant**, as shown on the front cover of this book. This is only one instance in many thousands where our seeds have proved unexcelled in quality and productiveness. We spare neither time or expense to investigate the merits of all the new and choicest varieties of **Seeds, Plants, Bulbs, New Fruits, etc.**, and in looking over this Catalogue we doubt very much if you can find another seed farm in this country that offers a more up-to-date line than we do. For instance, **The Giant Himalaya Berry**, shown on the back cover, is one of the greatest winners in the berry line the world has ever known. The **Pan-American Strawberry** is another marvelous introduction that has taken years of hard work and careful study to produce.

You will find this book completely filled with valuable new things in Vegetables, Fruits and Flowers, and bargains that will surprise you. Our seed crops have been good the past season, and we have, with few exceptions, an abundance of all varieties offered, to take care of our customers. Our order department has been greatly extended and improved, so that we are in hopes this season to be able to fill every order within forty-eight hours after it is received, even in our busiest time.

Our shipping facilities are excellent, and we can assure our customers that any order entrusted to our care will not only be filled promptly, but **Rushed**, and filled with the best seeds that grow.

Trusting we may be favored with a liberal share of your future patronage, we remain

Very Sincerely Yours,

FAIRVIEW SEED FARMS, Inc.

GENERAL INSTRUCTIONS ABOUT ORDERING

How to Order. In making out an order, first always write Name, Post Office, R. F. D., if any, County and State, and then write the varieties you want, quantity of each and carry out the Catalogue price after each one, and send the total amount in any convenient form of remittance to us by mail and your Seeds will soon arrive according to your shipping instructions. If you simply state what you want, sending Catalogue price, we do the rest.

How to Send Money. Money should be sent by either Post Office Money Order, Express Money Order, Bank Draft or Registered Letter. Small amounts will be accepted in postage stamps, if it is not convenient to send anything else. Do not send money loose in a letter. It is not safe, and if lost, we are not responsible for it. If money is sent in any of the other ways above mentioned, we guarantee safe arrival.

One reason why we prefer your sending a P. O. Money Order is in case your order is lost, by sending us the No. on your M. O. receipt, we can at once consult the Post Office here.

Seeds by Mail. We send all Seeds by mail postpaid, unless otherwise quoted, except where we make special quotations for Seeds to be sent by Express or Freight, customers to pay transportation charges. This brings our Seeds to your door without any trouble or expense.

Seeds by Express or Freight. We have excellent shipping facilities and wherever possible for bulky packages or special quotations for Seeds to be sent by Express or Freight we can secure the lowest Express or Freight rates possible, the customers to pay transportation charges on arrival of the Seed. Be sure to state on order whether to ship by *Express* or *Freight*, and give name of Express or Railroad Company, and full routing directions.

Terms, and C. O. D. Shipments. Our terms are cash with the order and on account of the extra expense we decline to ship goods C. O. D. unless the purchaser remits in advance at least one-half the amount of the order and we cannot accept C. O. D. orders for less than \$2.00. Bear in mind that C. O. D. shipments cost more than ordinary express charges.

Write Your Name and Address Plainly.

Many customers do not understand that this is very important as we usually receive hundreds of orders with addresses so poorly written that we are unable to read them. This always causes delay.

Order Early. It is our aim to fill all orders within a day or two after they reach us, but this is frequently made impossible by a great rush of business about planting time and we advise all not to wait until the seed is needed before ordering. However, we promise to give all orders our very best attention no matter when received.

We Make No Charge for Packing and Cartage.

We make no charge for Packing, Bags or Boxes, and deliver everything to Express Companies or Freight Stations at prices quoted in the Catalogue.

Our Guarantee. We exercise the greatest care to have all our Seeds, Bulbs, Plants, Roots, etc., fresh, clean, pure and true to name and to reach the customer in good condition, and grow if properly planted. Our goods must be carefully inspected by purchaser upon receipt and if they are not found as above, we will re-fill the order, free of charge, providing sufficient proof is given us within a reasonable length of time. We cannot guarantee crops and will not be held responsible for them, or for any liability other than as above, and if our goods are not accepted on these conditions, they must be returned at once.

A SPECIAL FAVOR--If you receive more than one copy of this Book we shall esteem it a favor if you will hand the extras to friends or neighbors who you think would be interested in good Seeds cheap.

SYRACUSE, N. Y.

LIST OF HIGH GRADE VEGETABLE SLEDS

ASPARAGUS

CONOVER'S COLOSSAL—This large Asparagus is a favorite in all markets. It is a rapid grower. Pkt. 3c., 3 pkts. 8c., oz. 7c., 2 ozs. 11c., ¼ lb. 16c.

COLUMBIAN MAMMOTH WHITE—This is a superior variety; has white shoots which stay white as long as fit for use. Pkt. 3c., 3 pkts. 8c., oz. 7c., 2 ozs. 12c., ¼ lb. 18c.

PALMETTO—This is the finest and best variety grown, remarkably tender and rich when cooked. Free from any tough or woody fibre. Pkt. 3c., 3 pkts. 8c., oz. 7c., 2 ozs. 12c., ¼ lb. 18c.

GIANT FRENCH ARGENTEUIL—A variety of great reputation in France. It is a first-class variety, with beautiful, smooth spires; is large in size, and known everywhere over the world as a fancy, high priced Asparagus used by French canners. It's a good one. Try it. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 10c., 2 ozs. 18c.

ARTICHOKE

The Globe Artichoke is cultivated for its flower heads, which are cooked like Asparagus. We offer the **Green Globe**, which is the standard variety. Pkt. 5c., 3 pkts. 12c. oz. 25c.

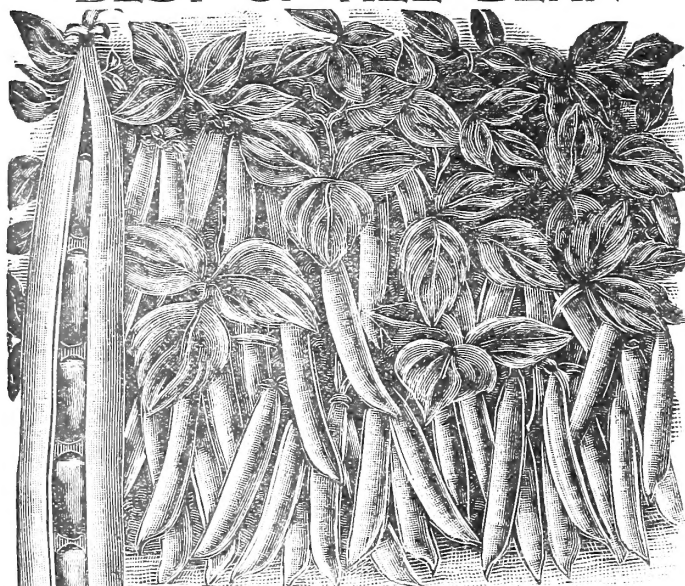

BORECOLE OR KALE

DWARF GERMAN—Largely grown for supplying greens during the fall, winter and spring, also used small like spinach. Seed should be sown in May or early in June, and when large enough, transplant same as cabbage. Pkt. 3c., 3 pkts. 8c., oz. 7c., 2 ozs. 12c., ¼ lb. 18c.

BRUSSELS SPROUTS

PERFECTION—This is the best variety grown. It is very tender, of good flavor, grows a stem two feet high and on this produces sprouts two inches in diameter, resembling miniature cabbage. Pkt. 3c., 3 pkts. 8c., oz. 10c., 2 ozs. 18c., ¼ lb. 28c.

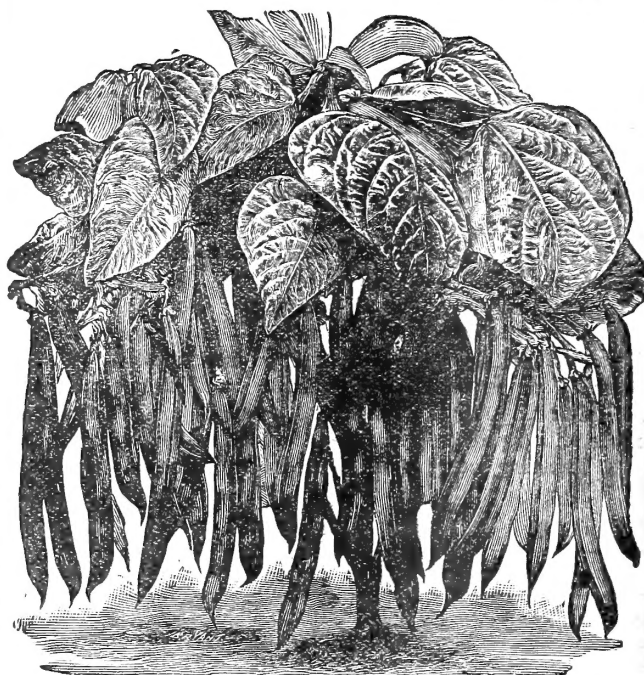

BEST OF ALL BEAN

BEST OF ALL—This is a valuable variety, medium early and bears abundantly. The pods are long, very fleshy, and of good flavor. We consider this one of the best green pod sorts. It is very popular in the south, but it is equally desirable for northern gardens. Pkt. 5c., 3 pkts. 10c., 6 pkts. 16c., ½ pt. 12c., pt. 20c., qt. 36c., postpaid. By express, not prepaid, 4 qts. 60c., pk. \$1.00, ½ bu. \$1.60.

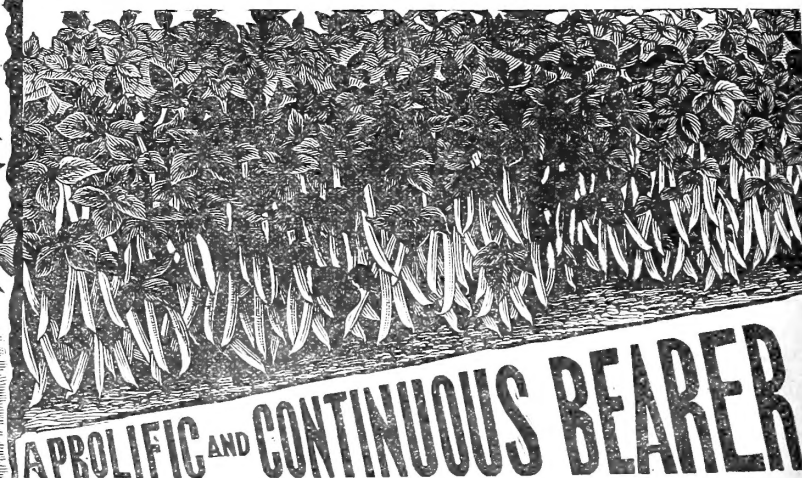

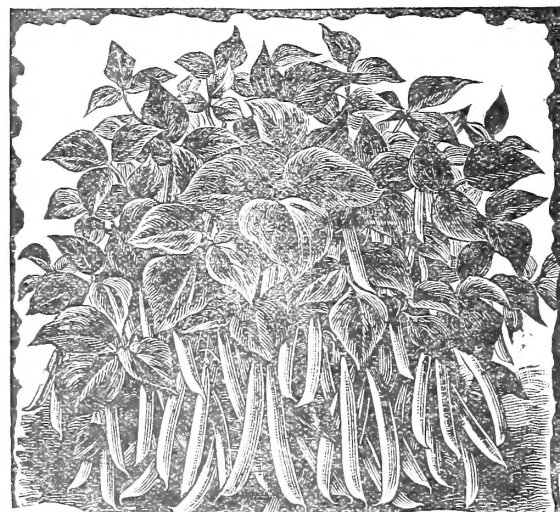

EXTRA EARLY RED VALENTINE—We have the best strain of Valentine Beans to be obtained. They mature quickly, are very productive, tender and of the best quality. We consider this one of the best green pod varieties, both for family use and market. It is fine for shipping and also for pickling. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., ½ pt. 12c., pt. 18c., qt. 32c., postpaid. By express not prepaid, 4 qts. 60c., pk. \$1.00.

GIANT STRINGLESS GREEN POD BEAN

GIANT STRINGLESS GREEN POD—This is the best absolutely stringless bean. The pods are ready for market several days earlier than the best strain of Red Valentine or Early Six Weeks. Pods are from 4½ to 6 inches long and are very tender and of fine flavor. This Bean is highly prized by everyone who has grown it. We offer choice stock. Pkt. 5c., 3 pkts. 12c., 6 pkts. 18c., ½ pt. 14c., pt. 25c., qt. 45c., postpaid. By express, not prepaid, 4 qts. \$1.00, pk. \$1.90.

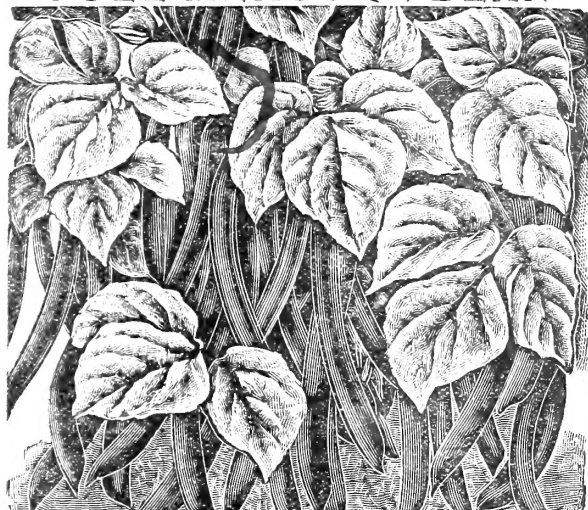

THE BOUNTIFUL BUSH BEAN

APROLIFIC AND CONTINUOUS BEARER

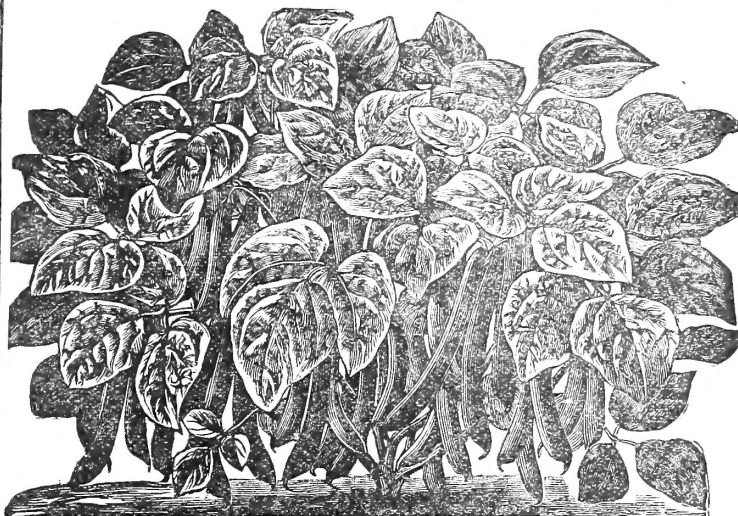

We believe that it is a distinct improvement in green bush beans and will become exceedingly popular wherever grown. It is a prolific and continuous bearer, absolutely stringless, very tender and of excellent flavor. The plant is very handsome, thrifty in growth, being practically rust and mildew proof. It is extremely early, being the first in spring, and it is the last to yield edible pods in the fall from midsummer's sown seeds, which have produced plants that are still in pod and blossom. One of the grand points of this new bush bean is in the rich green pods, which are of an enormous size, broad, thick, very long, uniform in shape, meaty and of high quality, absolutely stringless and free from any tough lining, not only when young, but this tender quality is retained to maturity. We know all who try this splendid new bush bean will be more than pleased. Per pkt., 5c.; 3 pkts. 12c.; 6 pkts. 20c.; 1-2 pint, 15c.; pint, 25c.; quart 45c., postpaid. By express or freight, not prepaid, 4 qts. 80c., pk. \$1.50.

FULL MEASURE BEAN

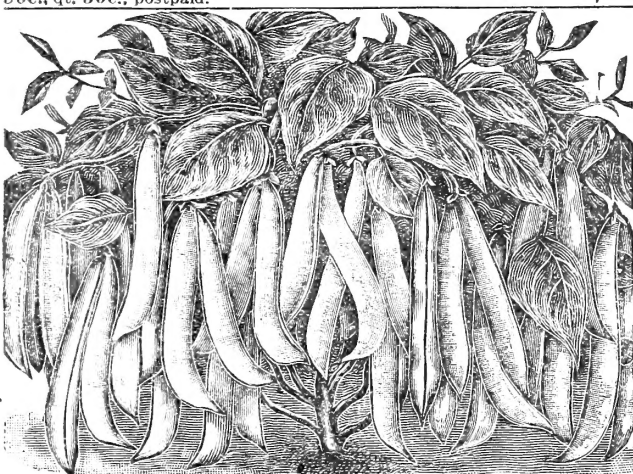

This is a splendid new round podded bush bean, producing long, round, green pods, always solid and stringless, is a very prolific grower, producing pods at least five inches long which are always firm and tender and remain fit for use some time after maturity. The plant grows erect, with handsome, dark green foliage, and we have found it practically blight-proof. Pkt. 5c., 3 pkts. 12c., $\frac{1}{2}$ pt. 18c., pt. 30c., qt. 50c., postpaid.

EARLY LONG YELLOW SIX WEEKS BEAN

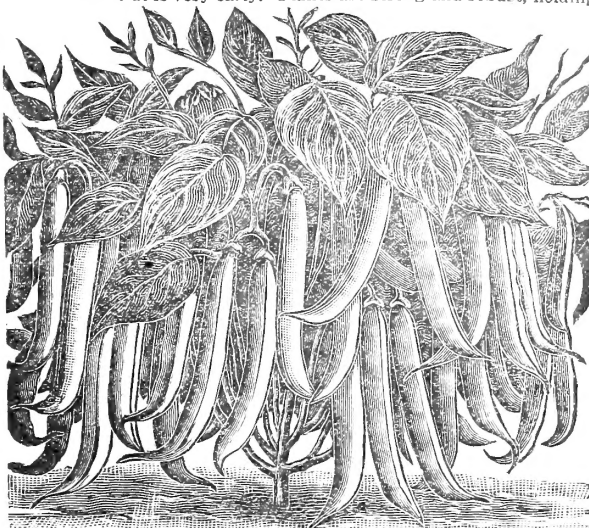

EARLY LONG YELLOW SIX WEEKS—This is an extra early variety; very productive, and always makes a good, thick, meaty pod. The pods are green, from six to eight inches long, and if gathered young are tender and stringless. Per pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., $\frac{1}{2}$ pt. 12c., pt. 20c., qt. 35c., postpaid. By express, not prepaid, 4 qts. 65c., pk. \$1.25.

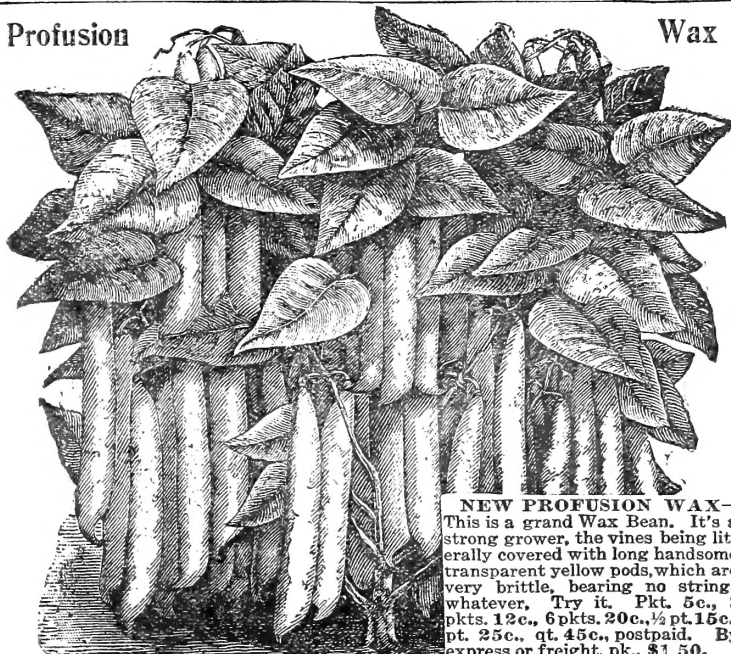

GIANT STRINGLESS WAX—This is a grand Wax Bush Bean and it produces an abundance of handsome pods of a rich golden yellow color, very early, plant grows upright and robust, producing an abundance of pods; quality is the very best and we can highly recommend it as a splendid Stringless Wax Bean. Pkt. 5c. 3 pkts. 42c., 6 pkts. 20c., $\frac{1}{2}$ pt. 15c., pt. 25c., qt. 45c. postpaid. By express not prepaid, 4 qts. 80c., pk. \$1.50.

CURRIE'S RUST PROOF WAX—We consider this the best Rust Proof Wax Bean in cultivation. It is very early. Plants are strong and robust, holding

their pods up well from the ground. Pods are always a beautiful golden color, about $\frac{5}{8}$ in. long. We can highly recommend this Rust proof wax Bean as just the thing to plant in any garden. Pkt. 5c. 3 pkts. 12c., 6 pkts. 18c., $\frac{1}{2}$ pt. 14c., pt. 24c., qt. 40c., postpaid. By ex., not prep'd 4 qts. 80c., pk. \$1.50.

Profusion

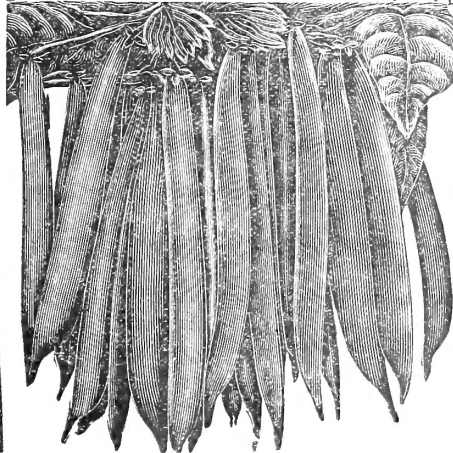

NEW PROFUSION WAX—This is a grand Wax Bean. It's a strong grower, the vines being literally covered with long handsome transparent yellow pods, which are very brittle, bearing no strings whatever. Try it. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., $\frac{1}{2}$ pt. 15c., pt. 25c., qt. 45c., postpaid. By express or freight, pk. \$1.50.

Wax

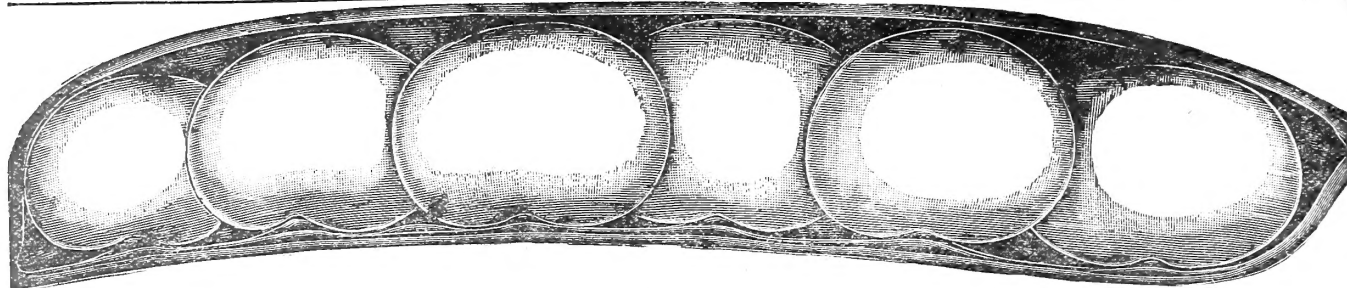

PROLIFIC BLACK WAX—The pods are yellow, very tender, 4 to 5 inches long, transparent and stringless. Pkt. 5c. 3 pkts. 12c., 6 pkts. 18c., $\frac{1}{2}$ pt. 14c., pt. 24c., qt. 38c., postpaid. By express or freight, not prepaid, 4 qts. 80c., pk. \$1.30.

IMPROVED GOLDEN WAX—Very early, pods are large, about five inches long, of a golden wax color, very tender and brittle. Pkt. 5c. 3 pkts. 12c., 6 pkts. 18c., $\frac{1}{2}$ pt. 14c., pt. 24c., qt. 35c., postpaid. By express not prepaid, 4 qts. 80c., pk. \$1.30.

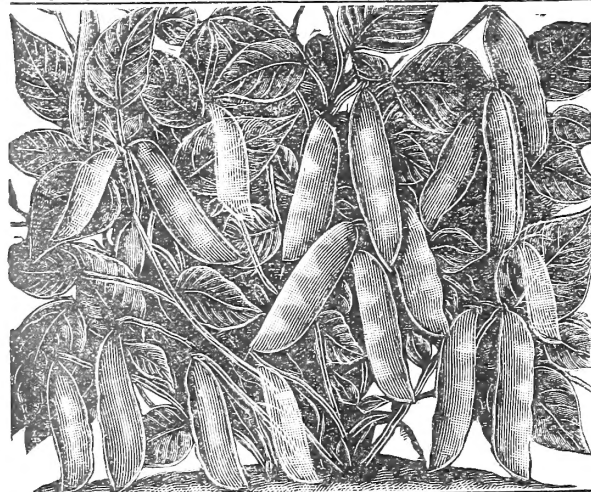

WONDER WAX—This is a real wonder. The plant is of sturdy growth and always laden with handsome wax pods produced in great

profusion of a bright lemon yellow color, of medium size, brittle, meaty and entirely stringless. It is a strong grower, holding its long, straight pods well above the ground and is entirely rust-proof. Pkt. 5c., 3 pkts. 12c., $\frac{1}{2}$ pt. 20c., pt. 30c., qt. 50c., postpaid. By express or freight, not prepaid, 4 qts. 85c., pk. \$1.60, $\frac{1}{2}$ bu. \$3.00.

Monstrous Pole Lima—This is a giant Pole Lima Bean and yet it is very early: a continuous bearer which makes it possible to pick beans throughout the whole summer and until frost in the fall. The pods are very large producing large sized beans as shown by the illustration. The pods are produced in clusters and contain from five to six large size, flat beans which are of the best quality. We consider this Lima the best Pole Variety we ever offered, and on account of its continuous bearing qualities a good crop may be depended upon in nearly any section of the country. We want our customers to grow this Lima Bean this year. Pkt. 6c. 3 pkts. 15c., 6 pkts. 25c., ½ pt. 30c., pt. 50c. postpaid.

FORDHOOK BUSH LIMA—This is the bean that has been so largely advertised and which created quite a sensation. It grows erect, branching freely and bears enormous crops and the beans are ready for use as early as those of Burpee's Bush Lima. The pods measure 4 to 5 inches in length, containing 4 to 5 beans each. It is a grand Lima Bean and we offer a choice crop of new seed. Pkt., 10c.; 3 pkts., 20c.; 6 pkts., 30c.; ½ pt., 25c., postpaid.

See illustration of plant.

NEW QUARTER CENTURY STRAIN BUSH LIMA.

KING OF THE GARDEN LIMA—This is a well known bean and produces large size pods and beans, which are of the best quality. This is unquestionably the best pole Lima Bean of today, except our new Monstrous which we offer this year. Pkt., 6c.; 3 pkts., 12c.; ½ pt., 15c.; pt., 25c.; qt., 40c., postpaid. By express or freight, not prepaid, 4 qts., \$1.15; pk., \$2.00.

This is a new strain of Bush Lima; it is claimed by the introducers to be the best they have ever had in their many year's experience as seed growers. This variety is similar to Burpee's Bush Lima, but it is claimed to be an improvement and we would advise our customers to give it a trial. Pkt., 6c.; 3 pkts., 15c.; ½ pt., 20c.; pt., 30c.; qt., 50c., postpaid.

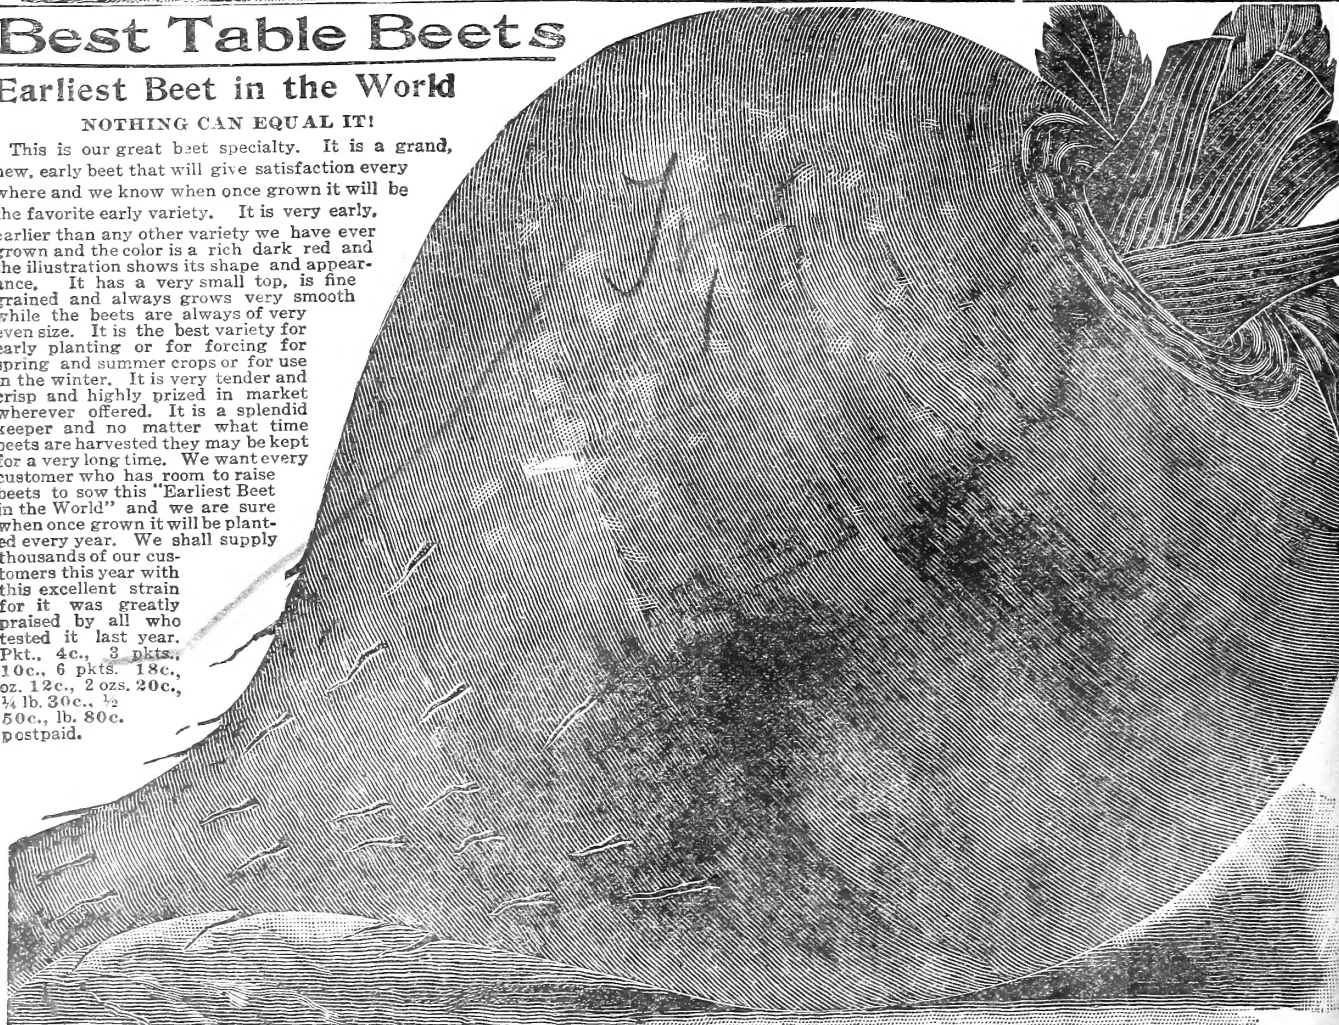

Best Table Beets

Earliest Beet in the World

NOTHING CAN EQUAL IT!

This is our great beet specialty. It is a grand, new, early beet that will give satisfaction every where and we know when once grown it will be the favorite early variety. It is very early, earlier than any other variety we have ever grown and the color is a rich dark red and the illustration shows its shape and appearance. It has a very small top, is fine grained and always grows very smooth while the beets are always of very even size. It is the best variety for early planting or for forcing for spring and summer crops or for use in the winter. It is very tender and crisp and highly prized in market wherever offered. It is a splendid keeper and no matter what time beets are harvested they may be kept for a very long time. We want every customer who has room to raise beets to sow this "Earliest Beet in the World" and we are sure when once grown it will be planted every year. We shall supply thousands of our customers this year with this excellent strain for it was greatly praised by all who tested it last year. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., oz. 12c., 2 ozs. 20c., ¼ lb. 30c., ½ lb. 50c., lb. 80c. postpaid.

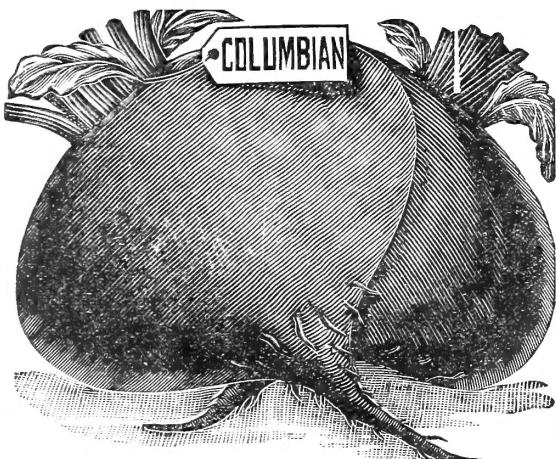

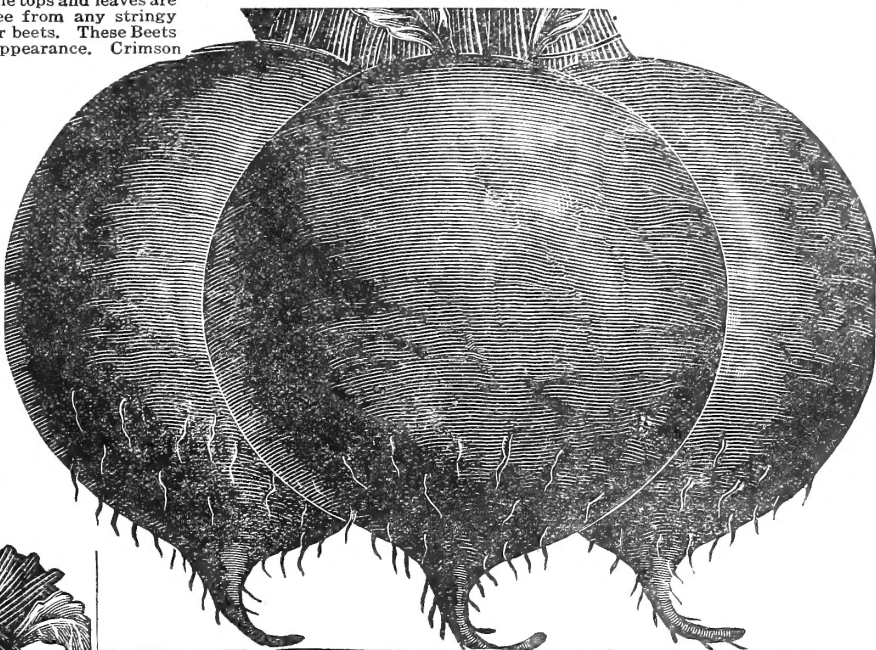

CRIMSON GLOBE BEET—This is a variety that is giving satisfaction wherever grown. It is tender, beautiful form with rich red flesh. The roots grow to medium size and handsome in shape. The tops and leaves are small and occupy but little room in growing. It is free from any stringy or woody substance that is quite frequent among other beets. These Beets sell readily anywhere on account of their attractive appearance. Crimson Globe is well known and is becoming a leading variety everywhere. Give it a trial. Pkt. 4c.; 3 pkts., 9c.; 6 pkts., 15c.; oz., 10c.; 2 ozs., 18c. ¼ lb. 30c.

EGYPTIAN BLOOD TURNIP BEET—This is a well-known Blood Turnip Beet, which has always been popular. It is early, flesh is dark red color, and in many sections is preferred to any other variety. We offer a carefully selected strain. Pkt. 4c., 3 pkts., 9c., 6 pkts., 15c., oz., 8c., ¼ lb., 16c., ½ lb., 28c., lb., 50c.

ECLIPSE BLOOD TURNIP BEET—The Eclipse is early and highly prized by many as one of the best table Beets. We have taken great pains in selecting seed stock which will produce Beets which are smooth, fine grain, tender and of deep red color. Pkt. 4c., 3 pkts., 9c., 6 pkts., 15c., oz., 8c., ¼ lb., 16c., ½ lb., 28c., lb., 50c.

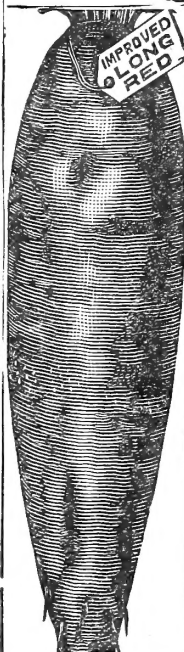

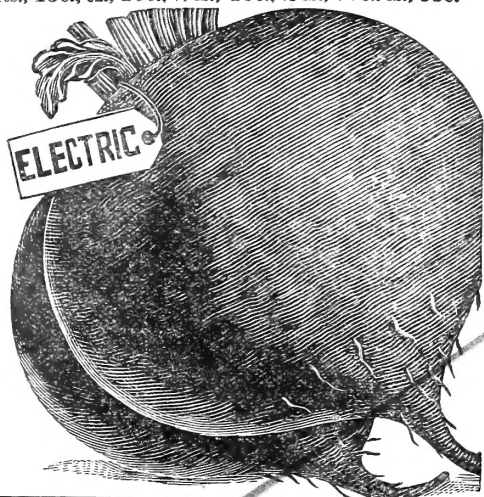

EDMUND'S EXTRA EARLY BLOOD TURNIP BEET—This variety has a short top; is round in form, very smooth, early and of good size for gardeners. The skin and flesh is a deep blood red and is considered an excellent garden Beet. Pkt., 4c., 3 pkts., 9c., 6 pkts., 15c., oz., 8c., ¼ lb., 16c., ½ lb., 28c., lb., 50c.

Crimson Globe Beet

THE COLUMBIAN—This Beet grows roots 3 to 4 inches in diameter which are ready for use almost as quickly as some of the earlier sorts and are much better quality than many of them. The flesh is deep blood red, tender and of rich flavor, and it retains its fine quality, until the roots have reached full growth. If seed is sown as late as July it will produce roots of good size before frost. Pkt., 4c., 3 pkts., 9c., 6 pkts., 15c., oz., 10c., ¼ lb., 22c., ½ lb., 30c., lb., 50c.

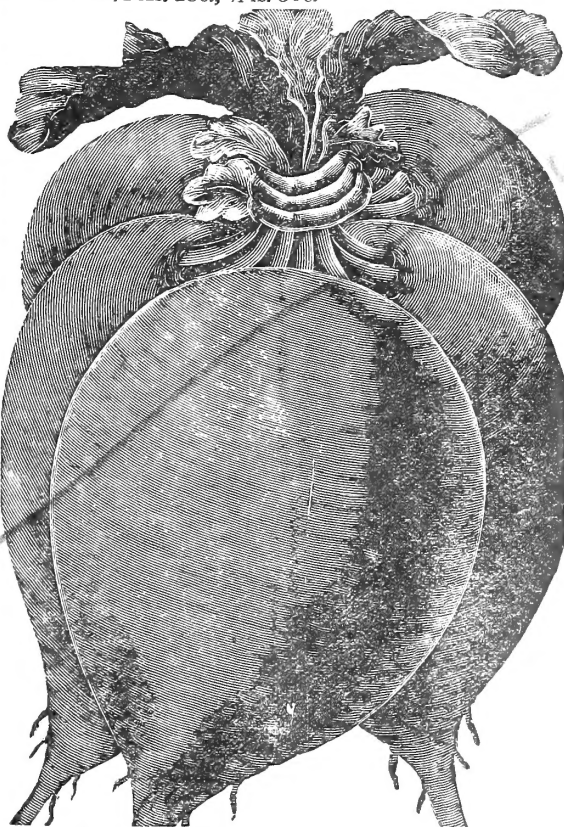

ELECTRIC BLOOD TURNIP BEET—The flesh of this handsome Beet is a rich red, very tender while in shape it is almost round and is remarkably early. The tap root is small, the leaves and top are small and grow very close to the ground. The flesh is free from fibre. It has rich and sweet flavor. We know all who grow this Beet will be pleased with it. Pkt., 4c., 3 pkts., 9c., 6 pkts., 15c., oz., 10c., ¼ lb., 18c., ½ lb., 30c., lb., 55c.

IMPROVED LONG RED BEET

—This variety is popular everywhere and is the best long red Beet grown. The tops are large, neck small, roots, stems and veins red, leaves dark green. The roots taper at both ends and grow nearly even with the surface. It keeps well throughout the winter and late in spring. Pkt. 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 8c., ¼ lb., 14c., ½ lb., 25c., lb., 40c.

MARKET GARDENERS' BEET—This is a great variety and we can highly recommend it to market gardeners. It grows very rapidly from the start, making a heavy root for autumn or winter use. One sowing early in the spring will produce early beets for market and a main crop for winter use, and the quality is first class at all periods of growth. It is an excellent keeper and highly recommended for winter use. The color is a beautiful dark red, and the quality is the very best. The Beets make a handsome appearance on account of very small roots and a small top. Pkt. 5c., 3 pkts., 12c., 6 pkts., 18c., oz., 10c., 2 ozs., 18c., ¼ lb., 30c.

Market Gardeners' Beet

Mixed Beets—This is as good a thing as can be sown in the garden; it is a special mixture made of all the best Table Beets and will give a supply from very early throughout the entire season. They can also be kept during the winter in the cellar and we know this mixture will give great satisfaction wherever sown. Try it. Packet, 4c.; 3 packets, 9c.; 6 packets, 15c.; oz., 8c.; 2 ozs., 15c.; 1-4 lb., 20c.; 1-2 lb., 30c., lb. 50c. postpaid.

THE JUMBO MANGEL

This is one of the very best Long Red Mangel Wurzels in cultivation. It is not coarse grained as many Mangels are, and it is not uncommon for specimens to grow to weigh from 40 to 60 pounds each. It is an excellent Mangel for stock feeding and on account of its great productiveness, producing from 50 to 60 tons to the acre, we can highly recommend it to farmers to grow for a heavy crop. Our seed stock is the very best. Pkt., 3c., oz. 7c., 2 ozs., 10c., ¼ lb. 12c., ½ lb. 20c., lb. 35c., postpaid. 5 lbs. (enough for 1 acre) \$1.50, postpaid.

Mammoth Prize Long Red Mangel

This is a very large Long Red Mangel, best suited for deep soil. Grows about ¾ out of the ground and quite frequently grows to weigh 30 to 40 pounds each. It is one of the very best for cattle and sheep feeding during winter, as it always produces roots of good size and quality. Pkt., 3c., oz. 7c., 2 ozs., 10c., ¼ lb. 12c., ½ lb. 20c., lb. 30c., postpaid.

Red Globe Mangel

This is the best Red Globe Mangel and is used for planting in shallow soil. It is easy to dig on account of having a short oblong shaped root; good for stock feeding and preferred by many. Pkt., 3c., oz. 7c., 2 ozs., 10c., ¼ lb. 12c., ½ lb. 20c., lb. 30c., postpaid.

Silver Giant Mangel

This is an excellent variety, producing a good size root of the best quality, rich and sugary. Pkt., 3c., oz. 7c., 2 ozs., 10c., ¼ lb. 12c., ½ lb. 20c., lb. 30c., postpaid.

Klein Wenzleben Sugar Beet

This is the best Sugar Beet to grow for stock feeding. It produces a good size root of the best quality and those who want a good Sugar Beet should order this one. Pkt., 3c., oz. 7c., 2 ozs., 10c., ¼ lb. 12c., ½ lb. 20c., lb. 30c., postpaid.

Imperial Sugar Beet

This is a popular and productive Sugar Beet, well known in many sections as a favorite for stock feeding. The quality is rich and sugary and the crop some times equals more than 30 tons per acre. Pkt., 3c., oz. 7c., 2 ozs., 10c., ¼ lb. 12c., ½ lb. 20c., lb. 30c., postpaid.

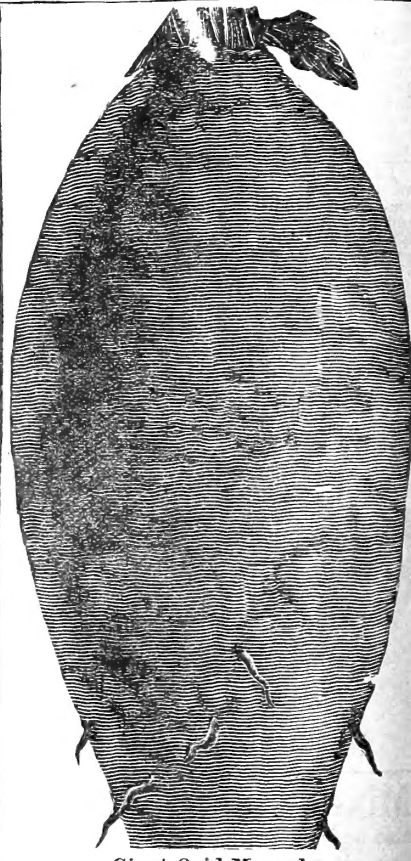

GOLDEN TANKARD MANGEL—This is the most desirable yellow variety, for it contains more sugar and less water than any other variety of this color. It is highly prized by the dairy farmers and we can recommend it as a fine Mangel. It matures quite early, earlier than many other sorts, is hardy, and under good cultivation will yield 40 to 50 tons per acre.

Pkt., 3c., oz. 7c., 2 ozs., 10c., ¼ lb. 12c., ½ lb. 20c., lb. 35c., 5 lbs., \$1.50, postpaid.

GIANT OVID MANGEL—This is a handsome mangel, growing nearly two-thirds above the ground and always producing large crops. Easily pulled on account of the way it grows. It does well in limestone soil. The skin is yellow and neck is small, while the leaves are medium in size, but few are produced. Owing to the demand for this Giant variety we have secured a good supply of the seed direct from headquarters and we are sure those who wish this giant variety can make no mistake in ordering it. Pkt., 3c., 3 pkts., 6c., oz. 7c., ¼ lb. 12c., ½ lb. 20c., lb. 30c., 5 lbs., \$1.40, postpaid.

MIXTURE MANGEL WURZELS AND SUGAR BEETS—All those who would like to grow a variety of Mangel Wurzel and Sugar Beets would do well in ordering a supply of this seed. We believe for feeding purposes nothing better could be sown. Our mixture contains all the leading Mangel Wurzels and Sugar Beets. We can supply seed at the following prices: Pkt., 3c., oz. 6c., ¼ lb. 10c., ½ lb. 18c., lb. 28c., postpaid.

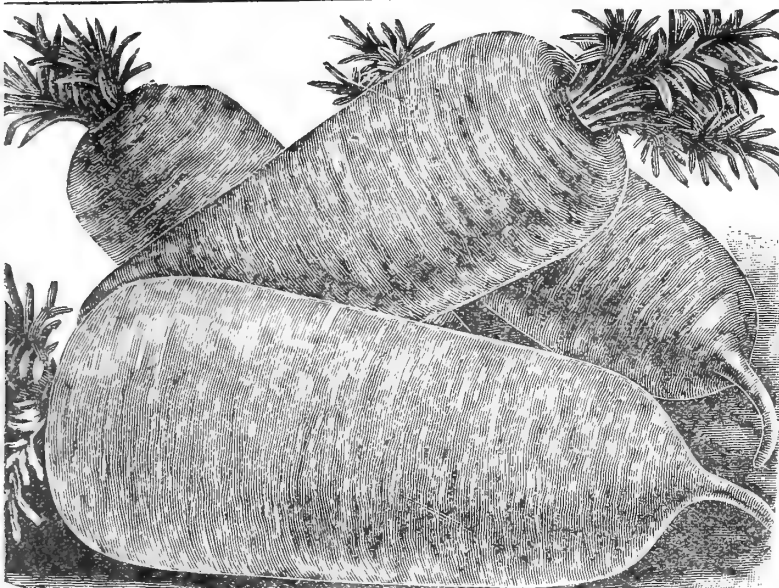

By express or freight, not prepaid, 5 lbs., sufficient for one acre, \$1.00.

Giant Ovid Mangel.

JUMBO

the Great
Jumbo Mangel

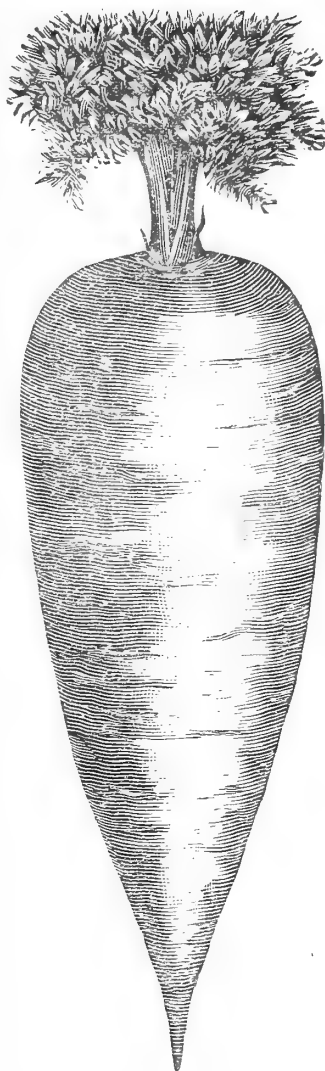

Golden Beauty Carrot

Carrots

GOLDEN BEAUTY

This is a half long stump rooted Carrot, of a deeper color than Danvers; is a heavy cropper and suitable for both table and stock. This Carrot grows a smooth handsome uniform root; free from core, sweet and tender, never becomes stringy. On account of the immense yielding qualities, this Carrot is desirable for market gardeners or any private garden and with ordinary care, it will yield from 30 to 40 tons per acre. We advise our customers to give it a trial. Pkt., 5c., 3 pkts., 10c., oz., 12c., 2 ozs., 20c. ¼ lb., 30c.

MASTODON—This is a very large and productive white Carrot. A great improvement on the Belgian sort. The flesh is pure white, crisp, and solid, very sweet in flavor roots of large size, very heavy at the shoulder and frequently measure 15 to 18 inches in length

Mastodon Carrot

DANVERS—This variety is well adapted to all soils and sections and will yield greater bulk with smallest length of roots of any Carrot grown. Roots smooth, of a dark orange color; very productive, medium length, tapering at points. Over 40 tons per acre have been grown and 25 to 30 tons is very common. Pkt., 4c., 3 pkts., 10c., oz., 8c., 2 ozs., 14c., ¼ lb., 24c.

IMPROVED LONG ORANGE—Will produce enormous crops and well adapted for light soil. Excellent for dairymen, roots large size, smooth, fine grain, excellent quality for table use. Pkt., 4c., 3 pkts., 10c., oz., 8c., 2 ozs., 14c., ¼ lb., 24c.

LARGE WHITE BELGIAN—This is a great Carrot for stock feeding. The roots grow to a large size and are more largely grown for stock feeding than any other sort. Pkt., 3c., 3 pkts., 6c., oz., 7c., 2 ozs., 12c., ¼ lb., 22c.

CARROT MIXTURE—For all those who would like to grow all the different varieties of Carrots we offer seed in one mixture, which includes all shapes, colors and sizes and well worth growing. Pkt., 3c., 3 pkts., 6c., oz., 7c., 2 ozs., 12c., ¼ lb. 22c., ½ lb., 40c.

Imp. Long Orange

Oxheart or Guerande

As shown by the illustration this Carrot is finely shaped, being intermediate in length, 3 to 5 inches in diameter and offer specimens measure 7 inches in diameter. The quality is fine excellent for home use. It can be pulled where other Carrots require digging

It is quite early and an excellent Carrot to grow Pkt., 4c.; 3 pkts., 10c.; oz., 8c.; 2 ozs., 14c.; ¼ lb., 25c.; ½ lb., 45c.

Oxheart or Guerande Carrot

MIXED GOURDS.

This is a wonderful collection of rare and curious Gourds. It contains all the different colors, shapes and sizes, and a packet of seed will produce a great collection of curiosities. We have added everything possible to make this the most odd collection of Gourds ever offered. Try some of the seed. Pkt., 6c., 3 pkts., 15c., 6 pkts., 25c.

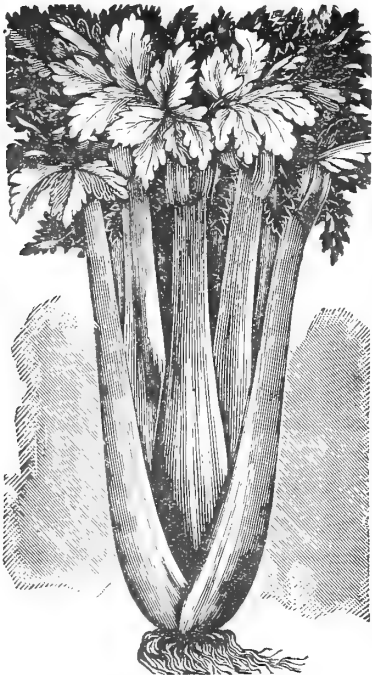

Pot, Sweet and Medicinal Herb Seed

Aromatic and medicinal Herbs of the ordinary kind may be easily grown in open ground. Sow in spring in shallow drills one foot apart. Those marked with a (*) are perennial and when once obtained in the garden may be preserved for years.

ANISE—Seeds aromatic.
***BALM**—Has medicinal qualities.
CORIANDER—Seeds aromatic.
***CARAWAY**—Seeds aromatic.
DILL—Seeds aromatic.
***HOREHOUND**—Medicinal qualities
***LAVENDER**—Very fragrant.
***ROSEMARY**—Very fragrant.
SUMMER SAVORY—For seasoning.
***SWEET FENNEL**—Seeds aromatic.
SWEET BASIL—Culinary Herb.
***SAGE**—Culinary Herb.
SWEET MARJORAM—For seasoning.
***THYME**—For seasoning.
***WORMWOOD**—Has medicinal qualities.

Pink Plume Celery.

CELERY

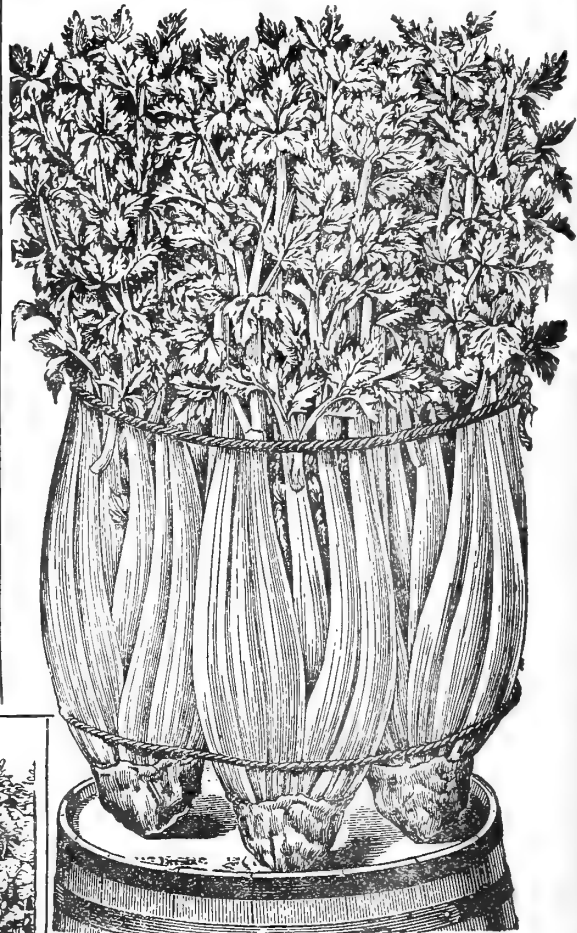

PINK PLUME—This is a splendid new variety: intermediate between the white and rose Celery and combines the good quality of both. Pink Plume is just about the same as the old White Plume, rich flavor, long keeping qualities, is a strong healthy grower; and it has no tendency to rust. Stems are solid and crisp and it is a good keeper. Pkt., 4c., 3 pkts., 10c., oz., 22c., 2 ozs., 40c.

GOLDEN SELF BLANCHING

—This variety cannot be too highly recommended. It is claimed to be the best Celery in cultivation, and also the most popular, the stalks always being perfectly solid. Its excellent flavor and the heart large and solid, and a rich golden yellow make it very desirable. Pkt., 4c., 3 pkts., 10c., oz., 22c., 2 ozs., 40c.

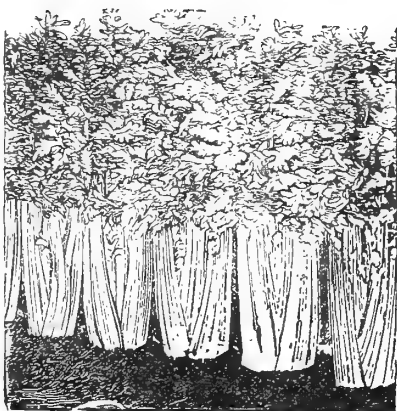

Golden Self Blanching Celery

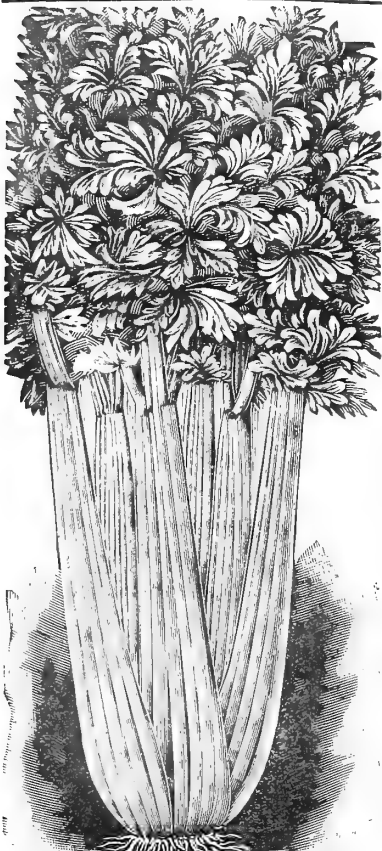

Giant Pascal Celery

WHITE PLUME—This is a well known variety and very popular everywhere. It is the earliest and most easily blanched. Plants grow rapidly and if seed is sown in April, are transplanted in July will be ready for use in October without banking up. We have a choice strain of this grand Celery. Pkt., 4c., 3 pkts., 8c., oz., 16c., 2 ozs., 30c.

LARGE RIBBED RED—This has all the good qualities of the Giant Pascal, while the ribs are thicker and much stiffer. It is exceedingly healthy, excellent quality, tender, good flavor and will keep well through the winter. Its handsome appearance makes it a very popular variety wherever grown. Pkt., 4c., 3 pkts., 10c., oz., 16c., 2 ozs., 30c.

WHITE PLUME

Large Ribbed Red Celery

GIANT PASCAL—The stalks of this variety are extremely large and entirely stringless. It is crisp and brittle. The heart is rich bright yellow, even after blanching. It is an excellent variety for shipping; does not rust or rot. It is a very satisfactory variety to grow in the south and we assure our customers will be much pleased with it. Pkt., 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 14c., 2 ozs., 25c.

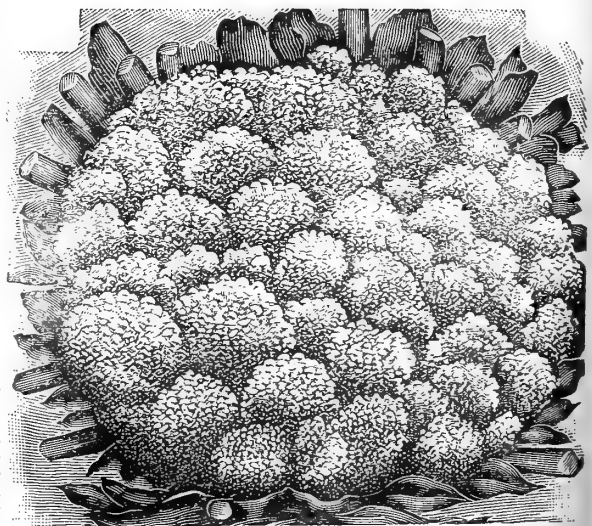

CELERY MIXTURE—For those who would like to grow a variety of choice Celery they will do well in ordering this mixture. It contains all the different varieties and is a fine selection. Pkt., 4c., 3 pkts., 8c., oz., 16c., 2 ozs., 30c.

CAULIFLOWER

EARLY FAVORITE—This excellent variety surpasses all others and will stand the heat and drouth of any climate the best of all and is the earliest and surest of any variety to head. For forcing it is particularly well adapted as a sort for the family and market gardeners. It is unquestionably the largest, as well as the best and market gardeners or others once sowing it will have no other. We can highly recommend it. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., ½ oz., \$1.00, oz., \$1.75.

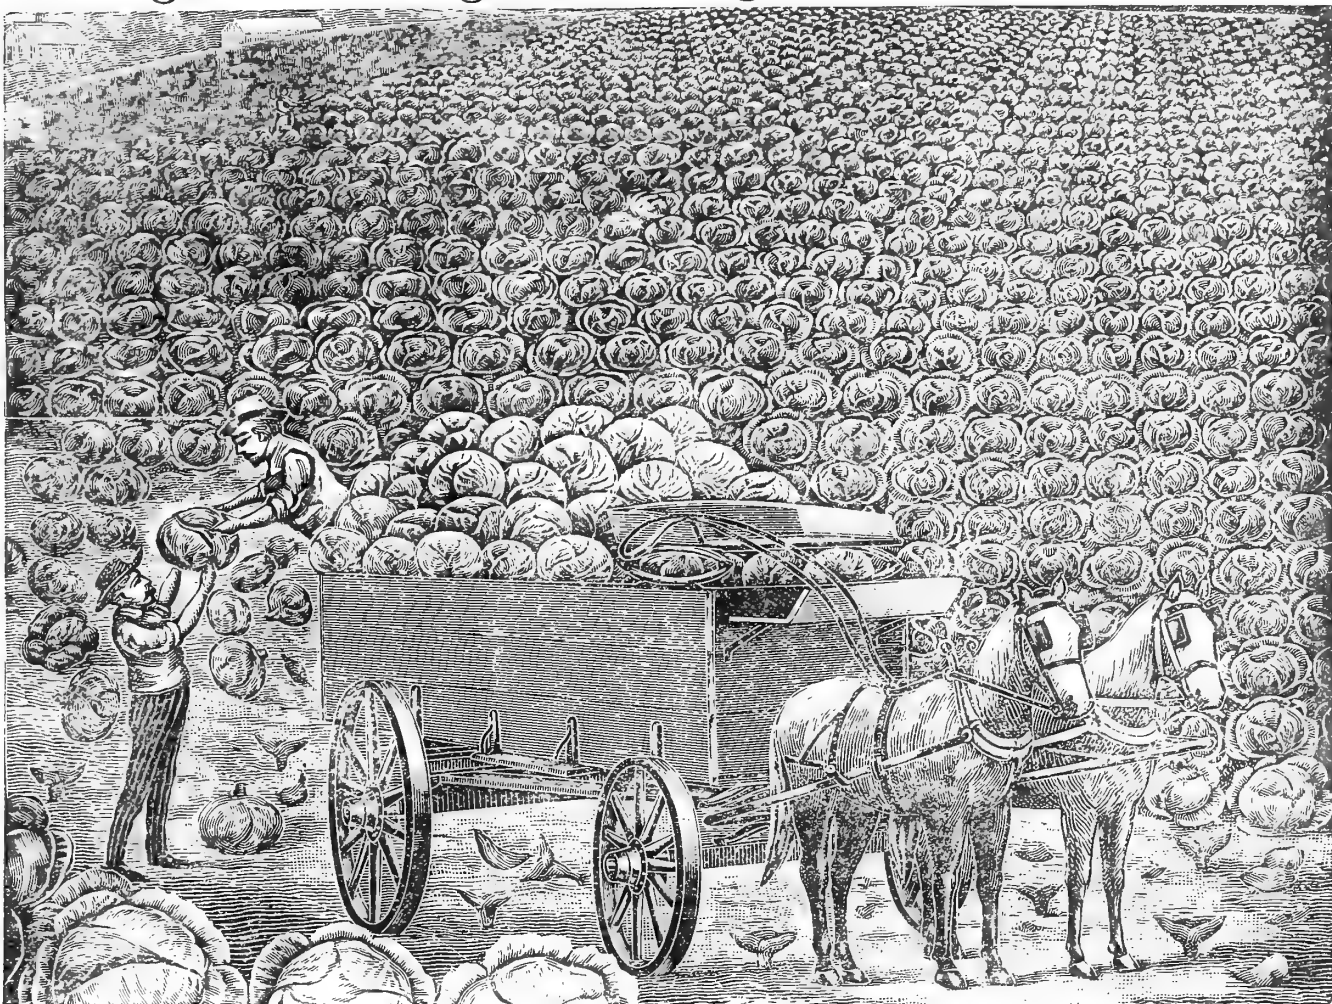

EARLY SNOWBALL—This is a well known variety and the seed is always high in price, it having been the great favorite for many years throughout the country. It is early, close growing, compact habit, and well adapted for forcing under glass during the winter and spring. We offer choice imported stock. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., ½ oz., \$1.15, oz., \$2.00.

EXTRA EARLY PARIS FORCING—This is a favorite variety and preferred by many on account of its being excellent for forcing; always producing good heads. It is equally as good for outdoor culture and the seed can be sold cheaper than any other variety of Cauliflower we offer. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., ½ oz., 30c., 1 oz., 50c.

Early Favorite Cauliflower

The Gigantic Cabbage==The Largest Cabbage of Them All

This Gigantic Cabbage is sure to please everyone. It is an enormous cropper and the above illustration gives only a fair idea of its cropping qualities. The heads are exceedingly large yet the grain is fine and crisp. It is one of the best keepers. The heads are often 3 to 4 feet in circumference weighing from 30 to 60 pounds each. Its small outer leaves enables it to be planted closer together than any other late sort and it is always sure to produce more per acre than any other variety. This Cabbage has stood all kinds of tests and will meet competition anywhere. You will surely want to plant this Cabbage if you are looking for a good late heavy cropping variety which will be sure to meet a ready market at the highest price. We do not believe any other Cabbage can produce such a heavy crop as The Gigantic. We secured this splendid Cabbage from Europe where the best Cabbages in the world originated. Try it this year.

Pkt., 5c.; 3 pkts., 14c.; 6 pkts., 25c.; oz., 16c.; 2 ozs., 30c.; 1-4 lb., 50c.

CABBAGE

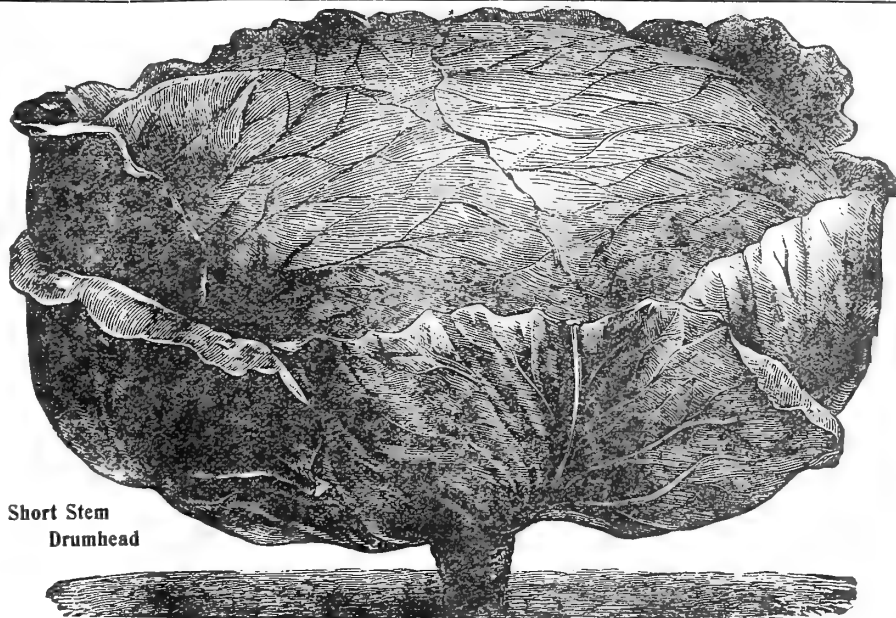

SHORT STEM DRUMHEAD

Here is a variety that is largely planted in many sections. Very few varieties can excel this famous sort for productiveness, excellent cooking and keeping qualities and large size of heads. They grow very uniform in size, are round and flattened on the top and present a handsome appearance. This variety always heads well; often where many other varieties fail and we highly recommend it, especially for customers in the south. Pkt., 4c., 3 pkt., 10c., 6 pkts., 18c. oz., 14c., 2 ozs., 25c., 1/4 lb., 45c., 1/2 lb., 85c., lb. \$1.60.

Our Celebrated Cabbage Mixture

If you want to sow some Cabbage seed in the spring which will produce heads very early and all through the summer and fall, you should order this seed. We have included the very earliest variety in existence, many novelties and all the large solid heading sorts. Those who do not care to keep varieties separate will find this mixture just what they want. Pkt., 4c., 3 pkts., 9c., oz., 12c., 2 ozs., 20c., 1/4 lb., 35c.

Short Stem
Drumhead

Have you read about the Giant Himalaya Berry? (See Back Cover.)

EARLY JUNE—This variety is what its name indicates and is the quickest growing Cabbage we have ever had. The heads are of good size, very solid and just the thing for market gardeners or the home garden; heading so early it always brings a high price in any market. Every plant is almost sure to make a perfect head. They can be planted close together and will yield a large crop, and all those who want the very best extra early Cabbage should not fail to order Early June. Pkt. 4c., 3 pkts. 10c., 7 pkts. 20c., ½ oz. 15c., oz. 25c., ¼ lb. 70c., ½ lb. \$1.25.

Early June Cabbage

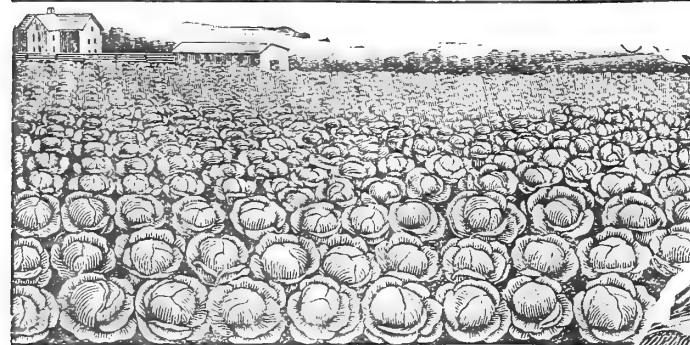

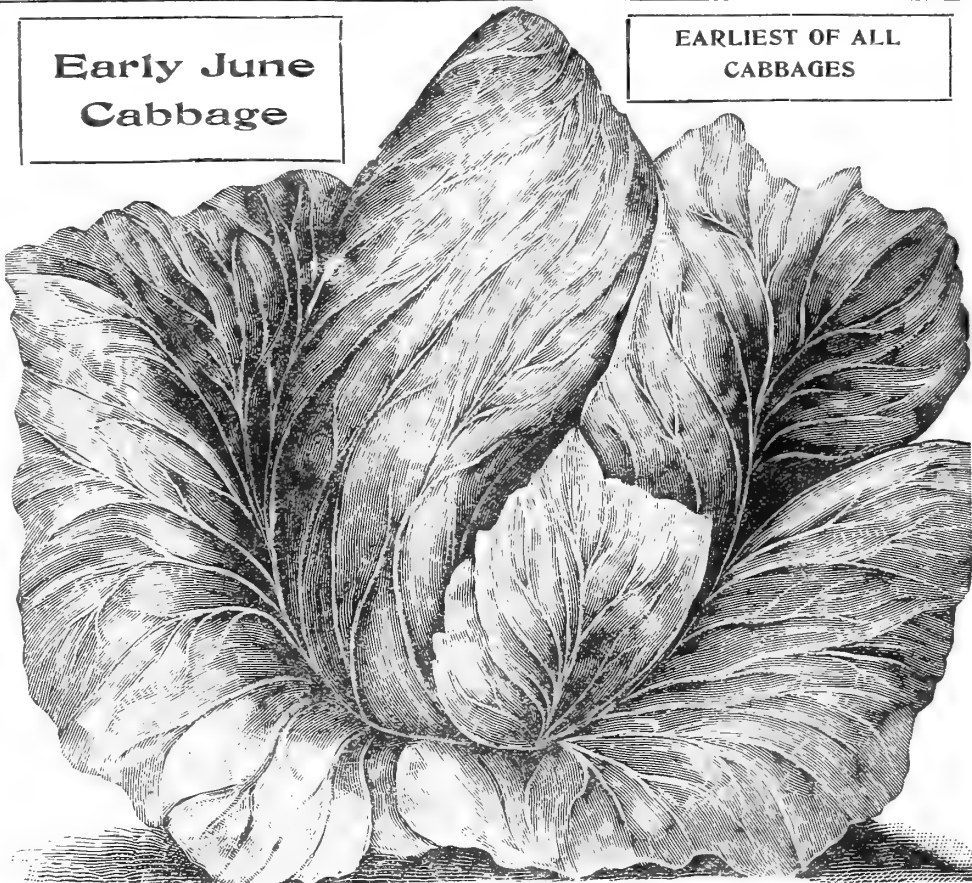

EARLIEST OF ALL
CABBAGES

EARLY WINNINGSTADT—This is a well-known variety, forming large cone-shaped heads, excellent quality. It is always sure to grow solid heads in seasons when other sorts fail. Pkt. 4c., 3 pkts. 10c., oz. 15c., 2 ozs. 28c., ¼ lb. 50c.

EARLY JERSEY WAKEFIELD—This is a well-known early Cabbage. It forms an unusually large head for so early a variety. It is almost as early as any of the other early sorts, and is sure to mature fine marketable heads in 100 days from planting. Our strain of seed is the best to be had. Pkt. 4c., 3 pkts. 10c., oz. 16c., 2 ozs. 30c., ¼ lb. 55c.

MAMMOTH ROCK RED—This is the best Red Cabbage known; heads of a deep red inside and out and almost as solid as a rock. For pickling purposes nothing can surpass this variety. It is planted by all leading market gardeners and always demands a ready sale. Pkt. 4c., 3 pkts. 10c., oz. 14c., 2 ozs. 26c., ¼ lb. 50c.

IMPROVED DANISH BALL-HEAD—This new Cabbage comes from Denmark, and is one of the very best to grow for market. The heads are hard, round, of good marketable size, fine grained, good keepers and have become wonderfully popular in many sections as a main crop Cabbage. Our stock is the very best to be had. Pkt. 4c., 3 pkts. 10c., oz. 20c., 2 ozs. 35c., ¼ lb. 65c., ½ lb. \$1.30, lb. \$2.50.

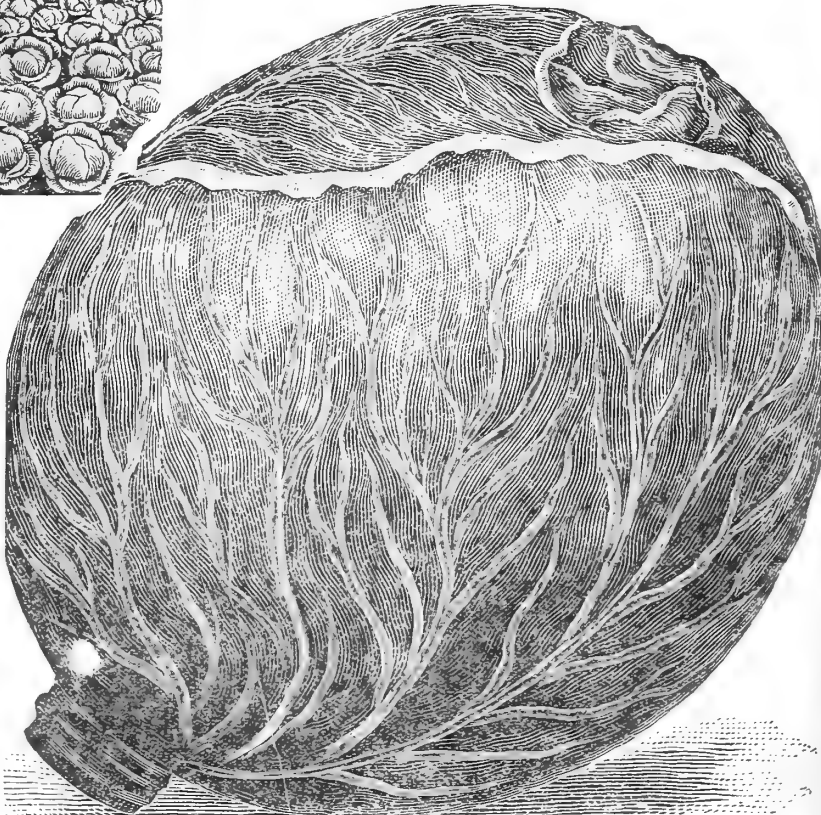

A Field of Early Spring Cabbage

THE LUPTON CABBAGE—This new Cabbage originated with Mr. Lupton, a well known Long Island Cabbage grower. It is a first-class cabbage, the stem is short, heads well and is not likely to crack. Quality is the very best and it is a long keeper. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 14c., 2 ozs. 25c., ¼ lb. 45c., ½ lb. 80c., ¾ lb. \$1.50.

ALL HEAD EARLY—This is truthfully the finest large flat head summer cabbage in the world. The deep, flat heads are remarkably solid and the most uniform in shape and size of any variety in cultivation. As tenderness is the result of rapid growth, it surpasses all others in this respect. It is the most thoroughbred of all American cabbages, and the heads grow so compact that fully 1,000 more heads can be obtained to the acre than any other cabbage. Price of extra selected stock, per pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 15c., 2 ozs. 26c., ¼ lb. 50c.

New Solid Head Cabbage

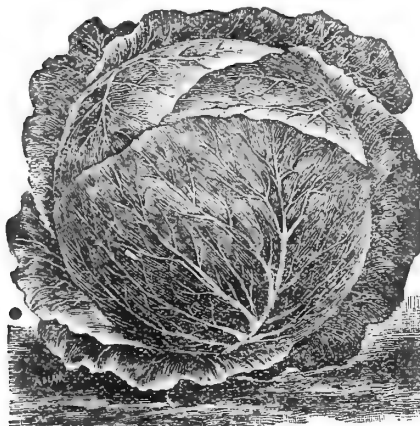

This is a grand new late Cabbage and all who have grown it are more than pleased with it. It is a late variety, but the heads are about as hard as Danish Ball Head. It grows very compact, as shown by the shape in the illustration. It certainly is a handsome Cabbage, on account of the heads being so round and deep, and it is not liable to crack. As to quality there is no better variety, there being no coarse ribs or stems to be found in a head. A very vigorous grower and will stand drouth to a remarkable degree. The heads grow so even and solid that they will average 10 to 12 pounds each through a whole crop. It is highly recommended for keeping qualities and is an excellent sort to grow for storing for spring markets. If there is only one variety of Cabbage you grow this season, be sure to try Solid Head. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 25c., 2 ozs. 45c., ¼ lb. 85c.

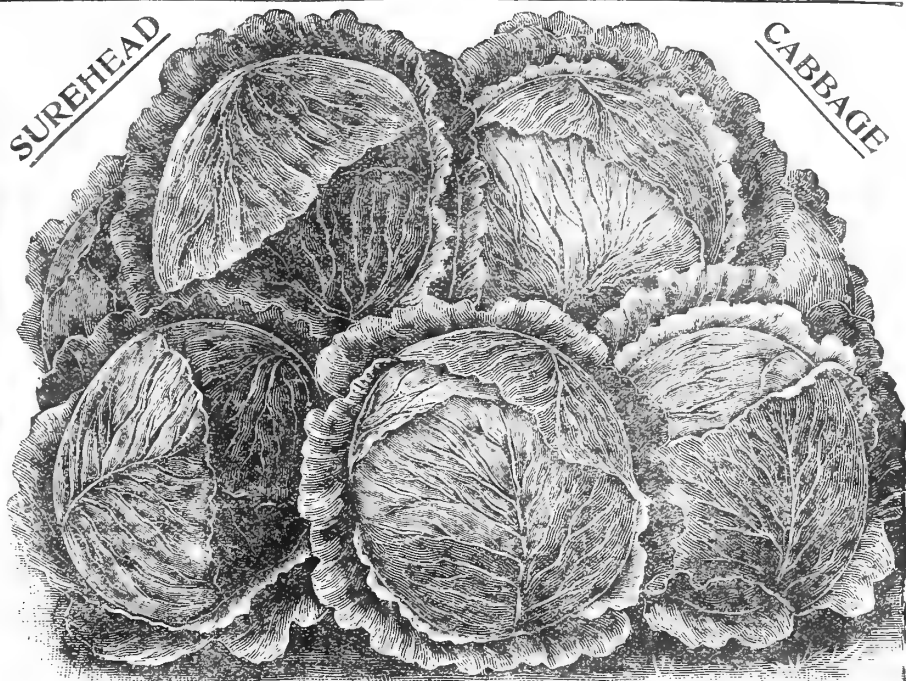

NEW SOLID HEAD CABBAGE

EARLY SPRING—This is the best extra early round flat head Cabbage. The heads are always uniform, remarkably solid, with few leaves, and always gives great satisfaction everywhere. The stem is short and the heads often attain a weight of 5 pounds, being very solid and firm.

Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 16c., 2 ozs. 30c., ¼ lb. 50c.

Giant Late Flat Dutch Cabbage

This is a splendid main crop variety. It always forms large solid heads, uniform in size and color, and handsome in appearance. It has a very short stem and usually 99 heads out of 100 plants set out will form large solid heads. Farmers and all others who want a late crop Cabbage should grow this one. It is a Cabbage which has weight and size, and no Flat Dutch variety can equal it. It is famous for solidity, extra fine grain, and its wonderful keeping qualities. Pkt. 4c., 3 pkts. 10c., oz. 14c., 2 ozs. 25c., ¼ lb. 40c., lb. \$1.50.

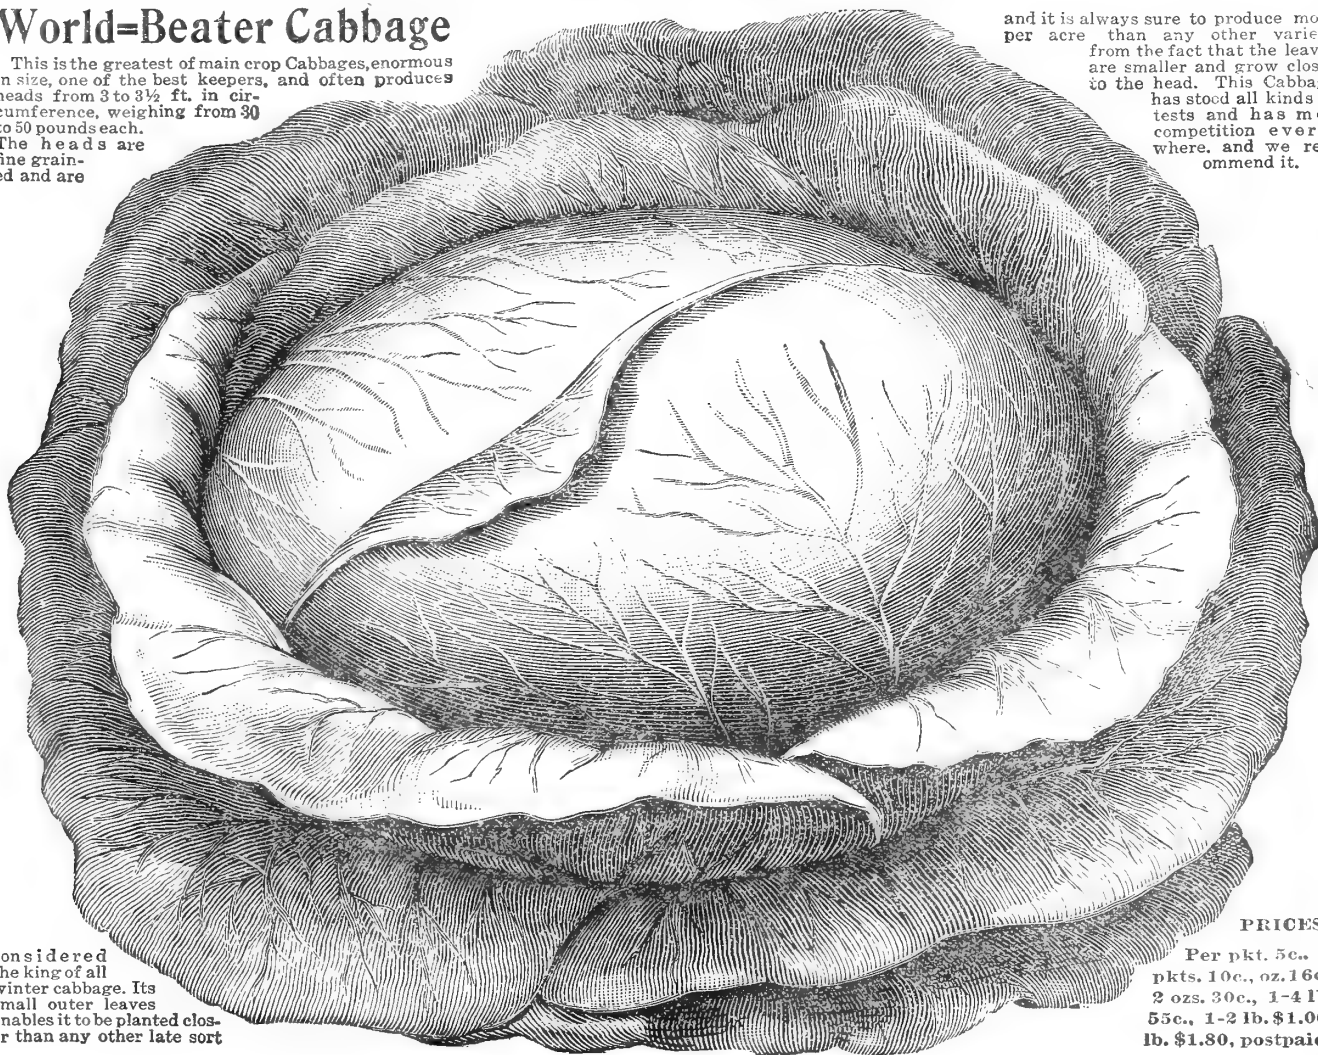

SUREHEAD**CABBAGE**

SUREHEAD CABBAGE—This is one of the surest heading varieties of cabbage ever offered. It produces large, solid, firm heads even in the most unfavorable seasons. Few other varieties can approach it in fine quality and uniform reliability, and forming solid heads of good size. It produces large, round, flattened heads and is always sure to head. No one can make a mistake in growing this variety; single heads have weighed over 50 pounds. The plants produce but very few outer leaves. It is the tenderest and one of the finest cabbages for its size, being entirely free from that coarse rib always found in late sorts. The superiority of this Cabbage is it never cracks on top or side of head but at stem end—and this rarely happens—thus it does not injure it for sale on the market. Pkt. 4c., 3 pkts. 10c., 6 pkts. 16c., oz. 14c., 2 ozs. 26c., ¼ lb. 50c., ½ lb. 90c., lb. \$1.75.

World=Beater Cabbage

This is the greatest of main crop Cabbages, enormous in size, one of the best keepers, and often produces heads from 3 to 3½ ft. in circumference, weighing from 30 to 50 pounds each. The heads are fine grain-ed and are

and it is always sure to produce more per acre than any other variety from the fact that the leaves are smaller and grow closer to the head. This Cabbage has stood all kinds of tests and has met competition everywhere, and we recommend it.

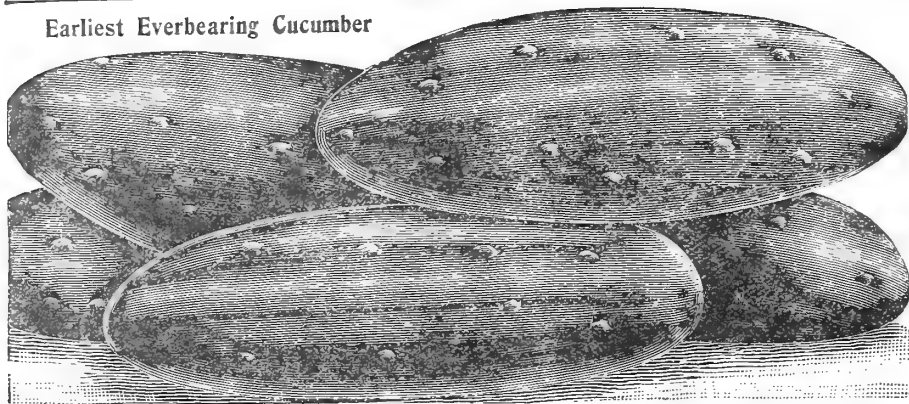

considered the king of all winter cabbage. Its small outer leaves enables it to be planted closer than any other late sort

Earliest Everbearing Cucumber

A splendid all around Cucumber for everybody. This is a grand new early everbearing Cucumber and is bound to become the most popular cucumber for growing outside or for forcing under glass. It is very handsome in color and the Cucumbers are just the right size to make them desirable for the table or for pickling. Another desirable point about this new Cucumber is that it is very solid, less seeds than any other sort and these seeds are small and tender when the fruits are large enough for slicing. In productiveness it is hard to equal; producing an abundance of handsome fruits closely set on strong vines. It is always tender, whether grown outside or in the hot house, and we believe our customers will say that it will beat anything they have ever grown. In sections where this Cucumber has been tested it has created a sensation and everyone is anxious to get seed of it. We are sure it will be a money-maker for anyone; we advise all to plant it this season. It is first to come and last to go; fruits all the time.

Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., oz., 15c., 2 oz., 25c.

Improved Long Green Cucumber

IMPROVED LONG GREEN—This is a well known variety, fruits grow from 12 to 16 inches long and everyone knows that this variety cannot be surpassed for pickling, and when ripe it is best for sweet pickles. The vines grow strong and the fruit is always produced in abundance, making it one of the most productive varieties in cultivation. We have the very best strain of this popular sort. Pkt., 5c., 3 pkts., 12c., oz., 10c., 2 ozs., 18c., ½ lb., 35c., ½ lb., 60c., lb., \$1.00.

Davis' Perfect Cucumber.

This is the great Cucumber that has been so largely advertised. It is claimed you can raise these Cucumbers in open ground and they will sell in any market at the same price as the high priced hot house forcing cucumbers. It is predicted that it is bound to become the most popular both for forcing under glass and for growing outside, of any cucumber ever offered. On account of its splendid shape, handsome color, splendid eating qualities and being almost seedless one-third of its length from the stem end, and the seeds very small, together with its enormous productiveness, it takes the lead of any thing we have ever known. It does not change its dark rich color when grown out doors but resembles a hot-house cucumber so closely dealers cannot tell the difference. A few of these Cucumbers growing in any garden will surely give great satisfaction. Pkt., 4c.; 6 pkts., 10c.; 6 pkts., 18c.; oz., 12c., 2 ozs., 20c., ½ lb., 30c., ½ lb., 50c.

ITALIAN CUCUMBER

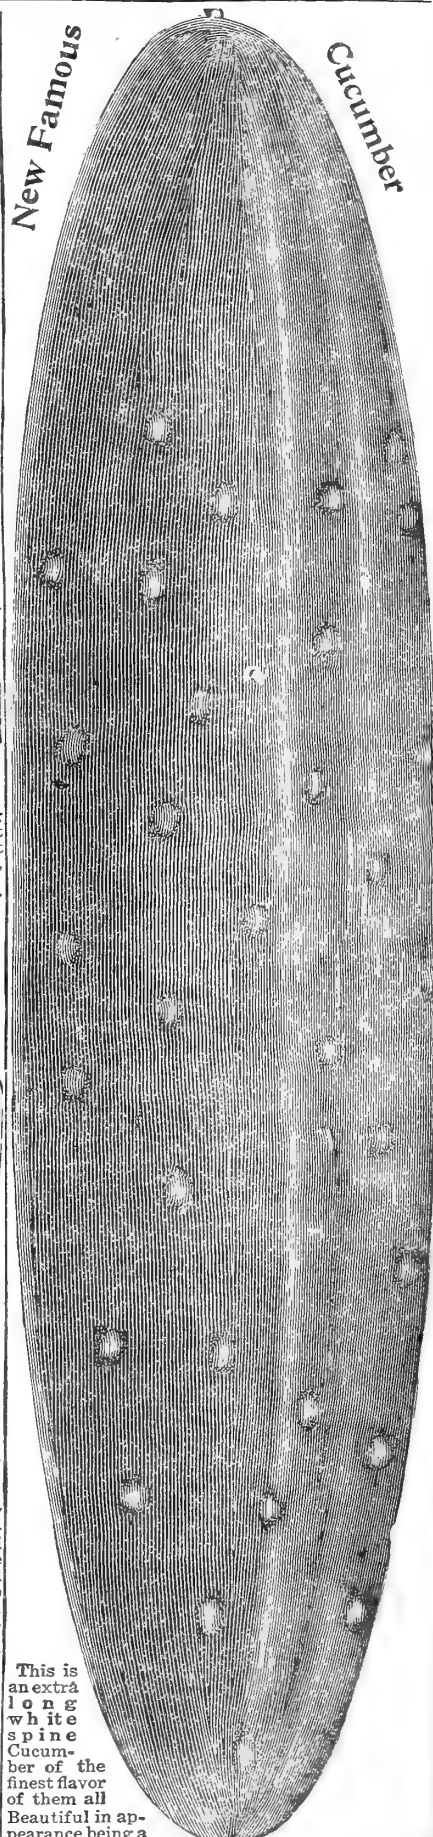

This is a very early variety and when young is very similar to the "Telegraph" and equals it in flavor. It is quite a large grower and highly recommended to use when very young. It is an excellent cucumber for the table.

being of a dark green color and always of good flavor. This is the favorite among Italians and we believe

This is an extra long white spine Cucumber of the finest flavor of them all. Beautiful in appearance being a long green. The vines produce an enormous crop! have large, thick, heavy leaves; fruit grows 10 to 16 inches long. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.; oz., 12c.; 2 ozs., 20c.; ½ lb., 30c.; ½ lb., 50c.

New Famous

Cucumber

KLONDIKE CUCUMBER

KLONDIKE ONE OF OUR BEST

This is a very handsome variety of an attractive dark green color of the White Spine type. When it attains suitable size for market it averages from 6 to 7 inches in length, and is of such attractive appearance, it is greatly appreciated by market gardeners and shippers. It is very early, excellent quality, firm and good for pickling when small. After you grow this Cucumber you will say you never had a better one.

We cannot recommend this splendid Cucumber too highly. Try it in your garden this year.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 55c., lb. \$1.00.

EARLIEST WHITE SPINE

This is a Cucumber we cannot praise too highly. It is unequalled as a table and market sort and it is also excellent for pickling. It is very productive and good for forcing under glass, as well as growing in the garden. The fruit grows from 5 to 7 inches long and is produced in great abundance on strong vines. The color of the fruit is a light green. It is just the Cucumber to plant very early in the garden for home use. Pkt., 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 10c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 55c., lb. \$1.00.

Japanese Climbing Cucumber

This variety came from Japan and is a first-class Cucumber. Young plants grow very bushy but as soon as they become established begin to climb and may be grown on trellises, fences or poles making it quite a curiosity. The vines cling so tightly that they are not prostrated by heavy storms of wind or rain. They grow very fast, beginning to produce fruit early and continue throughout the season. The fruit grows to a good size for home use and produce but very few seeds. Our stock seed came direct from Japan. Pkt., 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 15c., 2 ozs. 25c.

A SPLENDID CUCUMBER MIXTURE—Here is one of the finest mixtures ever offered in the Cucumber line. We have endeavored to put all the leading novelties in this mixture.

We do not hesitate to say that a packet of this planted in the garden will give the best collection of Cucumbers that can be bought in the country. Do not fail to try it. Pkt., 4c., 3 pkts. 8c., oz. 9c., 2 ozs. 16c., ¼ lb. 30c.

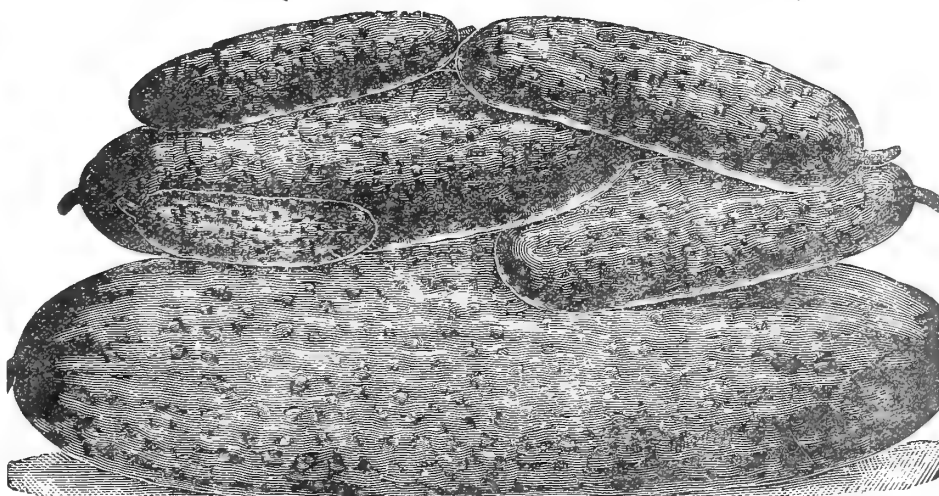

THORBURN'S EARLY EVERBEARING—A splendid early variety, fruits continually until killed by frost. They are perfect in form and of a fine green color. Pkt., 4c., 3 pkts. 8c., oz. 9c., 2 ozs. 16c., ¼ lb. 30c.

NICHOLS' MEDIUM GREEN—This variety is unsurpassed in pickling sorts and greatly praised as an early market variety. The skin is light green in color, very smooth and of fine quality. A packet or two planted in your garden will give great satisfaction. Pkt. 4c., 3 pkts. 8c., oz. 9c., 2 ozs. 16c., ¼ lb. 30c.

LEMON CUCUMBER—The Lemon Cucumber is nearly round, the skin is smooth with yellow and green markings. The fruit grows from 2½ to 3 inches in diameter, flesh is tender and has a flavor surpassing all other cucumbers. It is excellent for pickling, either green or ripe. For table use they should be used just as the fruit is turning yellow. It is a real novelty and we are sure, after once tested, that it will be planted every season, for the quality and productiveness are sure to please everyone. Per pkt., 6c., 3 pkts. 15c.

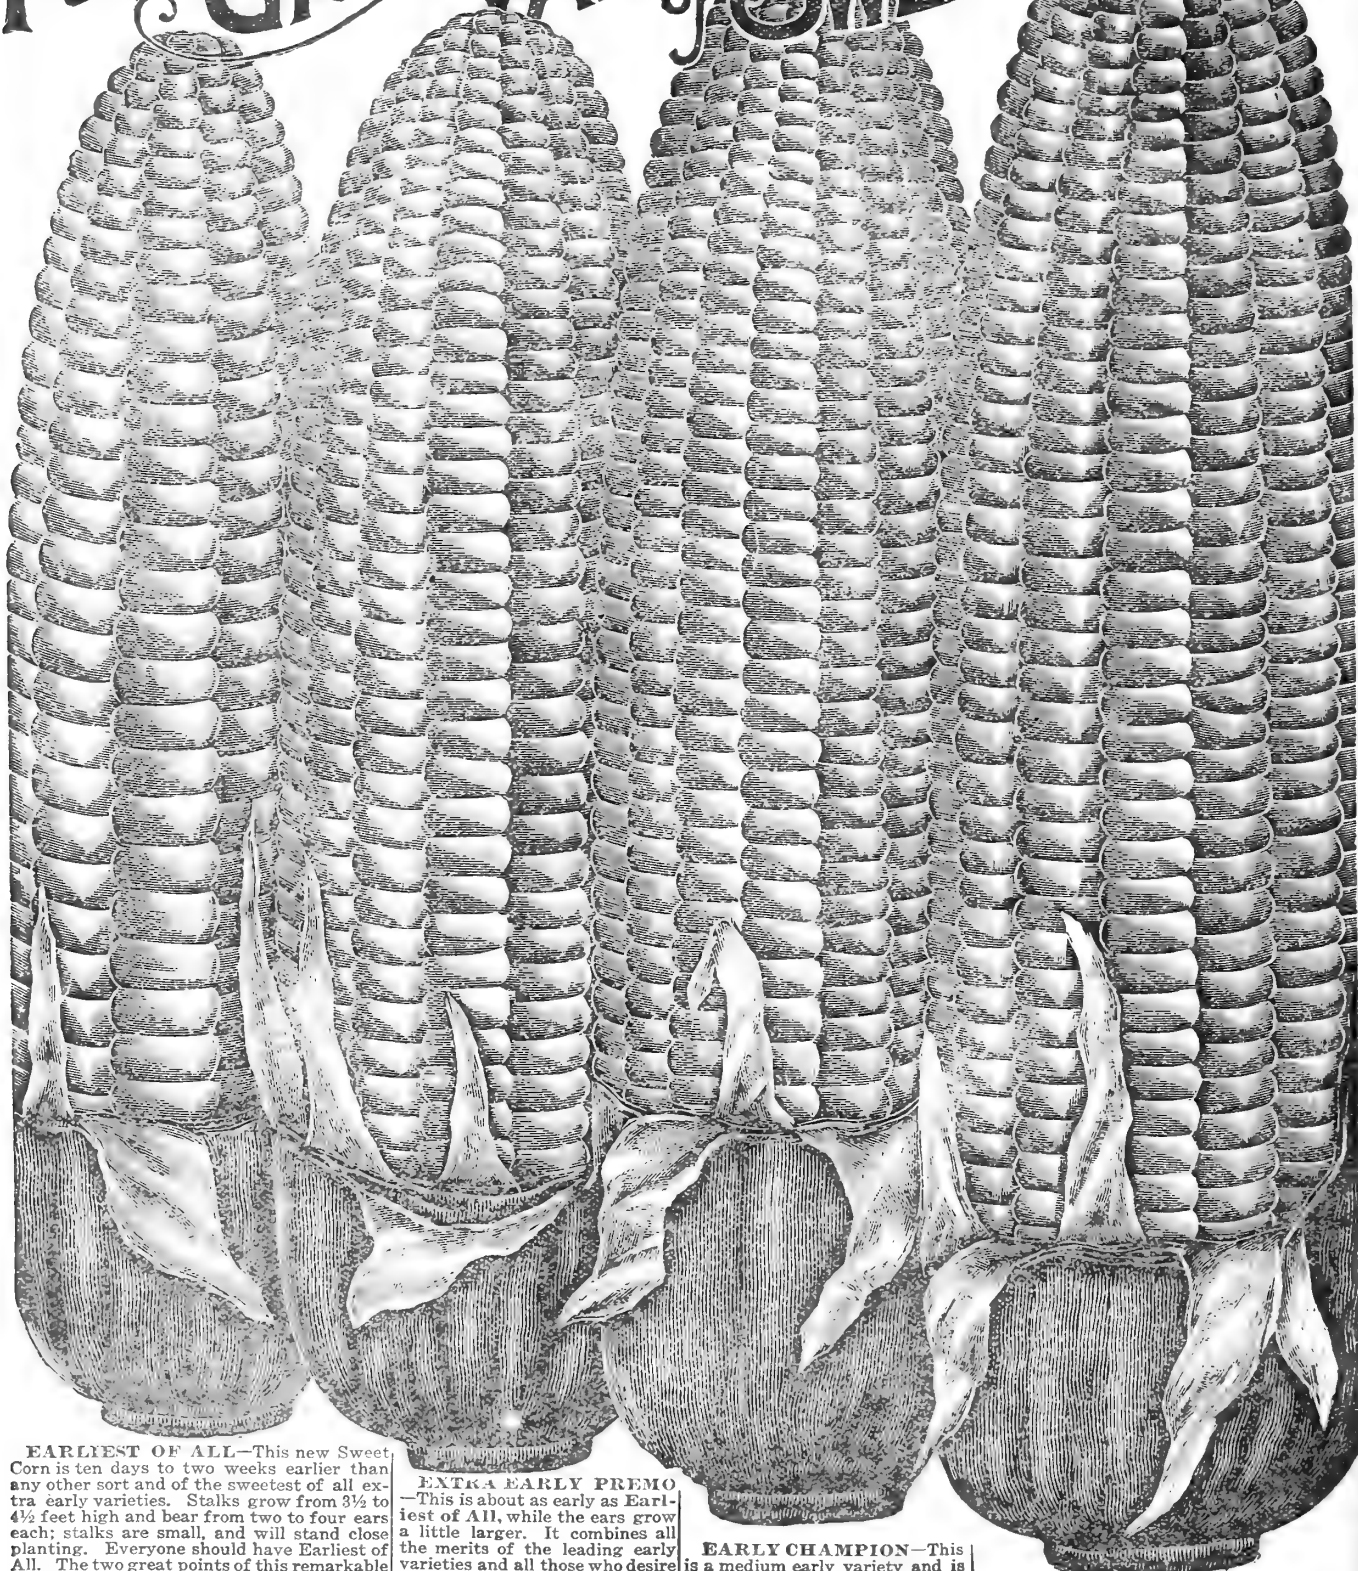

GREEN PROLIFIC OR BOSTON PICKLING—This is an excellent variety for pickling, dark green in color and immensely productive. It bears an abundance of fruit just the size for pickles, and of the best flavor. We can highly recommend this variety. Pkt., 4c., 3 pkts. 8c., 6 pkts. 15c., oz. 9c., 2 ozs. 16c., ¼ lb. 30c.

CUMBERLAND PICKLING CUCUMBER

This is a very desirable variety for pickling. The vines are of strong growth and they fruit very freely. The illustration, carefully engraved from specimens grown on our trial grounds, gives a good idea of the appearance. The young cucumbers are thickly set with small spines and are very attractive for either large or small pickles. The fruits average when fully grown from nine to ten inches in length and from two to three inches in diameter. It is a good variety for slicing as well as pickling, but we highly recommend it as a desirable variety especially for pickling, and we advise our customers to give this variety a trial this year. Pkt., 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 12c., 2 ozs. 20c., ¼ lb. 35c., ½ lb. 60c., lb. \$1.00.

FOUR GREAT VARIETIES of SWEET CORN

EARLIEST OF ALL—This new Sweet Corn is ten days to two weeks earlier than any other sort and of the sweetest of all extra early varieties. Stalks grow from $3\frac{1}{2}$ to $4\frac{1}{2}$ feet high and bear from two to four ears each; stalks are small, and will stand close planting. Everyone should have Earliest of All. The two great points of this remarkable Corn we wish to call particular attention are Extraordinary EARLINESS and unparalleled SWEETNESS, surpassing in this particular any other early or late variety. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., $\frac{1}{2}$ pt., 14c., pt., 25c.

SPECIAL OFFER—The above four varieties of Sweet Corn will make a fine collection for any garden, and a continuous supply can be had from very early until late in the season, and we will send one packet of each four varieties for only 15c., or 3 packets of each of the four varieties, 12 packets in all, for 40c., postpaid.

EXTRA EARLY PREMO

—This is about as early as Earliest of All, while the ears grow a little larger. It combines all the merits of the leading early varieties and all those who desire an extra early Sweet Corn, producing good size ears should plant Premo. The stalks grow about five feet high and are very vigorous, producing two to three ears on a stalk. Pkt. 5c., 3 pkts., 12c., 6 pkts., 20c., $\frac{1}{2}$ pt., 14c., pt., 25c.

EARLY CHAMPION—This is a medium early variety and is becoming very popular on account of producing such large ears so very early. It is valuable for market and home purposes and is the best medium early variety to plant. Pkt. 5c., 3 pkts., 12c., 6 pkts., 20c., $\frac{1}{2}$ pt., 14c., pt., 25c.

NEW WHITE EVERGREEN—This is a high bred pure white type of the popular Stowell's Evergreen. Stalks grow vigorous produce large ears uniform in size, well filled with kernels. Market gardeners and all who desire an extra good late Sweet Corn should grow White Evergreen. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., $\frac{1}{2}$ pt., 14c., pt., 25c.

4TH OF JULY SWEET CORN

This is a new Corn we have been very fortunate in securing a limited supply of and we believe that it will be found about as early as Earliest of All, while the ears are a little larger in size, making it more valuable in this respect. We are very much pleased with it and know that our customers will grow it every year when once planted. The stalks grow about four feet high and bear two to four ears to a stalk, these ears always being of good size, well filled with large kernels. For an early Sweet Corn of large size, which will be ready for the table by July 4th, this is the one you should plant. Pkt., 6c., 3 pkts., 15c., 6 pkts., 25c., $\frac{1}{2}$ pt., 18c., pt., 30c., postpaid.

THE GIANT SWEET CORN

This is the largest of all Sweet Corn and those who have grown it say that it is the best Sweet Corn grown. Those who want a variety producing ears of immense size which are at the same time excellent flavor should plant "The Giant." The stalks grow strong and stand up well against storms. The ears are frequently a foot or more in length well formed, and very handsome. It is a fine table variety and we do not believe there is a better late sort on the market to-day. Pkt. 5c., 3 pkts., 12c., 6 pkts., 20c., $\frac{1}{2}$ pt., 15c., pt., 25c., postpaid.

Stowell's Improved Evergreen

This is a well known variety and is more largely planted by private families and market gardeners than any other sort. We have the very best stock of Stowell's Improved Evergreen on the market and can supply seed at the following prices: Pkt., 5c., 3 pkts., 10c., $\frac{1}{2}$ pt., 12c., pt., 20c., qt., 35c., postpaid. By express or freight, not prepaid, peck, \$1.00.

POP CORN

Golden Tom Thumb.

Mapledale Prolific

This is one of the greatest yielding sorts to be found among Pop Corn. Stalks grow about five feet high and it is claimed that as many as 12 ears have been produced on a single stalk. Its popping qualities are excellent, always pure white and of good flavor. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c.

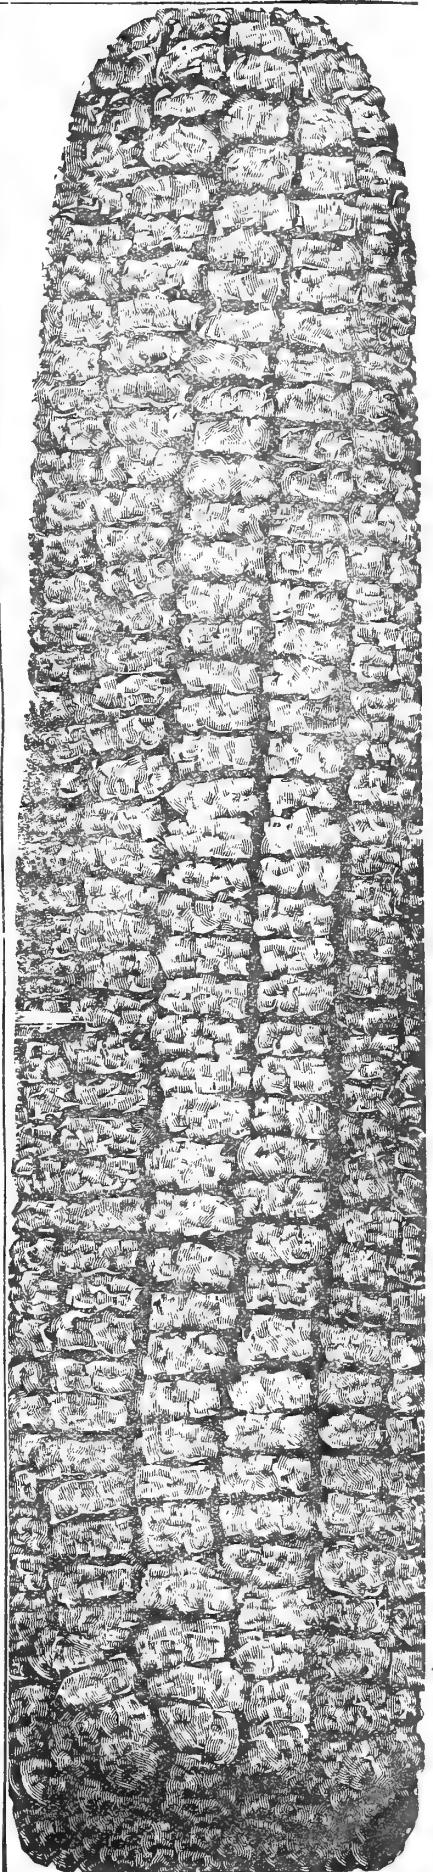

Golden Tom Thumb

This is the smallest growing Pop Corn, as it grows only about 18 inches high, but always produces from 2 to 4 perfect ears to a stalk. Each ear being from 2 to 2 $\frac{1}{2}$ inches long with kernels of a bright golden yellow which when popped expand to a large size. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., 12 pkts., 35c.

White Rice

This is a well known variety and the leading sort in market. We offer choice stock. Pkt., 5c., 3 pkts., 10c., $\frac{1}{2}$ pt., 14c., pt., 25c.

RED RICE—Just like White Rice except in color. Same price.

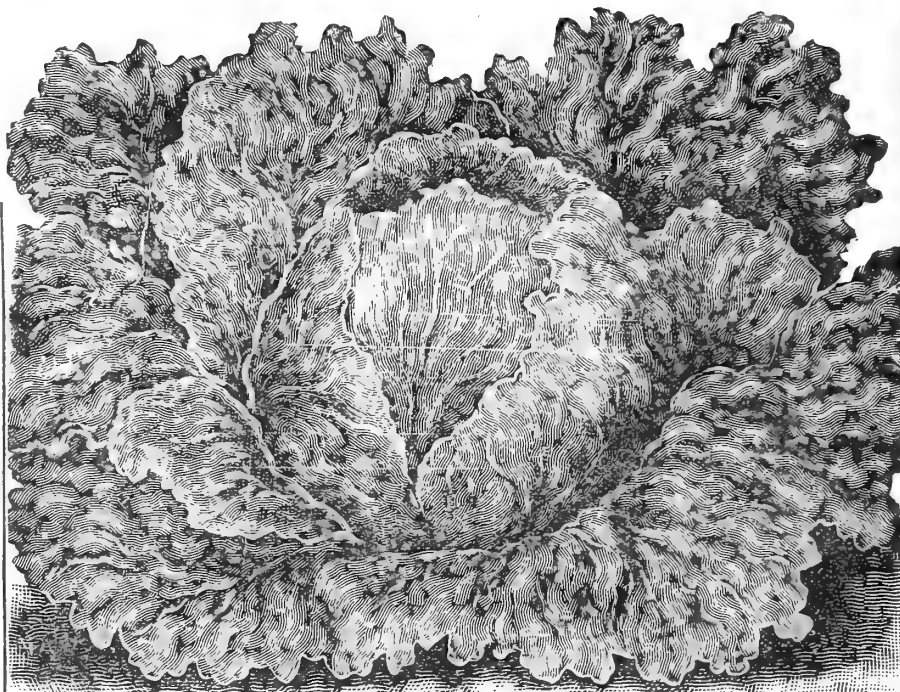

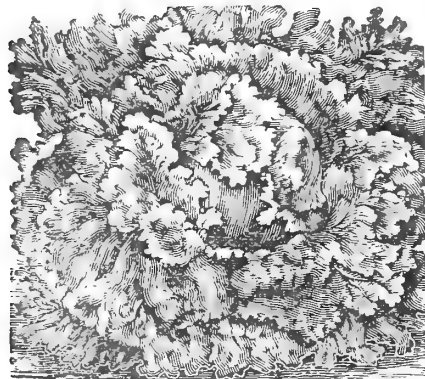

THE GIANT SWEET CORN

WONDERFUL LETTUCE

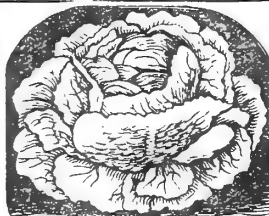

The Wonderful Lettuce is without any exception the very largest in cultivation. It will surprise every one on account of its growing so very large. It is always tender, crisp and sweet. It produces large heads, often nearly three feet in circumference and a foot in diameter. It is very slow to run to seed and is an excellent sort for a late crop and we advise our customers to give it a trial. Pkt. 5c.; 3 pkts., 12c.; 6 pkts., 22c.; oz., 10c.; 2 ozs., 18c.

BLACK SEEDED SIMPSON—This is a standard sort of large size and the very best quality; good for forcing under glass, or for spring and summer culture in the open air. It is a non-heading sort; resists heat and remains long before running to seed. Pkt., 4c.; 3 pkts., 8c.; oz., 10c.; 2 ozs., 16c.; ¼ lb., 30c.

WONDERFUL LETTUCE

EARLY SPRING Grand Early Sort—This is without doubt the very earliest lettuce, is handsome in appearance, excellent flavor and is the very best early variety to grow. It is a lettuce that can be grown in hot beds or open garden at almost any season. It is a most valuable variety. It is good in the north, south, east or west. It invariably gives both grower and user the greatest satisfaction. The plants produce a handsome appearance, and we have taken particular pains in selecting our seed stock from plants that stand long before going to seed. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.; oz., 10c.; 2 ozs., 15c.

Golden Ball Lettuce

GOLDEN

BALL—The heads are fine golden color, is early and slow to run to seed. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 15c.; oz., 10c.; 2 ozs., 15c.; ¼ lb., 25c.

NEW ICEBERG—This is a very quick growing variety, producing a large handsome head of fine flavor. The color is light green, leaves curly, produces a very hard head and is one of the best heading sorts. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 15c.; oz., 10c.; 2 ozs., 15c.; ¼ lb., 25c.

THE COS LETTUCE

This variety could easily be called Celery Lettuce. The engraving, made from photo, shows its long, narrow spoon-shaped leaves, most all of which form into a rather loose loaf-shaped head. Its shape makes it a very convenient head for packing or serving, and is becoming to be highly regarded as it keeps sweet and crisp during the hot months and is very slow to run to seed. If the outer leaves are tied up, this lettuce will form into a solid head and bleach snow white. On account of its compact habit of growth, the plants can be set as close as 6 to 8 inches. Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.; oz., 12c.; 2 ozs., 20c.

The Cos Lettuce.

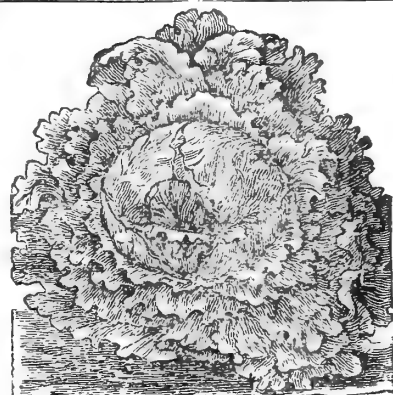

Grand Rapids Lettuce

GRAND RAPIDS—For a leaf lettuce the Grand Rapids stands ahead of all others for winter forcing in the greenhouse. It is the best in its class for market gardeners as it will keep longer from wilting than any other variety. Its habit admits of very close planting in greenhouses or open ground and we believe is the best leaf lettuce for outdoor planting. Our stock runs unusually even and true to type. Pkt., 4c.; 3 pkts., 9c.; 6 pkts., 15c.; oz., 10c.; 2 ozs., 15c.

LETTUCE MIXTURE—One sowing produces supply for the season. This mixture contains all the best varieties, maturing early, medium and late; some curled and crimped, others produce heads. Colors range from pure white through delicate shades of green, yellow to a rich golden. We are sure this Mixture will please all. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 15c.; oz., 10c.; 2 ozs., 15c.

Do not fail to try several of our choice varieties of Lettuce

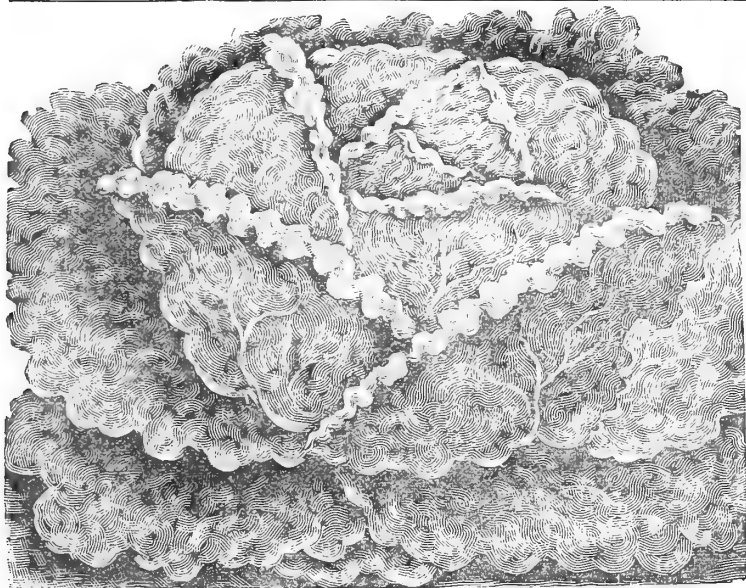

IMPROVED HANSON

This is a perfect lettuce for the table. It resists heat and drouth well, very slow to run to seed. It is hardy and may be grown very early in the spring or late in the fall. Has a sweet and rich flavor, and always produces fine heads, which are always in great demand. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 15c.; oz., 10c.; 2 ozs., 15c.; ¼ lb., 25c.

TOMHANNOCK LETTUCE

TOMHANNOCK—Grows quickly, leaves grow upright and are handsomely wrinkled. Pkt., 4c.; 3 pkts., 9c.; 6 pkts., 16c.; oz., 10c.; 2 ozs., 15c.; ¼ lb., 25c.

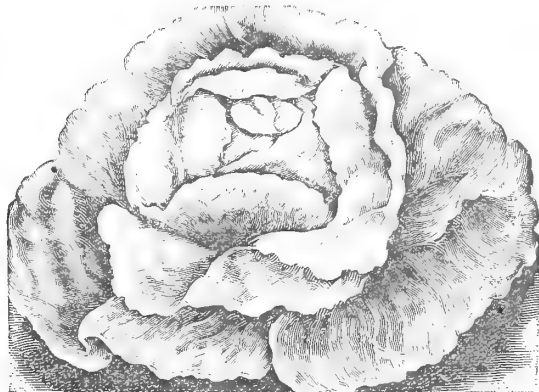

NEW YORK LETTUCE

the Southern gardener for early shipment North, and equally valuable in the North being the earliest of all. Very popular everywhere as it gives satisfaction wherever grown; for forcing in greenhouses during winter, in frames for early spring, or in open ground in summer and fall. Heads large, compact tender and crisp. Our seed of this popular Lettuce was carefully grown and is the best stock to be had. Pkt., 4c.; 3 pkts., 9c.; 6 pkts., 16c.; oz., 10c.; 2 ozs., 15c.

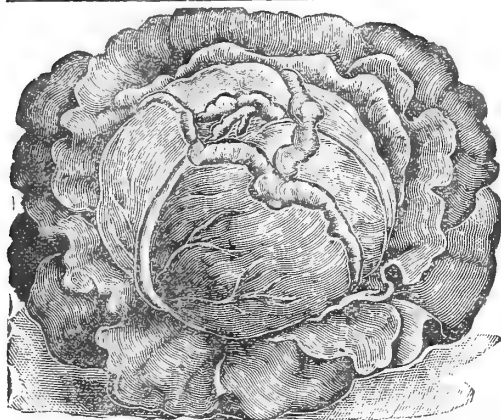

NEW YORK LETTUCE

It is claimed this is the king of all main crop head lettuce, forms immense heads as solid as a cabbage, often 15 inches across. Quality is excellent, heads being creamy-white inside and free from bitterness. It is slow to run to seed, and sure header under all conditions. It is a large growing variety, resisting dry hot weather, and we recommend it as a standard garden variety. Pkt., 4c.; 3 pkts., 9c.; 6 pkts., 16c.; oz., 10c.; 2 ozs., 15c.

BIG BOSTON LETTUCE

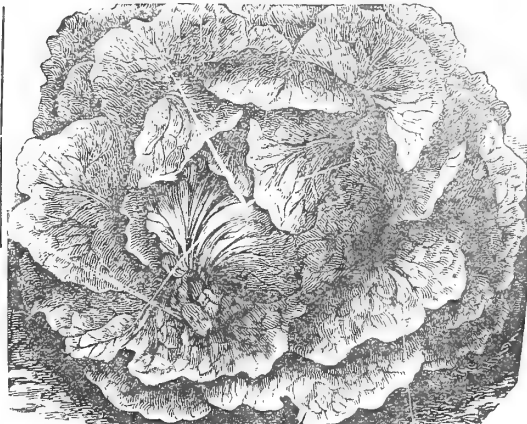

The best Mammoth Cabbage Lettuce known. Valuable for

MAY KING LETTUCE

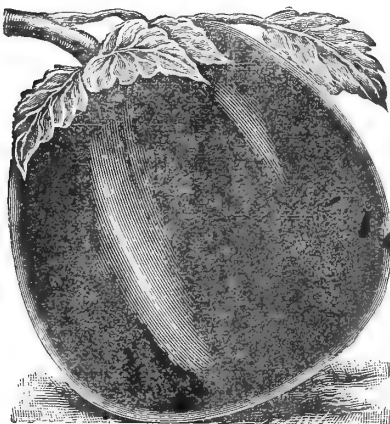

MAY KING—This new and highly recommended variety for early planting in open ground is very hardy and quick growing lettuce. Plants measure 6 to 7 inches in diameter. Outer leaves are light green slightly tinged with brown. Inner leaves are bright yellow imparting a rich effect. Heads often weigh a pound. Be sure to try it. Pkt., 4c.; 3 pkts., 9c.; oz., 10c.; 2 ozs., 15c.

EARLY PRIZE HEAD—This variety is well adapted for forcing, as well as open air culture, being very hardy. It forms a large head of superior flavor, tender and crisp. It is very slow to run to seed. It is a well known sort and largely grown. Pkt., 4c.; 3 pkts., 9c.; 6 pkts., 15c.; oz., 10c.; 2 ozs., 15c.; ¼ lb., 25c.

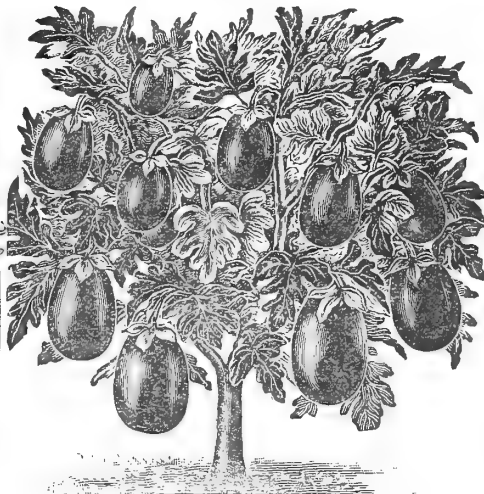

EARLY PRIZE HEAD LETTUCE

BLACK BEAUTY EGG PLANT

This is one of the earliest and best of all large fruited Egg Plants. It grows fully as large, and is ready for use about two weeks earlier than the New York Improved Purple. The skin is a rich purple-black, and is a real beauty. Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

NEW TREE EGG PLANT

The bush grows tall and stocky, branching freely, holding its fruit up well from the ground. The fruit is a beautiful dark purple color, fine size, extra early, bearing for a long season and keeps well. The quality is the best and considering all points we think this is a wonderful Egg Plant. It is the best shipper of all the Egg Plants grown. We secured our seed direct from headquarters and paid a fancy price to get selected seed stock to offer our customers. Every one interested in Egg Plants will surely want to grow this splendid novelty this year. Be sure and try it. Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.; ½ oz., 30c.; oz., 50c.

NEW YORK IMPROVED LARGE PURPLE—Skin deep purple; free from thorns; flesh white; is quite productive. Per pkt., 5c.; 3 pkts., 10c.; ½ oz., 20c.; oz., 30c.

BLACK PEKIN—Almost round and of large size, skin jet black, glossy and smooth; flesh white, solid and fine grained; medium early. Per pkt., 5c.; 3 pkts., 10c.; ½ oz., 15c.; oz., 25c.

COLLARDS

GEORGIA COLLARDS—Known as Cole or Colewort; originated in the South. Grown South for greens. Pkt., 5c.; oz., 10c.; ¼ lb., 30c.; ½ lb., 50c.

MUSTARD

BLACK—Per pkt., 5c.; oz., 10c.; lb., 40c.
WHITE—Very best, mild and is exceedingly tender. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 40c.

Endive

GREEN CURLED—This is a very hardy variety has dark green leaves, always blanch white and crisp. Per pkt., 5c.; oz., 15c.; ¼ lb., 35c.; ½ lb., 55c.

BROAD LEAVED BATAVIAN—Produces large heads of broad wide leaves, used for flavoring soups, and if blanch the leaves make a good salad. Per pkt., 5c.; oz., 15c.; ¼ lb., 30c.; ½ lb., 55c.

WHITE VELVET OKRA (or Gumbo)

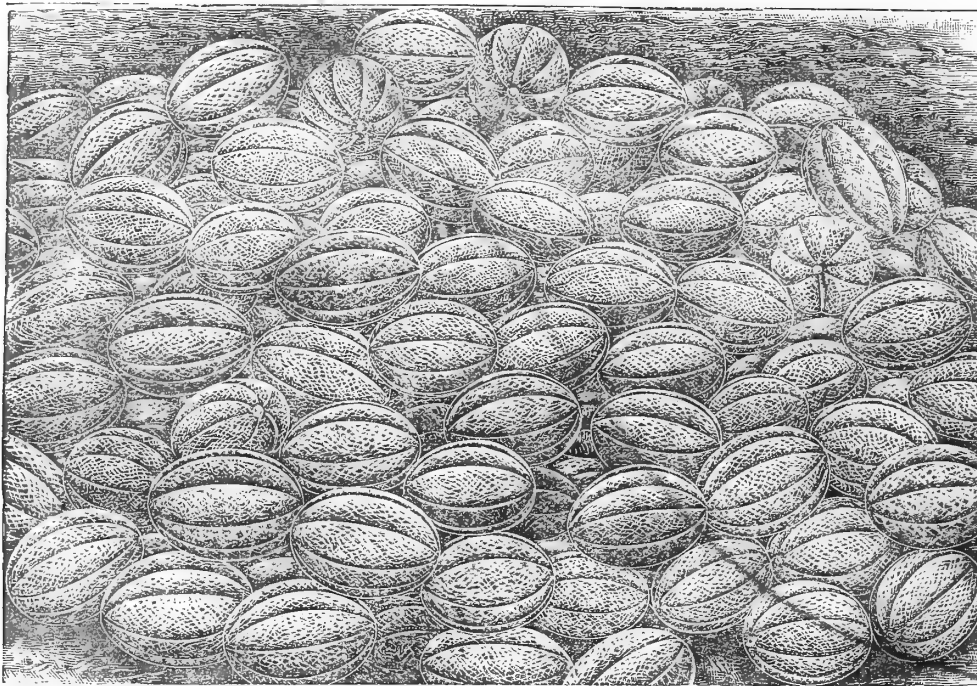

Never prickly and always round and smooth, while other varieties are either ridged or square edged. Out-yields other varieties. Per pkt., 5c.; 3 pkts., 9c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 40c.; lb., 75c.

Kohl-Rabi or Turnip Rooted Cabbage

EARLY PURPLE VIENNA—It is largely grown for table use in Germany. Per pkt., 5c.; oz., 20c.; ¼ lb., 60c.; ½ lb., \$1.00; lb., \$1.80.

EARLY WHITE VIENNA—Best for table use. Per pkt., 5c.; oz., 15c.; ¼ lb., 45c.; ½ lb., 80c.; lb., \$1.50.

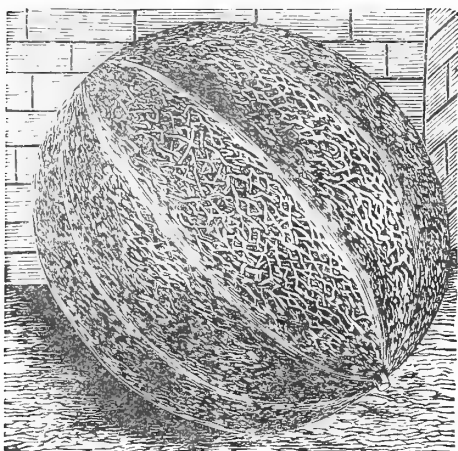

PINK MEAT CANTALOUPE

OUR NEW CANTALOUPE

"PINK MEAT"—We have offered a great many varieties of Cantaloupes during the past few years, but we have never had one that we think will equal this grand new sort, "Pink Meat." The originator, who is a large melon grower in Colorado, when first calling our attention to this new variety, at the same time sent us a sample crate, in order that we might not only test the quality, but note the extra shipping qualities. These melons were received in the very best condition after being shipped such a long distance and we must admit that the quality was superior to any Cantaloupe we have ever tested. It is a cross between the Rockyford and Emerald Gem and the variety has been carefully grown for the past four years and the entire crop comes true in flavor and netting each year. It has been found to be the best shipping melon grown by the originators and they guarantee their stock to come true every time. The flesh of this new melon is a pink or orange color; seed cavity is very small and the flesh is solid, of the best quality and very close to the rind. The rind is very tough, yet thin, well arched ribs covered with laced and interlaced grey netting. Taking all points into consideration we are sure our customers will say, this is the grandest Cantaloupe ever grown. By all means give it a trial this year.

Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.; oz., 15c., 2 ozs., 25c.

Montreal Market Musk Melon

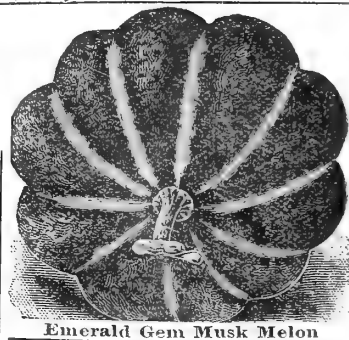

EMERALD GEM—This is one of the very best Musk Melons. Skin is smooth, emerald green in color and the fruit is of a very attractive size, as will be seen by the engraving. Vines grow thrifty and produce an abundance of fruit. The quality is the very best. A Melon worthy of a place in any garden. Pkt., 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 10c., 2 ozs., 18c., ¼ lb., 30c.

MONTREAL MARKET—This is the largest round Musk Melon grown. Will weigh from 30 to 40 pounds each, slightly ribbed, ripens quite early and keeps well. Pkt., 4c., 3 pkts., 8c., oz., 9c., 2 ozs., 15c., ¼ lb., 25c.

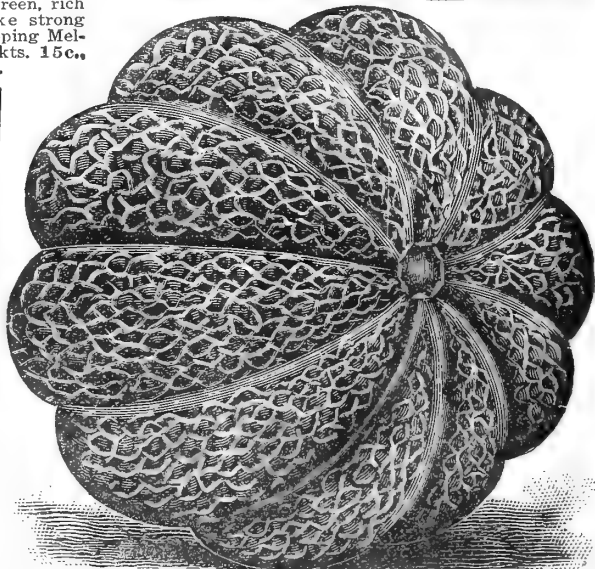

EXTRA EARLY HACKENSACK—This comes from a selection of the popular Hackensack Musk Melon, but ripens several days earlier; Melons weighing from 5 to 10 pounds each. The shape and color is similar to the parent; the main difference being the point of earliness. It is a round Melon, flattened on the end, well ribbed and heavily netted. The flesh is green, rich and sugary. The vines make strong growth and is an excellent shipping Melon. Pkt., 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 9c., 2 ozs., 15c., ¼ lb., 25c.

MUSK MELON MIXTURE—All those who want to raise every variety of

Musk Melon we have by planting the seed all at once in the spring, we highly recommend this mixture. An abundance of early Musk Melons with a continued supply of medium, early and late sorts of all shapes, and sizes will be produced. Try this seed. Pkt., 4c., 3 pkts., 8c., oz., 9c., 2 ozs., 14c., ¼ lb., 20c.

Emerald Gem Musk Melon

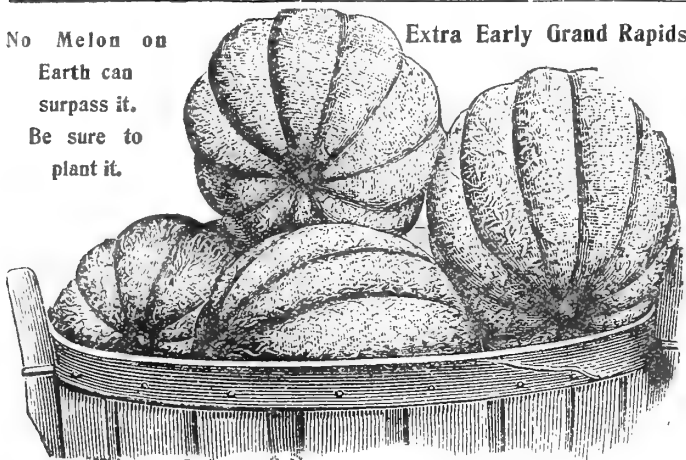

Extra Early Hackensack Musk Melon.

ROCKYFORD OR NETTED GEM—This Melon has become famous everywhere. It is an early variety of small size, weighing from 1¼ to 1½ pounds. Skin is green, ribbed and thickly netted, while the flesh is deep and thick and light green in color. It is a very firm and solid Melon and will keep quite a long time after being taken from the vines. We can offer genuine Rockyford seed as follows: Pkt., 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 9c., 2 ozs., 15c., ¼ lb., 25c.

Gold and Honey Casaba = Casabas may be somewhat new to our customers, but as they have now become a commercial commodity we are offering what we consider the very best one for all sections of the country, and it is known as Gold and Honey. It is a handsome variety. It should be planted after all danger of frost in spring and cultivated about the same as musk melons. It is a little later in ripening than the musk melon, but just before frost in the fall all the fruit, even half grown, should be picked and put in a dry place, where it will ripen gradually and give a continual supply all winter. Here is where their great value comes in. Think of it, fruit all winter. We are sure that this new Casaba, "Gold and Honey," will give our customers great satisfaction, and prove a real novelty in any garden. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 16c., 2 ozs. 30c.

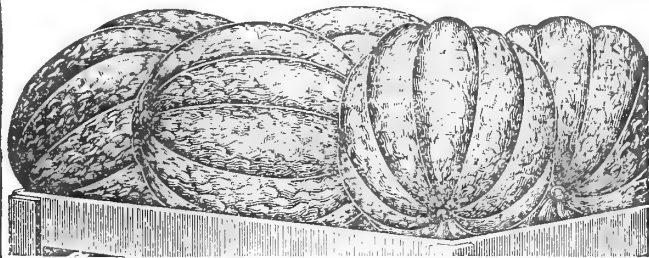

No Melon on
Earth can
surpass it.
Be sure to
plant it.

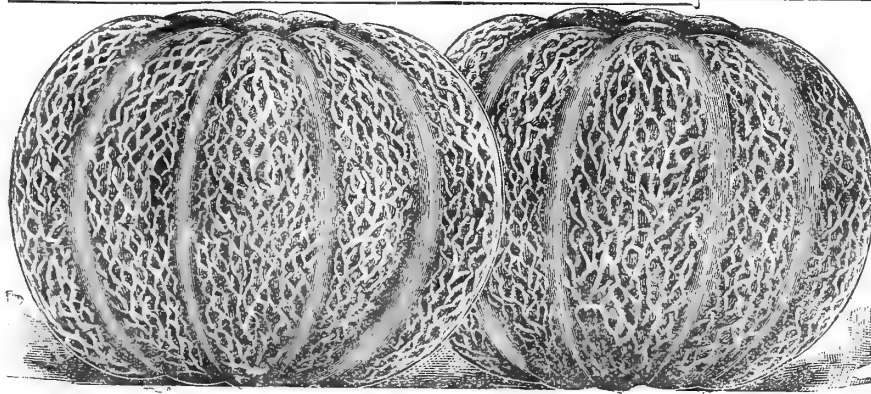

Extra Early Grand Rapids

EXTRA EARLY GRAND RAPIDS—This is a splendid yellow flesh Musk Melon, extremely early, very profitable Melon to grow. The flesh is yellow almost to the rind. The skin is finely netted and the Melon is handsome in appearance and is sure to attract a great deal of attention wherever grown. We have a very choice lot of seed. Pkt., 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 9c., 2 ozs., 16c., ¼ lb., 25c., ½ lb., 45c., lb., 85c.

NEW STRAWBERRY MUSK MELON

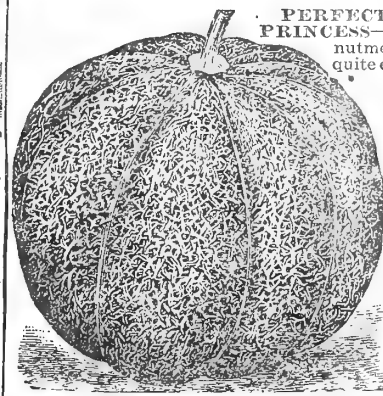

Here is quite a novelty in Musk Melons and has only recently been introduced. From trials we have made of it, it has proven to be a very satisfactory melon. The originator claims it has a flavor like that of the strawberry, hence its name. It is of the small netted type and the fruit weighs from five to ten pounds each. Its flesh is of an attractive orange red color, and is highly recommended by all who have grown it. Color of the outside is green turning to yellow hue as it ripens. It is claimed that the way this new melon was originated was by planting certain varieties of strawberries between every other row of the New Hybrid Musk Melon, and in this way a splendid Musk Melon has been developed which we call Strawberry. Give it a trial. Per pkt., 4c., 3 pkts., 9c., oz., 10c., 2 ozs., 16c., ¼ lb., 30c.

Earliest Gems Musk Melons

EARLIEST GEMS—This is a new Cantaloupe only recently introduced and is the result of careful development by an expert Cantaloupe grower. It has a tough thin rind with closely laced grey netting, blossom end is protected with a well developed button. The diameter from stem to blossom being one-third more than from top to bottom. The meat is of reddish orange, very thick, fine grained and spicy. Seed cavity small. The average weight is two and one-half pounds, while the length is six inches and the thickness four and one-fourth inches. A good idea of these handsome Melons may be obtained by referring to the engraving, which was made from a photograph. Price of seed per pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c.

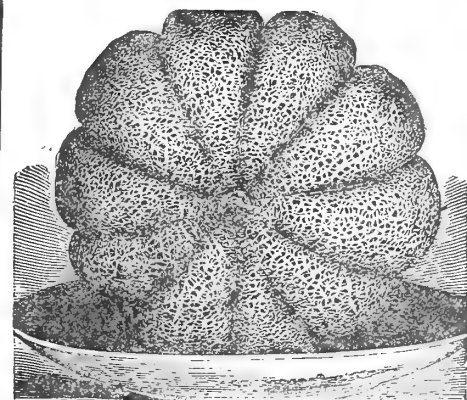

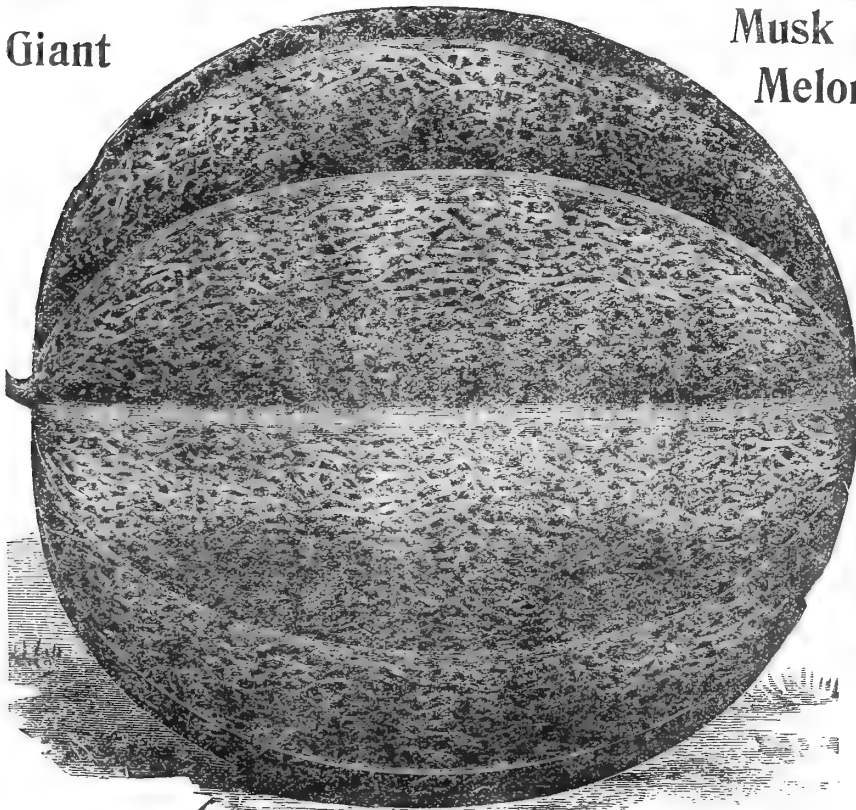

PERFECTION OR PRINCESS—This is of nutmeg shape, quite even in size,

weighting from 6 to 8 lbs. each; skin is a dark green color heavily netted, flesh of a salmon color, rich sweet flavored. Per pkt. 4c., 3 pkts.

8c., 6 pkts. 15c., oz. 9c., 2 ozs. 16c., ¼ lb. 25c.

Giant

Musk
Melon

IMPROVED JENNY LIND—This is a splendid early variety, and the best Musk Melon ever grown, according to Dr. Harris. It being very early makes it valuable to grow in the North. The vines are hardy in growth and bear abundantly handsome melons of fine flavor. Pkt. 4c., 3 pkts. 8c., 6 pkts. 15c., oz. 10c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 45c., lb. 80c.

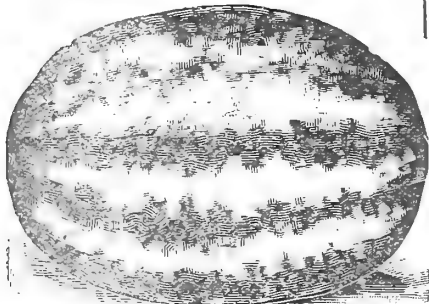

The Giant Musk Melon—This is a splendid large melon and a great favorite with all who have ever grown it. It is handsome in form, of the very best quality; flesh is rich and sugary; grows to a large size and is very productive. It has thick flesh and small seed cavity, and is a splendid sort to grow. Try it. Pkt. 4c., 3 pkts. 10c., 6 pkts. 16c., oz., 12c., 2 ozs. 20c., ¼ lb., 30c., ½ lb. 55c., lb. \$1.00.

Fairview Early Water Melon

Our Earliest

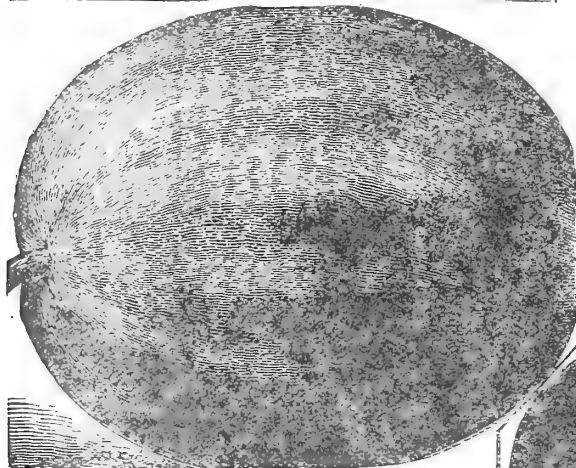

This is our Great Early Water Melon and is fast becoming known everywhere and is making a great record on account of its extreme earliness. It is delicious in flavor, very juicy and sweet and always salable. It is excellent for family use, as a few vines will yield many melons. The flesh is deep red in color, exceedingly brittle, the skin is dark green with faint streaks of lighter green. Everyone should try this new early Water Melon. It is excellent to plant if you are in a climate where the seasons are short, for it will ripen where many other Water Melons will not mature. It is a Melon of easy culture and we want our customers to give it a trial, for it is the earliest Water Melon grown. Pkt. 4c.; 3 pkts. 10c.; 6 pkts. 18c.; oz. 10c.; 2 ozs. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; lb. 75c.

HARRIS' IMPROVED EXTRA EARLY

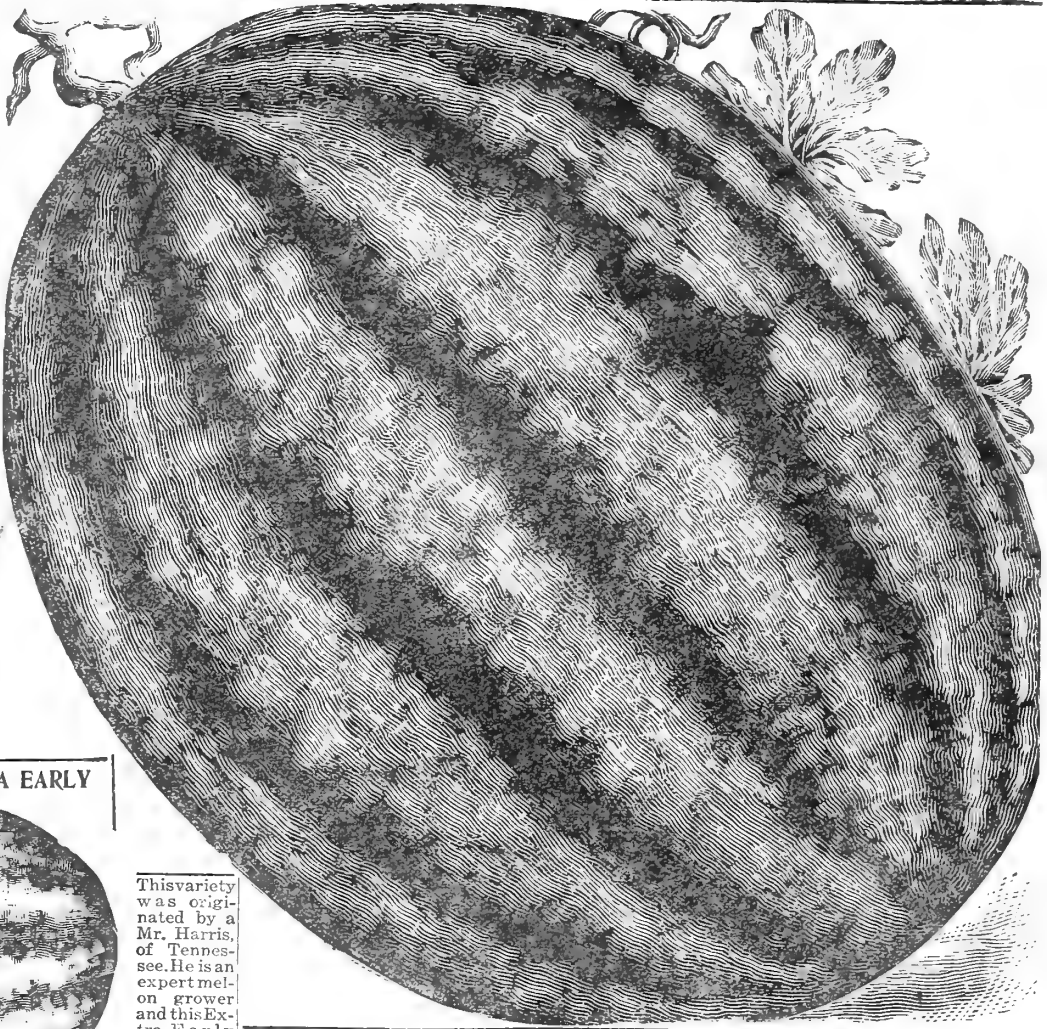

This variety was originated by a Mr. Harris, of Tennessee. He is an expert melon grower and this Extra Early will ripen and be gone before any other Ex-

tra Early Melons begin to ripen. It is of good size, weighing from 15 to 20 pounds. It is an excellent shipper and will ship thousands of miles; skin is mottled with green and white; the flesh is red, sweet and juicy. Pkt., 4c., 3 pkts., 9c., 6 pkts., 14c., oz., 7c., 2 ozs., 12c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

Sweetheart

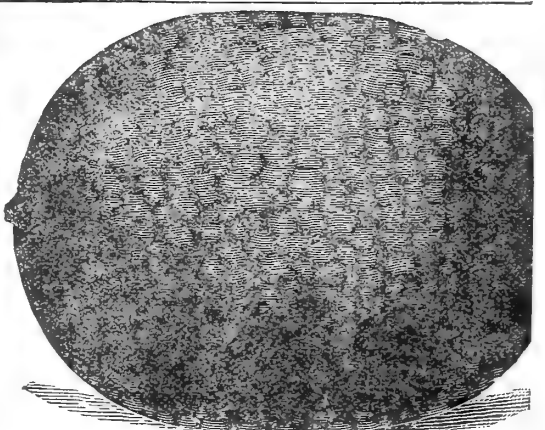

KLECKLEY SWEETS—This Water Melon is becoming very popular. Is especially valuable on account of its fine flavor. As shown by the illustration, it is a long oval-shaped Water Melon with a dark green rind; flesh is very firm, scarlet in color, and of the best quality and crisp texture. It is a splendid garden Melon and always gives good satisfaction, and we highly recommend it to grow in the north and south. We give this Melon our special attention, and our seed stock is extra good quality this season. By all means plant it. Pkt., 4c., 3 pkts., 9c., 6 pkts., 14c., oz., 7c., 2 ozs., 12c., $\frac{1}{4}$ lb., 20c., $\frac{1}{2}$ lb., 35c., lb., 60c.

SWEETHEART—This is a grand new Melon, early large, handsome, good keeper. Fruit large, rind thin but firm, ripens early, flesh bright red, solid and thick. Pkt., 4c., 3 pkts., 9c., 6 pkts., 14c., oz., 7c., 2 ozs., 12c., $\frac{1}{4}$ lb., 20c., $\frac{1}{2}$ lb., 35c., lb., 60c.

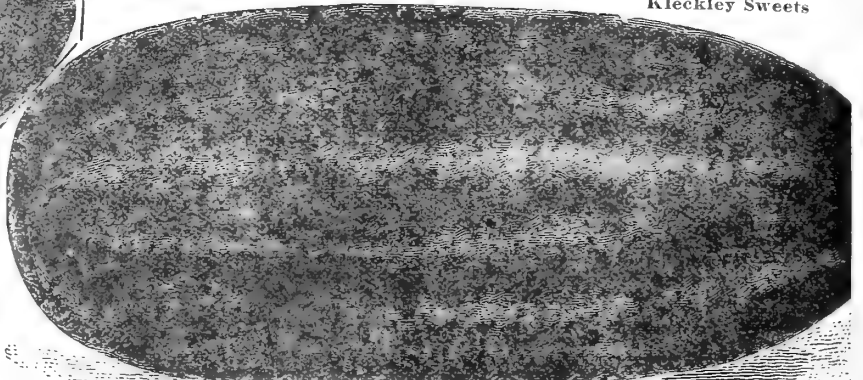

FORDHOOK EARLY—Is one of the earliest Melons. From seed planted the 10th of May, large ripe Melons were picked the last of July. The color is medium green, flesh a bright red and very sweet. Pkt., 4c., 3 pkts., 9c., oz., 8c., 2 ozs., 15c., $\frac{1}{4}$ lb., 22c., $\frac{1}{2}$ lb., 40c.

DUKE JONES—This is a large blocky oval fruit, quite thick through. It is excellent for shipping. Pkt., 4c., 3 pkts., 9c., 6 pkts., 14c., oz., 7c., 2 ozs., 12c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

Fordhook Early

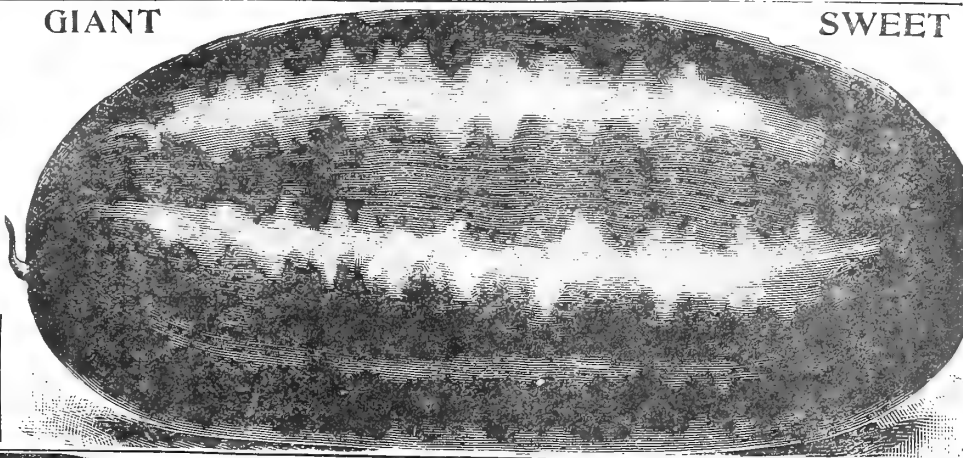

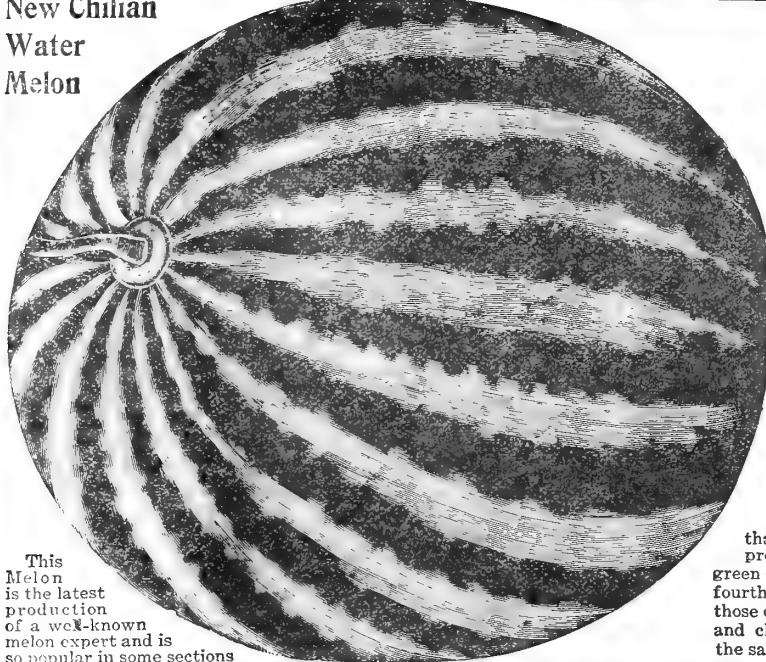

Kleckley Sweets

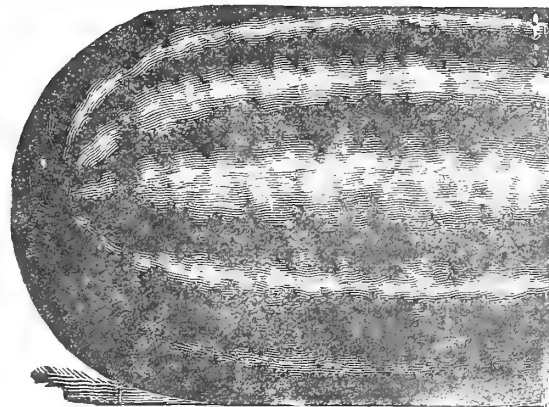

Giant Sweet Water Melon**GIANT****SWEET**

We are very fortunate in being able to offer our customers this year a splendid Water Melon which we claim is the sweetest of them all. When once grown we believe that it will be a favorite. It grows to good size, the skin is striped or variegated and the flesh is a beautiful red color, while the seeds are white. The vines grow very thrifty and prolific and is well adapted to different weather, whether wet or drought. We are well pleased with this grand new melon. We cannot recommend it too highly and we want every customer, no matter where located, to grow some of these choice Water Melons. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., oz., 9c., 2 ozs., 15c., ¼ lb., 25c., ½ lb., 40c., lb., 70c.

FLORIDA FAVORITE—The shape of this Melon is oblong, flesh bright crimson, crisp and sweet. The skin is of light and dark green. It is an excellent shipper and largely grown by many. Pkt., 4c., 3 pkts., 9c., 6 pkts., 14c., oz., 7c., 2 ozs., 12c., ¼ lb., 20c., ½ lb., 35c., lb., 70c.

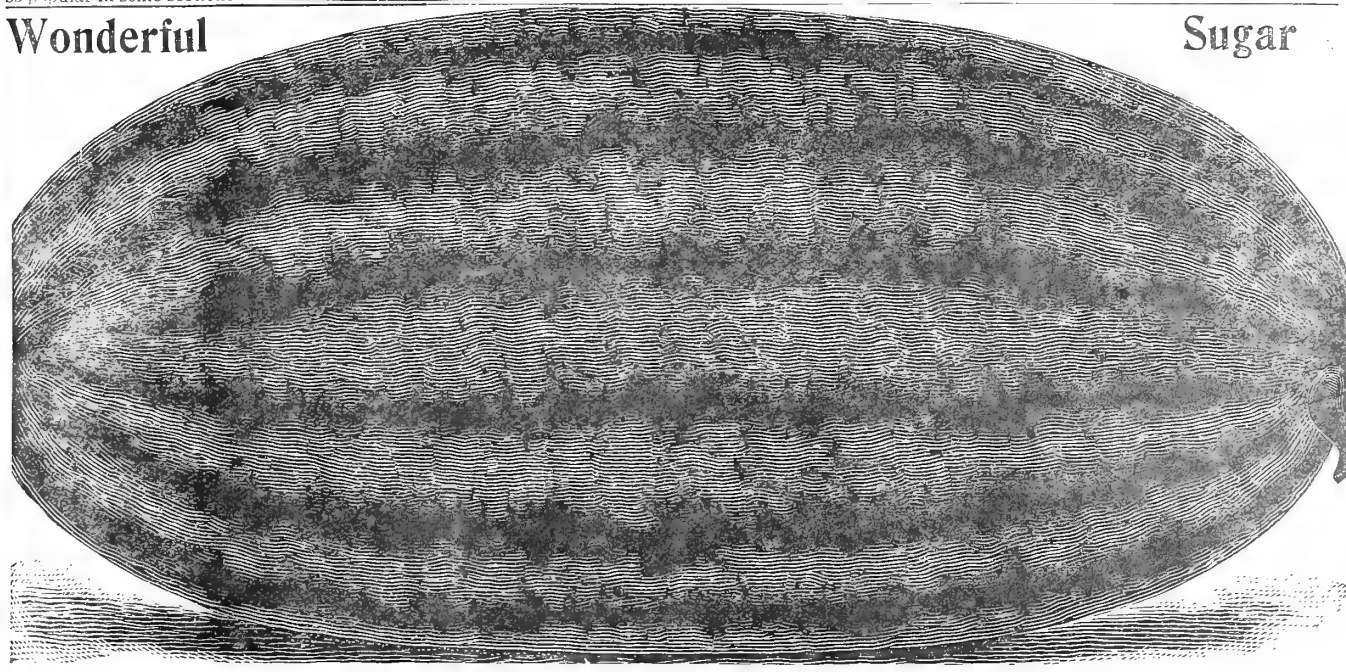

**New Chilean****Water
Melon**

This Melon is the latest production of a well-known melon expert and is so popular in some sections

Dixie Water Melon

DIXIE—This is a beautifully striped Melon, as will be seen by the illustration. The flesh is of deep bright scarlet, very sweet and tender; the growers say this is one of the best of Water Melons. Pkt., 4c., 3 pkts., 9c., 6 pkts., 14c., oz., 7c., 2 ozs., 12c., ¼ lb., 20c.

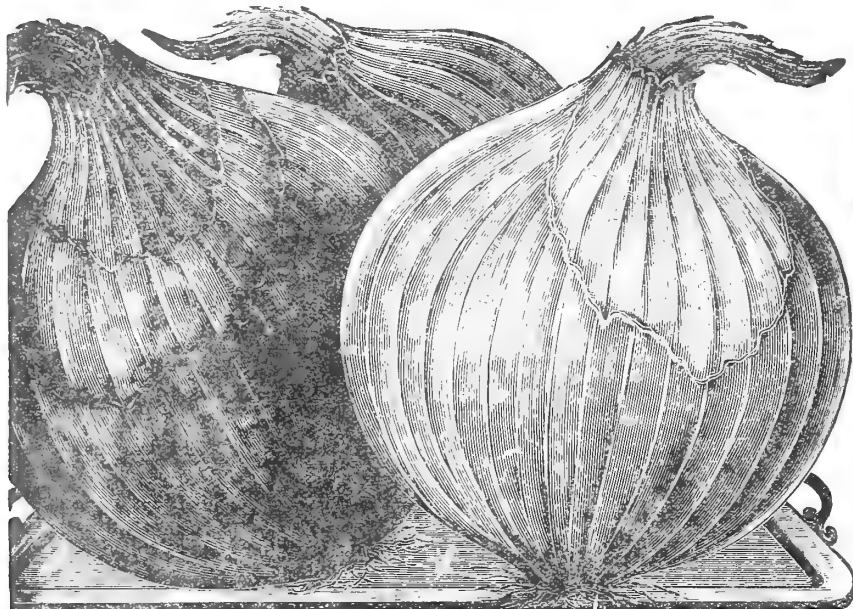

that it has practically excluded all other varieties which should be ample proof of its good qualities. It is handsome in appearance, shaded with green and netted with a darker shade of green. Its rind is only about one-fourth inch in thickness, but very hard and tough, classing it among those of the best shippers. The entire flesh of this melon, all through, and close to the rind is a deep crimson; of a sweet, delicious flavor and at the same time solid and crisp. Pkt., 5c., 3 pkts., 12c., oz., 15c., 2 ozs., 25c.

Wonderful**Sugar**

WONDERFUL SUGAR—These Melons grow to a large size, are handsome in appearance and the flesh is a beautiful red. The vines grow very strong and thrifty and will stand wet or dry weather. The illustration, made from a specimen, gives a good idea of the handsome appearance and we can highly recommend this Water Melon as being one that will please our customers both in the north and south. It is an excellent sort for near by markets, but on account of its thin rind we do not recommend it for long freight shipments. For a large size Water Melon we are sure our customers will be more than pleased with this one and we have a choice lot of seed to offer at the following prices: Pkt., 4c., 3 pkts., 9c., 6 pkts., 16c., oz., 9c., 2 ozs., 15c., ¼ lb., 25c., ½ lb., 40c., lb., 70c.

ONIONS == We offer all the best varieties. Good Onion Seed is what you want and we offer the best. All the seed we have is clean and plump, tests very high, and we have sufficient we believe to supply all of our customers.

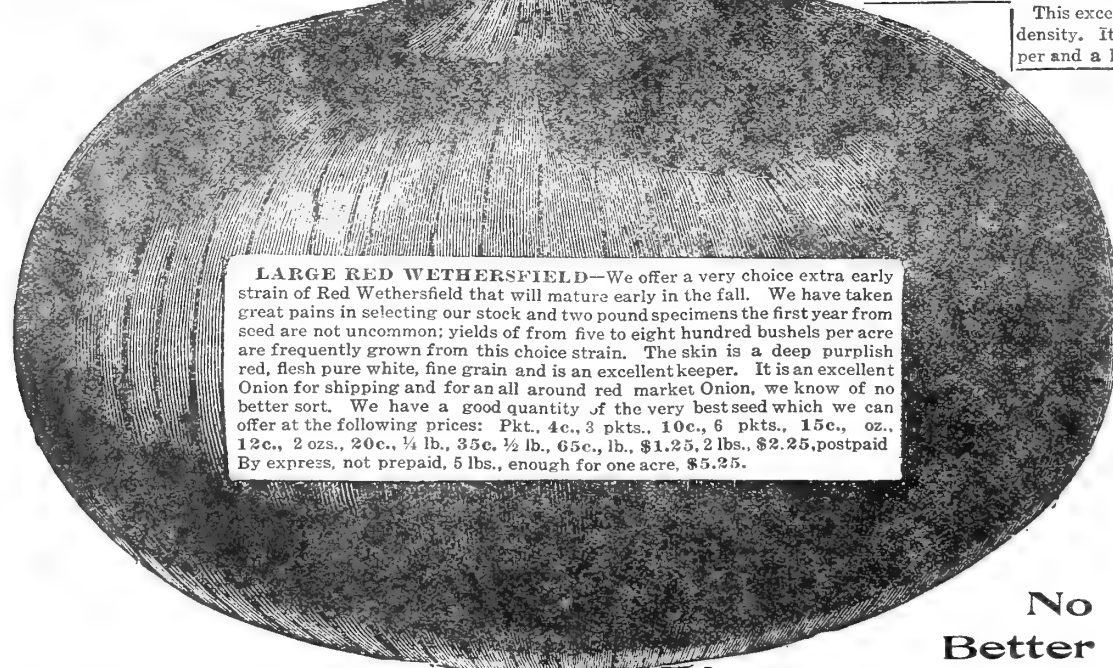

YELLOW GLOBE DANVERS ONIONS

Our stock of Yellow Globe Danvers is the very best that can be grown. It is from choice selected strain that always attains a good size bulb with a small neck. They grow very uniform, large size and command the highest market price, the skin is a rich golden yellow, flesh pure white, fine grain, mild and pleasant flavor; excellent keeper and one of the most hardy and valuable Onions grown. Our seed crop is large, and all we have is of strong vitality and reliable in every respect, and our customers can depend on our stock being of the best. Pkt., 4c., 3 pkts., 10c., 6 pkts., 15c., oz., 12c., 2 ozs., 20c., ¼ lb., 30c., ½ lb., 55c., lb., \$1.00 postpaid. By express, not prepaid, 5 lbs., enough for one acre, \$4.25.

Large Red Wethersfield

ONION

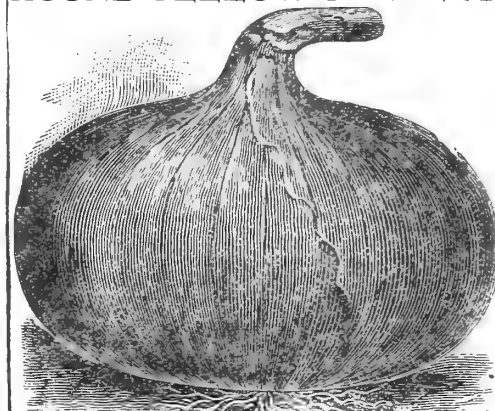

LARGE RED WETHERSFIELD—We offer a very choice extra early strain of Red Wethersfield that will mature early in the fall. We have taken great pains in selecting our stock and two pound specimens the first year from seed are not uncommon; yields of from five to eight hundred bushels per acre are frequently grown from this choice strain. The skin is a deep purplish red, flesh pure white, fine grain and is an excellent keeper. It is an excellent Onion for shipping and for an all around red market Onion, we know of no better sort. We have a good quantity of the very best seed which we can offer at the following prices: Pkt., 4c., 3 pkts., 10c., 6 pkts., 15c., oz., 12c., 2 ozs., 20c., ¼ lb., 35c., ½ lb., 65c., lb., \$1.25, 2 lbs., \$2.25, postpaid. By express, not prepaid, 5 lbs., enough for one acre, \$5.25.

Selected Strain

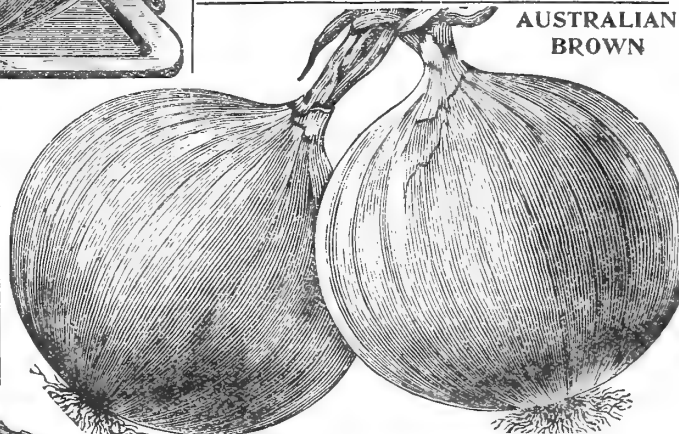

Our Trade Requires Tons of

ROUND YELLOW DANVERS

This is a strain originally selected from Yellow Globe Danvers. Its table and market qualities are the same. It differs from Yellow Globe Danvers mainly in shape, being more flattened. It is claimed it ripens more surely in most situations than the globe-shaped sorts, and that it is a little earlier. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., oz., 12c., 2 ozs., 20c., ¼ lb., 30c., ½ lb., 55c., lb., \$1.00, postpaid. By Ex., not prepaid, 5 lbs., enough for one acre, \$4.25.

AUSTRALIAN BROWN

AUSTRALIAN BROWN ONION

This excellent Onion is noted for its density. It is extra early, a sure cropper and a long keeper. The bulbs are round in size and form. The skin is thin, of a bright reddish brown while the flesh is white, crisp, extremely solid and of sweet and mild flavor. On account of the excellent keeping qualities we strongly recommend this Onion and know it will please our customers. Pkt., 4c., 3 pkts., 10c., oz., 15c., 2 ozs., 25c., ¼ lb., 45c., ½ lb., 85c., lb., \$1.50, postpaid.

Red Onion

Annually

Early Red Pickling Onion

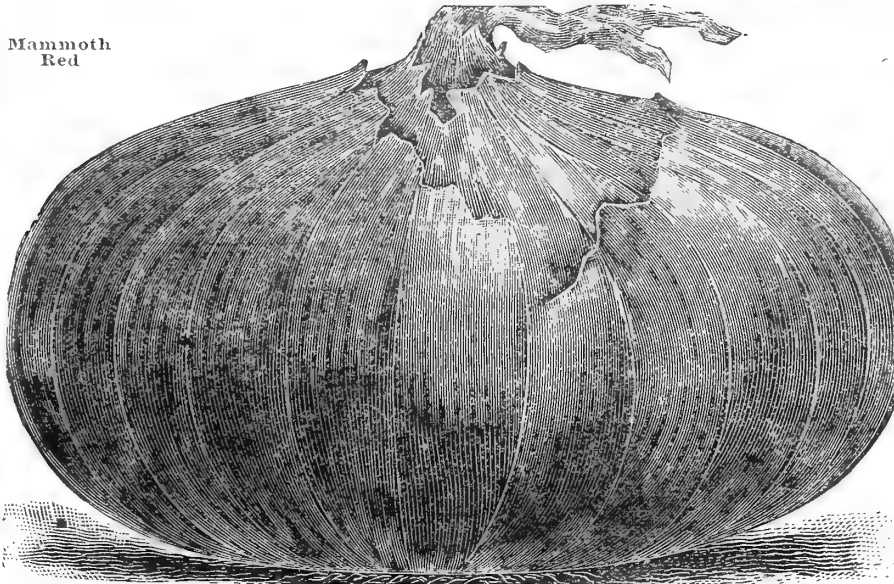

EARLY RED PICKLING
This is one of the earliest small Red Onions in cultivation. It is very early, of perfect globe shape and several days earlier than any other red globe onion. The onions are very even in size and an excellent sort for pickling. They are perfect beauties and we know every one who grows them will be more than pleased. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., oz., 15c., 2 ozs., 25c.

MAMMOTH SILVER KING
—Produces very large bulbs averaging four to six

inches in diameter and often weighing over three pounds each. The skin is a beautiful silver white, flesh is particularly mild and pleasant in flavor. It can be grown from seed almost anywhere in the United States the first year. We cannot too highly recommend it for family use or the market and know all who grow it will be well pleased with it. Anyone desiring a handsome, large, fine white onion, of the finest mild flavor, will be more than pleased with the mammoth Silver King. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., oz., 15c., 2 ozs., 25c., ¼ lb., 45c., ½ lb., 80c., lb., \$1.50.

Mammoth Red

Mammoth Red Onion

A GRAND RED SORT

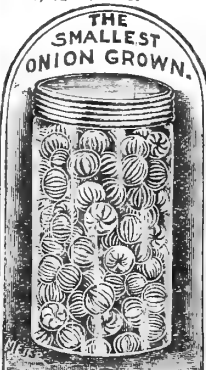

We are pleased to offer our customers this magnificent Red Onion. It is of the very best quality and produces onions weighing from two to three pounds each from seed sown in the spring. Notwithstanding their enormous size their shape is always perfect, as shown by the engraving. The skins very thick and delicate in appearance, being a beautiful reddish brown in color. The flesh is pure white, very fine grain and remarkably mild and pleasant in flavor. This is an onion we can highly recommend to anyone on account of its producing such handsome large onions from seed sown in the spring. If you ever grow onions, try this excellent sort.

Our stock of this sort is rather limited. Order early.

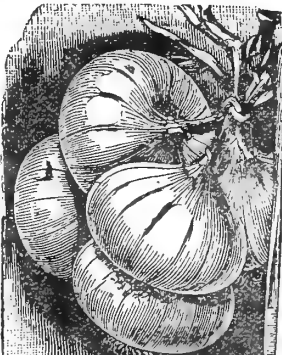

Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., oz., 15c., 2 ozs., 25c., ¼ lb., 45c., ½ lb., 85c., lb., \$1.60.

WHITE PICKLING—
This is the earliest onion in cultivation, producing very white little bulbs which are mild in flavor. At maturity the tops die down close to the bulb. For table use and pickling there is no onion that can equal it, and on account of its being so very early, we cannot too highly recommend it.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 20c., 2 ozs. 30c., ¼ lb. 50c.

White Pickling

New White Queen Onion

NEW WHITE QUEEN—Bulbs are small, flat, pure white, of excellent flavor. Sown in March they will produce onions 1 to 2 inches in diameter early in summer; sown in the summer they will produce good bulbs by fall. This is an excellent variety for pickling and we know will please all who want a white, flat onion.

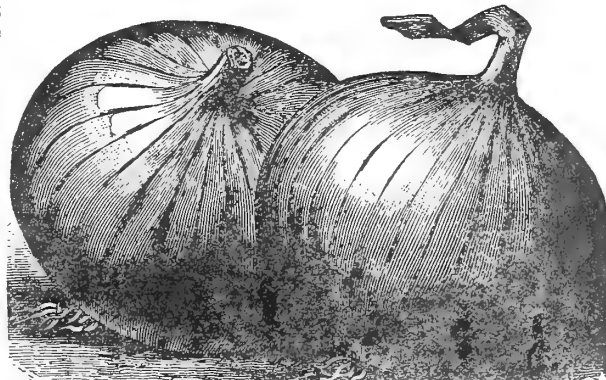

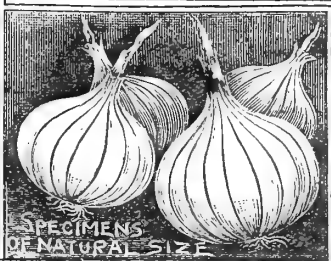

Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., oz., 20c., 2 ozs., 30c., ¼ lb. 50c.

RED BERMUDA—This is by far more productive than

the old Red Bermuda and we can recommend it as being early, large and very solid. It keeps much better than any other foreign variety. Choice imported seed, pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., ½ oz., 10c., oz., 15c., ¼ lb. 50c.

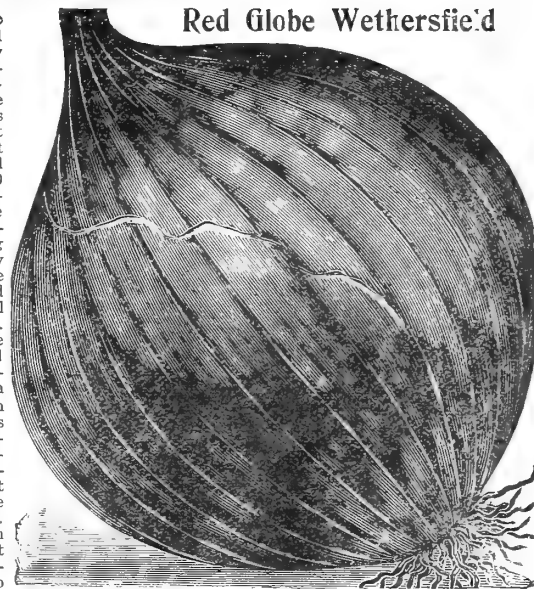

CRYSTAL WHITE WAX BERMUDA—This is the best White Bermuda Onion that any one can wish for because the color, shape and appearance is at once an attraction for the buyer. It readily sells at first sight. Flavor finest in existence. Sow seed in rich soil and the handsome, large, white onions will astonish you. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., ½ oz., 15c., oz., 25c., ¼ lb. 80c.

ONION MIXTURE—All those who sow a small amount of Onion seed will do well in using our mixture. We have included all the early, medium and late sorts which will produce an abundance of onions of all colors, shapes and sizes; many being giant sorts, from the smallest pickling onion to the mammoth varieties we include the seed and this selection should be grown to be appreciated. Pkt., 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 9c., 2 ozs., 15c., ¼ lb., 25c., ½ lb., 45c., lb., 85c., postpaid.

PRIZE
TAKER

Red Globe Wethersfield—This is a new Onion, only recently introduced and there are great claims made for it. It is admitted that it has a record of over 700 bushels of Onions to the acre and not a scullion among them. They ripen early, are large size and admired by all who see them. **Red Globe Wethersfield** will be a valuable Onion in the future on account of its being so attractive in appearance in the market, where it commands the highest price. The outer skin possesses that luster and richness of color so desirable and yet so often lacking from the ordinary red globe crop. Try **Red Globe Wethersfield** this year. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.; oz., 15c.; 2 ozs., 25c., ¼ lb., 45c., ½ lb. 80c., lb. \$1.50.

Red Globe Wethersfield

world and is becoming the most popular of Yellow Globe sorts today. It always produces large, handsome bulbs of superior quality, growing uniform in size. It has a very short neck, ripens up hard without any stiff necks. The skin is of a bright straw color and the bulbs grow to a very large size often measuring 8 to 14 inches in circumference. Its keeping qualities are excellent. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., oz., 15c., 2 ozs., 25c., ¼ lb., 45c., ½ lb. 85c., lb. \$1.50

White Portugal or Silver Skin—A well-known variety and a great favorite with market gardeners and truckers. Flavor mild and pleasant, skin silvery-white, of handsome appearance. Pkt., 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 10c., 2 ozs., 18c., ¼ lb. 35c., ½ lb. 65c.

Extra Early Red—This matures before **Red Wethersfield** but the bulbs are somewhat flattened and do not grow quite so large. It is an early sort and produces fine onions ninety days from sowing the seed. The flavor is mild, keeps well while the color is a deep rich red. This Onion is solid and heavy and well adapted for early market. It is an excellent sort to grow on cold, mucky ground where the seasons are short. Pkt., 4c., 3 pkts., 10c., 6 pkts., 15c., oz., 12c., 2 ozs., 20c., ¼ lb. 70c., lb. \$1.30.

PRIZE TAKER—This is one of the largest Yellow Globe Onions in the world. It produces large, handsome bulbs of superior quality, growing uniform in size. It has a very short neck, ripens up hard without any stiff necks. The skin is of a bright straw color and the bulbs grow to a very large size often measuring 8 to 14 inches in circumference. Its keeping qualities are excellent. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., oz., 15c., 2 ozs., 25c., ¼ lb., 45c., ½ lb. 85c., lb. \$1.50

Southport White Globe—This is a handsome silvery-white, perfectly ball-shaped onion of large size, commanding the highest price in the market. Flesh firm, fine grain, of mild flavor and an excellent keeper. Its even regular size, perfect globe form, combined with the clear silvery whiteness of the skin makes it one of the handsomest onions grown. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., oz., 18c., 2 ozs., 35c., ¼ lb. 65c., ½ lb. \$1.25.

Southport Red Globe—This is a large red globe onion, similar to **White Globe** excepting color. Matures quite early, large size, deep red skin, fine grain, flesh mild, very productive, and an excellent keeper. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., oz., 15c., 2 ozs., 25c., ¼ lb. 45c., ½ lb. 85c., lb. \$1.60.

New Chinese Giant Pepper

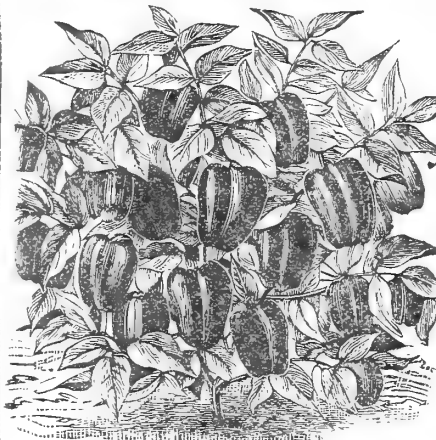

This is the finest, largest and handsomest Pepper in cultivation. It certainly is a wonder. The plants grow very strong and stocky, erect in habit from 18 inches to 2 ft. in height. These compact plants produce an abundance of extra large fruits, setting several fruits quite early in the season and these ripen while a second crop is setting on the branches. The fruit is large and handsome in appearance as shown by the engraving. The flesh is thick and very mild; free from any fiery flavor. We are sure all our customers will pronounce this the finest and largest Pepper ever grown. Be sure and give it a trial. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c.

Mexican, Bouquet Pepper—An Unique Novelty

The plant grows from 1½ to 2 feet high and is very prolific, always producing a large number of clusters of peppers in the form of a bouquet, there being from 12 to 36 cone-shaped fruits to the bouquet, from ¾ to 1 inch long. It is entirely different from any pepper grown. It makes the finest pepper sauce of any peppers, being very hot and of a splendid flavor. It is a will live through the winter in the house, shedding its leaves and putting new and strong branches the second year. Pkt., 6c., 3 pkts., 15c., 6 pkts., 25c.

Ruby King Pepper

This is a well known variety and one of the leading Peppers, always in great demand. It grows to a good size producing large brilliant red Peppers, which are sweet and of mild flavor. **Ruby King** is a sort that can be relied upon and we offer selected from extra large specimens. Pkt., 4c., 3 pkts., 10c., 6 pks., 18c., ½ oz., 14c., oz., 25c.

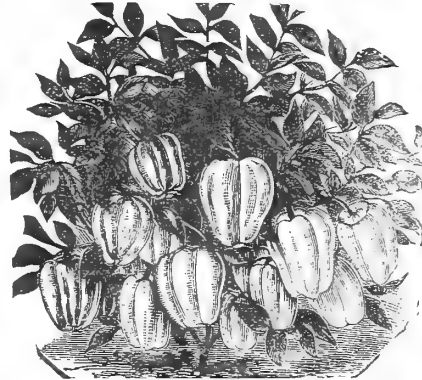

BELL OR BULL NOSE—This is an early red variety of large size, mild flavor, thick and fleshy. Plants grow about 2 feet high, while the fruits are about 3 inches in length and 2 inches in diameter. It is a first-class red Pepper. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., ½ oz., 12c., oz., 20c.

LONG RED CAYENNE—This is the true Cayenne, fruit conical shaped, red in color, very hot in flavor. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., ½ oz., 12c., oz., 20c.

FINEST MIXED—We have made up a mixture of all the leading varieties of Peppers, which will produce a great display of all the different shapes, colors and sizes and a valuable selection to make if one wants a good collection of Peppers. In this mixture will be found some new varieties not offered separately. By all means order a packet of this mixture. Pkt., 4c., 3 pkts., 9c., 6 pkts., 16c.

very strong grower and makes a beautiful pot flower, and with the same treatment as that of a Geranium.

Mammoth Golden Queen Pepper

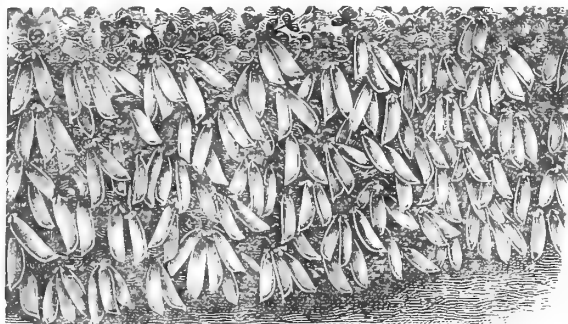

This is the largest yellow Pepper; very productive perfect in shape; uniform in size; mild flavor and of a golden waxy-yellow color. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., ½ oz., 15c., oz., 25c.

Procopp's Giant

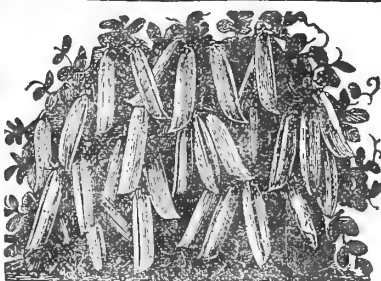

As shown by the illustration it is covered with Peppers and grows to a very large size, often 8 to 10 inches long, while mild enough to be pleasing to the taste. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., 12 pkts., 35c.

PEAS—**FIRST OF ALL**—This is the very best extra early smooth Pea. Its height is about 2½ feet and produces pods of good size which are well filled with smooth round creamy white Peas that ripen so evenly as not to require more than two pickings to clear the crop. It is a favorite everywhere and we are sure will please all for early spring planting. Pkt., 5c., 3 pkts., 12c., ½ pt., 14c., pt., 24c., qt., 40c., postpaid. By express or freight, not prepaid, pk., \$2.00.

First of All Peas

American Wonder Pea

12c., ½ pt., 16c., pt., 28c., qt., 40c., postpaid. By express or freight, not prepaid, pk., \$2.00.

BLISS' EVERBEARING—This is a celebrated wrinkled Pea

growing 18 inches to 2 feet high of good quality and fine flavor. It produces very large size pods 4 to 5 inches long. It is especially

adapted for late summer and autumn cropping, and on account of its remarkable branching habit, it is one of the most valuable sorts we offer. It will do well without bushing and continues to produce blossoms and pods throughout the season, making it an everbearing variety. Pkt., 5c., 3 pkts., 12c., ½ pt., 14c., pt., 25c., qt., 40c., postpaid. By express or freight, not prepaid, pk., \$2.00.

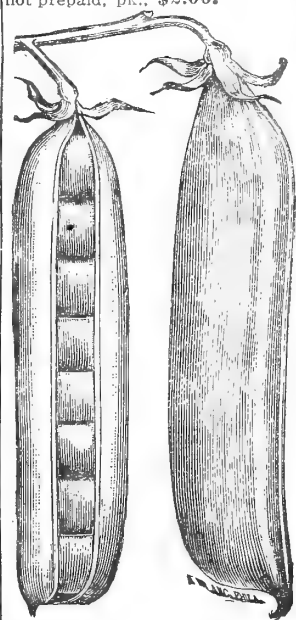

NOTT'S EXCELSIOR—This is a fine extra early wrinkled Pea. It will produce a crop fit for table use in at least 45 days after planting with ordinary cultivation. They grow to uniform size about a foot high and are always very tender and fine quality, and we can highly recommend this sort as one of the very best extra early wrinkled sorts. Pkt., 5c., 3 pkts., 12c., ½ pt., 18c., pt., 32c., qt., 50c., postpaid. By express or freight, not prepaid, pk., \$2.00.

CHAMPION OF ENGLAND—This is a well known old variety and acknowledged as one of the very best for late sowing. For a reliable staple market variety it always will fill the desired purpose. Pkt., 5c., 3 pkts., 10c., ½ pt., 12c., pt., 20c., qt., 35c., postpaid. By express or freight, not prepaid, pk., \$1.50.

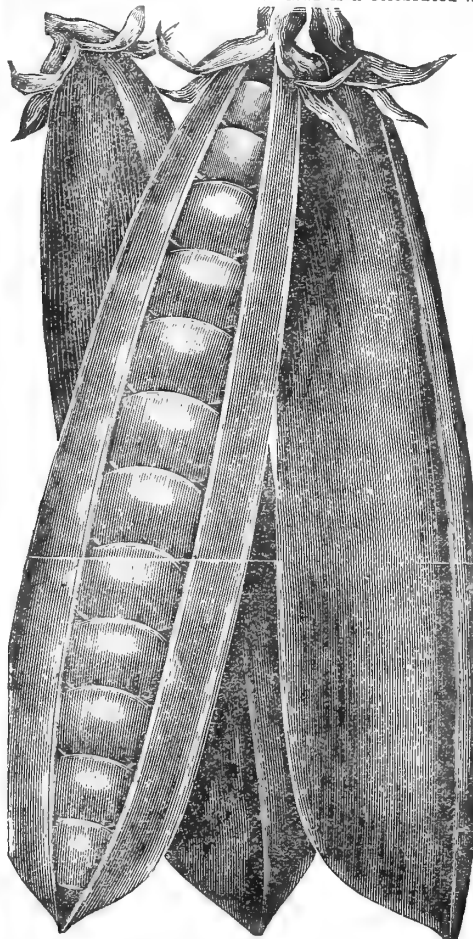

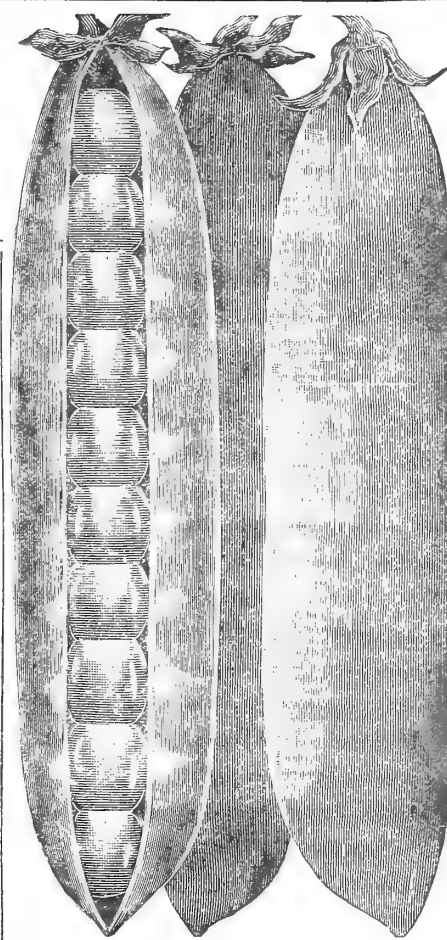

GRADUS OR PROSPERITY—This is a grand extra early Pea. It has become very popular wherever grown and is considered one of the very best large podded wrinkled Peas. It matures one or two days later than the small podded round seeded early variety. The pods and Peas are always large and remain tender and sweet for some time after they are large enough to use. Everyone who has ever raised a crop of Gradus well knows what an excellent variety it is. Pkt., 5c., 3 pkts., 12c., ½ pt., 20c., pt., 35c., qt. 50c., postpaid.

TELEPHONE—This is a strong growing main crop variety. It is very prolific, producing a large number of pods to the stalk. Pods are always large size and filled with immense wrinkled marrow Peas; seven to nine being the average while ten to twelve Peas to the pod are frequently found. The quality is excellent and it is hard to excel Telephone Peas. Pkt., 5c., 3 pkts., 12c., ½ pt., 14c., pt., 24c., qt., 45c., postpaid. By express or freight, not prepaid, pk., \$2.00.

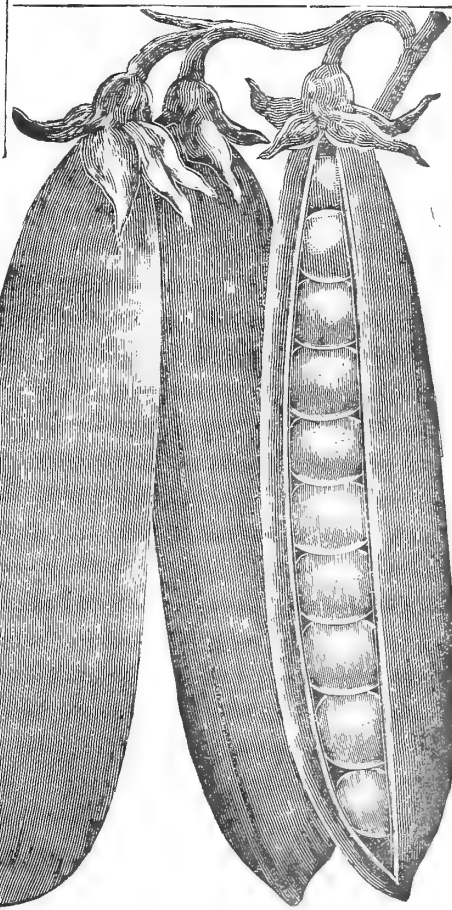

NEW SURPRISE—Here is an excellent extra early wrinkled variety which is ready to pick about as soon as the extra early smooth sorts. Vines grow about two feet high and do not require bushing. It is far superior to smooth varieties both in quality and yield. It is one of the largest podded and earliest of all wrinkled early Peas, and is a profitable variety to grow. We can highly recommend it. Pkt., 5c., 3 pkts., 12c., ½ pt., 16c., pt., 30c., qt., 45c., postpaid. By express or freight, not prepaid, pk., \$2.00.

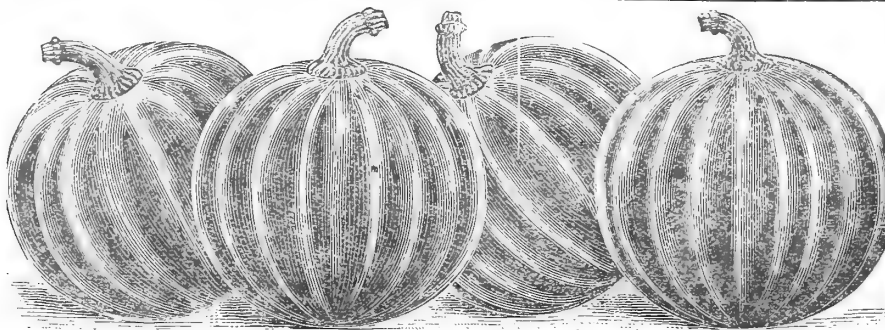

Telephone Peas

Bliss' Everbearing Peas

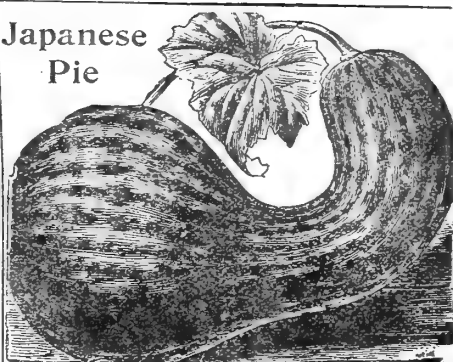

Gradus or Prosperity Peas

Buff Pie Sugar Pumpkin-

This is one of the very best Pumpkins to grow in the garden. The Pumpkins are not large but they are of excellent quality, very fine grained, sweet flavored and is a splendid keeper all through the winter. They ripen very early, and are of a deep buff color, very attractive while growing. They will grow in most any location and produce an abundance of handsome pumpkins and we urge you to give this variety a trial. Pkt. 5c.; 3 pkts., 10c.; 6 pkts., 18c.; oz. 12c.; 2 ozs. 18c.; ¼ lb., 30c.; ½ lb., 50c.; lb., 80c.

Japanese Pie

This is a Japanese variety, valuable for cooking, flesh is very thick and a rich salmon color. Fine grained, dry and sweet. It is of medium size; seed cavity small, very productive and a good keeper. Pkt., 4c.; 3 pkts., 10c.; oz., 12c.; 2 ozs., 16c.; ¼ lb., 28c.

OUR POPULAR MIXTURE

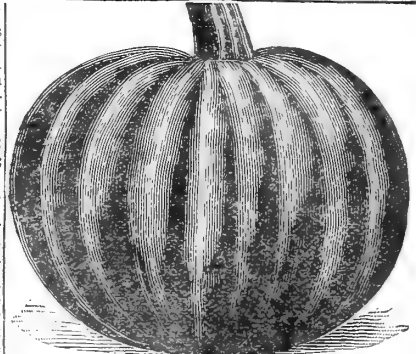

COMMON FIELD—This is the ordinary Pumpkin used to plant in corn fields for feeding stock. Very productive.

Pkt., 4c.; 3 pkts., 8c.; oz., 9c.; ¼ lb., 20c.; ½ lb., 30c.; lb., 50c.

WINTER LUXURY—Golden russet in color and one of the best for pies. A great keeper, fine grain, rich and sweet.

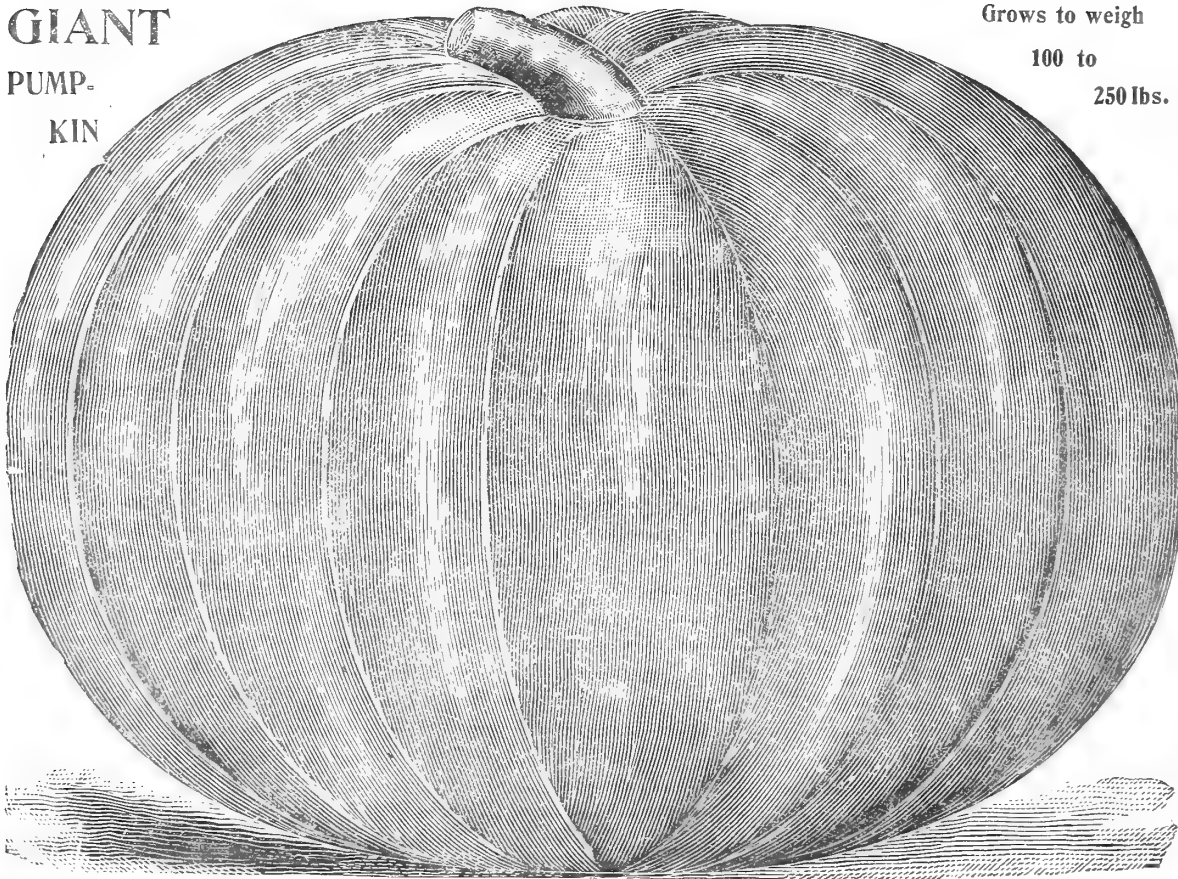

Pkt., 4c.; 3 pkts., 8c.; oz., 9c.; ¼ lb., 20c.; ½ lb., 30c.; lb., 50c.

SUGAR PUMPKIN—Also called Sweet Pumpkin. There is a great demand for seed of this well known variety. It has a deep yellow skin and fine grained flesh, excellent keeper. It cannot be excelled as a table variety. Pkt., 4c.; 3 pkts., 9c.; 6 pkts., 15c.; oz., 10c.; ¼ lb., 20c.

OUR POPULAR PUMPKIN MIXTURE—If you would like to grow a great collection of Pumpkins, including the earliest, medium and late varieties together with all the odd shaped and mammoth sorts, we recommend that you plant seed of our Pumpkin Mixture. We have taken great pains in putting in many varieties that are new, but not listed in our book, making it the grandest collection of Pumpkins ever offered. This seed will produce Pumpkins of every imaginable shape and color and we know you will be pleased with it. Price per pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., oz., 8c., 2 ozs., 15c., ¼ lb., 25c., ½ lb., 40c., lb., 60c.

GIANT PUMPKIN

Grows to weigh

100 to

250 lbs.

GIANT PUMPKIN

This is a prize winning variety and grows to an enormous size. It should be grown to be appreciated. But few have an idea of the giant size these Pumpkins attain. The flesh is bright yellow, fine grain and of good quality. Notwithstanding the large size of the Pumpkin it is excellent for pies. We have raised specimens weighing over 200 lbs., and it is nothing uncommon for our customers who have grown this variety to show specimens weighing 100 lbs. and upwards. We do not think there is anything offered that will create a greater interest than a few hills of this Giant Pumpkin. It is an excellent Pumpkin to plant for show purposes, on account of its attaining such an enormous weight. It is a very shy seeder, a large specimen producing only a few seed, and as all our seeds are saved from extra large specimens, it makes the seed high in price. Give it a trial. Pkt., 6c., 3 pkts., 12c., 6 pkts., 20c., oz., 15c., 2 ozs., 25c.

MAMMOTH FRUITED GROUND CHERRY

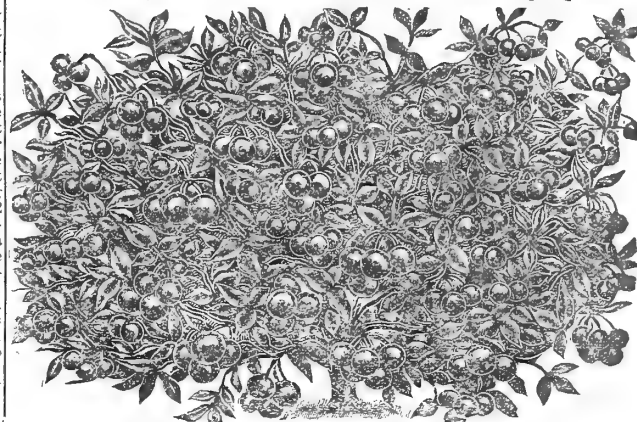

This is by far the most prolific of all Ground Cherries. Besides, the fruit is about double in size to that of any other variety, some of the fruit measuring from 1½ to 2 inches in diameter, of a dark purple Egg Plant-colored skin, with green flesh. It has been found superior to any other Ground Cherry or Husk Tomato for preserving purposes, and the flavor is sweet and delicious. The plants grow about 2 feet high, about the same in

width, and are heavy bearers of fruit in any ordinary garden soil. The fruit, when picked with the husk on, is a splendid keeper, remaining in good condition for several weeks if kept in a cool place.

It is a very early fruit to grow in any garden, and the greatest producer of fruit of anything we know of. Try it. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c.

THE WONDERBERRY

If any of our customers would like to obtain seed of the Wonderberry we can supply it, having grown a crop of the fruit the past season. This is the berry that was so largely advertised as a remarkable new creation of Luther Burbank. The introducer claims that it is adapted to pot as well as open ground culture, and that it will produce fruit in from three to four months from sowing the seed, and that its fruit is more like a great rich, luscious Dewberry than anything else; blue-black in color, fine in flavor and unsurpassed cooked, canned or preserved in any form. It is a very easy plant to grow from the seed and to all those wishing to try it we will furnish the genuine seed as follows: Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., 15 pkts. 40c.

Parsnip GARDEN HUCKLEBERRIES

NEW SUGAR- This is the very best Parsnip in cultivation. It matures early, yielding a large crop and brings the highest price. The roots grow to a fine size enabling them to be easily dug; are very smooth, flesh is fine grained and of excellent quality. It is a great cropper and will yield more than 700 bushels to the acre. Our Sugar Parsnip will give the best of satisfaction wherever grown. Pkt. 3c., 3 pkts. 7c., 6 pkts. 12c., 2 ozs. 8c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., 1 lb. 60c.

We have grown this fruit on our grounds and are pleased with it and can recommend it for pies, preserves, jams, etc., when fully matured, but not good for any use in a raw or unripe state. It is easily grown from seed and bears an abundance of fruit that ripens during the fall. It is not a hardy plant and should be planted and treated the same as tomatoes. Plant seed in a box or pan in the house and put out of doors when danger of frost is past. After the fruit, which is jet black in color, has matured, it is claimed that a frost will improve its quality and that it will cook up much finer and with much better flavor. The plants are enormous yielders, and are a great curiosity while growing in the garden. Our illustration was made from plants taken from the field when growing. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c.

SPINACH

NEW LONG STANDING

—This is a very popular sort, best for spring sowing. The leaves are large, thick and crumpled. Pkt. 3c., 3 pkts. 8c., 2 ozs. 7c., 2 ozs. 12c., ¼ lb. 15c.

ROUND THICK LEAVED- Large, thick, dark green leaves. Pkt. 3c., 2 ozs. 6c., 2 ozs. 10c., ¼ lb. 14c.

CRESS

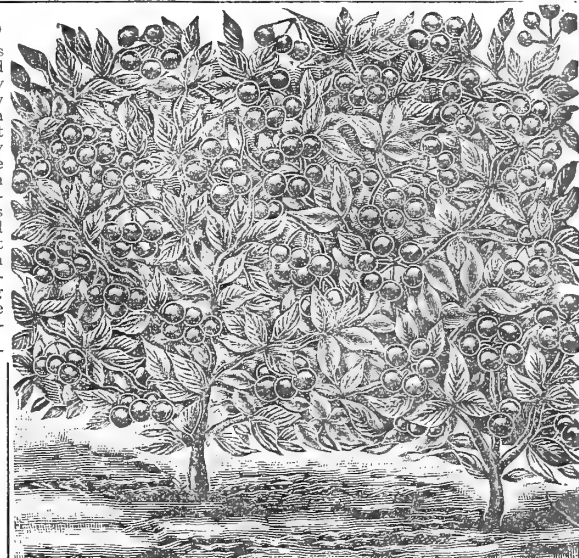

FINE CURLED- The best variety. Pkt. 3c., 3 pkts. 7c., 2 ozs. 8c., 2 ozs. 15c., ¼ lb. 28c.

PARSLEY

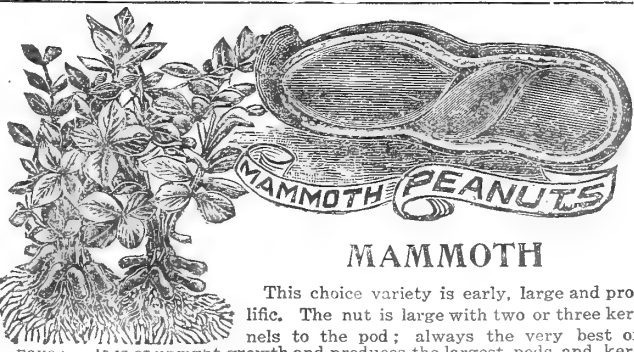

CHAMPION MOSS CURLED Produces crinkled and curled leaves, a choice selected strain. Pkt. 5c., 3 pkts. 9c., 2 ozs. 10c., ¼ lb. 25c.

HENDERSON'S EMERALD

—Beautifully curled and crinkled, of a beautiful emerald green color. Pkt. 5c., 3 pkts. 9c., 2 ozs. 10c., ¼ lb. 25c.

GARDEN HUCKLEBERRIES

MAMMOTH

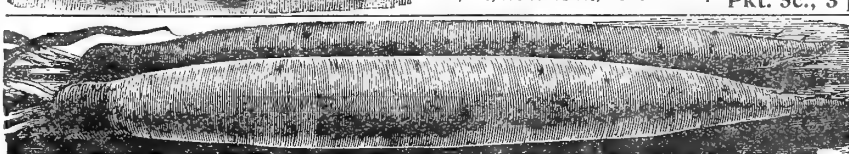

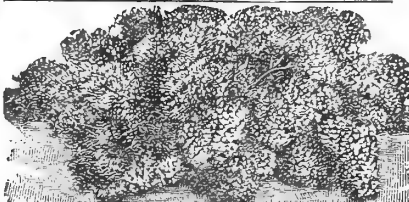

This choice variety is early, large and prolific. The nut is large with two or three kernels to the pod; always the very best of flavor. It is an upright grower and produces the largest pods and kernels of any variety. It will pay everyone to try this variety, as they will ripen as far north as Canada. Plant in rows 8 inches apart, about two inches deep.

Try some of these Peanuts this year and you will be well pleased. Keep the ground clean, and when ripe, dig and dry.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 22c., 12 pkts. 40c.

MAMMOTH SANDWICH ISLAND SALSIFY

This is the best variety grown. It is of large size, nearly double the size of any other sort and the leading variety among gardeners. The quality is the best. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 45c., 1 lb. 80c.

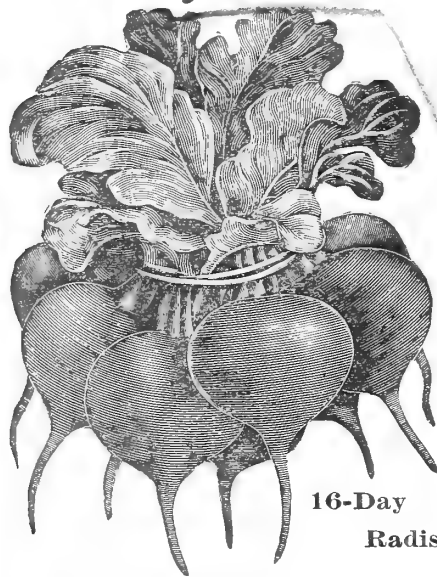

Radish

We offer all the very best varieties in cultivation.

New Lightning Radish—This is a great early Radish, round in shape and dark red in color. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

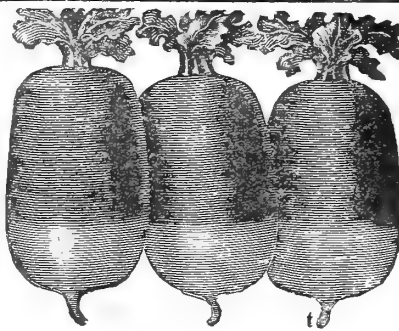

16-Day Radish

16-Day
Radish

If you want to grow the very Earliest Scarlet Turnip Radish, this is what you want. It certainly is a little gem and is very valuable for forcing and especially adapted for growing radishes in hot beds or to sow very early in the open ground. It is very crisp and tender, and will produce radishes fit to pull 16 days after sowing the seed. We are pleased to be able to offer our customers such a splendid early radish and we know it will be highly prized wherever grown.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 22c., oz. 10c., 2 ozs. 18c.

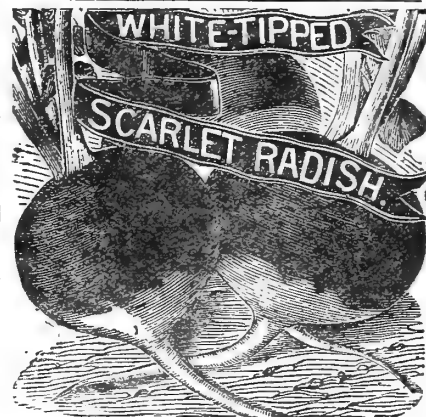

French Breakfast Radish

FRENCH BREAKFAST—This is an early bright scarlet, tender, crisp, and an excellent variety for forcing. It is one of the quickest growing rose scarlet Radishes. It has a white tip and we can recommend it everywhere. It is the standard early variety in the French market, will grow in all climates and is very attractive. Pkt., 4c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c.

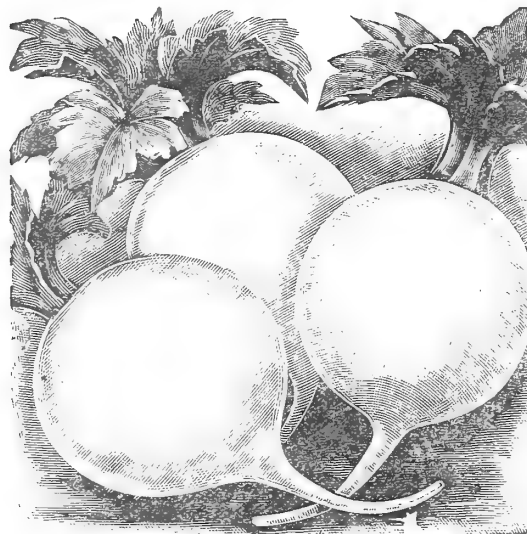

SAKURAJIMA RADISH—From Japan. The largest variety in existence. (See Page 30.)

New Long String Radish—A Japanese Radish, grows 3 ft. in length. (See Page 30.)

EARLY SCARLET TURNIP WHITE TIPPED—This Radish is sure to please all who grow it. It presents a beautiful appearance in market and is very popular. The skin is very smooth, flavor excellent, tender, crisp and mild. Pkt., 3c.; 3 pkts. 8c., 6 pkts., 14c., oz., 7c.; 2 ozs., 12c.; ¼ lb., 22c.

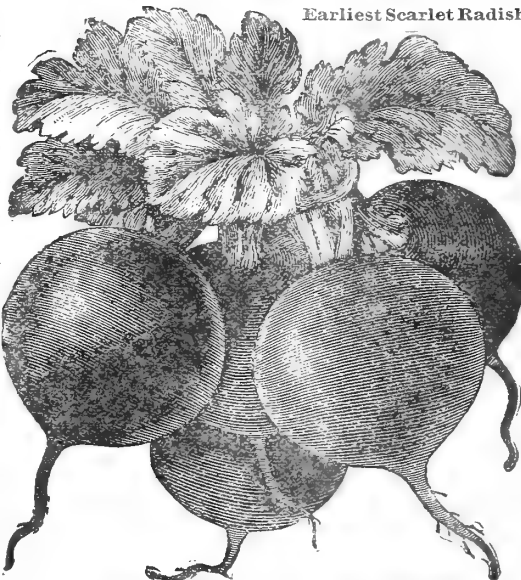

Try our All Seasons Radish Mixture offered on next page. It contains the greatest variety of radishes ever offered.

Early Snow White Radish.

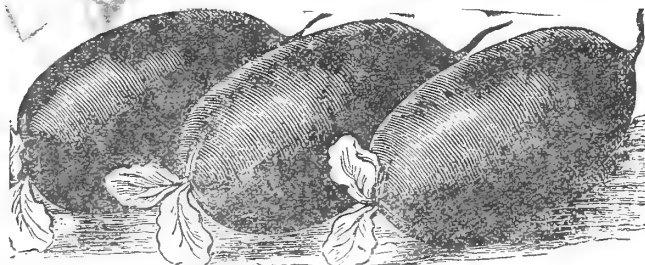

EARLIEST SCARLET RADISH—Here is one of the finest and best red Radishes. It is crisp and brittle and grows very quick. The skin is a rich scarlet color and the flesh is pure white, always tender, mild and sweet. It will produce Radishes in good soil in less than 20 days from sowing of the seed. It is well adapted to garden culture or for forcing under glass. These handsome scarlet Radishes grow to an attractive size and shape, as shown by the engraving, and we can highly recommend this sort. Pkt., 4c., 3 pkts., 10c., 6 pkts., 15c., oz., 8c., 2 ozs., 15c., ¼ lb., 25c.

EARLY SNOW WHITE RADISH—This is an excellent early Radish and can be grown under glass or in the open garden. It has a short top, grows very rapidly, is mild and of sweet quality and we can recommend it as the very best Early White Radish, as the roots are always smooth, crisp and brittle. By all means try this early white Radish this year. Pkt., 4c., 3 pkts., 10c., 6 pkts., 15c., oz., 8c., 2 ozs., 15c., ¼ lb., 25c.

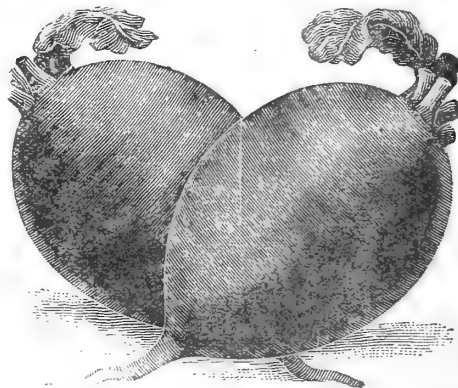

Earliest Scarlet Radish

NEW LEAFLESS RADISH

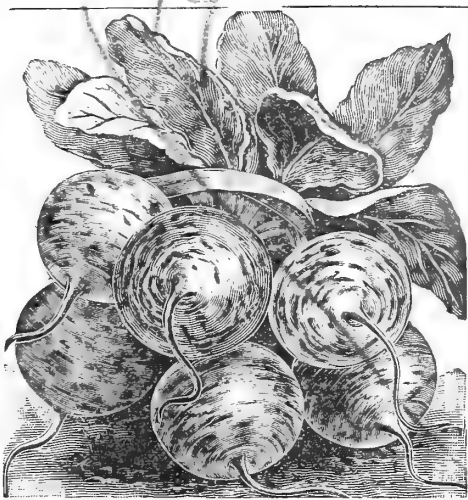

NEW LEAFLESS—This is quite a novelty and certainly is an excellent early radish. It was named Leafless from the fact that its shyness in developing the foliage is more noticeable than any other variety. The color of this new Radish is a very bright scarlet. The flesh is white, crisp and tender, and of the best flavor. The illustration gives the shape of the Radishes. On account of producing but few leaves, the strength of growth is all thrown into the roots, surpassing other varieties in this respect. Seed of the Leafless Radish is scarce, it being a shy seeder. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.; oz., 15c.; 2 ozs., 25c.

SCARLET OLIVE SHAPED—This variety grows very quick. It is a rich carmine in color, very mild flavor, with a crisp flesh. It is a very attractive variety as shown by the illustration, which gives a good idea of its shape and appearance. Do not fail to plant this grand Radish this season. Pkt., 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 8c., 2 ozs., 15c., ¼ lb., 25c., ½ lb. 35c., lb. 60c.

Do not fail to order some of the **GIANT HIMALAYA PLANTS** this year. You will be better pleased with this **GREAT BERRY** than anything you ever had in your garden. (See Photo. of Plant, Back Cover)

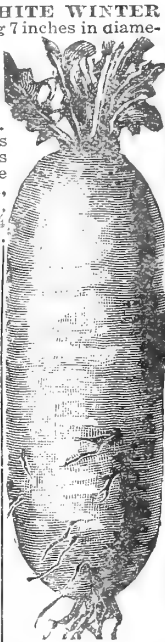

STRIPED TRIUMPH—In size and shape the roots are similar to the Scarlet Turnip White Tipped, but in color are a creamy white, beautifully marked with stripes and dashes of carmine. It is an early radish with very small tops and the point in its favor is its coloring that makes it unusually attractive, both for market purposes or home use. Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.

CALIFORNIA MAMMOTH WHITE WINTER—We have grown specimens measuring 7 inches in diameter and about 18 inches in length, weighing 8 pounds. It is the only American radish growing to this immense size and still retaining a mild, pleasant flavor and solid all through.

Whether 2 or 7 in. in diameter its flavor and fineness of grain are the same. Pkt., 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 10c., 1/4 lb., 20c., 1/2 lb., 35c.

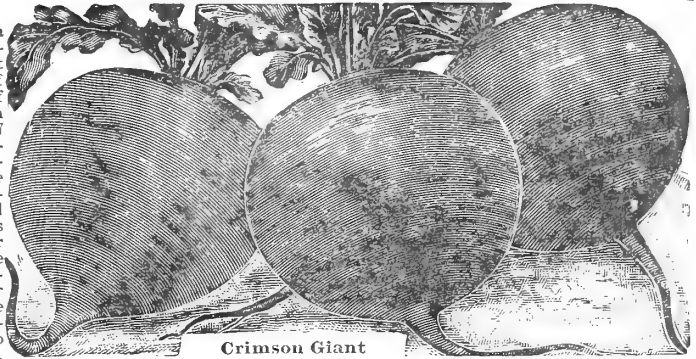

WHITE LADY FINGER—This variety is sometimes called the "White Vienna," and is highly prized by everyone who grows it, and we consider it one of the very finest long white Radishes in cultivation. It is of very rapid growth and remarkably tender, crisp and brittle. It is a favorite with many market gardeners and there seems to be a large demand for the seed. We are sure it will please all who grow it. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., oz., 10c., 2 ozs., 18c., 1/4 lb., 25c.

California Mammoth White Winter Radish

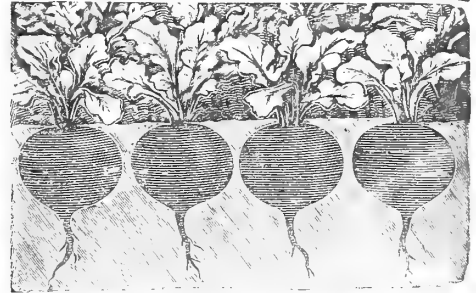

CRIMSON GIANT—This is a new early turnip-shaped Radish, but double the size of other varieties of that type, often measuring 6 to 7 inches in circumference. Notwithstanding its large size it has an excellent flavor, mild and crisp and has not the hollow or pithy center, while it is equally suitable for forcing or planting in the open ground as varieties developing to only half its size.

It is a rapid growing sort with handsome, crimson colored roots and the flesh pure white. Pkt., 4c., 3 pkts., 10c., 6 pkts., 15c., oz., 12c., 2 ozs., 20c., 1/4 lb., 30c.

Crimson Giant

NEW OAK LEAVED—We offer this new Radish this year for the second time. It is a turnip-shaped medium size sort, with an extremely handsome rose salmon color that puts it in a class by itself as far as color is concerned. It is a quick growing kind and cannot be too highly recommended for general cultivation. The flesh is pure white, of good mild flavor and very crisp; it is a distinct variety and we are sure will give universal satisfaction. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., oz., 20c.

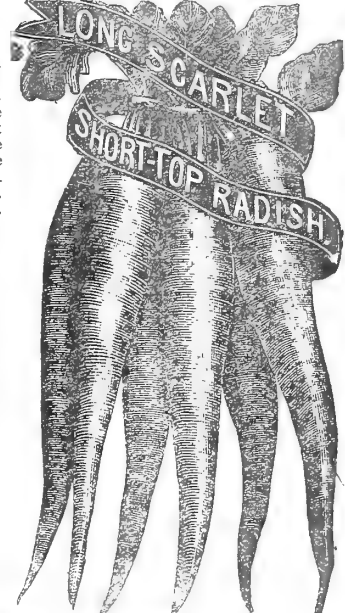

New Oak Leaved Radish.

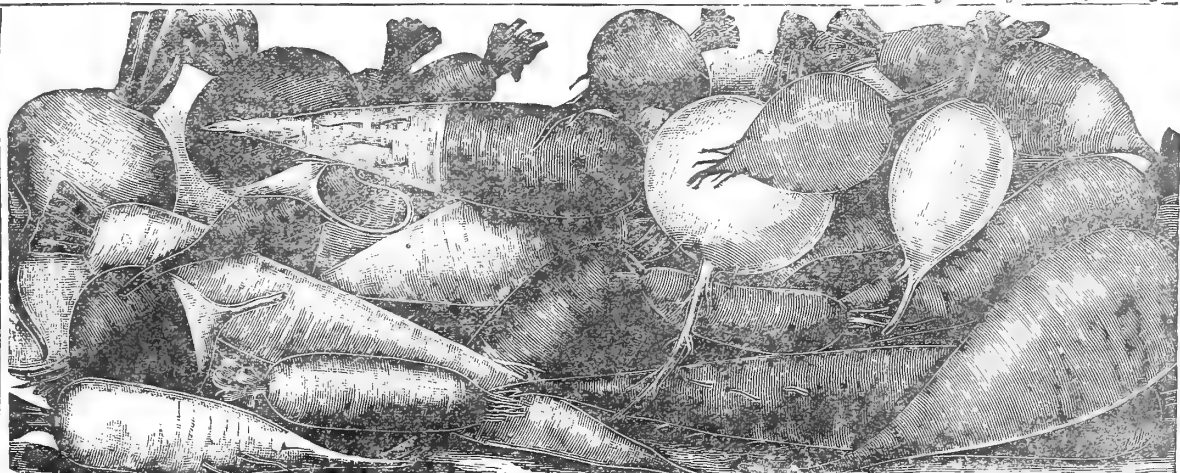

LONG SCARLET SHORT-TOP—This is without doubt the best long red Radish. It is very early and the leading out-door quick growing variety; brittle and tender and the roots are a bright red color. Pkt., 4c., 3 pkts., 8c., 6 pkts., 15c., oz., 10c., 2 ozs., 15c., 1/4 lb., 20c., 1/2 lb., 30c.

ICICLE—This is a long, extra early variety, with color of snow white. It is crisp and brittle and of an excellent mild flavor, many claiming that it has a better flavor than the scarlet varieties. It has the same mild flavor at all stages of its growth and the most popular of any of the white sorts. It is a short top variety, having few leaves and the roots are very uniform in size. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c., oz., 12c., 2 ozs., 20c.

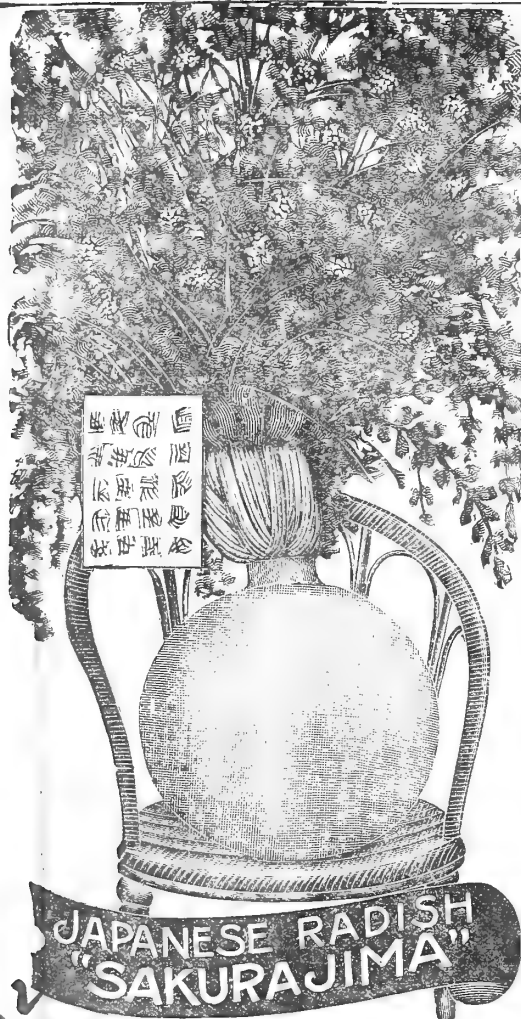

LONG SCARLET SHORT-TOP RADISH

ICICLE

ALL SEASONS RADISH MIXTURE—This is by far the best Mixture of Radishes ever offered. It contains all shapes, sizes and colors and a supply of this seed will be just the thing for small gardens, when space is limited, and you want to make a garden and be done with it with one sowing of the seed. By sowing seed of this mixture, you will have Radishes very early and continue throughout the season, having all the leading early, medium and late sorts. We are sure this mixture will surprise you. Plant it, Pkt., 4c., 3 pkts., 10c., 6 pkts., 15c., 12 pkts., 25c., oz., 8c., 2 ozs., 15c., 1/4 lb., 20c., 1/2 lb., 30c., lb., 45c., postpaid.

This Giant Radish grows to enormous dimensions. The illustration was made from a photograph of a specimen measuring 43 inches in circumference and 21 inches in length. The skin is pure white, flesh firm and solid, mild as an apple and superior to the most delicate spring radishes, thrives in any soil or location. It is good to eat when in bloom as in younger days, and the taste is more delicate than our American varieties, always crisp and tender, at the same time one of the greatest curiosities ever grown in the garden. Think of it; this enormous radish, on account of its mildness and excellent flavor, can be sliced and eaten like an apple.

If you intend to grow any new varieties of vegetables this year in your garden, do not fail to plant this radish. You will readily realize that it is an enormous variety the minute you see the seed on account of its large size. We are sure this radish will be a perfect wonder to all your neighbors.

Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c.

NEW LONG STRING RADISH.

This is a new sort of Japanese Radish, the seed of which we have imported especially for our customers. The peculiarity of this variety is to grow over three feet long, while the circumference is from two to three inches.

In Japan it is used for many purposes and is esteemed very highly for pickling. Be sure and try this very strange and curious radish.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

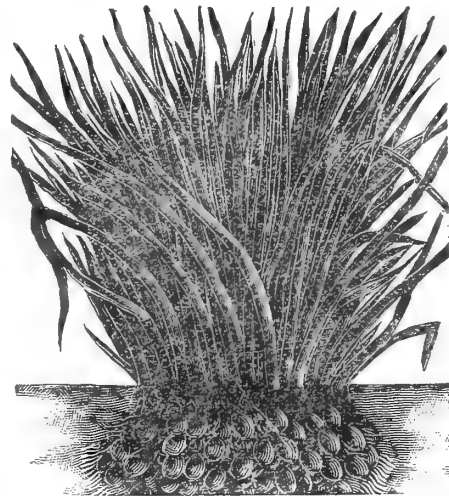

GROUND ALMONDS

We take pleasure in offering our customers a very choice nut called Ground Almond. The flavor resembles the Almond and those who have tested it prefer it to the genuine Almond. The meat is snow white covered with a thin shell or skin of brown color which is easily removed. It is very easy to grow and a single nut will yield from 200 to 300 nuts in a hill. The illustration gives a good idea of a hill growing which shows that the nuts are produced close to the surface and the foliage is of a handsome green color resembling wide blades of grass. It is a very prolific grower and will do well in any kind of soil. The nuts should be planted in the spring about the same time corn or potatoes are planted, and by fall the nuts will be matured, ready to harvest. They are then dug from the ground, spread out to dry and afterwards put away for use at any time.

We consider these **GROUND ALMONDS** one of the very best things we offer in this catalogue and know that they will be appreciated by our customers. They grow so rapidly and make such an immense and interesting crop that you will be surprised as well as your neighbors when you tell them what you are growing.

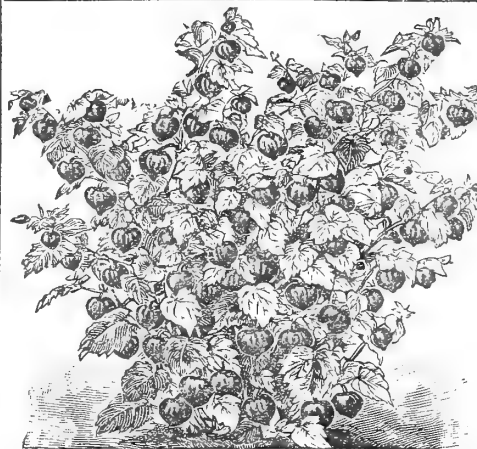

Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c., 15 pkts. 50c., by mail postpaid.

CHINESE LANTERN PLANT

When treated like a tomato it grows and fruits freely from seed the first season. Produces numerous large unfolded husks, the shape of Chinese lanterns, at first a beautiful green color changing to yellow hue, then to bright scarlet. For pies, or dried in sugar for fruit cakes or puddings, it is most delicious. It is a Japanese production easily grown in any garden. Pkt. 5c., 3 pkts. 10c., postpaid.

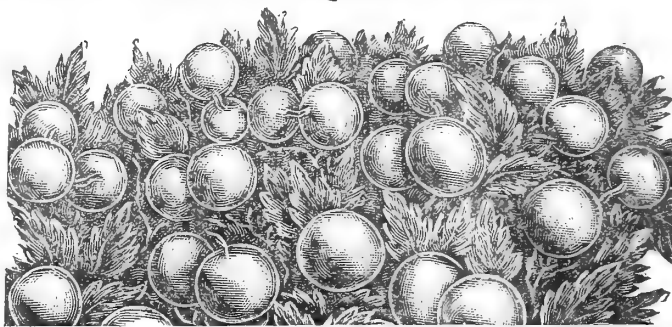

Try the **GIANT HIMALAYA BERRY**. See photo. one plant, back cover.

NORTHERN LEMON

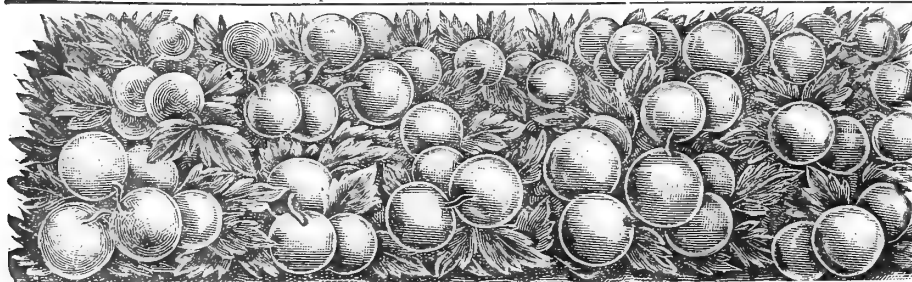

This is a great vegetable novelty and certainly deserves a place in the garden. It somewhat resembles the Vegetable Orange in manner of growth, but is distinct, as the unripe fruit is striped with very dark green stripes, and when ripe is not so yellow as the

Vegetable Orange. The fruit is the shape as shown in the illustration, but a little larger than the Vegetable Orange. It has fine flesh and is of good flavor and unexcelled for general canning purposes. It should be cultivated the same as Musk Melons and it is such an enormous yielder that it will prove a very profitable crop to grow for market purposes, and it is sure to give great satisfaction for family use. Grow this unique novelty. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., oz. 25c.

The Vegetable Orange

This is a splendid novelty of recent introduction, handsome in color and appearance and an enormous yielder. As shown, vines of this Vegetable Orange are smaller than a Musk Melon vine, but they require about the same cultivation. It is a wonderful yielder, producing fruit about the size of an orange of a bright yellow color, somewhat russeted. In the west where fruit is scarce, this Orange is rapidly becoming popular. For sweet pickles, pies or preserves they are splendid and can be used in many ways. Pkt., 4c., 3 pkts., 10c., 6 pkts. 18c., oz. 20c., 2 ozs. 35c.

SQUASHES

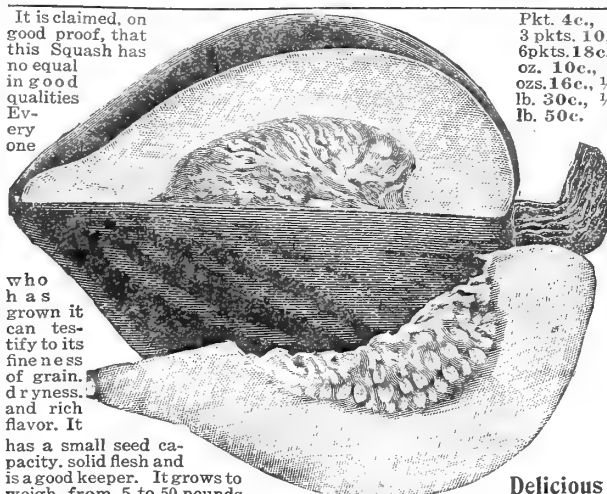

Improved Hubbard—

This is acknowledged the very best Squash in cultivation and is planted by more people than all other varieties put together. It is a favorite in nearly all eastern markets; in fact there is always a ready market everywhere for this favorite sort, and we have the choicest type of Hubbard Squash grown. The flesh is of a rich orange or yellow color, is very fine grained, solid; dry and sweet. The rind or shell is very hard and tough, making it an excellent keeper. The color varies somewhat, being sometimes green and sometimes orange or reddish when matured, but the color and quality of the flesh is unchangeable, always a deep yellow or orange. We offer a very choice strain of seed. Pkt. 4c., 3 pkts., 10c., 6 pkts., 18c., oz. 10c., 2 lbs. 30c., 1/2 lb. 50c., 1 lb. 80c.

Improved Hubbard Squash

1 8c., 1/4 lb., 30c., 1/2 lb. 50c., 1 lb. 80c.

It is claimed, on good proof, that this Squash has no equal in good qualities. Every one

Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 10c., 2 lbs. 30c., 1/2 lb. 50c.

MAMMOTH WHALE SQUASH—A new Squash from France, often growing over three feet in length, a dark slate color; specimens have been grown to weigh over 100 pounds; flesh is solid, a beautiful orange color, of excellent quality and a remarkable keeper; very shy seeder.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 15c., 2 lbs. 25c.

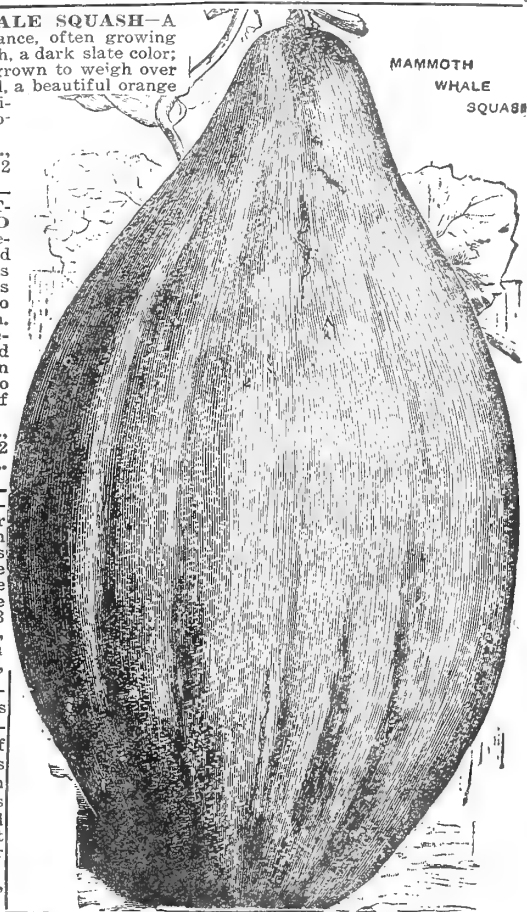

MAMMOTH WARTED HUBBARD SQUASH—This is a special strain of the Hubbard Squash, noted for its enormous size. It sells well in any market, no matter what competition. It is equal in every respect to the Improved Hubbard and we can highly recommend it to all those who are fond of extra large Squashes.

Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 10c., 2 lbs. 30c., 1/2 lb. 55c., 1 lb. \$1.00.

GOLDEN HUBBARD—This is another strain of the well known Hubbard which produces squashes of a deep orange yellow color, while the quality is equal to the Hubbard. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 10c., 2 lbs. 30c., 1/2 lb. 30c., 1 lb. 50c., 1 lb. 90c.

Italian—This Squash is similar to the Cocozelle except it only grows to half the size and never exceeds 8 inches in length. When stewed it is as delicious as the Marrow Squash, and when fried as Egg Plant is equal to it, if not better than Egg Plant itself.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 15c.

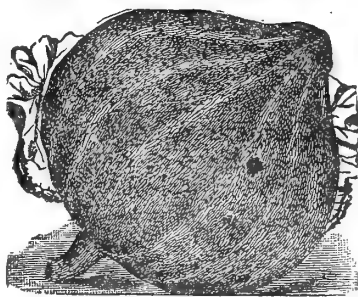

MAMMOTH WHALE SQUASH

who has grown it can testify to its fineness of grain, dryness, and rich flavor. It has a small seed capacity, solid flesh and is a good keeper. It grows to weigh from 5 to 50 pounds and has been known to keep in good condition through the winter and up to April 10th. We are sure this Squash will be highly appreciated by everyone who grows it and we recommend it for your garden.

Delicious

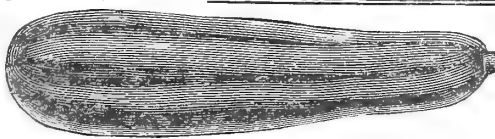

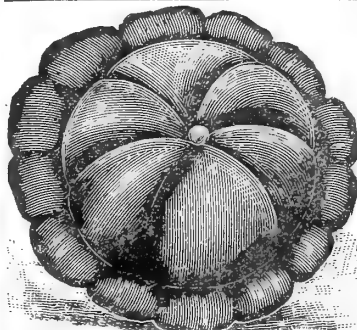

FAXON'S NEW BRAZILIAN—This is a long keeping variety and an excellent winter Squash. Fruits are oval in shape, being larger on the stem end. The outside color varies from dark green to orange; is very prolific in habit and the quality is dry and rich. The flesh is thick, rich and sweet, and a very fine grain. It is a good keeper. Pkt. 4c., 3 pkts., 10c., 6 pkts. 18c., oz. 10c., 2 lbs. 16c., 1/2 lb. 25c., 1 lb. 45c., 1 lb. 80c.

Faxon's New Brazilian Squash

Golden Custard Squash

This is a standard early summer variety and is much larger than any of the other scalloped sorts, frequently growing two feet in diameter. The habit of growth is upright regular bush form; fruit matures early, very flat, nicely scalloped, color a dark rich golden yellow, flesh pale yellow and fine flavored. It is an invaluable sort for market gardeners. The handsomest of scalloped Squashes. Give it a trial this season. Pkt. 4c., 3 pkts., 10c., oz. 8c., 2 lbs., 15c., 1/4 lb., 25c., 1/2 lb. 40c., 1 lb. 75c.

Italian Squash.

Cocozelle Bush—

This is an early Squash, very prolific and has given great satisfaction. The originator says: "The point in favor of this Squash is earliness; it is easier to cultivate than a vine. If picked as soon as matured, it will continue to bear until killed by frost. It is exceedingly hardy, persistently living in dry soil without water. When watered it grows and matures a big crop. It grows just the same as the ordinary Summer Squash, requires the same kind of soil and tillage, and begins to bear early. It is used in the green state and is better than Egg Plant when nicely fried in butter and well seasoned. It makes an excellent stew." We can highly recommend this Squash. We are unable to offer larger quantities of seed than as follows; Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 15c.

tured, it will continue to bear until killed by frost. It is exceedingly hardy, persistently living in dry soil without water. When watered it grows and matures a big crop. It grows just the same as the ordinary Summer Squash, requires the same kind of soil and tillage, and begins to bear early. It is used in the green state and is better than Egg Plant when nicely fried in butter and well seasoned. It makes an excellent stew." We can highly recommend this Squash. We are unable to offer larger quantities of seed than as follows; Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 15c.

Our Squash Mixture—

Many desire to raise all the different varieties and we have therefore included in this Mixture all the early and late sorts which will produce Squashes of all the different shapes, colors and sizes imaginable, and is a profitable collection to grow by all those who have a limited space. Pkt. 4c., 3 pkts. 9c., 6 pkts. 16c., oz. 7c., 2 lbs. 12c., 1/4 lb. 20c., 1/2 lb. 30c., 1 lb. 55c.

Giant Summer Crookneck—This is the best early Squash, nearly twice as large as ordinary Crooknecks. It is of dwarf bushy habit and extremely productive. The flesh is creamy yellow, dry, of best flavor. Pkt. 4c., 3 pkts. 9c., 6 pkts. 16c., oz. 8c., 2 lbs., 15c., 1/4 lb., 28c., 1/2 lb. 50c., 1 lb. 80c.

One of the Largest
Squashes ever grown

Often weighs
from 150 to
200 pounds.

The Jumbo
of the
Squash Family

THE GIANT
Squash

This is the largest of all Squashes and will be found a perfect wonder if planted in a good location and given proper care. It has become a great curiosity, as well as very valuable everywhere grown. The illustration gives a good idea of the shape, color being a bright yellow. The skin is smooth, flesh quite thick, quality good. Very prolific variety, nothing can equal it to grow for exhibition at fairs, specimens often weighing over 250 lbs. each. It is a good winter keeper and any person who wants to have the wonder of their neighborhood should plant a packet of this seed. Plant a few hills. It will be a great surprise. Pkt., 5c., 3 pkts., 12c., 6 pkts., 20c., 15c., 2 ozs. 25c., 1/4 lb. 40c.

Nothing
can equal it
on earth

WORLD'S GIANT TOMATO (See Front Cover)

We believe this is the most wonderful Tomato ever introduced. Our customers are having marvelous results everywhere, and so far Mr. J. B. Gilbert, of Richmond, Ind., reports the greatest success and sends us a photograph of five plants grown on his grounds attaining the enormous height of 20 feet. We show a reproduction of this photograph on the front cover of this Catalogue.

This is a tomato worth growing, for it possesses every good quality to be found in a tomato. The immense fruits are always perfect in form, and are very heavy and solid all through, containing but few seeds, while the skin is exceedingly firm. Taking all points into consideration, we think it is the King of all Tomatoes.

What Mr. Gilbert has accomplished can be done by anyone who will give the plants proper attention. The following is what he says about it:

"I have five plants growing, as shown in the photo. sent you. In the spring, when I set these plants, I got three telephone poles 24 ft. long and set them in the ground 30 inches, leaving them over 20 feet high, then took slats and nailed to them, and kept the vines tied to these slats, and by September 2nd they were 16 feet high, entirely covering lattice work 26 feet long, and hanging very full of the largest and finest tomatoes you ever saw. Had one cluster of six weighing 10 1/2 lbs., and quite a number 14 to 16 inches in circumference. Hundreds of people come to see them. They are the town's talk.

The photograph I sent you was taken October 10th. I weighed the tomatoes from the date of the first picking, which was July 4th to the last picking, which was on October 14th, and in all I gathered and weighed from the five vines 1035 lbs. Who can beat that?"

We have many reports from all parts of the country praising the Giant Tomato, but for lack of room cannot print them on this page. If you write to Mr. Gilbert or any of the others please enclose a 2c stamp if you expect a reply.

The following is what a few of our customers say about this Giant Tomato:

Harry Hodgins, Richmond, Ind., writes: "I saw one of your seed catalogues today and the photograph of the tomato vines of J. B. Gilbert of N. 15th St. I can vouch for the truth of that, because I passed his home every day and had the pleasure of seeing the vines from the time they started until the frost came. I have a brother-in-law in Tennessee who is quite an extensive truck gardener, and I wish you would send him one of your catalogues, as I know it will be of interest to both of you."

J. C. West, M. D., Kemblesville, Pa., writes: "The tomato seeds you sent me, 'The Gigantic,' produced as fine an article as ever grew, large, smooth, solid, good bearer and but few seeds."

Ben Robertson, Berclair, Miss., writes: "The Gigantic Tomato gave perfect satisfaction. I never saw anything like it in all my days, and all who have seen it are carried away with it."

H. E. Johnson, Auburn, Me., writes: "The World's Giant Tomato, raised from seed obtained of you, produced the nicest, smoothest and best Tomatoes I ever raised."

Ed. Carlton, Nashville, Tenn., R. F. D. 11, writes: "The Gigantic Tomatoes were the finest I ever saw."

T. A. Biggs, Nashville, Tenn., writes: "Your Gigantic Tomatoes were a perfect success. Six plants more than furnished our table with the finest tomatoes I ever ate."

Mira F. Shenk, Lancaster, Pa., writes: "I had very good success with the Gigantic Tomatoes. I enclose you photograph showing plants when they were 8 1/2 feet high. We had tomatoes all the season."

Andrew M. Cox, Kasson, W. Va., writes: "The sample packet, Gigantic Tomato, sent me contained twenty-eight seeds, which were sown, and we have 26 nice thrifty plants. All your seeds are first-class."

A trial will convince you that this is the Greatest of all Tomatoes, and orders for seed should be sent direct to us to be sure of the genuine stock. Pkt. 10c., 3 pkts. 25c., 6 pkts. 40c.

EARLY EARLIANA

—Here is a variety that has become very popular with many growers of tomatoes for early market. It certainly is very early and highly praised by everyone who has grown it. It is very productive, a single plant producing a great abundance of fruit as shown by the illustration; always of good size and a handsome red color. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 14c.; ½ oz., 15c.; oz., 25c., ¼ lb. 80c., ½ lb. \$1.40.

CHALK'S EARLY

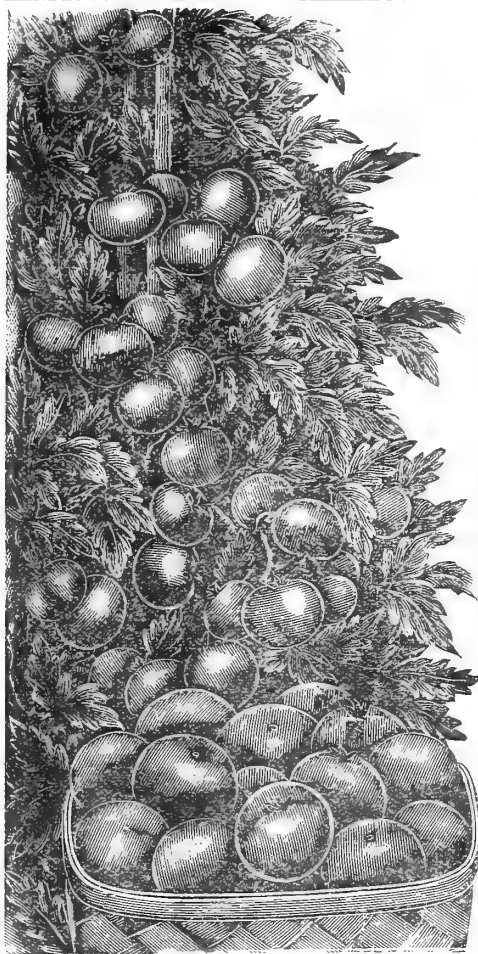

JEWEL—This variety matures nearly as early as Earliana. The fruits are larger and heavier and certainly is a valuable early all purpose, bright Red Tomato. It produces its fruit very abundantly throughout the season. We can offer a limited quantity of choice seed, Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.; ½ oz., 15c.; oz., 25c.

THE PONDEROSA

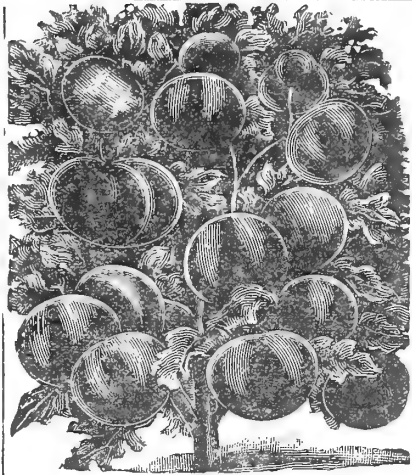

—This large variety has been extensively advertised as one of the largest, most beautiful and most productive Tomatoes ever grown. The color is a rich bright crimson, skin is thin, but very tough. Its fruiting capacity is enormous. Excellent flavor. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.; ½ oz., 15c.; oz., 25c.

DWARF TREE

TOMATO—This splendid Tomato owes its wide popularity to its strong, vigorous, upright growth, producing its fruit well above the ground, and the time it takes to mature it. We consider it the best all around Tomato of its class under cultivation. It produces an abundance of good size fruit of a beautiful red color which are always very smooth and of excellent quality. The plants grow very strong, stiff stalks, which hold up the enormous weight of fruit. It is very early and all who once grow it will be so well pleased they will have no others. Try it this year. Pkt. 4c., 3 pkts., 10c., 6 pkts., 18c., ½ oz. 20c., oz. 35c.

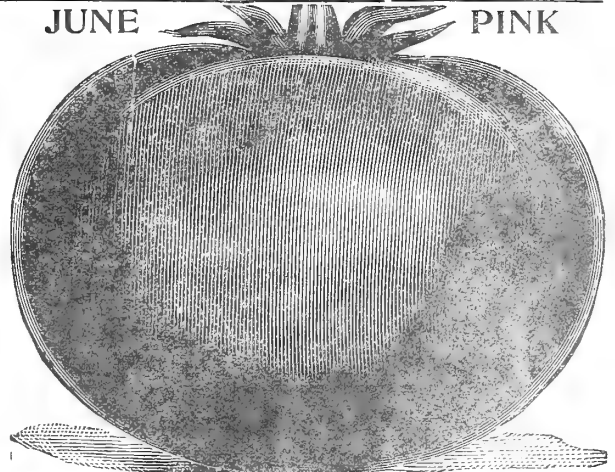

Early Earliana.

JUNE

PINK

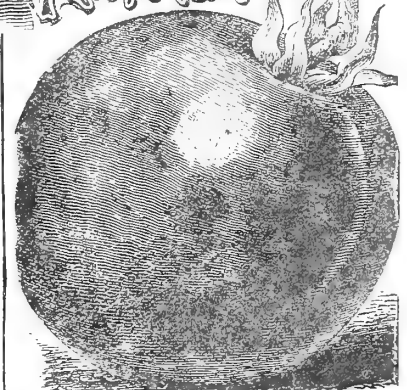

JUNE PINK—This variety has only recently been introduced; is a deep pink or purplish color and somewhat resembles Earliana in growth and fruiting. The plants develop large

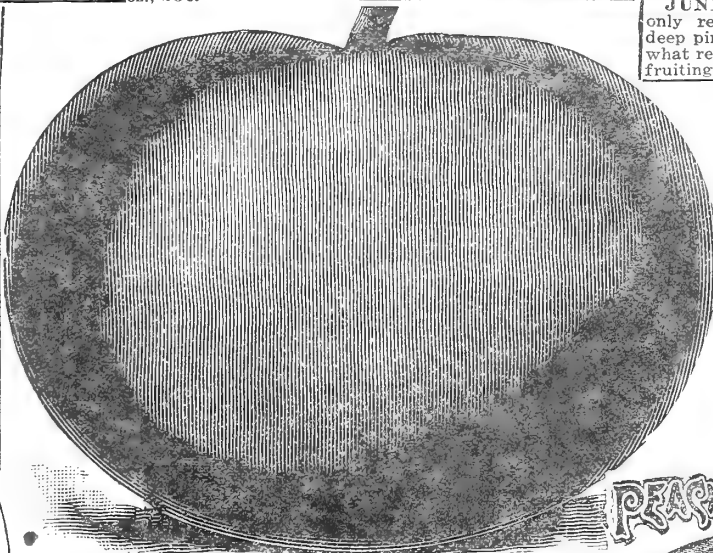

clusters of blossoms when very small, or very soon after planted in the garden. The fruits are borne in clusters of three, four and five; measuring from 3 to 5 inches in diameter. The flesh is sweet and of mild flavor. Try June Pink this season. Pkt., 4c., 3 pkts., 10c.; 6 pkts., 18c., ½ oz. 15c., oz. 25c.

PEACH TOMATO—This is a handsome variety, resembling a peach in color, grows from 2 to 3 inches in diameter. For eating out of the hand it is excellent. On account of the excellent quality and handsome appearance, we can highly recommend this to grow in any garden. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

PEACH TOMATO

The Bountiful Tomato

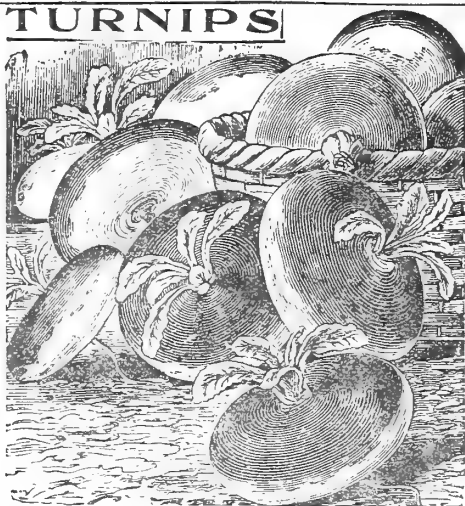

THE BOUNTIFUL—If you only grow one variety of Tomatoes this year let it be the Bountiful. The introducer claims that it came from a seedling. It was quickly discovered to be an upright, strong, early blooming, quick bearing, and extremely vigorous sort. If planted in any good garden soil will grow very fast and upright as will be seen by the engraving. It begins to fruit early and continues throughout the season, producing a great abundance of handsome fruit. This fruit if picked quite green will ripen up evenly very quick, which makes it an excellent sort for shipping. The flesh is very solid and fine grained. It is almost impossible to fully describe the Bountiful Tomato, and it should be grown to be appreciated. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

Our Great Tomato Mixture

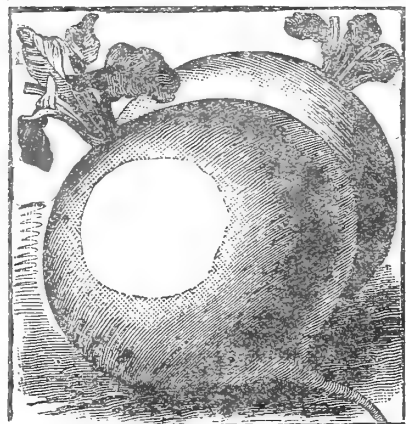

All those who want a variety of all the earliest, medium and late sorts should order a packet of our Mixed Seed. It contains everything we offer and will be a great curiosity in any garden. All the different Tomatoes will be produced. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 15c.

See Inside Front Cover for 4 GREAT TOMATOES shown in colors.

TURNIPS

PURPLE TOP STRAP LEAF—The bulb is very flat, of medium size and quite smooth, with a bright purple top; very fine grained. Per pkt., 4c.; 3 pkts., 8c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 35c.; lb., 60c.

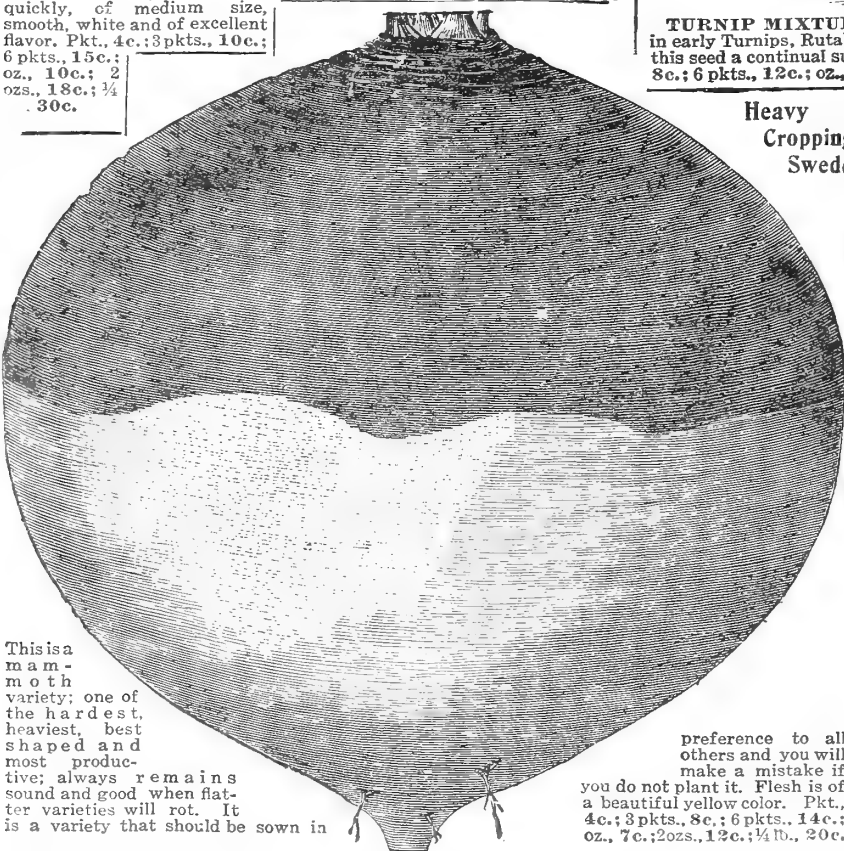

WHITE EGG—A variety that produces egg shaped root with thin white skin, always solid, sweet and a good keeper. Excellent for early or late sowing. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 15c.; oz., 8c.; 2 ozs., 15c.; ¼ lb., 25c.

IMPROVED AMERICAN PURPLE TOP

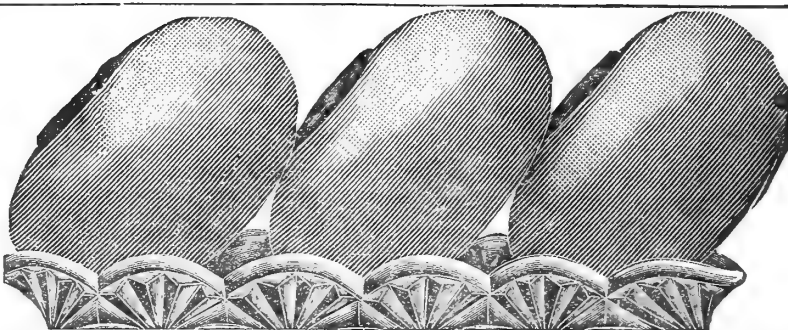

One of the best varieties, extra fine quality. It keeps hard and brittle until summer and is one of the largest yielding varieties. It is good for table or stock feeding. When you want to grow an all around high grade Rutabaga be sure you plant this one. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 15c.; oz., 7c.; 2 ozs., 12c.; ¼ lb., 20c.

EARLY SNOWBALL OR SIX WEEKS—This is one of the best extra early Turnips in cultivation. The bulbs grow very

quickly, of medium size, smooth, white and of excellent flavor. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 15c.; oz., 10c.; 2 ozs., 18c.; ¼ lb., 30c.

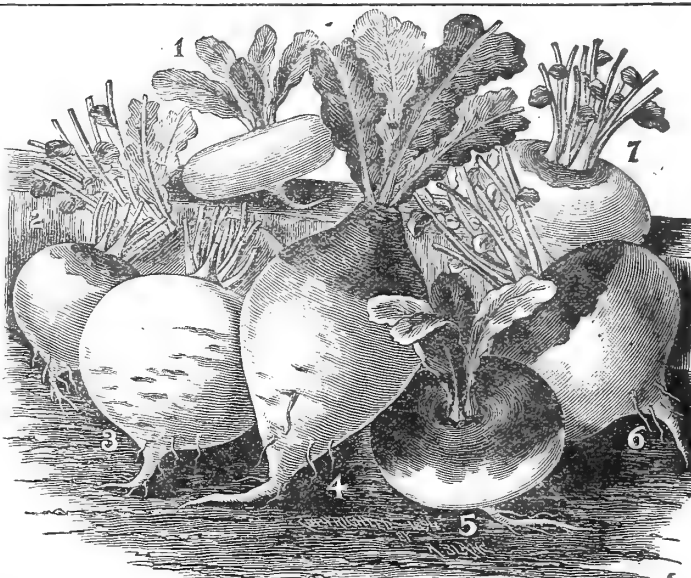

This is a mammoth variety; one of the hardest, heaviest, best shaped and most productive; always remains sound and good when flatter varieties will rot. It is a variety that should be sown in

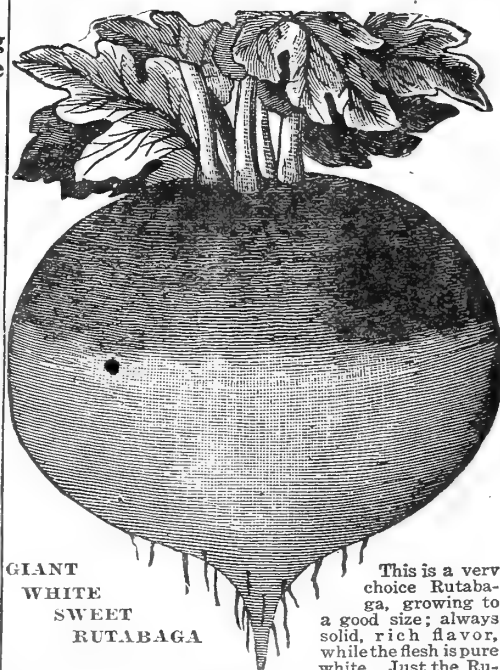

EARLY WHITE FLAT DUTCH—This is another early variety, which grows to a medium size very quickly. It has a clear white skin and is always choice for table use, and is one of the very best varieties for spring sowing. Our Early White Flat Dutch seed this season is the finest we have ever produced, being of strong vitality. Give it a trial. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 14c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 35c.; lb., 60c.

EXTRA EARLY MILAN—Three weeks earlier than other Turnips of its class. It is very hard and solid, flesh pure white, fine grained, brittle and sweet. Tops are small and upright. Roots smooth and flat. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.; oz., 12c.; 2 ozs., 20c.

TURNIP MIXTURE—This splendid Mixture contains all the leading varieties in early Turnips, Rutabaga and Swedes; all early and late sorts, and by sowing this seed a continual supply may be had throughout the season. Pkt., 3c.; 3 pkts., 8c.; 6 pkts., 12c.; oz., 6c.; 2 ozs., 10c.; ¼ lb., 18c.; ½ lb., 30c.; lb., 50c. post'd

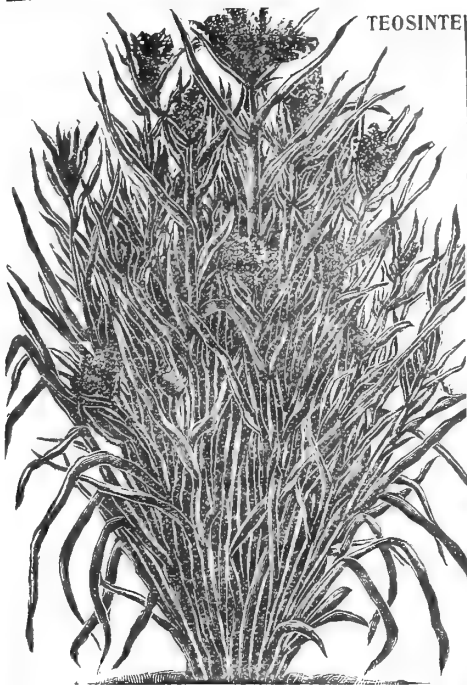

Heavy Cropping Swede

GIANT WHITE SWEET RUTABAGA

This is a very choice Rutabaga, growing to a good size; always solid, rich flavor, while the flesh is pure white. Just the Rutabaga to grow in the garden to get a big yield from a small plot of ground. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 14c.; oz., 8c.; 2 ozs., 16c.; ¼ lb., 25c.; ½ lb., 40c.; lb., 75c.

preference to all others and you will make a mistake if you do not plant it. Flesh is of a beautiful yellow color. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 14c.; oz., 7c.; 2 ozs., 12c.; ¼ lb., 20c.

AMERICAN TEOSINTE

A forage plant that was brought to this country some years ago and has been grown very successfully. It resembles corn somewhat, but has a much broader leaf and sweeter sap. It is a very rapid growing plant after it has attained a height of 5 or 6 inches and grows to a height of 11 feet. It suckers more than any other foliage plant; often producing 25 to 30 stalks, and as many as 75 stalks have been grown from one kernel of seed. It can be cut when two or three feet high, after which it will rapidly grow up and as many as four crops have been cut during a season. The amount of forage per acre from this plant is something immense; in many cases from 250 to 300 tons. It should be planted in hills two feet apart each way and three pounds is sufficient for one acre.

Pkt., 4c.; 3 pkts., 8c.; 1 oz., 9c.; 2 oz., 16c.; ¼ lb., 30c.; ½ lb., 45c.; 1 lb., 75c.; 3 lbs., enough for one acre, \$2.00 postpaid.

Brazilian, or Stooling Flour Corn.

BEARDLESS BARLEY

Beardless Barley is certainly a wonderful variety and is greatly appreciated and highly recommended by every one who has grown it. In harvesting, threshing, etc., it is easier and much more desirable to handle than common bearded sorts, being entirely free from those long, harsh, sticky beards so vexing and unpleasant to contend with. This feature alone is of vast importance, but when we consider that this grand, new variety will yield many more bushels per acre of a larger, plumper berry of a better quality it will readily convince every one that this variety far surpasses any other that has ever been offered and in all respects it is certainly the most valuable barley on the market. There is no better for either feeding or marketing purposes and in fact, it is our claim that there is none just as good. We have a very choice lot of this seed to offer this season, and we are in hopes that every customer will give it a trial.

Price of our Great Beardless Barley--
Pkt., 5c.; 3 pkts., 12c.;
lb., 20c.; 3 lbs., 50c.,
postpaid. By Express or
Freight, peck, 45c.; ½
bu., 85c.; bu., \$1.50;
2½ bu., \$3.50.

MORTGAGE LIFTER OATS

The Mortgage Lifter Oats have gained a splendid reputation in every section where they have been grown.

They are exceptionally famous for hardiness, productiveness, weight and quality and are a vigorous grower. The straw is stiff, holding the heavy heads which average nearly a foot in length, better than any other variety we have ever seen. These Oats are exceptionally free from rust and ripen very early. The straw is very long and ripens evenly all through the field. The hull is thin, while the grain is white, plump and heavy, averaging 40 pounds per measured bushel. We have an extra nice lot of re-cleaned seed to offer, which will give our customers the greatest possible satisfaction on account of its hardiness, enormous yielding qualities and heavy plump white grain. Sow a field of Mortgage Lifter Oats this season and you will be in position to supply your neighbors with seed oats next year at a good price. Pkt., 5c.; 3 pkts., 12c.; lb., 18c.; 3 lbs., 45c., postpaid. By Express or Freight, pk. 40c.; ½ bu., 65c.; bu., \$1.00; 2½ bu., \$2.40.

BRAZILIAN OR STOOLING FLOUR CORN

This Corn yields four times more corn to the acre than any common corn, and a great deal more in shelled corn. It stools like wheat, each kernel producing from 4 to 8 stalks with from 3 to 4 ears on each stalk, about 5 to 6 inches in circumference and from 9 to 12 inches in length of pure white kernels. It is the best variety for ensilage. It contains a larger percentage of starch than any other corn, and when ground and bolted by the same process as wheat, gives a better bread and biscuit flour than can be made from wheat. It is also used largely as roasting ears. Only two kernels should be planted to the hill, and afterward thinned to one and cultivate the same as other corn.

Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.;
½ pt., 25c.; pt., 40c., postpaid.

Mortgage Lifter Oats.

White Tartar Oats

The White Tartar Oats grow tall stiff straw often measuring four or five feet in height. The oats have immense heads of grain often measuring a foot long, branch freely and lean a little to one side, always well filled. The white seed is rather short but large and plump with thin hulls, making grain that usually weighs 40 pounds or more per measured bushel. One hundred bushels by measure often weighs 130 to 140 bushels.

From our experience with White Tartar it is a great improvement over common oats and will yield from 20 to 30 bushels more per acre. In many sections, when once grown, farmers discard all other varieties, sowing White Tartar exclusively. We have a very good supply of choice seed to offer at the following prices:

Pkt. 5c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, pk. 45c., $\frac{1}{2}$ bu. 70c., bu., 32 lbs., \$1.25, 10 bu. \$11.00.

Canadian White Cluster Oats

Canadian Cluster is very popular with farmers in a great many sections because it always yields so well. It makes a tall stiff straw that does not smut or lodge and produces enormous yields of pure white grain. It has a great stooling habit and is excellent in sections where oats are grown for hay. The heads are large, long, branch freely, leaning to one side, and always well filled with plump, handsome white kernels, which are very heavy. Canadian Cluster is a great yielder and gives good satisfaction.

Choice seed, pkt. 5c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, pk. 45c., $\frac{1}{2}$ bu. 70c., bu., 32 lbs., \$1.25, 10 bu. \$11.00.

WHITE TARTAR OATS

EGYPTIAN WHEAT CORN

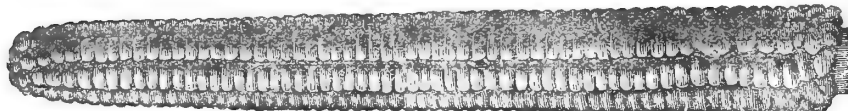

A Great Novelty from India

This is a non-saccharine Sorghum cultivated very extensively in India and recently brought to this country and found to yield very valuable crops. As a grain it is much more valuable than Kafir Corn, for it yields a larger amount of seed. It is of stooling habit, producing from three to six stalks from a single grain. The heads grow similar to Broom Corn, forming large heads of round, plump, white seed. It is an excellent feed for horses and cattle, and for chicken feed it is simply unexcelled. When ground it makes excellent flour for pancakes. Besides, it can be popped as popcorn, as it has a surprisingly good flavor, very tender and crisp. It is more of a grain crop than forage, forming double the seed of Kafir Corn and more than any Cane or Sorghum plant that we know of. In India this grain is grown under the name of "Shallu" and in this country is also known under the names of "California Rice Corn," "California Wheat," and "Egyptian Wheat." It should be sown in rows 3 feet apart, 3 to 5 pounds to the acre. We hope all of our customers will try it this year. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., lb. 30c., 3 lbs. 80c., postpaid.

EXTRA SELECTED SEED CORN

EARLY 8-ROWED YELLOW FLINT CORN

This is a splendid Early 8-rowed Yellow Flint variety. It is very early, ears 12 to 14 inches long, color a rich glossy yellow. Stalks grow to a good height and bear from 2 to 2

large ears under good cultivation. It is claimed that as high as 240 bushels of ears have been grown from one peck of corn, which fully matured in 85 days from planting. Everyone who wants a splendid Yellow Flint Corn that will mature in northern climate as far north as Canada can make no mistake in planting this one. Pkt. 5c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, pk. 65c., $\frac{1}{2}$ bu. \$1.25, bu. \$2.00, 2 bu. \$3.75.

Mortgage
Lifter

Yellow
Dent
Corn

MORTGAGE LIFTER YELLOW DENT CORN

This new and distinct Yellow Dent Field Corn was introduced several years ago, and it has given our customers great satisfaction wherever grown.

A large corn grower in Loraine Co., O., says: "While visiting the World's Fair I procured a few grains from an ear which was a sport found in a field in Iowa, and pronounced it the most beautiful ear of corn at the fair. That is how this splendid variety found its way into the east, and from these few grains we have bred out this Yellow Field Corn, which we do not think can be surpassed. The grains are the largest of any large ear variety in cultivation. The stalks grow very quick, rank and green, and will stand storms to a remarkable degree. Those who have grown the Mastodon, Chester County Mammoth, Klondike, Leaming, Iowa Gold Mine, Champion White Pearl, Golden Superior, Golden Beauty, White Cap Yellow Dent and Early Butler say that this corn will out-yield any of them. We have records of fields producing 107 bushels and 118 bushels of corn per acre. The largest grower of seed corn in America says it will mature in from 85 to 95 days, and has 14 to 24 rows on a cob and is the longest and largest of any early corn in cultivation." Describing it he says: "Mortgage Lifter is the most beautiful Yellow Dent Corn ever seen. It will mature in 85

to 95 days and it has the largest grains of any early yellow corn in cultivation. It grows from 7 to 11 feet high, strong, rank and quick, and stands storms remarkably. The ears are of a very large size and will outyield any other corn grown. It husks and shells easily, brings the highest market price, as it will sell for seed on sight. It will cure out in the shock where large cob varieties will mold and spoil."

The above is what the originator said of this variety, and while thousands of bushels of this sort have been sold for seed, we are glad to say that our customers are much pleased with it and we believe it a hard variety to surpass. We have a very fine stock of extra choice seed which we can supply our customers with this year, at the following prices:

Pkt. 6c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, 4 qts. 35c., pk. 55c., ½ bu. 85c., bu. \$1.60, 2 bu. \$3.00, sacks free.

IOWA GOLD MINE

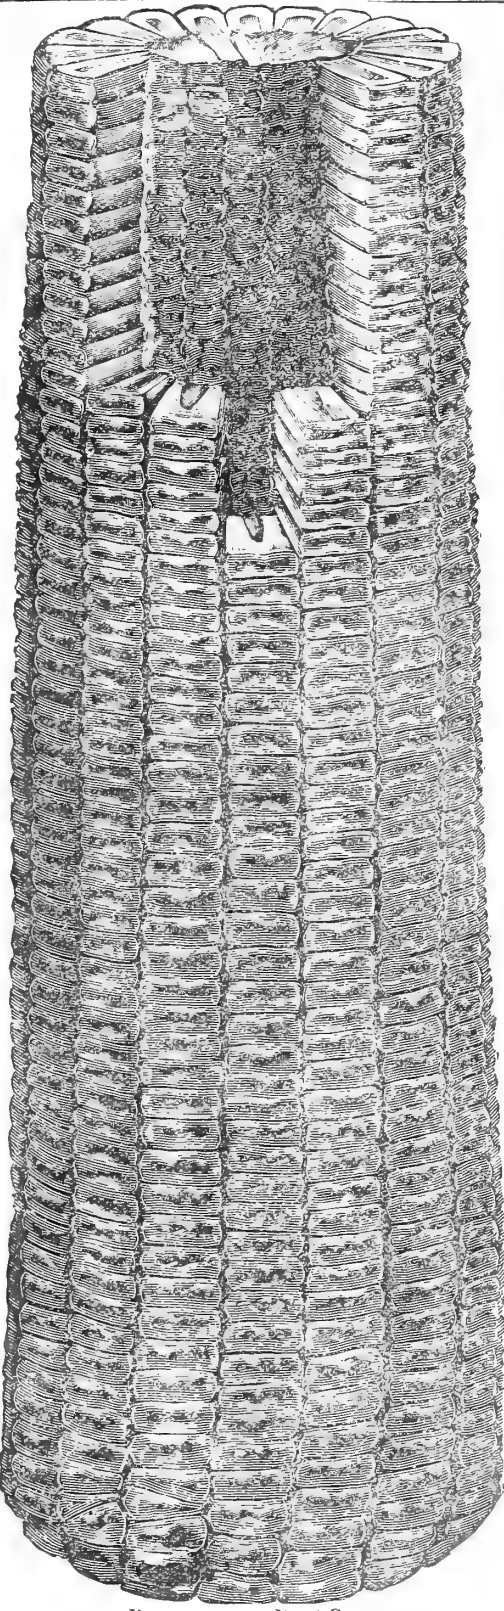

This is a very popular Yellow Dent Corn, and preferred by many to any other sort. We have found that it is a first-class variety and we have taken particular pains in selecting our seed stock. It is early, ripening a few days later than Pride of the North, ears are of good size, symmetrical and the color is a bright golden yellow. Grains very deep, cob small, which enables it to dry out quickly. Seventy pounds of Corn on the ear make 62 to 63 lbs. of shelled Corn, and usually outweighs common varieties on an equal quantity. It matures perfectly even as far North as Michigan. We can recommend Iowa Gold Mine and offer choice seed stock as follows: Pkt. 6c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, pk. 45c., ½ bu. 80c., bu. \$1.50, 2 bu. \$2.75.

REID'S YELLOW DENT

This is a very popular variety and one of the handsomest sorts grown, and is a great prize winner. It is a light golden color, ears symmetrical shape the entire length and the cob carries a large amount of Corn, shelling at least 85 per cent grain. The ears are always well filled from butt to tips. It is a vigorous grower, producing an abundance of foliage, which makes it heavy in tonnage to the acre. We have taken particular pains in selecting our seed crop and can offer it as follows: Pkt. 6c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, pk. 45c., ½ bu. 85c., bu. \$1.60, 2 bu. \$3.00.

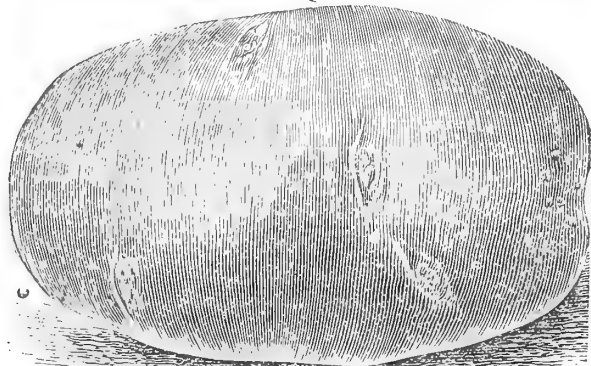

PRIDE OF THE NORTH

This is a reliable variety, very desirable for an early Dent Corn, suitable for main crop as far North as Michigan, Minnesota and Wisconsin. We offer a very choice strain which has been carefully selected and much superior to the ordinary Pride of the North on the market. The color is deep yellow, grains very deep with a small cob. Grain narrow, generally about 18 rows, produces two ears to the stalk and makes a good yield. It is very hardy and will stand cold weather and poor land about as well as Flint Corn. All those who want a good early Dent variety should plant this one. Pkt. 6c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, pk. 45c., ½ bu. 85c., bu. \$1.60 2 bu. \$3.00.

Reid's Dent Corn

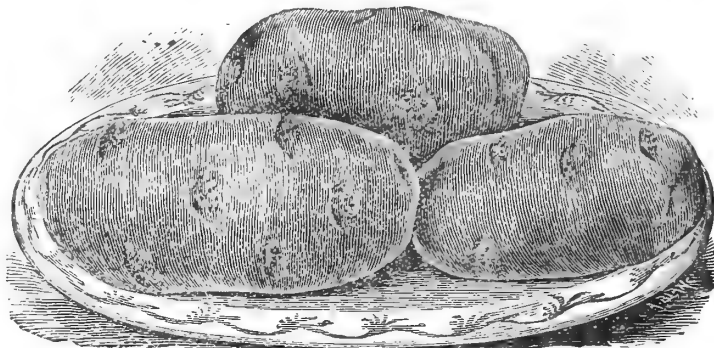

NEW POTATO--QUICK RETURNS

This excellent new potato is exactly what its name implies (Quick Returns) and it is what every one who plants potatoes, wants. The illustration gives a perfect idea of the appearance of this new potato, its desirable shape, shallow eyes and uniform size. Quick Returns is a heavy cropper, producing more large, smooth potatoes of the most excellent cooking quality than any other early sort. From the time the sprouts appear above ground the tops grow very rapidly, and in a short time the foliage has attained its full growth and the small tubers have already begun to form. It is a strong vigorous grower, resists blight and drouth remarkably, is not affected with scab and is noted for producing a larger per cent of saleable potatoes per acre than any other variety. Space in this catalogue will not permit us to give this great potato the recommendation it deserves.

PRICES—Good strong eyes, 25 for 30c.; 50 for 55c.; 100 for \$1.00; 250 for \$2.25, by mail post paid. By Express, not prepaid, peck, \$1.00. (25 Potato Eyes has produced two bushels of good Potatoes.)

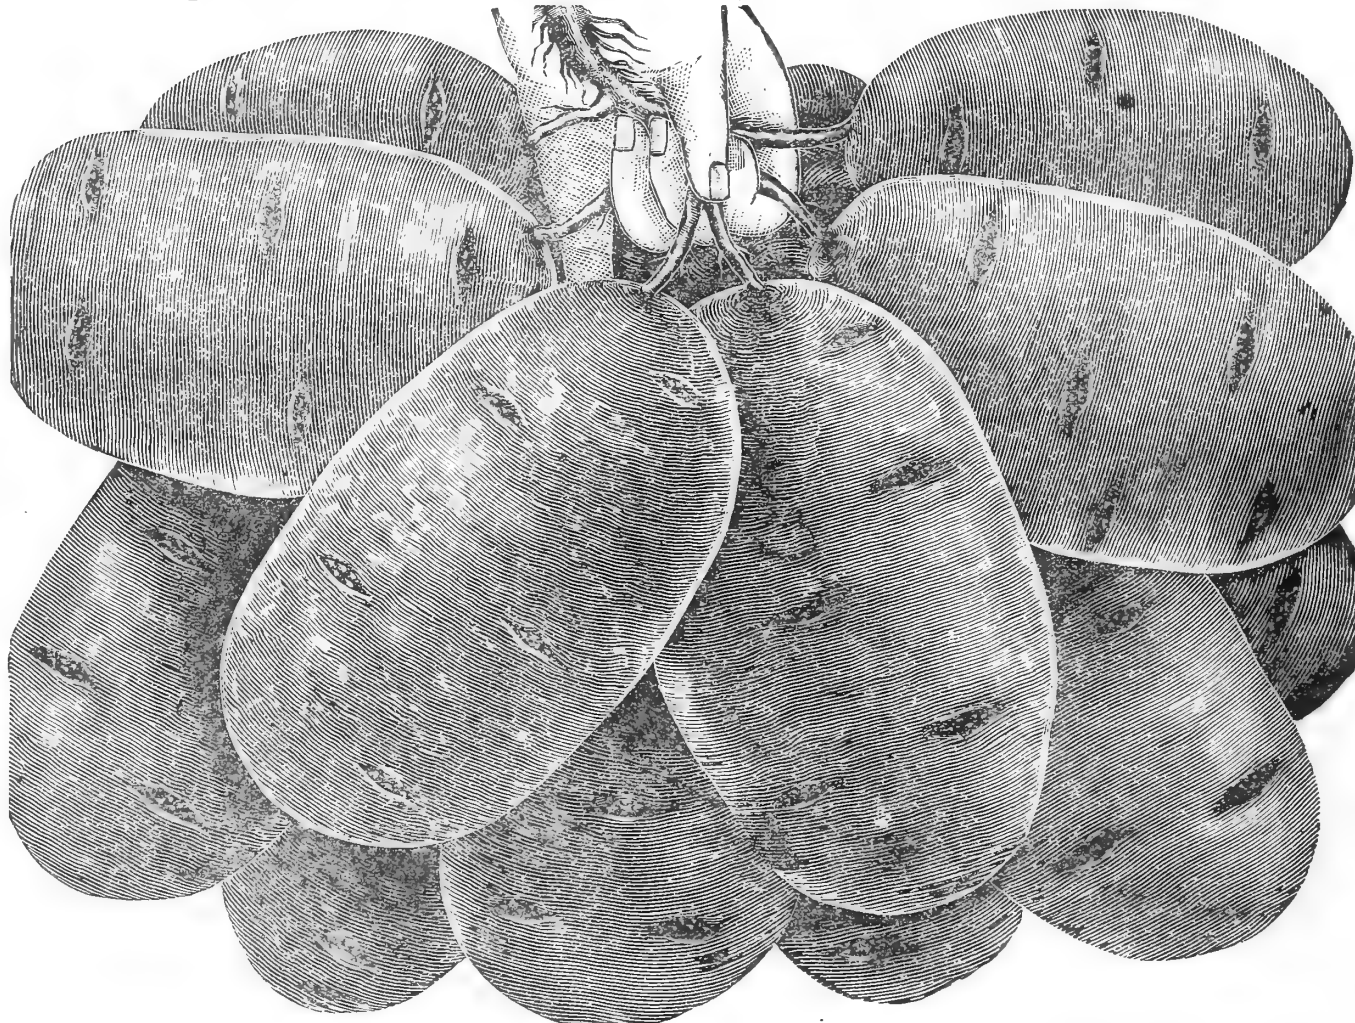

EARLY FORTUNE POTATO

This is a wonderful variety and has made a great record wherever grown. It was introduced several years ago and all who have planted it say that it is one of the best early potatoes of the rose type they have ever grown. It is a very strong grower, producing tubers uniform in size, smooth, clean and free from prongs, which grow compactly in the hill. The eyes are shallow almost flush with the skin and the cooking qualities are excellent even when first dug. It is also a remarkable keeper. We believe it will produce more potatoes to the acre than any other early potato of its class we know of, and if you have never grown Early Fortune you should do so this year.

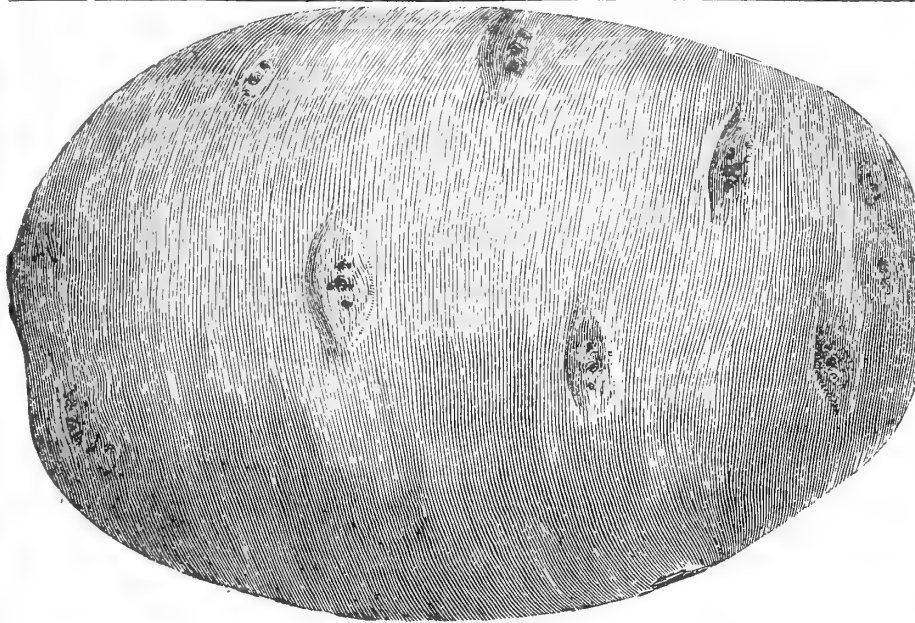

PRICES—Good strong eyes, 25 for 25c.; 50 for 45c.; 100 for 80c., postpaid. By express or freight, (not prepaid), pk., 50c.; ½ bu., 90c.; bu., \$1.50.

OUR 4TH OF JULY POTATOES

This Potato is without question one of the best early sorts ever introduced. Its enormous yielding qualities and perfect shape make it one of the very best early varieties for family garden and exceptionally valuable for the farmer or market gardener. The tubers are always smooth, clean and free from prongs and scab. They grow compactly in the hill, eyes are shallow, and they are very fine grained. Cooks dry and mealy even when first dug, retaining its cooking qualities and keeping sound and perfect until late in spring. This Potato is a strong, vigorous grower and will produce a fine crop of large smooth potatoes when other varieties are ruined by drought and blight. It is one of the quickest sellers on the market, owing to its desirable shape and handsome appearance. Our supply of this great, Early Potato is limited this season and our customers should place their orders early in order to make sure of securing a supply to plant. Do not fail to plant some of Fourth of July and you will surely have new potatoes for your Fourth of July dinner.

PRICES—25 eyes for 40c.; 50 eyes for 75c.; 100 eyes for \$1.25, postpaid. By express or freight, not prepaid, pk. \$1.00; ½ bu. \$1.75. This is the cheap way to get a start in new Potatoes. Our Eyes are carefully cut and packed and safe arrival guaranteed. Several bushels should be grown from 100 eyes.

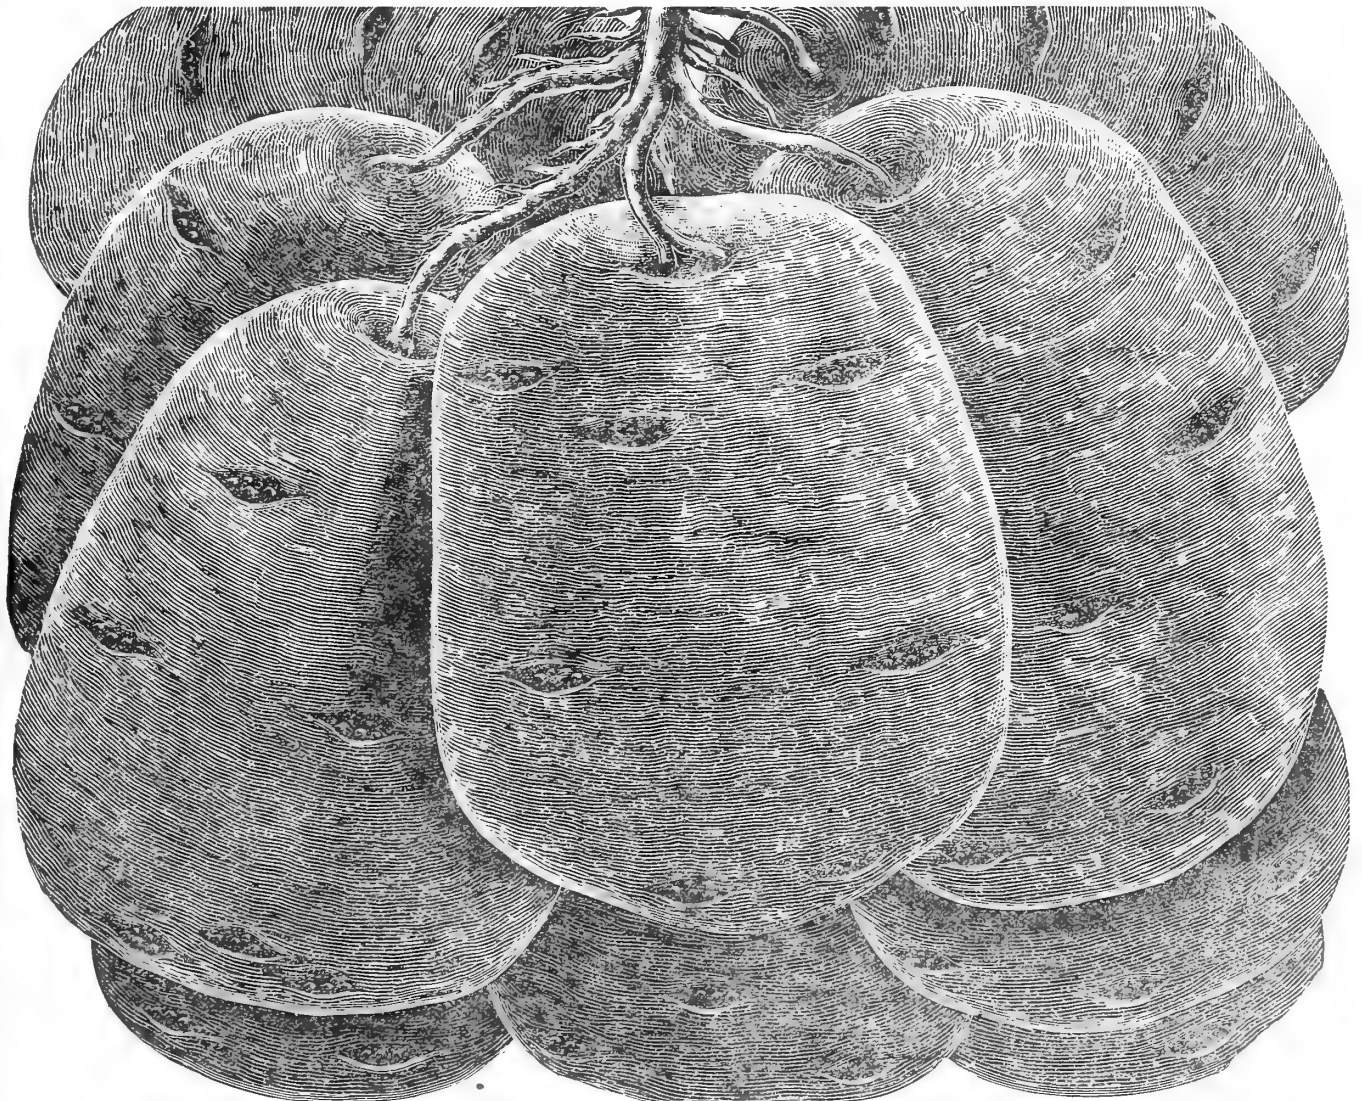

NEVER FAIL POTATO

This is a magnificent late potato for either home use or market purposes, or in other words, a grand new main crop potato. The tubers are very uniform, good sized and only a very few small ones will be found in an entire crop. They are very perfect in form, skin is smooth and white and they far surpass any of the ordinary late sorts in productiveness. They are fine-grained, cook mealy and dry and are of the finest quality. Never Fail is a splendid keeper retaining its excellent cooking qualities longer than any other variety we know of, keeping sound and perfect until the new crop comes again. We cannot recommend this potato too highly to our customers for we know there is not a variety on the market more productive or of better quality and while we do not claim it is absolutely blight proof, we do claim that it will resist both blight and drought remarkably and is sure to reward the grower with a splendid crop of large, white smooth potatoes. Do not fail to include a supply with your order.

PRICES—Good strong eyes, 25 for 35c.; 50 for 55c.; 100 for \$1.00; 250 for \$2.25; 500 for \$4.25, postpaid. By Express or Freight not prepaid, peck, 40c.; $\frac{1}{2}$ bu., 75c.; bu., \$1.30.

LATE WONDER==THE FARMERS POTATO

This new potato is surely a wonder, and will no doubt be of greater importance and value than any other variety in the future. It grows unusually large, producing as many as ten fine tubers to the hill. The skin is smooth and white, entirely free from scab, always sound and perfect. The illustration gives a good idea of size, form and appearance of a hill of the Late Wonder, and any of our customers who want a strictly first-class large, late potato, will find this one entirely unsurpassed. One very impressive feature about this potato is its enormous yielding qualities. We do not hesitate to say it will yield from 50 to 75 bushels per acre more than any ordinary variety. Be sure to order early as our supply of this variety is limited, but do not fail to plant some of the Late Wonder this season. **PRICES**—Good strong eyes, 25 for 35c.; 50 for 60c.; 100 for \$1.00; 250 for \$2.25; 500 for \$4.25, postpaid. By Express or Freight, not prepaid, peck, 40c.; $\frac{1}{2}$ bu., 75c.; bu., \$1.30. Barrel size sack (165 lbs.) \$3.50

KITCHEN CABINETS OF WONDERFUL VALUE!

OUR SPECIAL MAPLE CABINET

THIS
Kitchen Cabinet
Complete and
\$1.00 Worth of Seeds

Only \$7.50

Our Special Maple Cabinet is a handsome, high grade Kitchen Cabinet; it is built of selected kiln-dried white maple with good whitewood or basswood table top which is 26x42 inches. The entire height of the Cabinet complete is 56 inches. The base has two dust-proof flour bins which hold 60 pounds each and two drawers 15 1/4 x 18 inches. The top is 26x41 inches, has two cupboards 12 3/4 by 8 1/4 inches, and two drawers 12 3/4 x 3 3/4 inches, also one shelf 3 inches wide and a bread board 17x21 inches.

This Cabinet is handsomely finished in natural wood with brass trimmings.

We have had a large quantity of these Cabinets manufactured especially for this season's trade and will furnish this Cabinet, entirely complete, together with \$1.00 worth of seeds in packets, your own selection, for

Only \$7.50

f. o. b. cars.
Shipping weight, 130 lbs.

OUR SPECIAL OAK CABINET

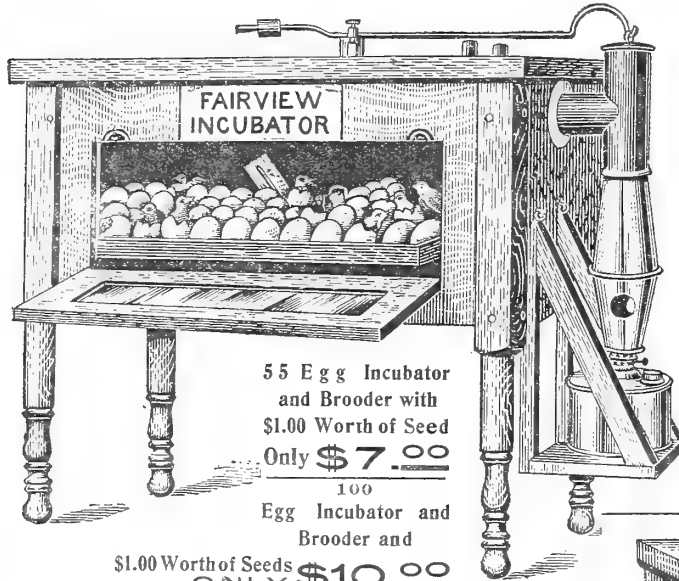

PRICE WITH \$1.00 WORTH OF SEEDS ONLY \$12.50.

Our Special Oak Cabinet is built of extra selected kiln-dried oak, and beautifully finished. No soft wood is used with the exceptions of drawer bottoms, etc., where oak would not be the most practical. The top of base is 26x46 inches, covered with a one-piece zinc sheet making it sanitary and easy to keep clean. It is fitted with one large cupboard in the center, four drawers on one side and a knife drawer and two flour drawers on the other side. It is also fitted with a large bread board, meat board, ball bearing casters, patent catches, etc. The top has two large and one small cupboard and two spice drawers with lower part resting on base covered with zinc. Entire height of Cabinet complete is 61 inches.

We have had an enormous quantity of these high-grade Oak Cabinets manufactured especially for our customers this season, which we can give for only \$12.50 each, f. o. b., and include \$1.00 worth of seeds in packets of your own selection, absolutely free. Shipping weight 225 lbs.

Our SPECIAL 1911 INCUBATOR and BROODER OFFERS

55 Egg Incubator
and Brooder with
\$1.00 Worth of Seed
Only \$7.00

100
Egg Incubator and
Brooder and

\$1.00 Worth of Seeds
ONLY \$10.00

In the past we have sold thousands of the Fairview Incubators and Brooders, and they are proving so very satisfactory to our customers that we have decided, for this season only, to make the following Special offer to enable everyone interested in the poultry business, either on a large or small scale, to become acquainted with the excellent hatching and rearing qualities of these machines.

Special Offer—For this season only we will furnish one Fairview Incubator, 55 Egg Capacity, and one Fairview Brooder, 55 Chick Capacity, the two machines complete together with a selection of One Dollar's worth of seeds in packets, **ABSOLUTELY FREE**, for \$7.00. Remember, you may select any varieties you may desire in packets from this catalogue to the amount of One Dollar, and get this fully guaranteed Incubator and Brooder for only \$7.00; or one 100 Egg Fairview Incubator and 100 Chick Brooder, the two machines and \$1.00 worth of Seeds in packets for only \$10.00. Give one of these outfits a trial. We know it will please you.

FAIRVIEW INCUBATOR

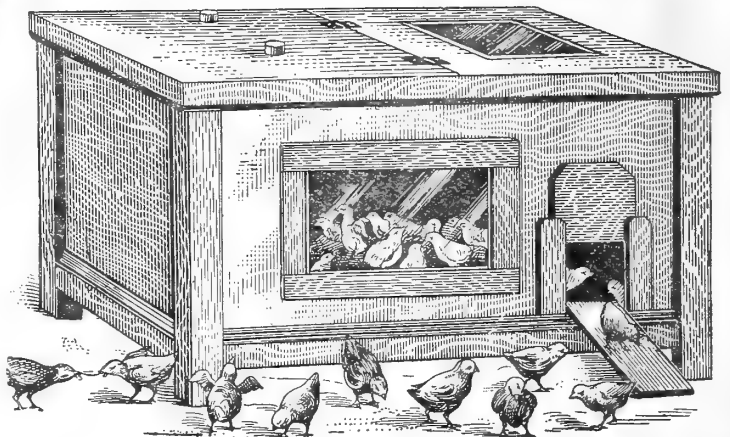

This machine is perfect in every detail. Contains good selected air and kiln dried lumber, handsomely finished in natural wood colors; double walled throughout, insulated with mineral wool and asbestos paper and strictly fire proof. It is substantially built with great mechanical correctness, self regulating and self-ventilating; requiring the least expense, care and attention to operate. There is not the slightest detail omitted in the construction of this incubator to make it the best and most thoroughly reliable 55 egg machine on the market. We fully guarantee this incubator to our customers, and furnish it all complete with full directions for operating, for the extremely low price of \$5.75 F. O. B. cars. Shipping weight, 43 pounds. 100 Egg Incubator, \$7.50, F.O.B. cars. Shipping weight, 55 pounds.

FAIRVIEW BROODER

This machine is built of selected kiln dried lumber. It is operated with overhead heat applied to the chicks by radiation, always keeping them in good healthy condition. There is no possible chance for the chicks to come in contact with the burned or impure air. This brooder is furnished with one of the surest, safest and best systems of ventilation which makes it the most reliable chicken nursery on the market. Thousands of these machines are in use everywhere and are giving our customers the greatest possible satisfaction. The Fairview Brooders are companion machines to the Fairview Incubators and of sufficient capacity to take care of 55 and 100 chicks.

Price, 55 Chick Brooder, F.O.B. cars, \$3.75. Shipping weight, 32 pounds.

Price, 100 Chick Brooder, F.O.B. cars, \$4.50. Shipping weight, 45 pounds.

55 Egg Incubator and Brooder with \$1.00 worth of Seeds, \$7.00; 100 Egg Incubator and Brooder with \$1.00 worth of Seeds, \$10.00

OUR PLANT DEPARTMENT

WE offer a good selection of plants this year of such varieties as will be sure to give good satisfaction. Look our list over carefully and include some of them in your order. (See back of order blank for special space to order.) All Plants offered are strong, well rooted, and grown especially for sending by mail, postpaid. We do not handle larger plants of any kind.

ROSES

We offer nothing but the very best selected varieties that have been thoroughly tested. Our Roses are grown on their own roots, and are therefore far superior to those budded or grafted on wild stock. Our assortment this season includes the very best of the old favorites and the newest introductions. We do not offer all the Novelties; only those that we have found to have especial merit and suitable for outdoor culture.

When We Mail Plants

A great many of our customers order both Seeds and Plants early in the winter. Seeds are sent at once and, if requested, we will send the Plants later—any time up to June 1st. We begin to fill Plant Orders in February, and unless you name the date you want us to mail the Plants we will consider you are ready for them and will forward at once in a separate package. Seeds and Plants are never sent together in the same package. We cannot fill plant orders after June 1st.

Plant Orders

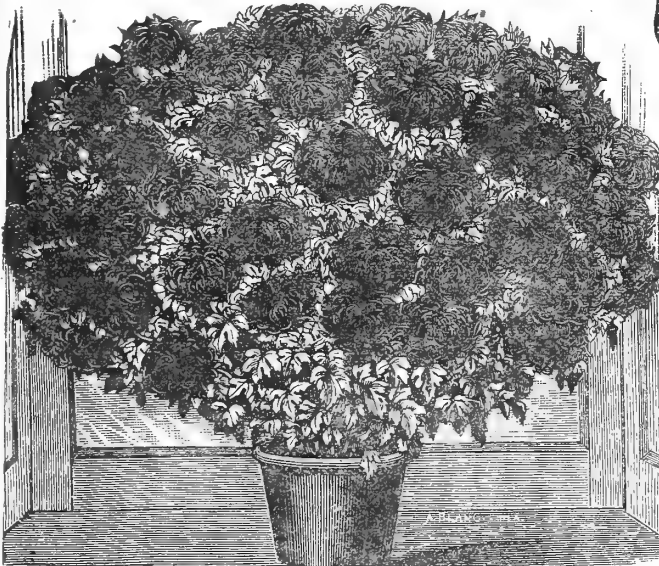

will have our best attention and we guarantee to pack so they will arrive safely at any post office in the United States. Any complaints must be made within one week after Plants arrive. Orders filled in severe cold weather, or foreign shipments, are at purchasers' risk.

CHRYSANTHEMUMS

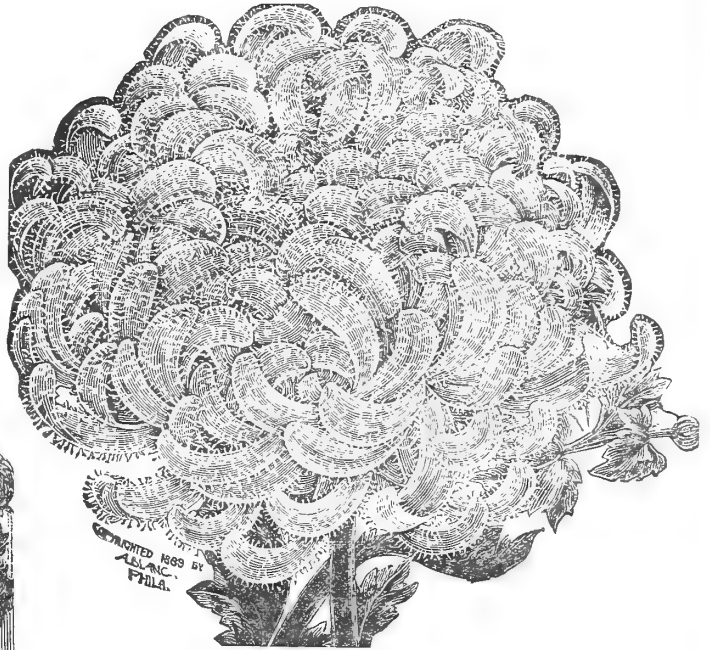

GOLDEN WEDDING—The grandest golden yellow Chrysanthemum ever offered. In color it is a deep, bright golden or shining texture, is very large in size, the petals are both long and broad and channeled lengthwise. A perfect Japanese incurved of most beautiful form, free in growth.

IVORY—One of the most popular white varieties in cultivation. Of dwarf habit, producing fine large, pure ivory white flowers on stiff upright stems. Largely grown for supplying the early market; and equally valuable for out-door planting. A grand Chrysanthemum that should be in every collection.

BLACK HAWK—The largest and most beautiful dark crimson-scarlet yet introduced. Looks like crimson velvet; the very shade so much desired in Chrysanthemums. Flowers are of immense size on fine stiff stems. Sure to please. Said to be Ex-President Roosevelt's favorite variety.

Black Hawk Chrysanthemum

Glory of the Pacific Chrysanthemum

GLORY OF THE PACIFIC—This fine variety will rank as the very best of early pink sorts. It is of magnificent depth, with broad petals which finally relax, showing the clear pink color to excellent advantage. The plant is of dwarf, compact growth and comes into bloom very early in the fall. The flowers are of great size and a clear pink color.

DR. ENGUEHARD—Japanese incurved. One of the best introductions of recent years; has been awarded highest honors wherever exhibited. Color a true pink, without the least trace of purple. Stem and foliage perfect. Equally valuable for exhibition or commercial purposes. Perfectly double.

Price of the above Chrysanthemums, 12c. each; 3 for 30c., postpaid

Madam Bruant Geranium
finest single, salmon-colored geranium to date.

MADAM BRUANT—Flowers of largest size, with finely veined center and outer border of distinct contrasting colors. The ground color is white elegantly penciled with deep rose, florets edged and varied with crimson lake; both flowers and trusses are very large and striking, makes very handsome plants and is a constant and abundant bloomer. "Madame Bruant" is one of the grandest and most beautiful geraniums ever introduced; a whole bed of it is none too much. Price, any of the above Geraniums, 12c. each; 3 for 30c., postpaid.

E. H. TREGO—Double. We consider this the best double scarlet geranium yet introduced and can truly say it is the largest flower and the brightest geranium we have yet seen, and it cannot be excelled for bedding purposes. The color is deep scarlet of exquisite shade; the florets are regular in form, more than semi-double and about 2½ inches in diameter. Trusses enormously large on long stems. Foliage and habit beautiful.

BEAUTE POITEVINE—Best salmon-colored Geranium for bedding purposes; most profuse bloomer of all the geraniums. Largest size trusses, borne on long foot stalks; florets very large, double and of a beautiful brilliant salmon. Always in great demand during spring; brings a higher price than any of the others.

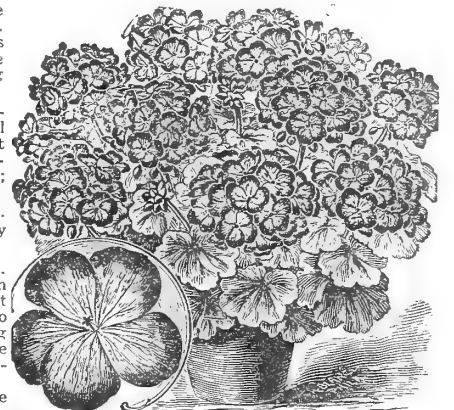

COUNTRESS OF HARCOURT—Pure snow white. A grand bedder. Florets large, double and beautifully formed. Extremely free in bloom.

S. A. NUTT—The best crimson bedding Geranium. This, the finest of dark crimson Geraniums, has now taken the lead as a bedding variety, being used in the largest parks and public grounds of the country in preference to all others. Its dense, compact growth, profuse blooming qualities and sun-proof constitution combined give it the prominence as a bedder. As a pot plant it cannot be excelled.

MRS. E. G. HILL—For those unacquainted with the variety we would say it is the most distinct and pleasing shade of salmon, with light shading to the centre. The

One of the freest bloomers, continually covered with flowers.

GERANIUMS

Double Geranium, E. H. Trego

CARNATIONS

New White Carnation, Boston Market

BOSTON MARKET—A remarkably free flowering white variety. By commercial growers in many sections it is being grown to the exclusion of all other white varieties. Can be depended upon for good size and nicely shaped blooms in great profusion. Color, ivory-white and stem, form and habit of growth excellent.

LADY BOUNTIFUL—Pure white, 3½ inches across, and stems 24 inches high, rich clove fragrance, marvelously free bloomer, plants being in bloom the whole season.

CARDINAL—A bright crimson with flowers of an enormous size. This new Carnation has taken several prizes in the latest shows. It is strong indoors as well as out. It is an early producer and increases in quantity as late as July.

ELDORADO—Light clear yellow, petals edged with a narrow band of light pink. A strong vigorous grower with fine healthy foliage; stems of good length, supporting large, firmly formed flowers. The color shows up well under artificial light, and does not look white as many yellows do.

ENCHANTRESS—This is truly a queen among Carnations on account of its large size, magnificent color, fine strong stem, and early, free and continuous blooming habit. The color is a beautiful shade of light silvery pink, deepening toward the center. The flowers are enormous—three and a half to four inches in diameter. It does not burst the calyx at any season. It is an ideal grower, very healthy and of vigorous constitution.

G. H. CRANE—Without doubt the best scarlet grown. It was tested by the originator for four years before being introduced to the public. Nothing will equal it for large flowers of quality and quantity. Color, a flaming scarlet. Growth strong, hardy, broad foliage and makes a well formed plant; fine large flowers on strong stiff stems.

MRS. E. A. NELSON—Pure glistening pink. An early and continuous bloomer, reaching three or four inches in diameter when grown for specimen flowers. This has proven to be one of the most satisfactory and profitable Carnations introduced in years.

MRS. THOMAS LAWSON—No plant of whatever kind, has received so much description and free advertising by the newspapers of the whole country as this sensational Carnation, which is said to have been sold for thirty thousand dollars. The size is enormous and stems stiff. It is free in growth, very free in bloom. Of strong, healthy constitution and of a true pink color; altogether a Twentieth Century Carnation.

Price of any of the above Carnations, 12c. each; 3 for 30c.

Rex Begonia

Rex Begonias

This is a type of large leaved Begonias, and is the most ornamental of the species. They are grown exclusively for the rich and varied markings and remarkable beauty of their foliage, some of which are truly marvelous. In no other class of plants are the rich metallic shades of various colors found so satisfactorily blended as in the Rex Begonia while the form and size of the leaves are of the greatest variety. Some varieties show bright green, pure silver, bronze and velvety green, while others have a distinct band or zone of bright, rosy plum color, and others a zone of light, dull red.

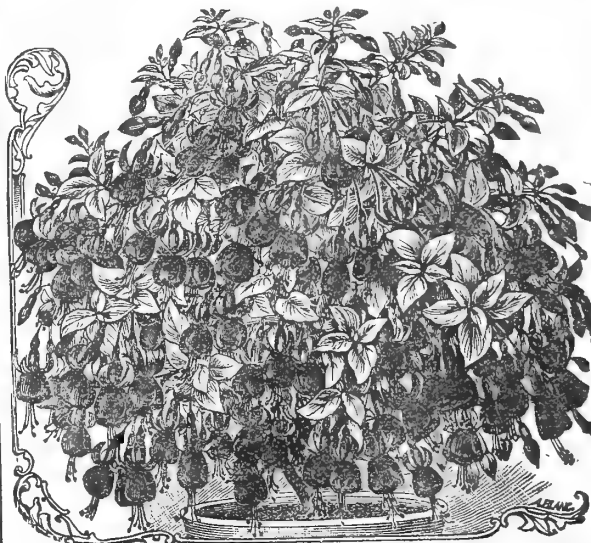

Our stock of Rex consists of a number of the most beautiful varieties in cultivation, including some of the choicest new sorts. When we receive an order for two or more Rex, we always send the most distinct varieties. Price, 15c. each, 3 for 40c.

FUCHSIAS

BLACK PRINCE—This is without question the very finest single Fuchsia grown for the amateur to cultivate. It makes a shapely bush, is robust in growth, free from disease and insects, and is probably the freest in blooming. Blossoms of a beautiful waxy-carmine or pink color. Certainly a plant of easy culture.

LITTLE BEAUTY—A perfect gem; marvelously free-flowering, single flowers 1½ inches long; bright red tube and sepals; corolla rich purple.

MRS. E. G. HILL—One of the most perfect double Fuchsias yet introduced. Tube and sepals bright reddish crimson, contrasting with the large, pure white corollas to a great advantage. A very free bloomer.

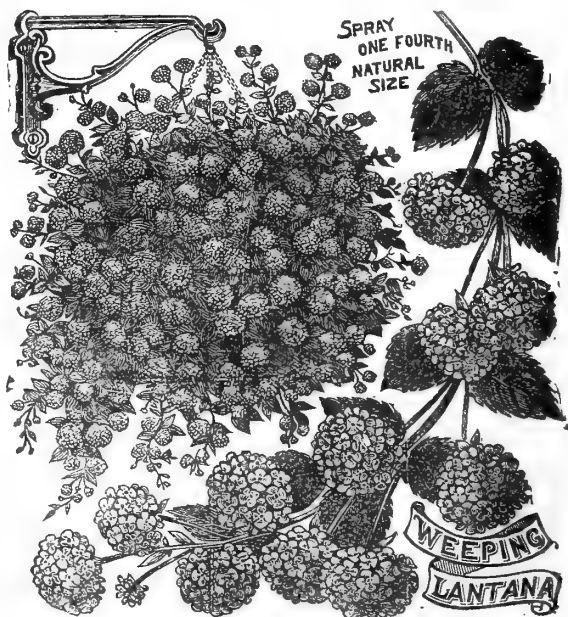

PHENOMENAL—The largest double Fuchsia we have yet seen. The tube and sepals are bright coral-red, beautifully formed. The corolla, nearly two and one-half inches across, is of the very richest violet shades. The habit is remarkably free, and it blooms more freely than any other large variety.

SPECIOSA—A genuine ever-bloomer. Elegantly shaped and of good substance. Orange scarlet corolla and white sepals; calyx rose-carmine. One of the best in cultivation.

Price of any Fuchsia, 12c. each; 3 for 30c., postpaid.

NEW WEEPING LANTANA---DELICATISSIMA

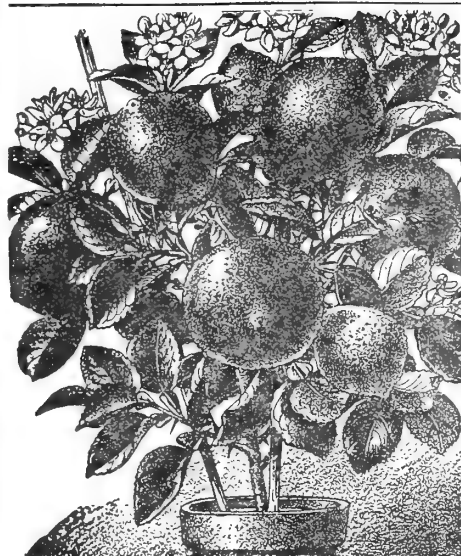

DELICATISSIMA—The plant is a neat, handsome grower, producing a great abundance of leafy vines, which cover the ground with their pretty foliage, and bear such an immense profusion of lovely, clear pink flowers, that the whole bed seems a sheet of rosy bloom from early summer till late fall. The flowers are borne in elegant clusters, and hundreds and thousands of them are in bloom all the time.

ALBA PERFECTA—Pure snow-white, compact habit.

COMTESSE de BIEN COURT—Flowers bright rose and yellow.

MICHAEL SC HMDT—Flowers fresh and sparkling, of brilliant yellow passing into purple vermillion.

Price of any of the above Lantana plants, 10c. each; 3 for 28c.

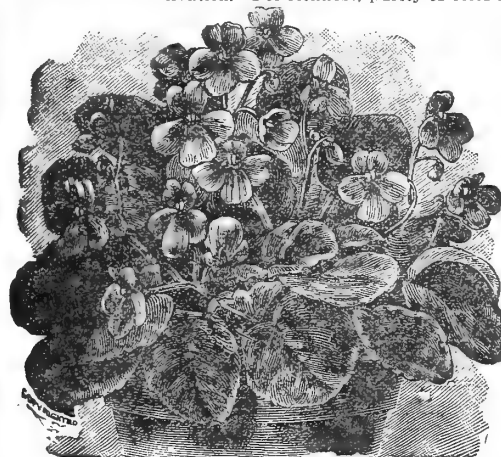

LEMON

American Wonder or Ponderosa

Quite a novelty of the citrus family, originated at Hagerstown, Md., from the seed of an ordinary lemon. The original plant when quite small bore fruit of extremely large size, much to the amazement of its originator. Cuttings from this plant produce a large stock. Horticultural experts pronounce it a cross between the ordinary lemon and the grapefruit or Pomelo, the hybridization being formed by a bee. This, in brief, is the history of the lemon. It inherited the large size of the Pomelo, and the acidity of the lemon. The plant is of rapid growth, with large dark green foliage, and often bears fruit weighing 3 to 5 pounds. Flowers are pure waxy-white and resemble orange blossoms, only larger and more compact and exceedingly sweet scented. An elegant plant for porch or lawn decoration. Very ornamental on account of its large, shiny, foliage and its wonderful immense fruit, which is produced very freely. It is of easy culture, flowering and fruiting in any good ordinary soil. The fruit is edible and may be used for all culinary purposes; no grafting or budding is necessary. 15c. each; 2 for 25c.

PALM, "Kentia Belmoreana"—The Kentia Palm, besides being one of the most graceful and ornamental of all palms for the house or conservatory, is also one of the hardiest and easiest to grow and will continue to increase in size and beauty for years. Price, 18c. each; 2 for 30c., postpaid.

VIOLETS—CALIFORNIA—This is the largest and most productive Violet in cultivation. For richness, purity of color and fragrance of flower it is unequalled. It is a single flower, and it has that sweet simplicity peculiar to the Violet. The color is pure, rich violet-blue, that does not fade. Extremely free flowering, a single plant producing hundreds of flowers throughout the season.

Double Blue Violets

DOUBLE BLUE VIOLET—Lady Hume Campbell—Certainly the most valuable double Violet in cultivation. Of strong, healthy growth and a remarkably free bloomer. Color, dark purple. So persistent is its blooming that young plants in 2 inch pots last spring were literally covered with flowers.

SWANLEY WHITE—This valuable variety is a sport from Maria Louise. It blooms as freely and is in every way equal to its parent. The flowers are large, double and pure white.

Any variety, 10c. each, 3 for 25c.

PEACH-BLOW

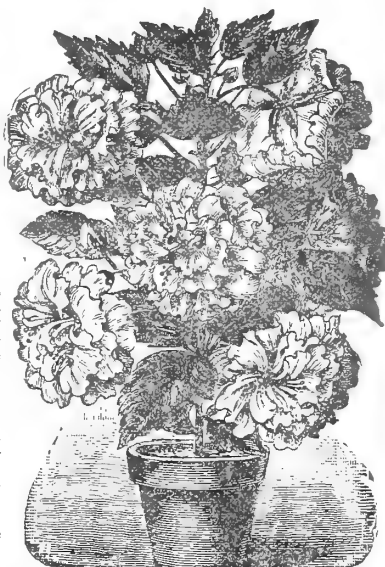

An improvement over other Hibiscus in size of flower, freedom of bloom and strong growing qualities. Flowers double, of a rich shade of clear pink, with small, deep crimson center; an entirely new and most beautiful shading; 4 to 5 ins. in diameter. Blooms freely even on small plants. Good as house plant or planted out in garden. See illustration.

DOUBLE CRIMSON—This new grand variety has immense flowers of the richest crimson. Combined with glossy foliage render it the best of all.

VERSICOLOR—A variety combining in its flowers all colors of the whole family, being handsomely striped crimson, buff, rose and white.

Price of each kind, 12c. each; 3 for 30c.

CHINESE HIBISCUS

Hibiscus Peach Blow.

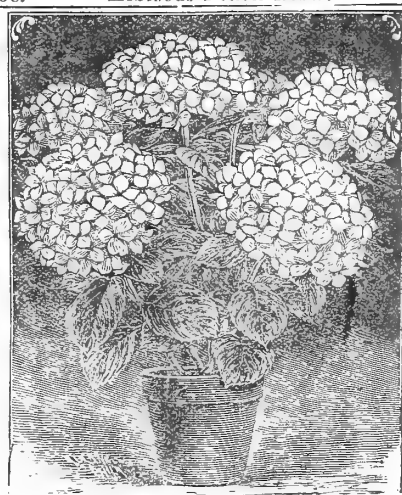

Hydrangeas for House Culture

OTASKA

They are exceedingly ornamental, producing splendid effects, the plants being covered with a solid mass of their large showy heads of bright pink bloom which remain beautiful for months; They can be wintered in any cool cellar with no trouble, and plants increase in beauty each year.

THOS. HOGG.

Similar to Otaska except in color, which is pure white. Trusses measure 15 inches in diameter. A plant full grown attains a height and width of 6 feet.

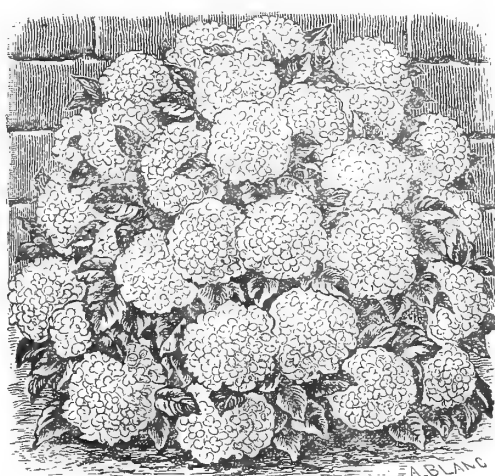

Price, both varieties 16c. each, 2 for 30c.

HARDY PHLOX

They are perfectly hardy, succeeding in any garden soil, and producing magnificent spikes of showy and lasting flowers year after year with comparatively little care. Height, 1 to 2 feet. We offer a good selection of colors in a mixture such as Bright Red, White with Crimson Eye, Deep Crimson, Orange Salmon with Purplish Crimson Center, etc. Price dormant roots, 15c. each, 6 for 80c., 12 for \$1.50 postpaid. Orders cannot be filled after May 1st.

EVERBLOOMING SNOWBALL HYDRANGEA

Everblooming Snowball Hydrangea

This new hardy shrub is something out of the ordinary and a welcome addition to our list of really valuable plants. Few of our native garden shrubs are so attractive in habit and elegance of foliage. It is perfectly hardy, having stood a temperature of 20 degrees below zero without injury. The flower is very like the greenhouse Hydrangeas and pure white. The panicles are immense in size, but the everblooming habit of this variety is its most remarkable and valuable characteristic, blooming profusely from June until September. No hardy shrub introduced in years has had such unqualified endorsement as the New EVERBLOOMING HYDRANGEA. Price, 30c. each, 4 for \$1.00, postpaid.

A grand Pot Plant of great beauty and a splendid novelty. It is a dwarf orange that grows, blooms and fruits freely in pots, even when only a foot or two high. The fruit is about one-half the size of an ordinary orange, and is very sweet and luscious. The blooms are produced in the greatest abundance, are delicate and beautiful in color, and rich in delicious perfume. It blooms most freely during the winter, although it is very likely to bloom at all times of the year. With one or two plants you can raise an abundance of fragrant blossoms and we know you will be more than pleased with it. Try one or two of these plants this year.

15c. each, 2 for 25c., postpaid.

UMBRELLA PLANT

(Cyperus Alternifolius)

This is a plant of the easiest culture and a large specimen is as handsome as a palm for decoration. It makes a handsome pot plant, or can be used in baskets or vases, making a charming effect. It will grow luxuriantly in water, and is therefore, indispensable for aquariums or fountains. 12c. each; 3 for 30c. postpaid.

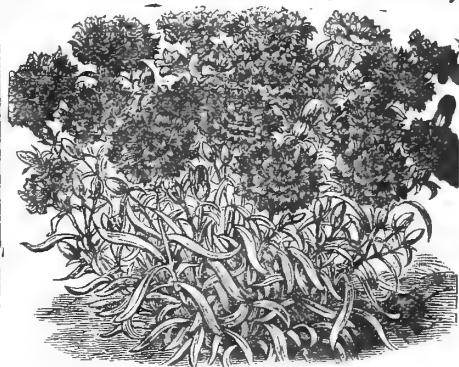

BOSTON SWORD FERN

It is a rapid grower of very easy culture, soon forming a large, graceful plant; its beautiful fronds often attaining a length of 4 to 5 feet, which arch and droop gracefully.

No plant ever introduced has had a larger sale than the popular Boston Fern.

15c. each, 3 for 40c.

HARDY GARDEN CARNATIONS (Scotch Pinks)

These beautiful Carnations are particularly valuable for bed borders and edging in the gardens, lawns, parks and cemeteries. They are entirely hardy, need no protection and bloom regularly every season without attention. They are very fragrant, giving out a rich spicy fragrance that is particularly attractive. A single plant will grow from twelve to eighteen inches in diameter. Price, 10c. each; 3 for 25c., postpaid.

ROSES

Crimson Baby Rambler Rose

FOUR BABY ROSES

BABY RAMBLER, Crimson—This is decidedly the greatest rose-novelty introduced in recent years, and a seedling of the well-known Crimson Rambler with which it is identical in all but habit of growth and blooming, being a pronounced dwarf, very quickly reaching a mature growth of eighteen inches to two feet which it rarely exceeds; as a bedding or border plant it is incomparable; a superb, rich, crimson in color, blooming in as immense clusters as its parent, the Crimson Rambler. The Baby Rambler is, in addition, a more continuous bloomer than the tender Tea Roses, bearing its wealth of flowers from early spring until frost. Grown as a pot plant, indoors, it is always in bloom. 12c. each; 3 for 30c., postpaid.

BABY DOROTHY, Pink—This is a splendid companion rose to the crimson Baby Rambler. It was originated by the same grower and is just as vigorous and free bloomer. Practically the only difference is in the color of the flowers which are a very bright and pleasing rose-pink. It is much the color of that charming climbing rose, Dorothy Perkins, hence the appropriateness of the name, "Baby Dorothy." It is perfectly hardy and blooms without cessation from early spring until late in the fall. As a pink bedding rose it has no equal. We have counted as many as 100 blooms to the cluster on three year old plants. 15c. each; 3 for 40c., postpaid.

WHITE BABY RAMBLER, (true)—This is identical with the two above except in the color of the flowers, which is pure snow white. It has the true rose perfume in a high degree; perfectly hardy and we pronounce it a real Rose Novelty. 15c. each; 3 for 40c., postpaid.

MRS. WM. H. CUTBUSH—A new Baby Rose of an entirely distinct color—light pink; of the same attractive habit of growth, and profuse flowering habit as other Baby Roses. The flowers are borne in huge trusses throughout the entire summer and autumn, and completely cover the entire plant. Fully as free flowering as the other roses of this type, and to our notion, the most attractive color of all. Entirely hardy. 15c. each, 3 for 40c.

The four Babies—one of each—for 46c., postpaid.

MONTHLY EVERBLOOMING TEA ROSES

UNCLE JOHN—A pleasing and constant bloomer; the bushes are never without flowers; buff yellow shading to white and pink.

WELLESLEY—Another New Rose, a seedling of Liberty crossed with the form of Bridesmaid, retaining the form of Liberty with the fullness of Bridesmaid, and in color a beautiful shade of pink; in addition, it is a healthy grower, remarkably free-flowering, and possesses unusually good keeping qualities.

DUCHESS OF ALBANY, (Red La France)—Practically identical with the Pink La France all but the color which is much deeper, almost a pronounced red.

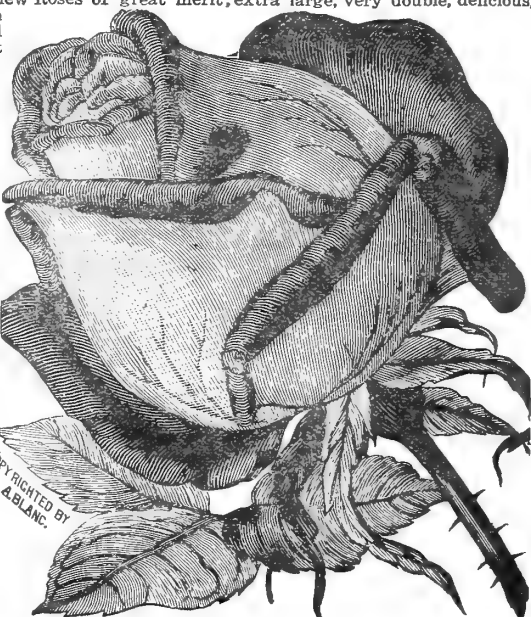

GOLDEN GATE—One of the new Roses of great merit; extra large, very double, delicious, fragrant, creamy white in color; beautifully bordered with clear rose; a constant bloomer.

PRINCESS BONNIE—This is one of the loveliest of ever-blooming roses. Its color is indescribable. A richer, deeper crimson was never seen in a rose, while its fragrance is as subtle and delicate as that of La France. It is a profuse bloomer, and as easy of cultivation as the most ordinary rose.

RICHMOND—Its fine, crimson, scarlet flowers are borne on long stems making it especially valuable for cutting purposes. The most largely planted of any American red Rose. Has as delicious fragrance as the American Beauty, and we believe that in a short time it will take the place of any other red rose.

Welleleys

Richmond

Price of strong plants of any of the Above Monthly Everblooming Tea Roses, 10c. each; 3 for 28c.; 6 for 50c., postpaid. (Monthly Everblooming Tea Roses Continued on Next Page.)

MONTHLY EVERBLOOMING TEA ROSES

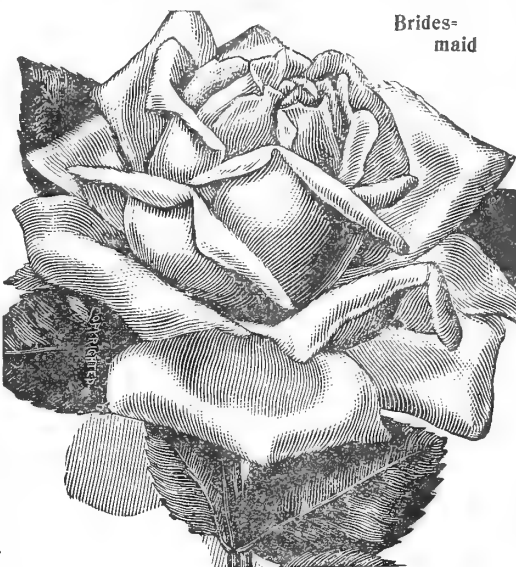

ETOILE

LE FRANCE

This is a grand, new Rose. It is hardy and ever-blooming of a velvety crimson color; is vigorous in growth, foliage of a handsome bronze green, long stems, stiff and erect with very few thorns. The flowers are very large, petals of splendid substance cup form and full, expanding freely. The buds are long and pointed borne singly and erect making it very valuable for cut flowers.

Price 10c. each, 3 for 28c., 6 for 50c.

BRIDESMAID—This is a grand Pink Tea Rose. The bud is of exquisite shape, solid and firm, and the stems are so long and stiff that no other Rose can compare in keeping qualities after being cut. It is a very deep pink in color, just enough to make it bright, and keeps the same color all the time under every condition of weather. 10c. each, 3 for 28c., 6 for 50c.

PINK MAMAN COCHET—This superb rose is well known as the queen among roses and one of the best and most beautiful varieties ever grown and quite hardy. The flowers are of enormous size, very full and of great strength and substance. Color, rich, coral pink, elegantly shaded with rosy, crimson, has broad, thick, shell-like petals and makes superb long, pointed buds, immense bloomer, continues loaded with the buds and flowers the whole season. Deliciously sweet and a hardy, vigorous grower. It ranks among the very finest hardy everblooming roses, has no superior and should be included in every collection. 10c. each, 3 for 28c., 6 for 50c.

WHITMAMAN COCHET—Identical with its parent Maman Cochet in all respects except in color, which is snow-white, with sometimes a faint tinge.

slightly suggestive of blush. It has the same freedom of bloom and same magnificent form of buds and flowers, and the same hardiness, standing at the very head of all roses as the best white kind for open ground culture. Very vigorous and hardy nearly everywhere. 10c. each, 3 for 28c., 6 for 50c.

ONE EACH OF PINK AND WHITE MAMAN COCHET 19c.

Five Monthly Everblooming Tea Roses

Killarney.

KILLARNEY—Flowers are very large, petals often measuring 2½ inches deep; of rich, rosy-pink in color. Buds large, long and pointed. Plant is a vigorous grower, free bloomer and entirely hardy in vicinity of New York City or further south.

CHAMPION OF THE WORLD—A hardy, free-blooming rose of great merit. Flowers of large size produced in great abundance, color being a lovely, clear deep pink. One of the best of all roses for outdoor cultivation.

ETOILE DE LYON—A rich golden yellow; a strong, healthy and vigorous grower; immense bloomer. One of the best Yellow Roses and the best Yellow Tea Rose for outdoor planting.

PAPA GONTIER—A splendid Rose, extra large, finely formed buds and flowers, strong robust grower, free and constant bloomer, rich rosy-red in color, very full and sweet.

CAROLINE MARNIESSE—An absolute hardy Rose that is always in flower. Color, pure white tinged with pink, medium sized, produced in clusters and very double.

Price of any of these Five Monthly Everblooming Tea Roses, 10c. each, 3 for 28c., 6 for 50c., postpaid.

KAISERIN AUGUSTA VICTORIA—A royal name and a royal Rose. Perfect in bud and open flower. All the white roses do not possess this merit. A continuous bloomer, producing successive crops of buds and blossoms in great profusion, the color being snow-white.

10c. each, 3 for 28c., 6 for 50c.

THREE SOUPERT ROSES

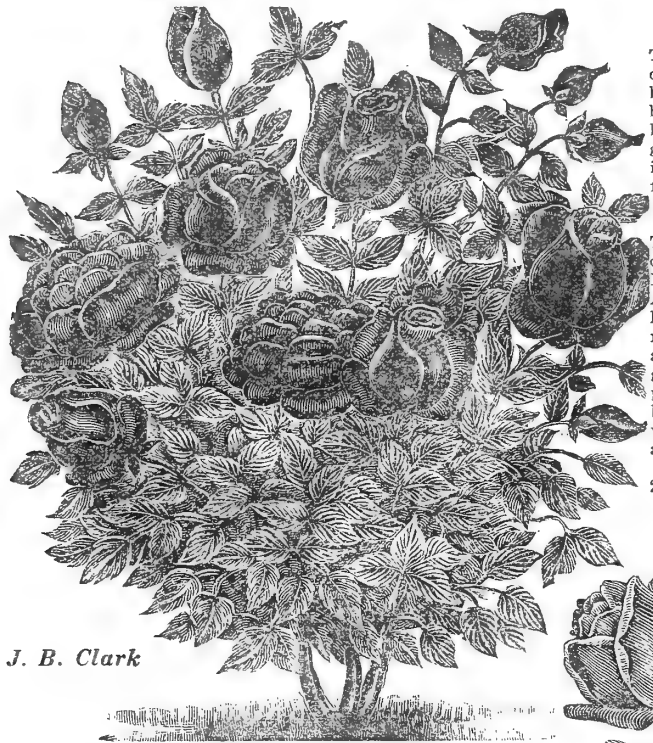

CLOTHILDE SOUPERT—This is the best Rose known for bedding or pot culture. Color, a French white, deepening to a rosy-blush in the center. Its greatest value lies in its compact, vigorous habit and wonderful profusion of bloom; even the smallest plants being literally covered with flowers. It is valuable for garden purposes but more so for pot culture, and ranks first for blooming in the house. It is free from diseases and perfectly hardy.

YELLOW SOUPERT—Fully as free blooming as Clothilde Soupert or Pink Soupert, and like them; a strong dwarf, bushy grower. Flowers are very double and of the same Camellia-like form as Clothilde Soupert. The color is white on beautiful light yellow ground, which becomes a chrome yellow in the center of the flower. It is hardy, and a lovely, free blooming rose.

PINK SOUPERT—A lovely everblooming rose, as beautiful as Clothilde Soupert, but deeper color; medium size flowers, perfectly full and double; blooms all the time; color, fine rose pink, but variable. The same bush frequently bears flowers of different colors at the same time; grows bushy and is hardy.

Any of the 3 Soupert Roses, 10c., 3 for 28c., 6 for 50c. postpaid.

HARDY HYBRID PERPETUAL ROSES

J. B. Clark

J. B. CLARK—This grand Hybrid Perpetual Rose has been exhibited bearing flowers seven inches in diameter and five inches deep. Think of it! There is no description adequate to cover such a phenomenal Rose as this. It is a strong, upright grower, producing a handsome bush, as will be shown by the illustration, with splendid heavy dark bronze green foliage. Flowers are extraordinary in size, with beautifully formed petals of great depth and substance. Color, intense deep scarlet, heavily shaded with blackish crimson, giving the expanded flower an indescribably beautiful appearance. The fragrance is very sweet. Price, 15c. each; 2 for 25c.

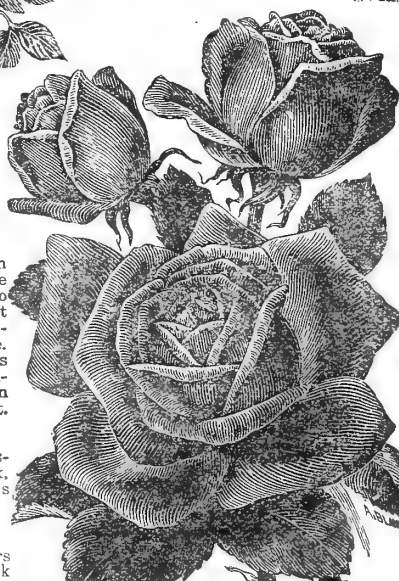

CLIO—This is a grand Rose on the order of Baroness Rothschild. Flowers are flesh color, shaded in center with rose pink, large, of fine globular form, freely produced. Strong, vigorous grower and has handsome foliage.

12c. each; 3 for 30c.

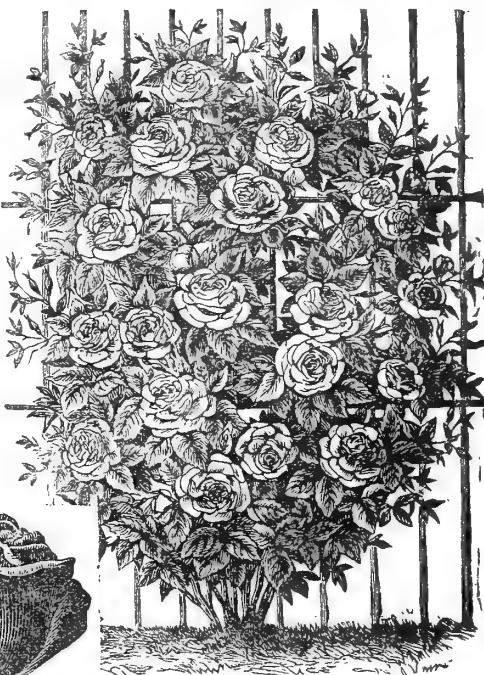

CAPRICE—A fine striped Rose of great beauty. The flowers are large and finely formed, full and double. Deep, clear pink with wide stripes of pure white. 12c. each, 3 for 30c.

AMERICAN BEAUTY—Well known as one of the grandest, most beautiful, constant-blooming Roses. Immense buds and flowers, rich glowing crimson, exceedingly sweet. 12c. each, 3 for 30c.

HUGH DICKSON—The most remarkable addition to the list of Hardy Hybrid Perpetual Roses. A vigorous grower, with handsome foliage, deep red on the young shoots, and turning to a deep green with age. A free perpetual bloomer. Color, brilliant crimson shaded with scarlet, very large and of fine fragrance. Strong plants 15c. each, 2 for 25c.

Hugh Dickson

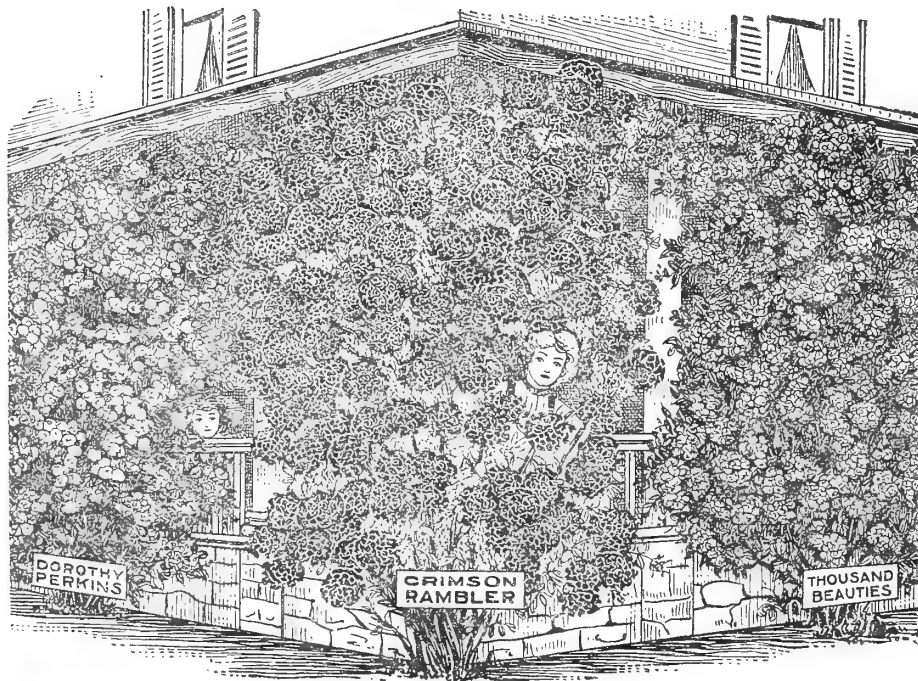

White American Beauty

WHITE AMERICAN BEAUTY (Frau Karl Druschki)—This Hybrid Perpetual Rose is worthy of the name White American Beauty. The foliage is large and of heavy texture. The glory of this plant is its flowers, which are immense in size. An ordinary plant will produce hundreds of magnificent flowers, which are full, very deep and double, petals broad and long. The buds are egg-shaped, and long and pointed. The color is marvelous: snow-white without a tint of yellow pink, or any other color. It is hardy anywhere. 12c. each, 3 for 30c.

MARGARET DICKSON—This hand some new white Hybrid Perpetual Rose was raised and sent out by the Messrs. Alexander Dickson & Son, of Belfast, Ireland. We do not hesitate to say it is the best Hardy Hybrid Perpetual Rose for the garden. White in color with pale flesh center; petals very large, shell shaped, of immense substance. 12c. each, 3 for 30c.

HARDY CLIMBING ROSES

EVERBLOOMING CRIMSON RAMBLER—When considering the popularity of roses most everyone is aware that the Crimson Rambler has made a record unequalled by any other rose. It is found in almost every flower garden, as it is perfectly hardy in all parts of this country, and there appears to be something lacking in the appearance of the well-kept residence if it is not found trailing its way, displaying its clusters of beautiful crimson flowers about the veranda, remaining in bloom from three to five weeks.

Now we have to offer the "EVERBLOOMING CRIMSON RAMBLER" as a glorious improvement. It is the old Crimson Rambler in growth and flowers, but it is an *everbloomer*, blooming continually all the season.

Strong Plants, 15c. each, 3 for 40c.

DOROTHY PERKINS—This beautiful hardy climbing Rose could be called Pink Crimson Rambler, for it is just like it except in color, which is a most beautiful Shell Pink. Flowers are large size, borne in clusters of from 10 to 12 and are very double. It is exceedingly hardy, vigorous growing, making a growth of 10 or 12 ft in a season; very free bloomer, flowers sweet scented and a Rose that becomes a favorite wherever grown. 10c. each; 3 for 28c. postpaid.

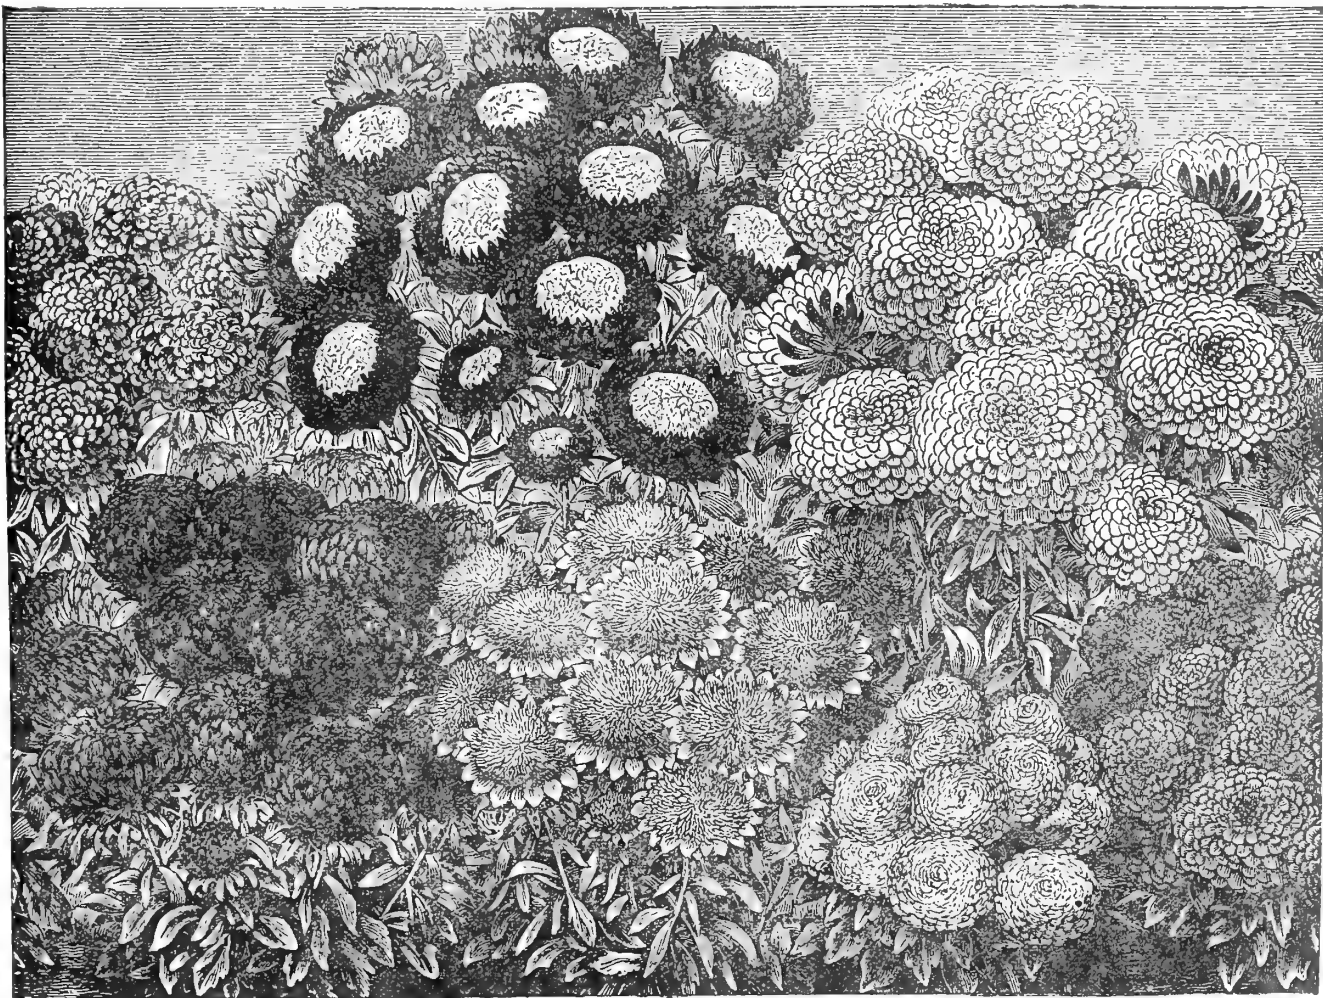

THOUSAND BEAUTIES—This beautiful novelty surpasses all other climbing Roses, both in growth, foliage and beauty of bloom.

Blooms profusely from June to end of July and the colors run through different shades; pink, rose, carmine, with various tints of crimson, white, etc. Imagine a Rose producing on the same bush so many different colored flowers; impossible to describe or even picture the varieties. A single cluster of flowers is a bouquet of itself, hence its name "Thousand Beauties."

It is hardy, a strong, vigorous grower, nearly thornless, and a grand rose for porches, trellises, etc., 15c. each, 3 for 36c., postpaid.

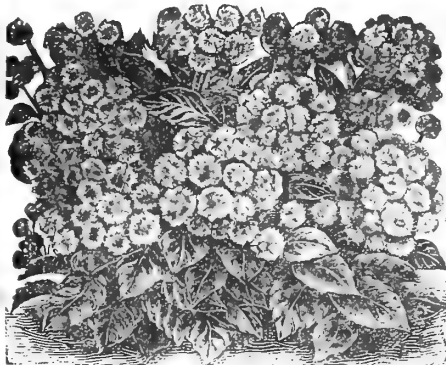

FLOWER SEED DEPARTMENT

OUR GREAT ASTER COLLECTION

We have always found that our customers desire a good collection of **Mixed Asters**, and for this reason we have made up one which we consider cannot be equalled. It contains about one hundred different varieties, each variety made up of several separate colors, selected from such classes as the New Triumph, Dwarf German, Dwarf Bouquet, Dwarf Chrysanthemum, Dwarf Victoria, Comet, Quilled German, Lilliput Flower, Large Globe Flowered, Christmas Tree, Princess, Lady, Mignon Pearl, Victoria, Peony Flowered, Victoria Needle, Ball or Jewell, Ostrich Plume, Tall Chrysanthemum, and a great many other sorts, which will produce a gorgeous display of Asters it is simply impossible to describe. It is by far the greatest collection of Mixed Asters on the market, and a packet of seed will produce an abundance of flowers throughout the season. The illustration gives but a faint idea of their beauty, but you can imagine what a wonderful collection of flowers can be grown from such a mixture of Aster seed. This seed comes from the largest Aster growers in Germany, and we want all our customers to give it a trial this season. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c., 12 pkts. 45c.

AGERATUM

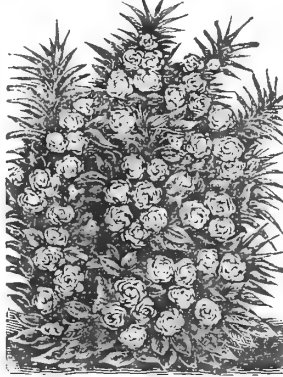

Little Blue Star

LITTLE BLUE STAR—Plants grow only 4 or 5 inches high, and are completely covered with bright blue flowers. Make excellent edging plants on account of the wonderful profusion of bloom and small size. Pkt. 4c., 3 for 10c.

MIXED COLORS—Pkt. 4c., 3 pkts. 10c.

BALSAMS

MIXED VARIETY

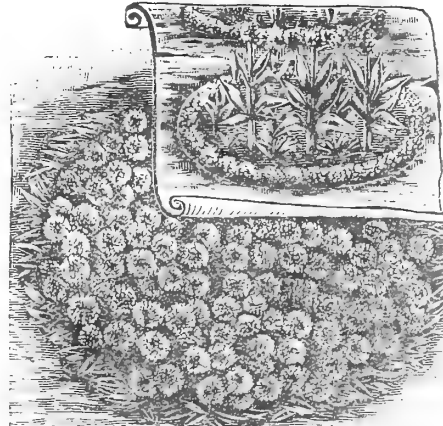

This is without question the most attractive mixture of Balsam seed ever grown. It produces plants that are covered with very large double flowers of all the colors imaginable. It will be a favorite wherever grown. Be sure to try it.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

MUSK PLANT

NEW COMPACT—This is a grand old plant, excellent for beds, also for pot culture. Foliage is highly musk scented. Pkt. 5c., 3 pkts. 10c.

ALYSSUM

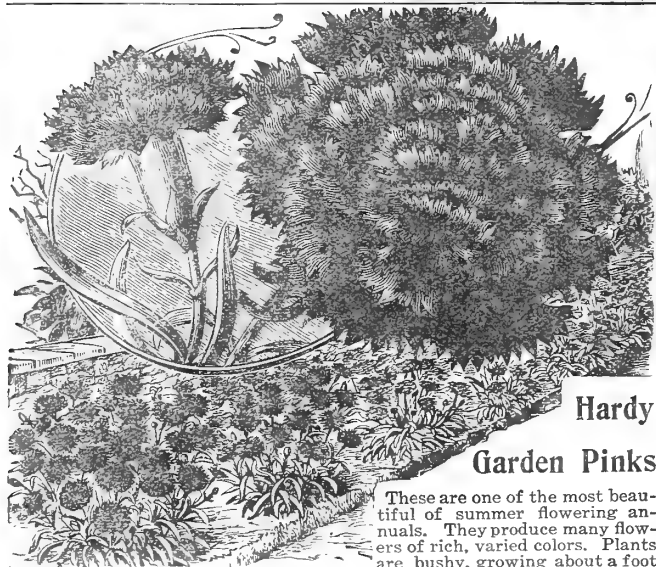

LITTLE GEM—The illustration gives an idea of how useful this variety is for border. Grows 2 to 4 inches high, and one plant will completely cover a circle 12 by 14 inches in diameter. Very fragrant, and the flowers are pure white. Pkt. 4c., 3 pkts. 10c.

SWEET—This is pure white much used for borders, is fragrant, and produces very delicate flowers. Pkt. 4c., 3 pkts. 10c., 6 pkts. 15c.

CARNATION

GIANT EARLY FLOWERING FROM SEED

This grand strain of Early Flowering Carnation seed will produce flowers in three to four months from the time of sowing the seed. The plant is of strong growing habit, branching very freely, and the variety of colors include all the different shades of pink, carmine scarlet, maroon, dark crimson, as well as many beautiful variegated flowers, many of which have odd markings. The plants grow easily anywhere and will give great satisfaction on account of producing flowers so quickly from the seed. From the time they begin blooming they continue until frost. Seeds sown during the summer will produce plants which can be potted in fall and produce an abundance of bloom throughout the winter. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

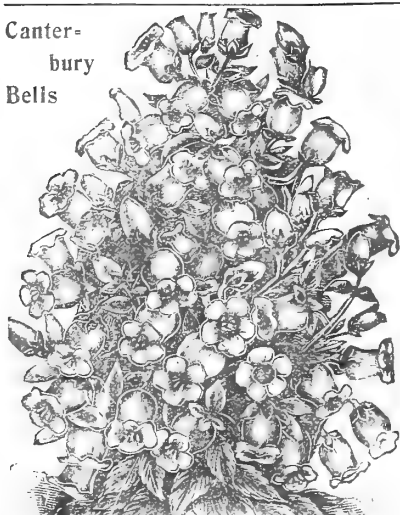

Hardy

Garden Pinks

These are one of the most beautiful of summer flowering annuals. They produce many flowers of rich, varied colors. Plants are bushy, growing about a foot high, and the flowers are always of large size. Our mixture is made up of all the double and single varieties, containing all the best colors. When you want a beautiful, sweet scented bouquet nothing can equal these pinks.

MIXED COLORS—Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

Canterbury
Bells

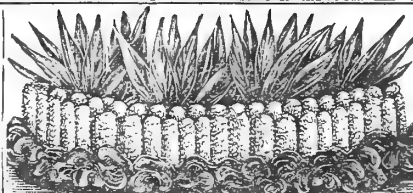

This is a popular well known large bell shaped flower, known everywhere. The cup and saucer varieties produce beautiful single flowers, three inches in length, saucers three and four inches across. All colors mixed, single and double. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

COSMOS

These Giant Autumn Flowering Annuals often produce flowers 4 or 5 inches across. For cutting this is one of the finest flowers grown; long stems and feathery foliage produce a graceful effect. They are easily raised from seed.

GIANT—All Colors Mixed—This contains all the large and giant varieties, which make a great display of colors. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

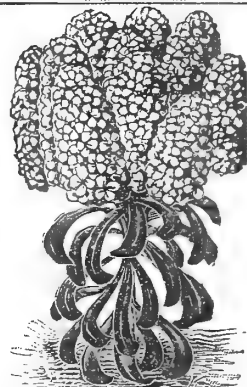

CANDYTUFT--LITTLE KING

This is a handsome little Candytuft, grows only about 6 inches high. The massive spikes are pure white. It makes a fine pot plant. Its shape is much like the Hyacinth flowered, making a handsome appearance. Pkt. 4c., 3 pkts. 10c.

GIANT HYACINTH FLOWERED CANDYTUFT—The flower heads grow nearly 6 in. long and about 3 in. in diameter and the color is snow white. The plants grow about 14 in. high and bear from 4 to 6 of these immense flower heads on one upright stalk and each plant will send out 4 to 8 branches. Pkt. 4c., 3 pkts. 10c.

ALL COLORS MIXED—Pkt. 4c., 3 pkts. 8c.

Giant Hyacinth
Flowered Candytuft

CALLIOPSIS

These are half hardy annuals of quick growth, bearing a profusion of bright colored flowers. We offer a choice collection of colors and if the seed is sown thinly where the plants are to bloom as early in the spring as the soil can be dug, an abundance of bloom may be expected. Mixed, all varieties, pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

GOLDEN WAVE—A mass of bright golden colors. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

BELLIS--(Double Daisy)

Daisies are easily raised from spring sown seed and some into bloom in a very short time. We offer a splendid mixture, including all the best varieties. Give this beautiful little plant a place in your garden. Mixed colors, pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

ABRONIA

This is a charming annual trailer with numerous verberna-like clusters of fragrant rosy pink flowers which are sweet-scented, excellent for hanging baskets and vase and blooms a long time. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

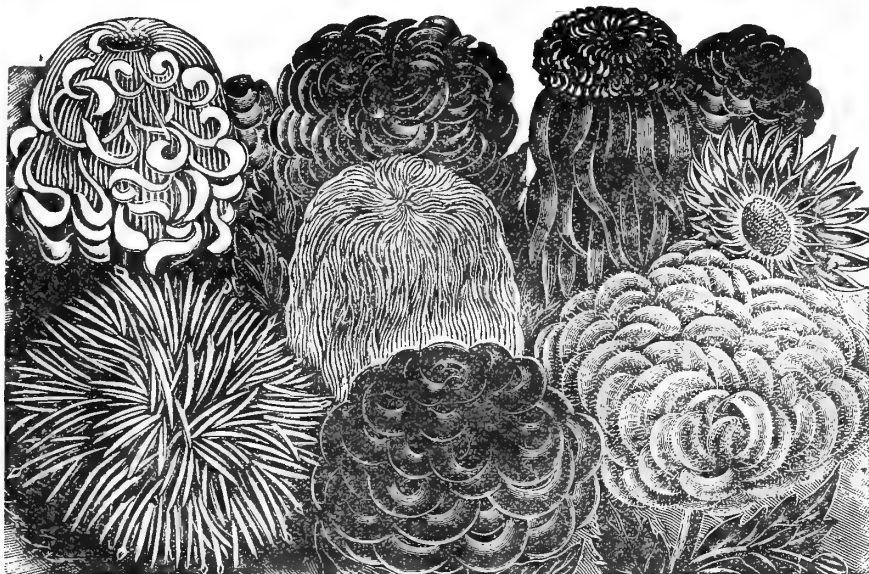

VIRGINIAN STOCKS

A Hardy Annual of very easy culture, containing all the colors known in Virginian Stocks, and is a very delicate and pretty little flower. Per pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

CHRYSANTHEMUMS

GROWN FROM SEED

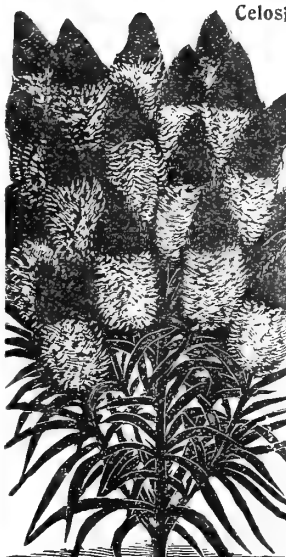

We have succeeded in securing a wonderful collection of Japanese Chrysanthemum seed and there is hardly any flower produced from seed that can take the place of this. Think of seed producing all the curious and odd shaped flowers as shown in the illustration. Our mixture is composed of all the best Japanese and Chinese varieties, which are imported from Japan. Among the curious shapes and beautiful colors will be found the Ostrich Plume sort, twisted and curled, and nearly all other shapes you can imagine. In addition to the Japanese variety, we include the Annual Chrysanthemums, which produce large flowers of crimson, gold and white colors. No matter how many plants you raise there will be hardly any two alike. The entire mixture of seed soon begins to bloom and by winter the plants are large enough to produce a gorgeous display of flowers. Fine mixed all varieties, shapes and colors. Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

Celosia (Coxcomb) Spicata

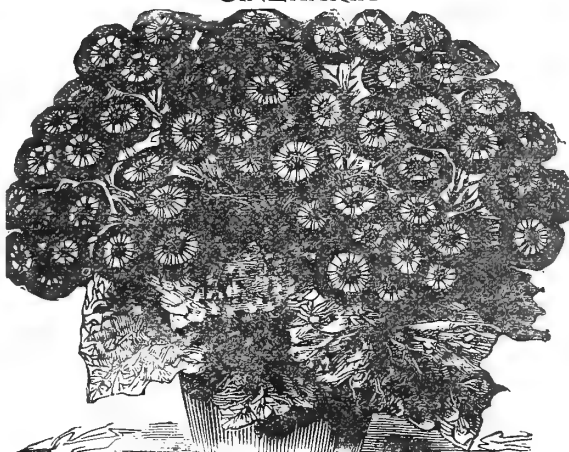

A very startling and handsome new sort, growing 2½ feet high. Immense bloom, silvery white tipped with bright rose. Each plant produces a great number of these blooms. Quite a curiosity in the garden. Pkt., 5c.; 3 pkts., 12c.

All Varieties Mixed—This will make a great collection, producing many curious plants and flowers. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

Celosia, Spicata

CINERARIA

This is a beautiful plant for the window. Not at all hard to grow. The seed germinates quickly and the plant grows about as broad as it is high and is covered with large flowers of the most brilliant colors. Nothing can be more attractive in a window, for the colors are exceedingly rich and velvety, ranging through all the shades of crimson and blue, some with large white centers or borders. Hybrid, Large Flowering, Finest Mixed, per pkt., 8c.; 3 pkts., 20c.

CACTUS

These curious and hardy plants are grown easily from seed and our mixture will produce a great variety of these odd and curious plants. A packet of this seed will produce a wonderfully interesting collection of plants. Per pkt., 6c., 3 pkts., 15c., 6 pkts., 25c.

CANNAS GLADIOLUS FLOWERING

This grand strain of Canna is of dwarf growth and produce immense Gladiolus-like flowers of most brilliant colors. On account of their profusion of bloom they are the most useful, showy and popular garden plants grown. A bed of these plants will make a grand sight and the plants can be easily grown from seeds sown in hot bed in the spring. We offer a grand mixture of all colors selected especially to offer our customers this year. Fancy Mixture per pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

GAILLARDIA

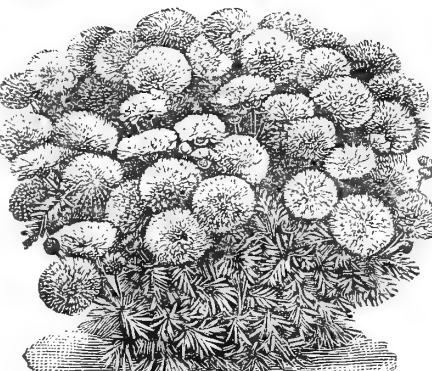

The flowers are greatly admired for their rich blending of colors. Bloom readily from seed the first year. Thrive well everywhere. This is one of the very finest everblooming flowers we offer.

Fine Mixed, All Colors, single flowers in red, yellow, scarlet and orange, per pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

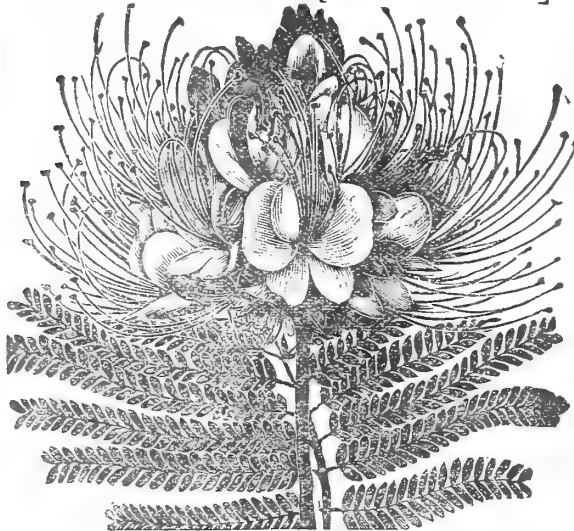

NEW DOUBLE GAILLARDIA—Produce large double flowers of various shades and colors. Very attractive and beautiful. Per pkt., 4c.; 3 pkts., 10c.

Baby Golden Glow

This is a beautiful annual, producing a yellow flower, which makes a pleasing effect. They will begin blooming early in the season and each plant will produce hundreds of bright yellow flowers as double and perfect as roses. Seed should be sown early in the house or hot bed and plants transplanted to the garden as soon as frost is past. The Baby Golden Glow grows only from twenty inches to two feet in height and resembles the famous Golden Glow which is a tall growing late flowering perennial plant. We are sure that this will make a very interesting plant and have succeeded in securing a choice supply of seed. Price per pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.

Baby Golden Glow

BIRD OF PARADISE [Poinciana Gilles]

Here is a rare novelty, a very interesting plant. The foliage of this new plant reminds one of a very delicate Acacia. The flower is a golden yellow, measuring nearly 2½ inches across, of beautiful shape as shown in the illustration. They are produced in very large trusses and the most beautiful part of the flowers are the very large pistils which spread out in a fan-like form, of bright crimson color. It blooms in great profusion the first year, if sown early in the spring. Can be grown inside in winter and outside in summer. Will produce large plants 3 to 5 feet tall. We first offered it seven years ago and the demand has been something unusual, simply exhausting our entire stock of seeds some time before the season was over, but we hope to supply all orders this season, as we have arranged for a greater supply than heretofore. A packet of the seed should be included with your order. Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

HELIOTROPE—These are easily grown from seed and if sown in open ground will produce flowers in August, but the seed will do better if sown in the house and set out in the open ground when the weather is warm.

LEMOINE'S GIANT HYBRID—A grand new variety of large size, great beauty and delicious fragrance. It is impossible to give an idea of the rare beauty of the flower heads of this wonderful variety. More than 12,000 flower heads have been counted on a single stalk. The trusses measure from 8 to 12 inches across and the colors range from pure white through all shades of blue and violet to a deep indigo. Per pkt., 5c., 3 pkts., 12c.

BLACK KING—This produces flowers of a rich, very dark purple. Per pkt., 5c., 3 pkts., 12c.

DARK BOUQUET—Of the deepest blue in color. Pkt., 5c., 3 pkts., 12c., 6 pkts., 18c.

LADY IN WHITE—This produces flowers of a spotless white. Pkt. 5c., 3 pkts., 12c., 6 pkts., 18c.

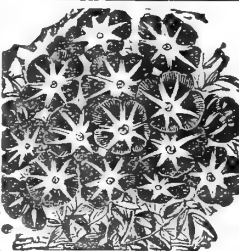

ALL VARIETIES IN A MIXTURE—A wonderful display. Pkt. 4c., 3 pkts., 10c., 6 pkts., 16c.

GODETIA

(Satin Flower)

Satin Rose—This produces very handsome large showy flowers of a rich velvety satin rose, the petals of which shine like satin. Per pkt., 4c., 3 pkts., 10c.

Fine Mixed
All Colors—Per pkt., 4c., 3 pkts., 10c.

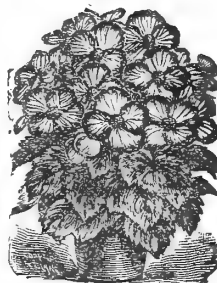

Feverfew

DOUBLE WHITE—Flowers enormous in size, snow white, and double as roses. Per pkt., 4c.; 3 pkts., 10c.

GOLDEN BALL—A dwarf double yellow, is a perfect little beauty. Is covered with large double yellow flowers. Pkt., 4c., 3 pkts., 10c.

All Colors, Mixed—Pkt., 4c., 3 pkts., 10c.

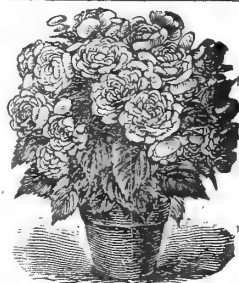

Single Begonias

BEGONIAS
From Seed

These large handsome Begonias can be easily grown from seed and are as easily cared for as a Geranium. Always produce brilliant flowers of various colors, both single and double, making a great display. We have a selected lot of seed, both single and double, which we offer as follows:

All Colors mixed, pkt., 6c., 3 pkts., 15c., 6 pkts., 25c.

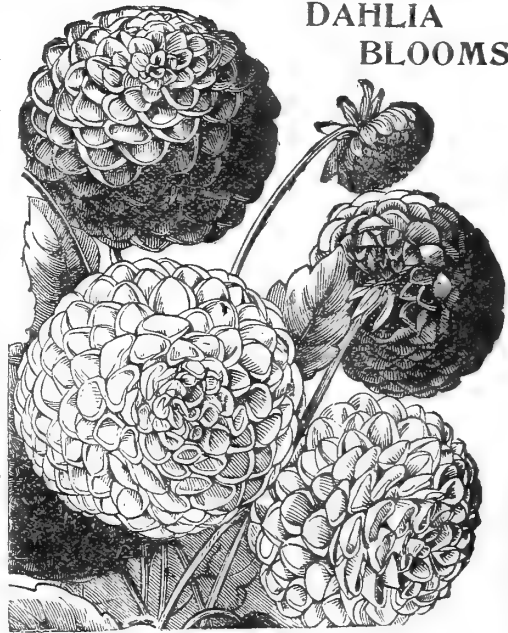

Double Begonias

For Begonia Bulbs see Page 61.

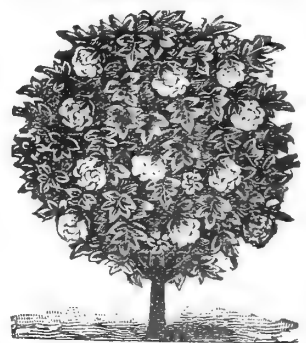

DAHLIA**EARLY FLOWERING**

MIXED—We offer a selected strain of Early Flowering Dahlias, and if the seed is sown early they will produce an abundance of flowers the first season from seed. The collection we offer is made up of all the odd markings, shapes and sizes and make a very interesting display. We have included everything that can be easily grown from seed. But few people know how easily Dahlias can be raised from seed. It germinates as easily as the Zinnia and from the very start grows fast and develops strong, stocky plants. All colors, shapes and sizes in a mixture. Pkt. 5c., 3 pkts., 12c., 6 pkts., 20c.

**DAHLIA**
BLOOMS**WALLFLOWERS**

FINE GERMAN DOUBLE MIXED—This is a splendid mixture; containing a large collection of shades and colors. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 18c.

CHOICE SINGLE MIXED—This includes all single varieties and a good variety of colors. Try a packet of each variety. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 18c.

New
Ornamental Cotton

This Cotton makes a very beautiful decorative plant when growing and for cutting in the fall for house use as everlasting, there is nothing better. Some leaves are green, white, yellow and red. The cotton is snow white. Grows easily from seed. Be sure to place your order for a packet. Pkt., 4c.; 3 pkts., 10c., 6 pkts., 18c.

FOXGLOVE

(Digitalis)

Produces long spikes of richly colored flowers, excellent for cutting. A very showy plant. Blooms the first season. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c.

TRY OUR GREAT ASTER MIXTURE.—See page 47.

**PHLOX = Brilliant Mixture**

We have selected all the free flowering varieties of Phlox and have made up a mixture which embraces all the colors and will make a magnificent display throughout the season. The plants grow from 16 to 20 inches in height and produce large trusses of immense brilliant flowers of various colors and markings. For a grand display we can highly recommend this brilliant mixture. Be sure to try it. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

DATURA**SWEET NIGHTINGALE**

This is a very showy and delicate pot plant, producing immensely large white trumpet shaped flowers very quickly from seed, is fragrant and a very interesting flower.

Mixed Colors, pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

HARDY PHLOX
-NEW LARGE FLOWERING HYBRIDS

For permanent beds in the garden or lawn nothing is more attractive. The plants bear immense panicles of large and bright colored flowers of many beautiful shades and colors. The plants are perfectly hardy, grow two or three feet high and bloom freely during the summer months. New Large Flowering All Colors Mixed, pkt., 6c., 3 pkts., 15c.; 6 pkts., 25c.

NEW PHLOX, -Bunch of Roses.-This is a splendid dwarf strain, the plants being completely covered with bright flowers. The florets are large and vividly rose colored, with a darker spot of rose close to the base, while the center of the flower is pure white. On account of the large clustered heads, its name, "Bunch of Roses" was selected. It is a great bloomer and we advise our customers to try it. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

CENTAUREA**NEW MARGUERITE**

A rare novelty. We consider the New Marguerite Centaurea a novelty worth growing. It is entirely distinct from all other Centaureas, and we believe is the most beautiful variety known. The plants grow about 18 inches high; easily grown, while the flowers are pure white and sweet scented. Be sure and purchase a packet or two. Per packet 5c.; 3 pkts., 12c.

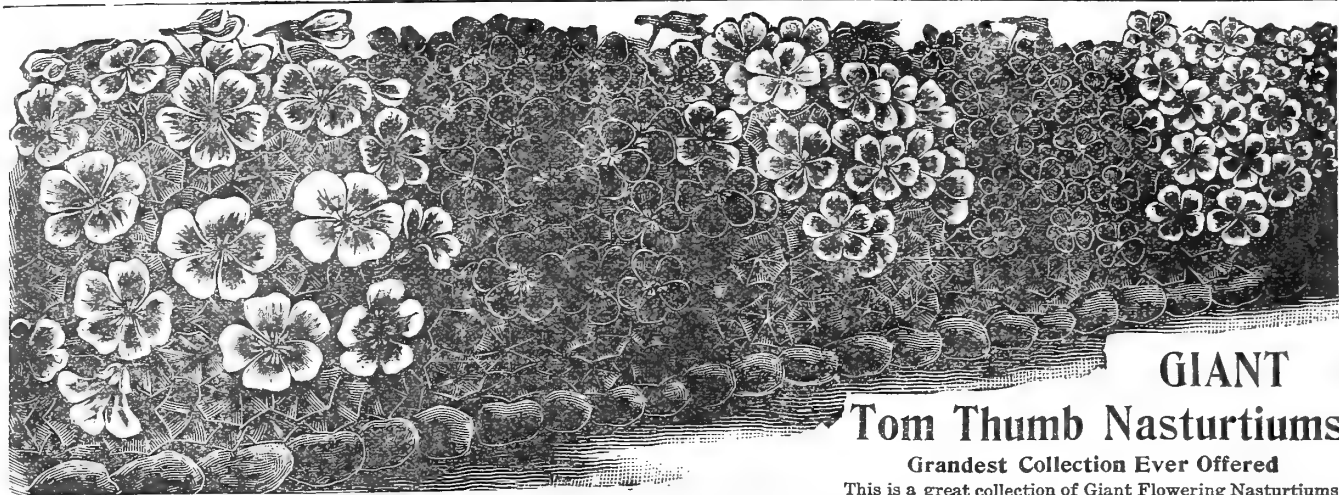

**Mammoth Mixed Petunias****PETUNIA****MAMMOTH MIXED**

Our collection of Petunias cannot be equalled. Our special mixture which we offer is made up of a great display of colors of the leading double varieties and will produce a very large per cent of double flowers. Those who desire a great collection of Petunias should plant this mixture. All Colors Mixed, pkt., 5c.; 3 pkts., 12c.; 6 pkts., 18c.

**Schizanthus, The Christmas Orchid Flower**

CHRISTMAS ORCHID FLOWER-This is a grand flower, being spotted and blotched with crimson, violet and yellow, making the flowers and plants have an odd appearance. It blooms well at all seasons, especially desirable in the winter as a house plant. It is very easy to grow. Do not fail to plant this beautiful mixture this season.

All Colors Mixed. pkt., 4c.; 3 pkts., 10c.; 6 pkts., 16c.

GIANT Tom Thumb Nasturtiums

Grandest Collection Ever Offered

This is a great collection of Giant Flowering Nasturtiums, which are excellent for bedding. The flowers often measure $3\frac{1}{4}$ inches across, and they are produced on strong plants in great profusion. These flowers are not only wonderfully brilliant but very uniform and always of large size. We know of no flowers for summer flower beds that can surpass them. The plants grow about a foot high and if the seed is sown in the open ground in the spring will produce plants that commence blooming early in the summer and continue until frost. This collection of Nasturtiums embraces all the colors known and we are sure everyone will be well pleased with the handsome foliage and giant flowers of various colors this mixture will produce. All Colors Mixed, pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.; oz., 12c.; 2 ozs., 20c.

Mixed Nasturtiums Giant Climbing

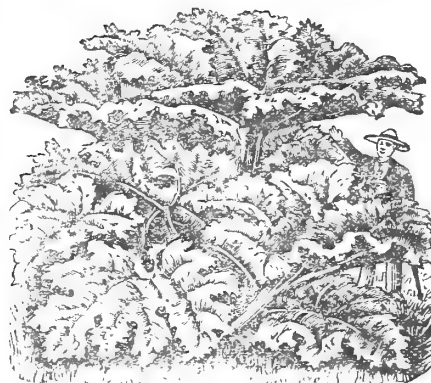

These new hybrids climb from 5 to 6 feet high and are fairly covered with brilliant colored flowers from spring until fall. This new strain is so very ornamental that it deserves a place in every garden, for the remarkable range of colors embracing rose, pink, salmon, purple, dark maroon, light maroon, light yellow, deep orange striped and blotched; extremely beautiful. Do not fail to give this Nasturtium a trial. All Colors Mixed, pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.; oz., 15c.; 2 ozs., 25c.; $\frac{1}{4}$ lb., 35c.

Hollyhock

Annual
Ever-Blooming

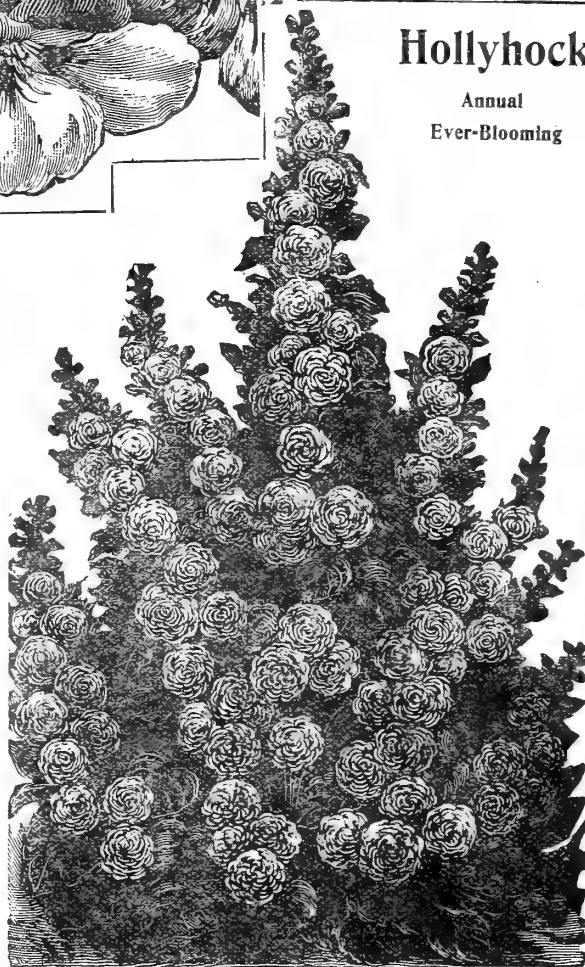

THE GIANT PLANT

This is a magnificent foliage plant and is a great curiosity when grown in the garden or on the lawn. Seeds can be sown early in spring and will produce plants ten feet high spreading twelve to twenty-five feet across with leaves from 5 to 6 feet across, making it a perfect wonder. It requires sun, good soil with plenty of moisture and in winter the roots should have protection. All who grow this Giant Plant will be pleased. Seeds, per pkt., 15c.; 3 pkts., 30c.

ANNUAL HOLLYHOCK—

They are as easily grown from seed as any annual and commence flowering in about 12 weeks and continue to bloom until killed by frost. On account of their blooming the first season they are much more desirable to grow than any other Hollyhock, as they can be started in the house or hot beds in March or April, or sown in the open ground in May. Plants from early sown seed set out in May will commence blooming in July and will produce an abundance of bloom throughout the season. This Annual Hollyhock is a wonderful free flowering sort as shown by the illustration. The forms and colors among the flowers would be a surprise to anyone. They are produced in double flowers, semi-double, single saucer shaped flowers, some with smooth edged petals, while others are fringed and of various shapes and shades. The flowers are usually very large, some times measuring over five inches across. For great variety of color we know of no Hollyhock that will make such a gorgeous display as the colors and markings are beyond description, and should be grown to be appreciated. The plants grow very strong and vigorous and are of a branching habit. The center spike will attain a height from 7 to 9 feet, but it can be kept at any desirable height by pinching off the top. To get the best results plants should be set in thoroughly rich soil and kept watered in dry weather. Mixture of double and semi-doubles, all colors and shades, pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

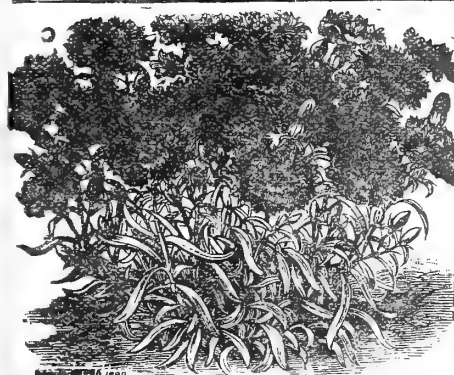

Ever-Blooming Annual Hollyhock

Japanese Flowering Iris Kämpferi

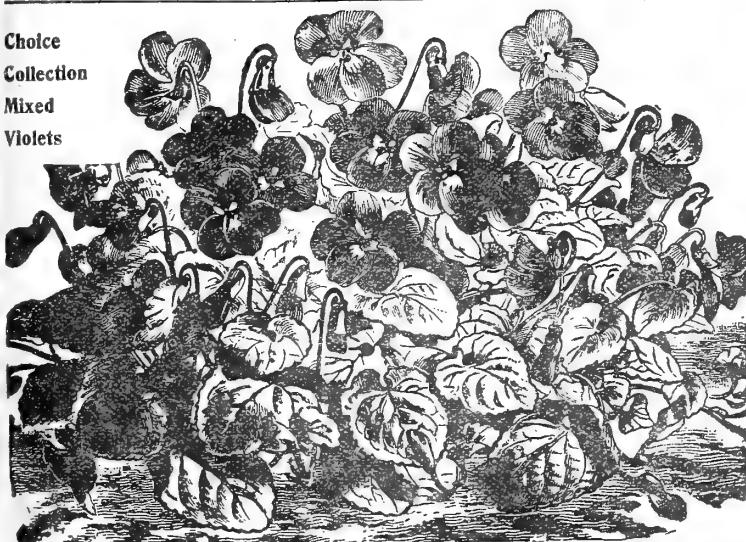

But very few know what grand flowers these lovely flowering Japanese Iris produce from seed, they make fine flowering plants. A bed of these Iris is a beautiful sight, as some will be double, some single, but always all different colors. The illustration will convey but a faint idea of the great beauty of these flowers. There are hardly any two alike and we would like to have our customers try some of this seed this year. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

Hardy Garden Carnations OR Scotch Pinks

These beautiful pinks are particularly valuable for bed borders and edging in gardens, lawns, parks and cemeteries. They are entirely hardy, need no protection and bloom regularly every season without attention. They are very fragrant, giving out a rich spicy fragrance that is particularly attractive and quite unlike anything else in the flower world. A single plant will grow from 12 to 18 inches in diameter. Cannot be supplied in separate colors, but our stock contains all shades from pure white to light red. Seeds per pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

Choice
Collection
Mixed
Violets

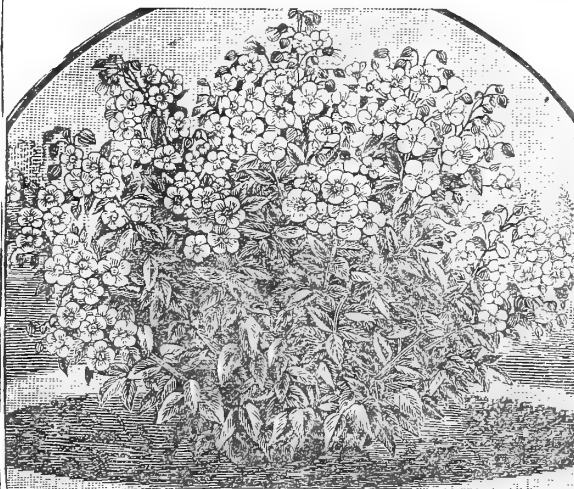

NEW CROSS-BRED FRENCH HYBRID ROSES

The seeds of this Rose germinate easily and produce strong vigorous plants which commence flowering in about 6 months from seed. As the plants grow older they become larger and yield a greater quantity of flowers, and the second and third years their bloom will be astonishing. The plants are hardy, need slight protection, and they produce a large percent of handsome double flowers in all colors and shades known in Roses, being very fragrant. They are suitable for garden or pot culture. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c.

New Cross-bred French Hybrid Roses

HIBISCUS

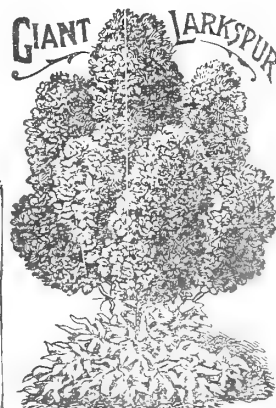

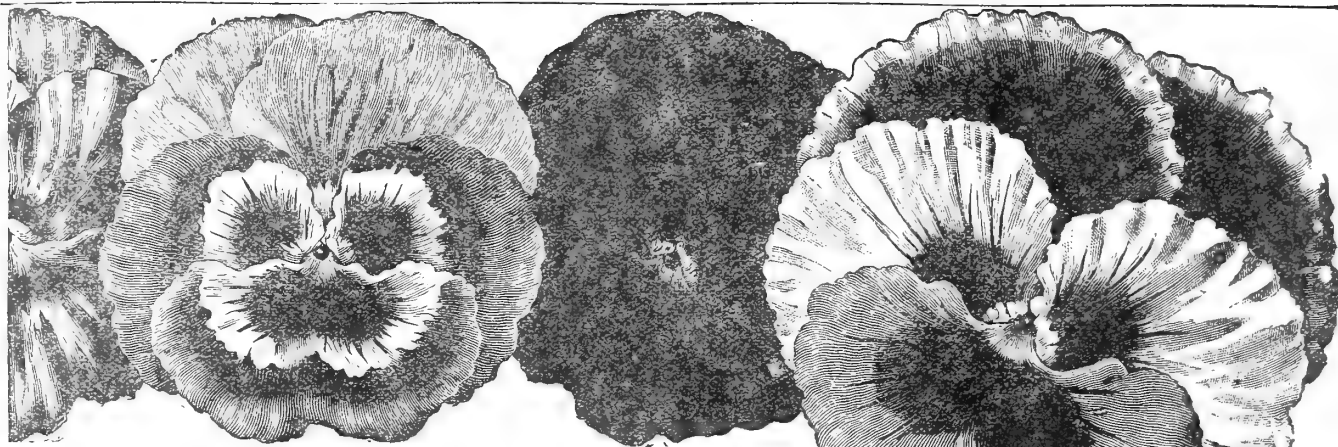

This is a handsome perennial plant, grows very fast and in one season attains the dimensions of a shrub. There is nothing more desirable for an ornamental hedge or to set in clumps as they are hardy and never winter kill. Early in summer they begin to flower and continue to produce enormous flowers, nearly as large as tea saucers of a variation of colors; bluish, white, deep pink, rose and many other odd markings and colors. This makes a very attractive plant wherever grown and easily raised from seed. Hardy Hybrids Mixed, per pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

One of the Brightest and Most Showy Annuals

LARKSPUR—Giant Hyacinth Flowering—An improved type producing large flowers very double of various shades and markings, which are borne on long spikes like immense Hyacinths. Can be easily grown in the open ground. All Colors Mixed, pkt., 4c.; 3 pkts., 10c.; 6 pkts., 15c.

VIOLETS—We offer a choice collection of many fine varieties and colors such as lavender, blue, white, etc. Many of the finest scented varieties are included, and if the seed is sown in the spring will produce fine plants for fall blooming. We offer a choice collection which will bloom almost as quickly from seed as pansies and are free blooming. All Colors Mixed, pkt., 5c.; 3 pkts., 12c.; 6 pkts., 18c.

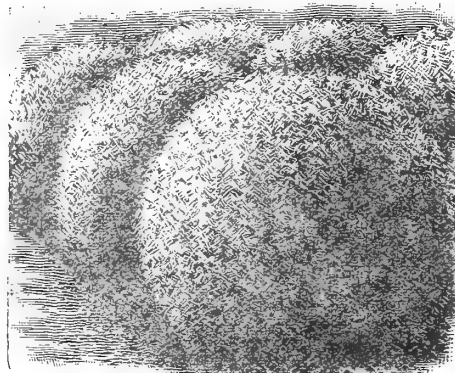

Giant Pansies = For a variety of colors and large size flowers, we do not think anything can surpass our famous collection, the seed of which we have imported direct from Germany. The colors embrace nearly everything known among Pansies, and the markings, variations and combinations must be seen growing to be appreciated. We can highly recommend it and will guarantee that no mixture on the market can produce a better collection of colors and an abundance of giant flowers.

All Giant Mixed Colors—Pkt., 5c., 3 pkts., 15c., 6 pkts., 25c.

KOCHIA SCOPARIA

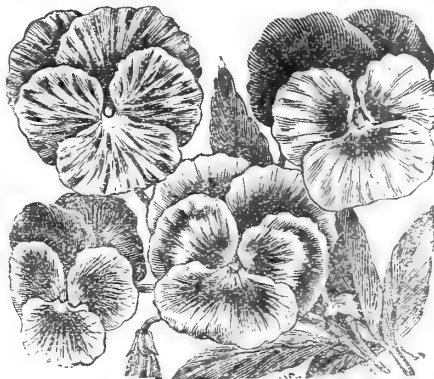

(Summer Cypress)

This is a beautiful plant, very unique and ornamental. The rounded globe-like form resembles a delicate evergreen highly colored. There is nothing handsomer for an annual hedge. Early in the fall the ends of the shoots are thickly set with small bright scarlet flowers. The plants are very showy and when planted in rows singly to show the round ball-like form, make a very striking plant. It is easily grown from seed, planted in the open ground in spring. You should try it this season. Per pkt., 4c., 3 pkts., 10c., 6 pkts., 15c.

VIOLET SCENTED PANSIES

This is a new type of Pansies and a cross between the Pansy and the Violet. Flowers more like Pansies but fragrant like Violets. Colors embrace canary, azure, blue, white, buff and many others. Per pkt., 5c., 3 pkts., 12c., 6 pkts., 18c.

MIGNONETTE

DEFIANCE—This is one of the leading varieties and largely grown as a florist's flower. It grows very strong both the plant and the individual flower, while the size and strength of the leaf have not been equalled. The spikes of flowers grow several inches long and the single florets more than 1/2 inch in diameter have a delightful fragrance. Pkt., 4c., 3 pkts., 10c., 6 pkts., 15c.

GOLDEN QUEEN—Produces yellow blossoms and is of very dense dwarf growth. Pkt., 4c., 3 pkts., 10c., 6 pkts., 15c.

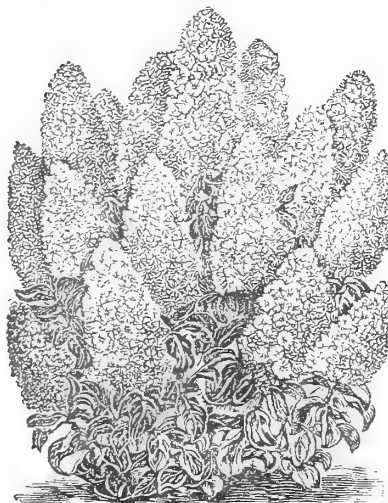

DOUBLE FLOWERING RED GIANT—This is one of the largest and

Defiance Mignonette

best Mignonettes for garden culture. It is a strong stocky grower, handsome foliage and very healthy. The spikes of flowers are mammoth, measuring 5 1/2 to 8 inches long by nearly 3 inches in diameter, and are completely filled with giant florets, measuring about 1/2 inch across and packed nearly three times as many as other Mignonettes contain, which entitles it to be called a double Mignonette. The fragrance is rich and powerful and for cutting there is no better variety, as it will remain fresh for several days when placed in water. Pkt. 4c., 3 pkts. 10c., 6 pkts. 15c.

FINE MIXED—This comprises all known varieties. It is a very choice selection. Pkt. 4c., 3 pkts. 10c., 6 pkts. 15c.

Double Flowering Red Giant Mignonette

GIANT ZINNIAS

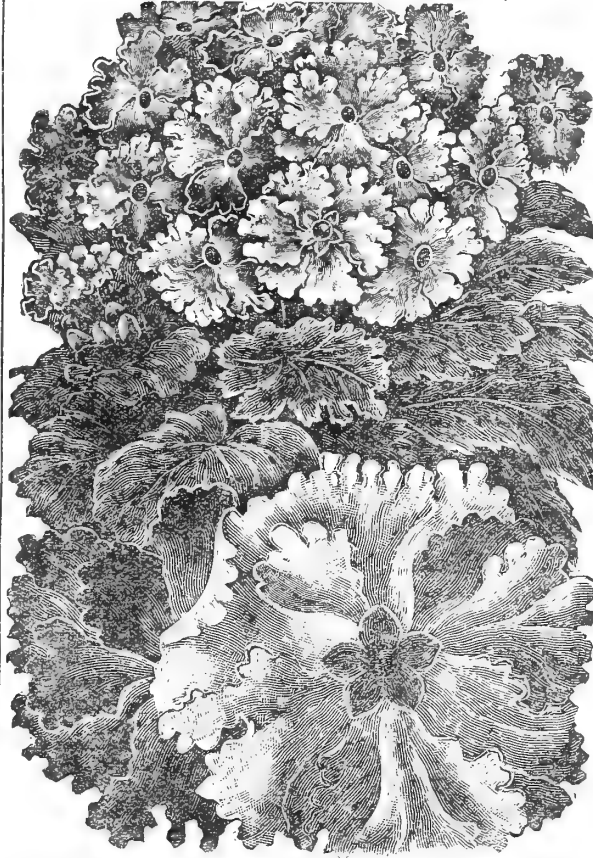

GIANT MAMMOTH MIXED—This is a new class of Zinnias, giant in size, and has perfect double flowers of the richest and most varied colors and shapes and measuring nearly 5 inches across, of intense brilliant colors. The plants grow about 3 feet high, and bloom freely. All Colors Mixed. Per pkt., 4c., 3 pkts., 10c., 6 pkts., 18c.

TOM THUMB ZINNIAS—Called Fairy Zinnia because the plant is dwarf, compact and covered during the summer and until frost sets in with very small perfectly double flowers, embracing a wide range of colors. Perfect little beauties. Per pkt., 4c., 3 pkts., 10c., 6 pkts., 18c.

WATER LILIES

ties in a mixture. Pkt., 10c., 3 pkts., 20c.; 6 pkts., 35c.

Seed should be sown in a pan of mud just covered with water and kept in a warm temperature where they will germinate quickly and grow rapidly. Our seed includes many new foreign varieties that will flower the first year and a packet of seed will produce many odd and curious flowers. We offer a collection of choice varie-

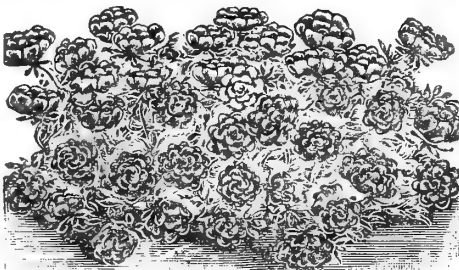

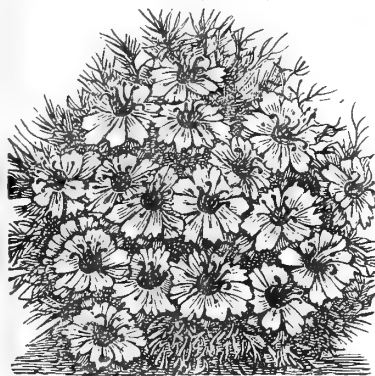

PRIMULA (Chinese Primrose)

These are easily grown from seed, produce very handsome plants and flowers and continue to bloom for months. The young plants produce an abundance of bloom as soon as well started if given plenty of air and kept in a warm dry place. They make an excellent pot plant or can be grown in the flower bed in summer. The colors are very beautiful and will be seen by the engraving. The plant produces an abundance of foliage well covered with large flowers. Our seed is the choicest and can be relied upon to produce large flowers of the finest colors. All Colors Mixed, the very best, pkt., 8c., 3 pkts., 20c., 6 pkts., 30c.

PORTULACA

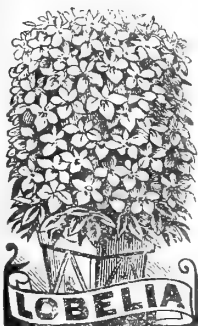

Royal Beauty—This is a grand new variety being recently introduced and has given great satisfaction wherever grown. The flowers are large and double, while the colors are very brilliant, of red, orange, white, maroon, yellow, and various other shades impossible to describe. A bed of these double Portulacas makes a magnificent sight. Pkt., All Colors Mixed, 4c., 3 pkts., 8c., 6 pkts., 14c.

SINGLE—These cover the plants completely over with large, bright, beautiful flowers of all shades. Be sure to plant a packet this season. All Colors, pkt. 4c., 3 pkts., 8c., 6 pkts., 14c.

**NIGELLA**

Nigella Plant

This is an easy growing annual, making a compact plant one to two feet high. It produces large double porcelain blue and white flowers, which completely cover the plant. The foliage is odd and striking. Mixed colors, pkt. 4c., 3 pkts. 10c., 6 pkts. 15c.

LOBELIA

An excellent pot plant for window culture, blooming in four weeks, making handsome little pot flowers. The colors are exceedingly clear, making them very charming plants.

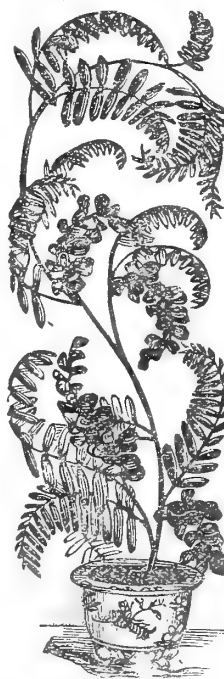

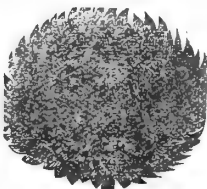

DARK BLUE

—Best for bedding. Pkt. 4c., 3 pkts. 10c., 6 pkts. 16c.

MIXED COLORS—All the very best. Pkt. 4c., 3 pkts. 10c., 6 pkts. 16c.

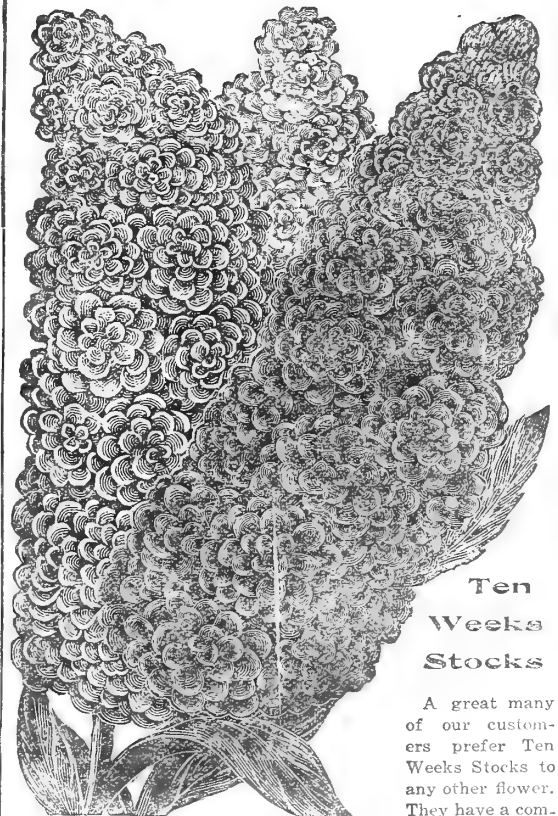

WEATHER PLANT

This is a beautiful flowering vine with fern like foliage and clusters of flowers. It is claimed that the leaves by changing their position foretell the weather two days in advance. If the leaves stand upwards from the twig at an angle of 45 degrees the sky will be cloudless and the weather beautiful. If they should stand out straight then changeable weather is indicated; or, if the leaves droop down, the indications are rain, and when the leaves are hanging straight down it indicates it will be very wet. Everybody should have this plant growing about their home. Per pkt., 4c., 3 pkts., 10c., 6 pkts., 16c.

**EVERLASTINGS**

This collection is made up of all the leading varieties of Everlasting Flowers. They are very attractive, as a bouquet of these flowers will keep for years without a drop of water and keep as fresh as when first picked.

We offer a very choice collection of Mixed Colors, and our seed cannot be equalled in this country. Pkt. 4c., 3 pkts. 10c., 6 pkts. 16c.

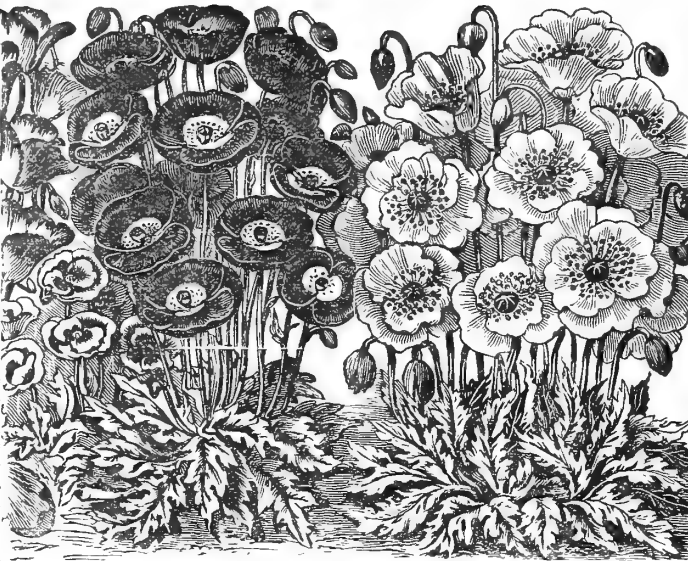

Ten Weeks Stocks

A great many of our customers prefer Ten Weeks Stocks to any other flower. They have a compact growing habit and produce long spikes closely set with large double flowers, each as double as a Rose, exceedingly sweet and varying in color from dark brown to all shades of red, yellow and blue to pure white. The plants are easily grown from seed and we offer a selected strain that will produce immense spikes of these handsome flowers. All Colors Mixed, pkt. 5c., 3 pkts. 12c., 6 pkts., 20c.

POPPIES

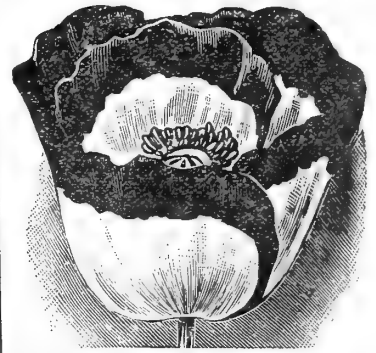

GORGEOUS MIXTURE

—We have taken great pains in making up a collection of Poppies that will produce the greatest display of any flower of its class ever offered. The seed grows quickly and the plants soon begin to bloom and continue to bloom for weeks throughout the summer. The flowers are immense both in color and size, often measuring 3 to 4 inches across, while the petals are fluted and crinkled, so that in the sunlight they appear like satin. The colors range through all shades, such as scarlet, salmon, carmine, white veiled with pink, striped, dotted and edged, white splashed, crimson, rose banded with white, bluish and numerous shades of odd markings, seldom ever known in Annual Poppies. Seed can be sown in early spring and will produce a gorgeous effect, especially in the forenoon of each day. By all means grow a large bed of these Poppies. All Colors Mixed, pkt., 3c.; 3 pkts., 8c.; 10 pkts., 20c.

Poppies, Gorgeous Mixture

NEW ADMIRAL POPPY

This is a grand new Poppy and quite a curiosity. We succeeded in securing the seed from Germany and we advise all to give it a trial. It is a new species from Asia Minor, and doubtless the finest of the open ground Poppies, sown in autumn it blooms from June through summer, bearing flowers from 2 to 2½ inches across of a fiery dark orange scarlet with black spots at base. The branching plants are about 16 inches high with gray green foliage. This is a real novelty and the seed is very limited. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 16c.

Salvia or Scarlet Sage

LARGE FLOWERING SCARLET

—This is a most gorgeous plant with its brilliant colors producing an abundance of bloom during the summer. The great spikes of bloom completely conceal the foliage, making it a blaze of flaming scarlet. One plant will produce several hundred spikes of flowers in a season, each spike being about ten inches in length. Per pkt., 15c.; 3 pkts., 12c.

Nicotiana

SANDERAE HYBRIDS

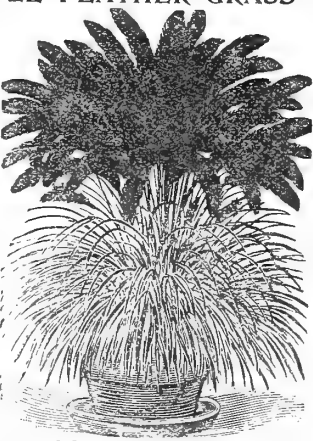

—These flower from early summer until late in autumn. Their beauty is beyond description, flowers produced being purple, snow white, dark and light red, violet, salmon, crimson, pink and various other shades. It is a very easily cultivated plant, will thrive in any soil, either in pots, boxes or in the open ground. Flowers are nearly as large as a petunia with tubes 5 inches long and many of the flowers are delightfully scented. You should not miss this excellent plant, as it is good for summer, fall or winter blooming. Cut blooms last

Nicotiana Plant.

PURPLE FEATHER GRASS

Here is quite a curiosity and we believe will be very useful for the lawn or house decorations on account of its rapid and vigorous growth. The recurring leaves, which are narrow and grow very graceful are overtopped by elegant feather plumes about a foot long. The heads are borne from July until frost and the whole plant seems to be veiled in a purple cloud. It certainly is the most beautiful and ornamental house plant of easy culture which can be readily grown from seed. Price, per pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

RICINUS (Castor Oil Bean)

ZANZIBARENSIS—This is a handsome quick growing variety and if planted in the open ground in May should be in full foliage by July and attain a height of from 12 to 14 feet during the season. This is a giant variety and a few plants in a large bed make a most picturesque sight to be admired a long distance. The gigantic leaves measure 2½ to 4 feet across and are a magnificent sight. Giant Varieties, pkt., 5c.; 3 pkts., 10c.; 6 pkts., 18c.

well opening freely in water. All colors mixed. Pkts., 5c., 3 pkts., 12c.; 6 pkts., 18c.

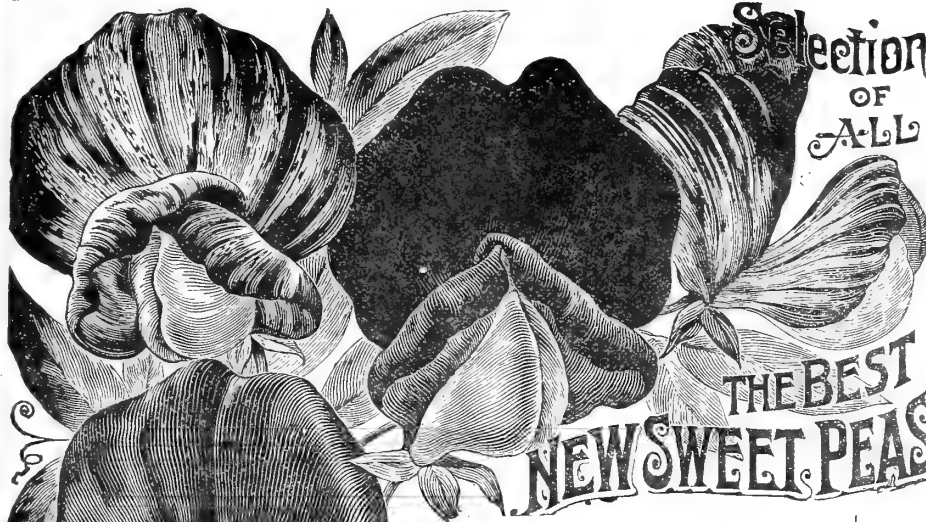

Plant of Legion of Honor—Marigold

MARIGOLD—LEGION OF HONOR—Named so because it resembles Button of the Legion of Honor. Flowers bright and almost startling. Bright golden yellow with a deep velvety crimson brownish red mark on each petal at base. The plants are very dwarf and compact while they produce large flowers. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 16c.
TOM THUMB MIXED—These form compact little bushes from 6 to 8 inches high completely covered with handsome blossoms from summer until fall. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 16c.
FRENCH MIXED COLORS—These produce double flowers of rich dark shades. Pkt., 4c.; 3 pkts., 10c.; 6 pkts., 16c.

ALPESTRIS BLUE—A grand free-flowering sort and the very best blue variety. Will thrive in almost any soil. Per pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

**SWEET PEAS****SEPARATE COLORS**

EARLIEST OF ALL—This is the very earliest always coming into bloom nearly two weeks in advance of any other variety. Two crops of flowers may be grown in one season if the seed is planted very early in the spring. The flowers are pink and light shades, very delicate. Pkt., 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 10c., 2 oz. 16c.

EMILY HENDERSON—This is the very best pure white variety, large flowers, long stems. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 10c., 2 oz. 16c.

EXTRA EARLY BLANCHE FERRY—This is a very early variety. The flowers are rose pink, wings white, tinted rose. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 10c., 2 oz. 16c.

BLACK KNIGHT—Very deep maroon color, wings brownish purple. Pkt., 4c., 3 pkts. 10c., oz. 10c., 2 oz. 16c.

RED RIDING HOOD—Produces bright dark reddish pink flowers in abundance. Pkt., 4c., 3 pkts. 10c., 6 pkts. 18c., oz. 10c., 2 oz. 16c.

LARGE FLOWERING MIXED SWEET PEAS—We have taken great pains in making up this mixture, having included all the large flowering sorts as well as all the different colors and we make this mixture a specialty. The plants grow rapidly and produce in great profusion an abundance of gigantic flowers borne on long stems of all the different colors known among Sweet Peas. They begin to bloom early in the season if planted in the spring and continue to give an abundance of flowers all summer. This great mixture cannot be too highly recommended. Pkt., 4c.; 3 pkts., 8c.; 6 pkts., 15c., oz., 10c.; 2 ozs., 15c.; ¼ lb., 20c., ½ lb. 30c., lb. 50c.

**Cupid Sweet Peas**

CUPID SWEET PEAS, Mixed Colors—This mixture is made up of all the different colors in the Cupid varieties. Plants of this sort

grow only about five inches high, spreading out and forming a mass of foliage and flowers. All Colors Mixed, pkt., 4c., 3 pkts., 10c.; 6 pkts., 16c.

CUPID BEAUTY—This is the most beautiful of the Cupids, growing from 6 to 7 inches high. Standard rose pink, shaded to white, wings rosy carmine. Pkt., 4c., 3 pkts., 10c., 6 pkts., 18c.

**DOUBLE SWEET PEAS**

Produce from 20 to 50 per cent of double flowers. We have the finest strain in existence, with all the best colors, making a grand mixture. Is very attractive. Per pkt., 5c.; 3 pkts., 12c., 6 pkts., 20c.

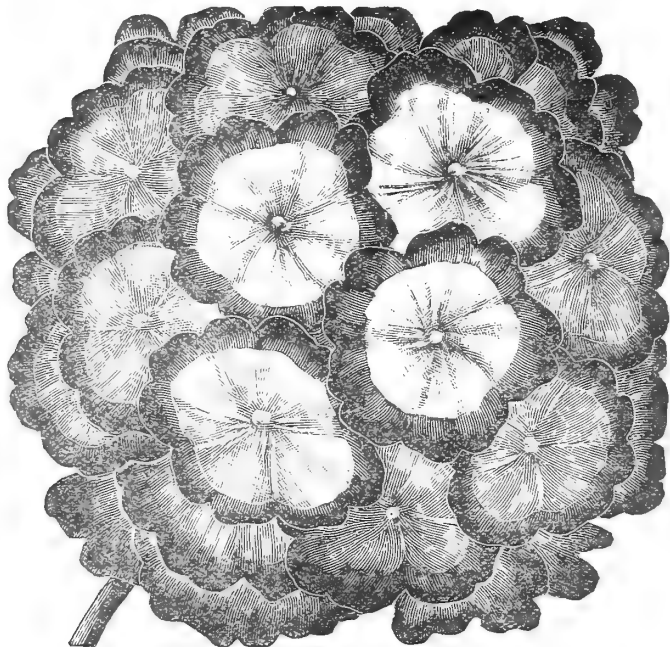

**GIANT ORCHID FLOWERED SWEET PEAS**

This is the Sweet Pea that is very popular. The engraving gives but little idea of its mammoth size, and a very faint idea of the shape and coloring, as the enormous flowers are frilled, crinkled and waved to a remarkable degree, giving them the well deserved title, "Giant Orchid-Flowered". They are beyond comparison to all other varieties, and the harmony of soft coloring in the varieties we offer in this mixture is simply beyond the power of words to describe. This mixture contains shades in white, rose, crimson, lavender, blush, etc., some deeper in shade than others of the same color. If you only have one packet of Sweet Peas this season, let it be this collection of Spencer or Giant Orchid-Flowered. Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.

BUSH—A half dwarf form of Sweet Pea growing nearly 18 inches high. Needs no support, is a vigorous and profuse bloomer, producing flowers in white, pink, rosy carmine, violet, striped and various shades and markings found among Sweet Peas. A good sort to grow. Mixed Colors, pkt., 5c.; 3 pkts., 10c.; 6 pkts., 18c.

MAMMOTH VERBENAS

A Flower From Our Mammoth Verbenas

We offer a Mammoth Strain of Verbenas easily grown from seed. It is the easiest and best way for an abundance of flowers to sow this mixture of seed, which will produce flowers of all colors and markings quite early in the season and they will continue to bloom until cut off by frost. In this mixture will be found all the delicate colors and shades and all those who want a great display of Verbenas should grow our seed. All Colors Mixed, pkt., 4c., 3 pkts., 10c., 6 pkts., 18c.

TRITOMA

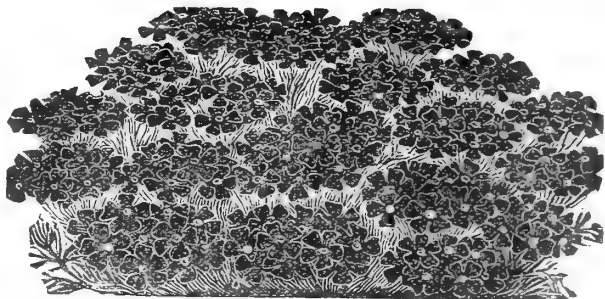

The Tritoma is sometimes called Red Hot Poker or Torch Flower. It will bloom the first season from seed, sending up tall flower stems on which are borne the great blossoms of a bright red or flame color. Single plants produce from five to a dozen of these great flowers, stalks growing 3 to 4 feet high presenting a brilliant appearance. The plants are hardy in open ground and grow and bloom early in spring.

Per pkt., 8c.; 3 pkts., 20c.

CLEMATIS,
PANICULATA

One of the most valuable of all the hardy flowering vines. Of exceedingly rapid growth, soon reaching a height of 15 to 20 feet and spreading out in all directions. Small, pure white flowers, borne in great masses of panicles or clusters on long stems so profuse as to fairly cover the plant with a sheet of fleecy white. Its blooming period is in August and September, when most other vines have ceased, and it is a sight to behold. Not its least charm is its delightful Magnolia-like fragrance. Perfectly hardy. You can grow this handsome vine from seed. Price of Clematis seed, pkt., 5c.; 3 pkts., 12c., 6 pkts., 20c.

MOSS VERBENA

This new Verbena produces a mass of fine moss-like foliage and as the branches spread out over the ground in all directions a lovely carpet of mossy green is formed, above which are borne the clusters of purplish blue blossoms in great profusion. It is more hardy and robust than most Verbenas and blooms in a very short time from seed. Per pkt., 5c., 3 pkts., 10c., 6 pkts., 18c.

BLUE AND WHITE EYE—A light, blue flower with a white eye. A bed of only three plants makes a grand sight. Per pkt., 4c., 3 pkts., 10c., 6 pkts., 18c.

PURE WHITE—Can be sown in the open ground early in the spring; will germinate quickly, grow rapidly, and in a short time bear a great profusion of blossoms. These blossoms, instead of growing in clusters like other sorts, are borne on spikes 3 or 4 inches long. The flowers are pure white and fragrant, making them very attractive. Per pkt., 4c., 3 pkts., 10c., 6 pkts., 18c.

GOLDENLEAVED—Scarlet flowers with leaves of a bright yellow shade. Per pkt., 4c., 3 pkts., 10c., 6 pkts., 18c.

SCARLET DEFIANCE—Intensely deep rich color, of the brightest scarlet. Very attractive. Per pkt., 4c., 3 pkts., 10c., 6 pkts., 18c.

CYCLAMENS

This is one of the very best for pot plants. Blooms in winter and summer, producing graceful, orchid-like flowers. The plants develop a bulb which can be planted from year to year. The colors range from white to darkest crimson, with intermediate shades and the foliage is very handsomely marbled. Splendid Mixed Colors, per pkt., 8c., 3 pkts., 20c.

FERNS

It is very easy to raise a great collection of Ferns from the seed. They make splendid decorations for the table, windows, etc. The seeds are very fine and should be sown in shallow boxes on the surface of moist soil with an extremely light covering of crushed or sifted moss. Ferns require a light, sandy soil, well enriched.

Choicest mixed, from a very fine collection, all sorts, per pkt., 8c.; 3 pkts., 20c.

For either pot culture in the winter or summer bedding. Few people know how very easily and quickly they bloom from seed. You can get all the plants you want with very little trouble and expense by sowing the seed. Some of the finest sorts have been raised from seed. Start early and you will have plenty of bloom the first year. Extra Choice, Good Mixed Double and Single, per pkt., 8c., 3 pkts., 20c.

Lilium

Auratum

You can grow it from seed. This superb Lily is well known as the Golden Banded Lily of Japan, and is considered the most showy of them all. It's flower is from 10 to 12 inches in diameter and is studded with rich chocolate crimson spots on ivory white ground, with pale but distinct yellow ray bands. It often produces more than 20 flowers to the bulb and they have a strong, sweet fragrance. This is a grand Lily easily grown from seed, but very few being aware of this fact. We offer choice seed direct from Japan, and we advise our customers to see how easily they can grow these Lilies by starting from the seed. Seeds per pkt., 6c.; 3 pkts., 15c. 6 pkts., 25c.

Lilium Auratum

GERANIUM SEED

ELECTRIC LIGHT PLANT

Here is a wonderful curiosity, which produces a sturdy, bushy plant, growing to the height of about four feet and covered with large spikes of flowers six to eight inches long. These flowers are produced in lovely shades, which are pure white at base and ranging from rose to bright red to top of flower. It makes a showy and ornamental plant and when grown in clumps it is a beautiful sight. They can be readily grown from seed if planted in open ground early in spring.

Seeds, per packet, 5c., 3 pkts., 12c., 6 pkts., 20c. postpaid.

SHOO-FLY PLANT.

THE MAGIC WONDER.

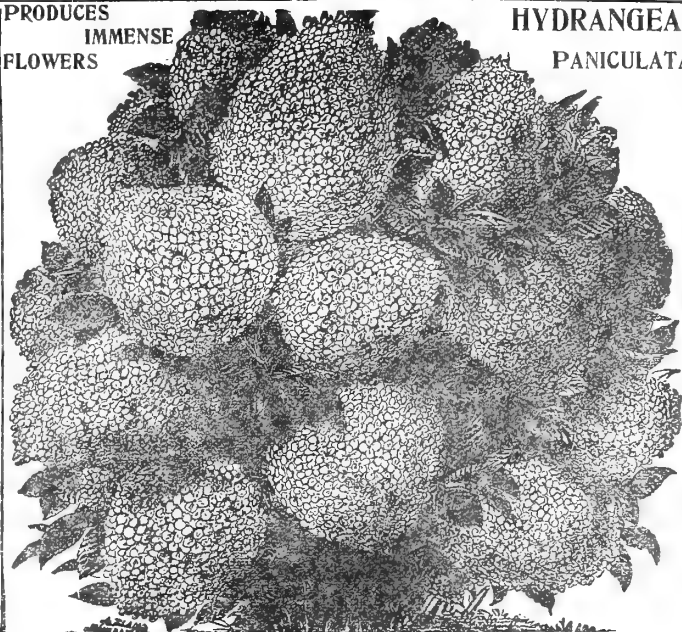

from seed which we can supply as follows: Price, per pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.

Here is quite a curiosity and is very interesting, of the Physalis family. It is claimed that flies will not stay in the room where it is grown if they can escape. We are unable to understand why this can be, as the plant or flower does not seem to have any odor, but it is claimed by those who have made the test that it will rid a room of flies. It is a great plant to bloom when grown in pots summer or winter, and it is a most remarkable free flowering plant blooming in a short time from seed. On account of the blossoms being large, cup-shaped and of a delicate light blue color with a white center, we are sure it will be highly prized by all those who grow it. It can be easily grown

PROCESSES IMMENSE FLOWERS

HYDRANGEA- PANICULATA

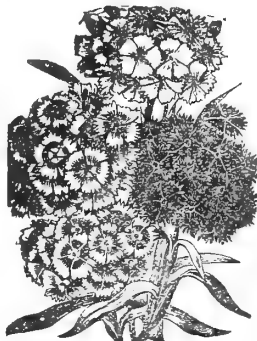

Hardy Hydrangea-Paniculata.

One of the finest hardy shrubs ever introduced, and in size and magnificence of bloom not excelled by any shrub in cultivation. The bush in time attains a large size, growing in beauty year by year. It is in full glory of bloom from August until the middle or last of October, when every branch is crowned with an immense panicle of fleecy, pure white flowers, changing later to a pinkish hue, sometimes a foot long and nearly as broad at the base, presenting an aspect of majestic grandeur that absolutely defies description. Entirely hardy, very free growing, a profuse bloomer and thrives in all soils. It should have a permanent place in every garden, not only because it is such a glorious shrub, but for its flowers appearing at a time when few others are to be found. A bed of one hundred makes a most striking appearance. It can be grown from seed, and we have secured a choice lot for our customers this year. Start some of these plants this spring. You will be surprised at the result.

Price, Pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

SWEET WILLIAM

CHOICE MIXED—A hardy perennial, growing about 18 inches high. Both double and single flowers. All colors mixed per pkt., 4c.; 3 pkts., 10c.; 6 pkts., 18c.

Salpiglossis (Velvet Flower)

The flowers are marked and penciled, resembling the Petunia. All Colors Mixed, per pkt., 4c.; 3 pkts., 10c.; 6 pkts., 16c.

Banana or Musa Ensete

This is a gorgeous and rapid growing plant, with giant magnificently shaped leaves of a beautiful bright green color. Seeds sown early in hot bed and repotted will give plants eight feet high the first summer. It certainly is a great curiosity and a few planted in your garden or upon the lawn, will make an ornamental and gorgeous effect. The seeds of this variety are scarce and hard to get, but we have secured a limited supply which we offer at the following prices: Large seeds per pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.

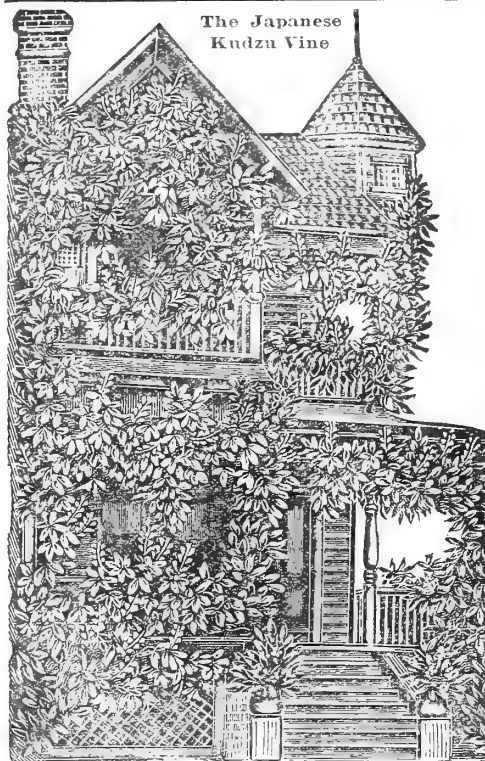

THE WONDERFUL PERFUME PLANT

This is one of the most wonderful of all marvelous plants the earth holds forth for our delight. It is a modest little flower (biennial) which can be easily started from the seed and will grow rapidly forming a plant from 10 to 20 inches in height. Towards evening the delicate lilac colored blossoms which are always closed during the day, unfold and fill the air with the most delicate and far-reaching fragrance. A few plants growing in the garden or on the lawn will make a delightful perfume during the summer evenings which may be detected quite a distance away. This charming floral novelty thrives in all climates and all soils and lasts throughout the season. It is a splendid flower to plant in odd corners of the garden or on the lawn and it may also be grown in pots in the house during the winter. The illustration from a photograph shows a single plant, growing in a pot, produced from seed sown in the spring. We believe that this wonderful plant will give more pleasure and satisfaction than any flower we offer and it is our earnest desire that every one who receives this catalogue shall try it.

It is said that the perfume plant is very valuable in Europe because of the rare perfume made from it. We believe our customers will be repaid many times over for planting it from the pleasure it will afford. We have a limited quantity of seeds to offer, sufficient we hope, to supply all our customers at least one packet, and we make the price very low for such a rare novelty.

Price per pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.

The Japanese
Kudzu Vine

The Famous Japanese Kudzu Vine.

(Jack and the
Bean Stalk Vine.)

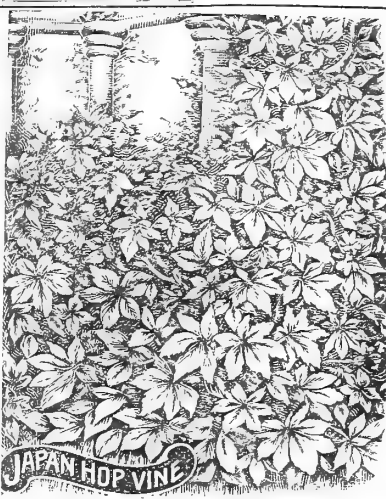

This comes from Japan the land so productive and curious for ornamental flowers. With ordinary treatment it will grow seventy feet in one season filling the air with the fragrance of its large clusters of wistaria like blossoms. It requires very little care and in three months this wonderful vine progresses as much as most vines do in five years. It is perfectly hardy, lasts for years and everyone should plant it. The foliage is large, shaped like the leaf of a bean, and the flowers are a pleasing shade of purple. Per pkt., 5c., 3 pkts., 12c., 6 pkts., 18c.

Allegheny Vine

This is one of our best hardy climbing plants being a native of the Allegheny Mountains, very attractive and picturesque. Flowers, rose, pink and white. Try it this season, it's a wonder. Per pkt., 4c., 3 pkts., 10c.

JAPANESE HOP VINE

This is a handsome vine, growing from twenty to thirty feet in a season. The leaves are striped and variegated making a charming effect. It is a rapid summer climber and one of the best plants for covering verandas, trellises, etc. Heat, drouth and insects do not trouble it. Per pkt., 4c., 3 pkts., 10c., 6 pkts., 18c.

JAPAN HOP VINE

Japanese Giant Flowering Dolichos.

(Hyacinth Bean.)

This annual climber grows about ten feet high, branching out well from the bottom, producing an abundance of sweet pea like blossoms, borne in long wistaria like clusters, nearly a foot in length. The foliage is very dense and is insect proof. Mixed Colors per pkt., 5c.; 3 pkts., 12c., 6 pkts., 18c.

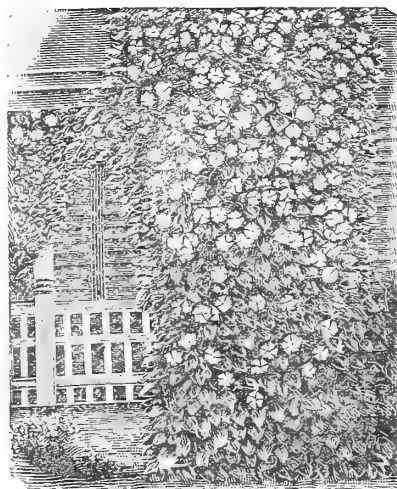

MOON FLOWER VINE

(Ipomoea Grandiflora)

This vine has become very popular, and on account of its being a rapid grower, it has taken the lead among the annual climbing vines and no one who has a trellis or arbor, veranda, or old tree to cover should fail to plant the Moon Flower. It is the most rapid growing of all climbing vines and if given a sunny situation and plenty of water, it will attain a height of from forty to sixty feet and be covered with thousands of immense pure white fragrant flowers, opening in the evening and remaining open until nearly noon the following day. The flowers are from five to seven inches in diameter. Pkt., 5c., 3 pkts., 12c., 6 pkts., 18c.

COBEA--[Scandens]

A rapid growing climber, attaining a height of fifteen to thirty feet produces rich purple flowers. Per pkt., 5c.; 3 pkts., 10c., 6 pkts., 15c.

Moon Flower Vine.

Wild Flower Garden Mixture ==

We have made up a great mixture of Flower Seeds, including nearly all Flower Seeds that will grow and flower from seed the first year. This selection embraces several hundred varieties of easy growing and pretty flowers suitable for a wild flower garden. They are excellent to sow in any corner of the garden or along fences or any unsightly place, where they will grow and bloom freely. Without doubt this collection contains more varieties of beautiful flowers than any other one packet on the market. Price per liberal packet, 5c., 3 pkts. 12c., 6 pkts. 20c.

MORNING GLORIES Japanese Giant Flowering

This is a splendid strain which produces gigantic blossoms as large as Moon Flowers the first summer from seed. The variegations and markings are very handsome and the vines grow rapidly and come into bloom early in the season. The flowers are borne by the hundreds, are of mammoth size, from 5 to 6 inches across, and of the most vivid and blending colors to be seen in any flowers. The colors range through all shades of crimson, light and dark blue, pink, spotted, blotched, mottled and variegated, and marked in many odd ways, while the flowers are borne in immense quantities. Price of all mixed colors, per pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

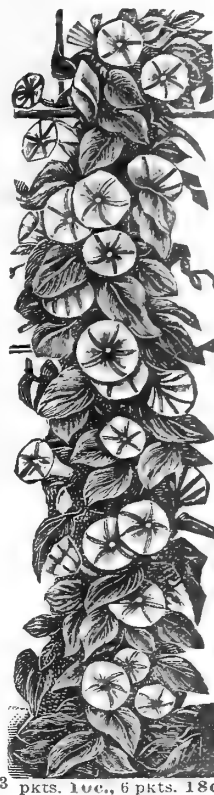

CYPRESS VINE

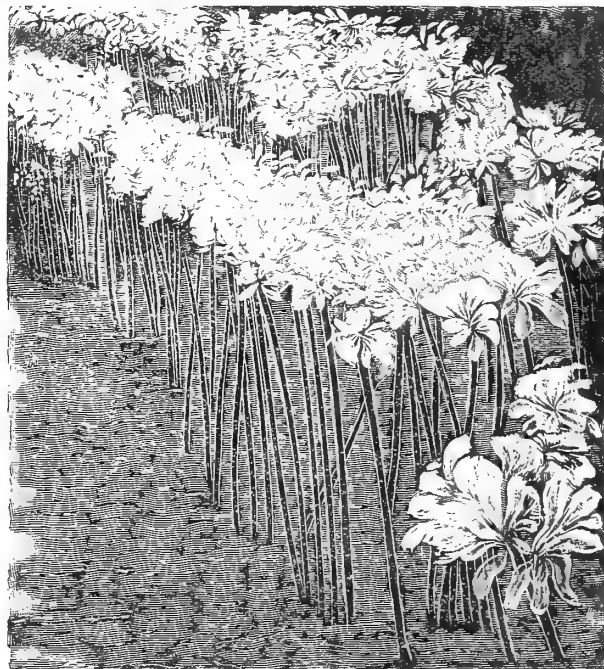

This is a beautiful and artistic vine. The trembling foliage, star shaped flowers give the plant a charming effect. Mixed Colors, per pkt. 4c., 3 pkts. 10c., 6 pkts. 15c.

Wild Cucumber Vine

This is one of the quickest growing climbers in our list. It will grow 30 feet in one season. It is thickly dotted over with pretty white fragrant flowers, followed by an abundance of ornamental and prickly seed pods. To cover unsightly buildings or fences, nothing will equal it. Pkt. 4c., 3 pkts. 10c., 6 pkts. 18c.

THE MAGIC LILY OF JAPAN

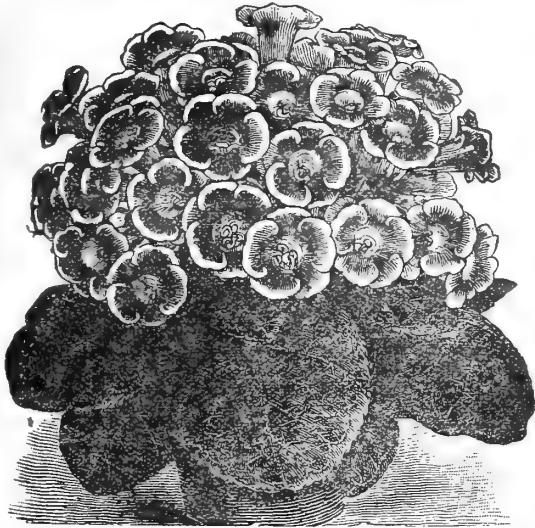

This Lily is distinct from any other in its large, beautiful pink flowers. Early in the spring it produces unusually attractive green strap-leaf foliage, too unique to compare with any other foliage we can mention. This foliage retains its full brilliancy until in July, when it ripens and disappears, and one not familiar with the plant would at this time judge from appearances that the bulb was dead. The most beautiful is yet to come, and about three weeks later, the bulb shoots a stalk from the ground like magic, to the height of three or four feet, developing a cluster of lilies from six to fifteen in number, each from three to four inches across, with coloring of the most pronounced, yet delicate pink imaginable, shaded with clear blue. The first flower retains its beauty of color and shape even to the extremity of its petals until long after the opening of the last bud on the stem.

This Lily is perfectly hardy and succeeds in ordinary garden soil. The bulbs need no protection and can be planted in the fall or spring, but we advise spring planting. Cover the crowns about four inches.

Price of Bulbs, 15c. each, 3 for 40c., 6 for 75c. postpaid.

MAMMOTH GLOXINIAS

Our Mammoth Gloxinias are the grandest of all summer flowering bulbs. They are no trouble to grow and they bloom constantly until autumn, when they should be allowed to die down and then store away in a warm place until the next spring, when the bulbs can be planted again. The bulbs we offer will make a gorgeous display, producing handsome trumpet-shaped flowers, all colors, such as pure white, blood red, indigo, pink and scarlet, spotted and edged, tinted shades, with many combinations of all colors, always rich and beautiful beyond description. Large Flowering Bulbs, all colors mixed, 10c. each, 3 for 25c., 6 for 45c., 12 for 85c., postpaid.

FAIRVIEW FANCY GLADIOLI—Gladioli are about the most beautiful and useful of our summer flowers. The spikes are large, soft and delicate, and varied in a hundred hues, also marked like orchids. They are of easy culture, grown in any garden soil, always flower the same season. Our fancy mixture can be relied upon to produce shades of the most beautiful colors, yellow, crimson, buff, salmon, lemon, rose, pink, white, cherry, maroon, scarlet, etc., in fact, all the odd marked sorts that one can think of. All the giant flowering varieties are included, which will make a gorgeous display. All old, poor and common sorts have been discarded and this mixture is of a higher grade.

Flowering sized Bulbs, all colors mixed, 5 for 10c.; 12 for 20c.; 50 for 75c.; 100 for \$1.25, postpaid. By express, 100 for \$1.00; 500 for \$4.50.

GLADIOLUS SEED—All colors mixed, very fine. Pkt. 6c.; 3 pkts., 15c.

GLADIOLUS BULBS

WE OFFER A GOOD COLLECTION OF COLORS

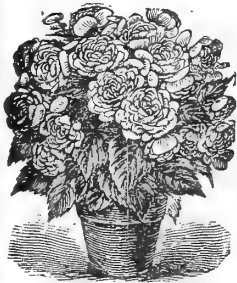

Fairview Fancy Gladioli

EASTER GLADIOLUS—This variety is well adapted to pot culture, and is an early flowering sort and will produce beautiful flowers for Easter. Pot bulbs in winter and at least three may be planted in a five-inch pot. They will soon be up and about Easter will show handsome spikes of bloom. The color is a white with a lemon tinge and a large bright crimson center, which makes them very attractive. In the garden they bloom earlier than any other kind.

Good Bulbs, 6c. each; 3 for 15c.; 6 for 25c. postpaid.

BEGONIAS--Tuberous Rooted

Double Begonia

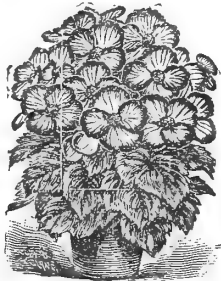

bulbs can be started from March to June and will soon be in full bloom. They must be kept from direct sunshine, a good place for them is the north side window or if planted out, in some partly shaded place. Our strain of both single and double is a very superior one, many of the flowers measuring three to five inches in diameter.

We offer single and double bulbs in all the various colors and markings.

Single—All colors mixed, 6c. each, 6 for 30c., 12 for 50c.

Double—All colors, 10c. each, 3 for 28c., 6 for 50c., 12 for 80c., postpaid.

The Tuberous Rooted Begonia is a fashionable plant of the day, and richly does it deserve its honors, for, in addition to very handsome foliage, it bears a never-ending profusion of the most ravishingly beautiful flowers the whole summer, and then, with the coming of cold weather, very obligingly takes a rest until spring, asking no further care through the winter than to be packed in soil away from the frost. This grand plant is a rival to the gloxinia as a summer window or conservatory plant, and as strong a rival to the Geranium and Verbena as an out-door bedding plant. The enormous size and intense brilliancy of the flowers astonish those who have never seen any but the ordinary house Begonia. The

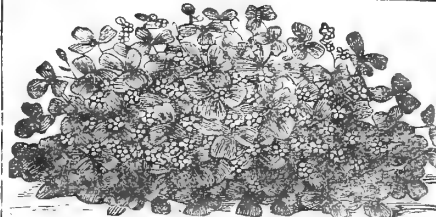

Single Begonia

SPOTTED CALLA LILY

This produces white flowers, while the leaves are dark green in color and covered with transparent white spots. The centre of the flowers are black and are very beautiful. The bulbs grow and bloom freely in the window or open garden. Good bulbs 12c. each; 3 for 30c.

EXCELSIOR DWARF DOUBLE PEARL TUBEROSE

This is the best double Tuberose in cultivation, blooms early and bears immense spikes of large, pure white, perfectly double, sweet scented flowers. We offer very choice flowering sized bulbs, 5c. each, 6 for 25c., 12 for 45c., 30 for \$1.00, postpaid. By express not prepaid, \$1.00 per 100.

Be sure to try the **GIANT HIMALAYA BERRY**. See page 64 and back cover. IT'S A WONDER.

CINNAMON VINE

Perfectly hardy, standing the coldest winters, increases in size every year. It will quickly cover an arbor, window or veranda with a profusion of vine covered with handsome glossy green heart-shaped foliage, bearing great numbers of delicate white blooms with a cinnamon fragrance. When once planted it will grow for years.

Price, 5c. each; 6 for 25c.; 12 for 40c., postpaid.

SUMMER FLOWERING OXALIS BULBS

These little bulbs quickly throw up a mass of pretty foliage and flowers, the bulbs being not much larger than peas. They make fine border plants and are desirable for pot culture. The flowers are delicate colors.

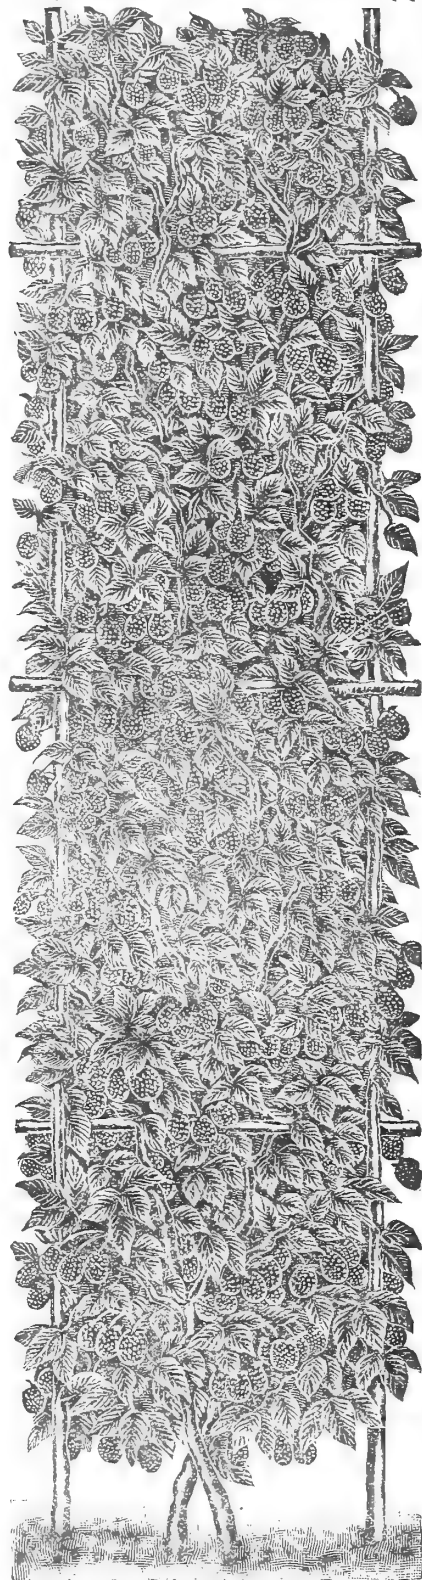

Bulbs, mixed colors, 12 for 10c.; 25 for 15c.; 50 for 25c.; 100 for 40c., postpaid.

SURPRISE BOX OF BULBS AFTER MAY 1st, \$1.00, POSTPAID

We always have a surplus of Bulbs after May 1st, for it is absolutely impossible to know just how many to grow for our trade to be sure of having enough, so we have decided to put all these surplus Bulbs in Surprise Boxes May 1st, and guarantee not less than 100 Bulbs in each box for \$1.00, postpaid. This will give several times the one dollar's worth, and will be a real surprise to all who order a box. Such a Box of Bulbs will make a great Flower Bed during summer, as we send all flowering size Bulbs.

Order a Box and you will say it is the best investment you ever made.

BURBANK'S GIANT BLACKBERRY

This Blackberry is claimed to be the largest grown, making a growth of from 20 to 30 feet in one year, and can be trained on a fence or an arbor as shown by the illustration. The enormous clusters of large sized berries ripen all summer, making it the most productive of any variety known. The flavor is sweet, have no core, and are of unusual richness when ripe. The plants are hardy and the fruit will stand extremes of heat or cold better than any other variety. Two or three bushes will produce all the berries any ordinary family will use, and while we do not offer any plants for sale this season, we can furnish seeds which will germinate and produce plants at small expense. Now is a good time to begin, and we would like to have our customers start this Giant Berry this year. Seeds—Pkt. 5c. 3 pkts. 12c., 6 pkts. 20c.

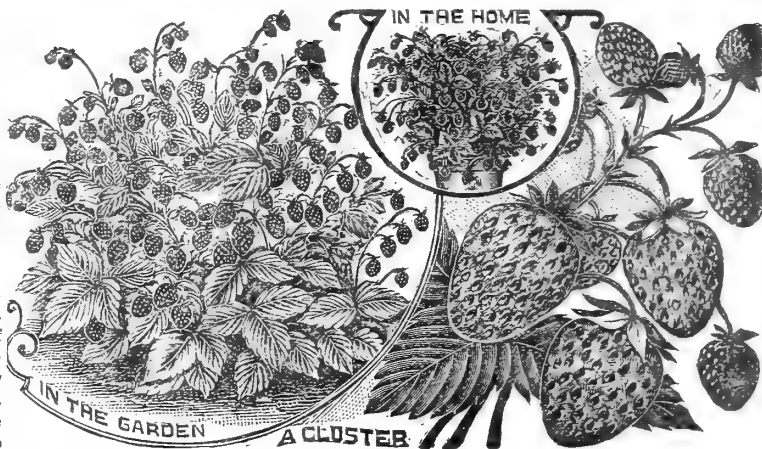

EVERBEARING STRAWBERRY

One of Our Great Berry Novelties
YOU CAN GROW IT FROM SEED.

Here is a New Everbearing Strawberry that grows freely from seed and will fruit the first summer. The seed can be sown early in the spring in the house or hot bed, and will soon produce young plants: seed can be sown later in open garden if desired. The plants grow very fast and in a short time will be large enough to

transplant in the garden. If the seed is sown by March the plants will begin to bloom early in July, and in from two to three weeks will begin to bear ripe fruit.

The valuable point about this New Berry is that from the time the first ripe fruit appears they continue to fruit until late in the fall. The Berries are not quite so large as garden varieties, but they are much higher flavored and of excellent quality and produced in various colors, red, white and a few of them will perfume a whole room on account of their delicate fragrance. They are enormous yielders, single plants having produced nearly half pint of Berries at one picking as late as October. They are perfectly hardy and will grow anywhere by starting from the seed. We know all our customers will be very much interested in this New Berry, and people in the city or others who are limited for space can grow the plants in pots, boxes or anywhere convenient and it will even fruit in the winter from plants raised in the house. We recommend all our customers to try this Grand New Berry this year, as we consider it a Great Novelty. Think of it—grow Strawberries from seed and have delicious fruit all summer. Seed per pkt., 6c., 3 pkts., 15c., 7 pkts., 30c., postpaid.

Two New Everbearing Raspberries

EVERBEARING BLACK RASPBERRY

This is a wonderful Black Raspberry, and will actually bear fruit from June until killed by frost in the fall. The vines are literally loaded with fruit in all stages—from bloom to ripe fruit. It creates a great surprise wherever grown, for it has no equal as an everbearing variety.

It is really a Great Berry Novelty, and will be greatly appreciated in any garden. Our engraving shows a cluster of luscious berries on a branch taken from a plant. Be sure to try them.

Plants 25c. each, 3 for 70c., 6 for \$1.30, postpaid.

EVERBEARING RED RASPBERRY

EVERBEARING RED RASPBERRY

The unusual occurrence of Red Raspberries in market during the months of August, September, and October attracted our attention, and after investigating, we found a limited supply of plants, which we have purchased. They begin to fruit in August and continue bearing until checked by the frost, producing great quantities continually, plants being loaded with bloom, green fruit, and luscious ripe berries. Our engraving shows a cluster taken from a plant.

Plants 20c. each, 3 for 55c., 6 for \$1.00, postpaid.

LARGE FRENCH STRAWBERRIES

AHEAD OF AMERICAN VARIETIES

EASILY GROWN FROM SEED

LARGE FRENCH STRAWBERRY

Have you ever heard of the FRENCH STRAWBERRIES, which can be grown from Seed? If not, you should certainly grow them this year. Their great size and luscious sweetness will surprise you. They are far ahead of American varieties. These Strawberries are easily grown from seed, and they are the most interesting of all fruit to grow this way because they grow so large and produce such handsome, delicious berries. Seed should be sown early in hot bed or in open ground in a seed bed as soon as weather will permit. Grow this excellent berry. It will please you. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., 15 pkts. 40c.

MAMMOTH BLACKBERRY

MAMMOTH BLACKBERRY

This mammoth variety grows unlike any other Blackberry on account of its trailing habit, sometimes making a growth of from 12 to 20 feet in one season. The fruit is enormous—larger than any other Blackberry we know of—and is produced in great clusters, making it the most productive of any variety known. While the fruit is so very large, the core is small and very soft, and the flavor is a decided improvement over any other variety of Blackberries of its class, and it continues bearing throughout a long season. The plant is hardy, and both plant and fruit will stand extremes of heat and cold better than any other mammoth Blackberry. Think of Blackberries measuring from 2½ to 3 inches long! You should surely try them this year. We offer seed from large fruit as follows: Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

BURBANK'S PHENOMENAL BERRY

Mr. Burbank says this is the largest Berry ever before known, bright crimson Raspberry color, productive as could be desired, and the most delicious of all berries for home use.

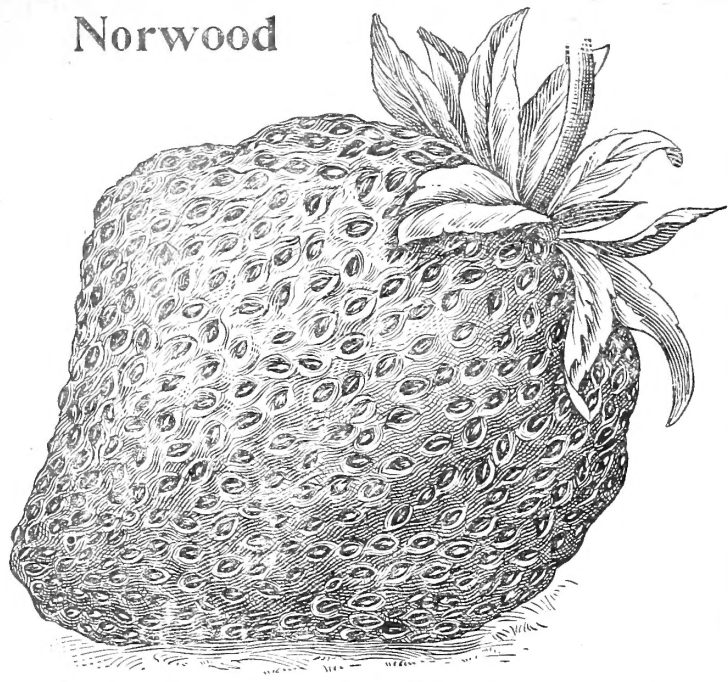

The Berries grow in clusters of from five to ten or more, and individual Berries, under favorable conditions, have measured three inches around one way by three and one-half to four inches the other way. It is a surprise and a delight to people when first seen, being so large and luscious.

It is pronounced by experts "The greatest wonder of all." It tastes and looks like both Raspberry and Blackberry. A half dozen plants in the garden will produce enough fruit for any family of ordinary size.

You can start this Berry from seed. We offer seed only. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c., 15 pkts. 50c.

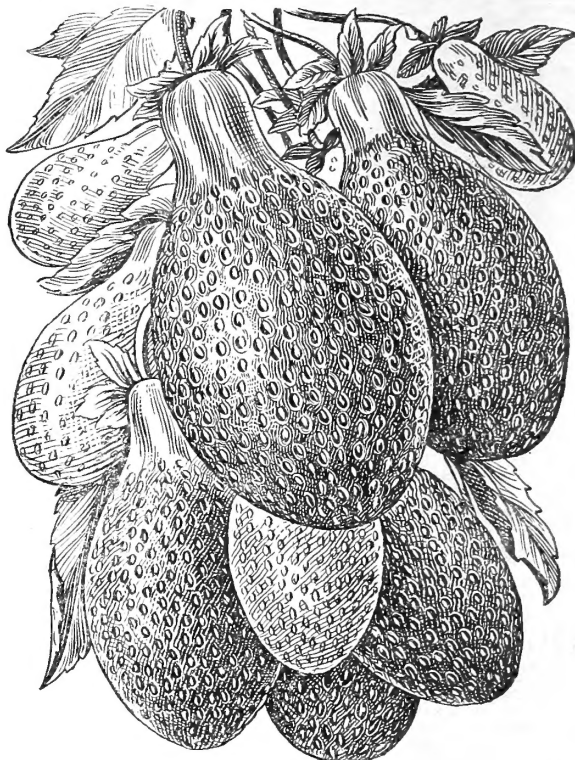

BURBANK'S PHENOMENAL BERRY

Norwood

GREAT NORWOOD STRAWBERRY

The **NORWOOD** is the largest Strawberry in cultivation. The plant grows strong and healthy. Berry is conic and regular in shape. Quality is unsurpassed and the size unequalled, some attaining the enormous size of three inches in diameter. Four such berries would fill a box and be crowded. Color, bright red all the way through, growing darker with age, is firm, a good keeper and will ship well. Has a perfect blossom and holds its size well through the season and remains in bearing for a long time. Plants 12c. each, 3 for 30c., 6 for 50c., 12 for 80c., 30 for \$1.60, postpaid. By express, 100 for \$4.50.

KEVITT'S WONDER STRAWBERRY

A NEW CREATION

The most distinctive and individual of all American strawberries. Unlike any other Strawberry in cultivation.

This berry is absolutely new and distinct from any other Strawberry. It is a perfect blooming variety; berries large, with seeds of bright yellow, making it a perfect beauty. The flavor is fine, and the berries are just the right shape and size to make them show up well in the crate, always commanding the top price. The introducer claims they can be safely sent in a common express car from New York to Chicago, and open up in fine shape. This is a very strong point in its favor, as a good shipping berry is very essential for commercial purposes. Fruit stems short and stocky and so full of berries that they are weighted to the ground. Season medium, berries bright red, with a long neck, parting readily from the calyx. Plants 15c. each, 3 for 30c., 6 for 50c., 12 for 80c., 30 for \$1.50, postpaid. By express, 100 for \$4.00.

KEVITT'S WONDER STRAWBERRY

GIANT HIMALAYA BERRY

GREATEST OF ALL BERRIES

(See Back Cover for Photograph of one Plant as it appeared in July, 1910.)

We believe this the most wonderful **BERRY** of its kind ever before known in this country. It's black, but not a blackberry. It was discovered in the Himalaya Mountains and brought to this country, and the results obtained are simply astonishing.

The plant is extremely hardy, and for rapid and immense growth it is almost unbelievable; a single cane under favorable conditions will, if permitted, often reach a growth of fifty feet in a single season. Sprouts do not come from the ground like a blackberry, but start from the one root. These canes, when one or more years old, send out fruit laterals from sixteen to forty inches long, which bear enormous crops, some estimating from six to ten tons per acre. For these and other reasons apparent to the grower the vines should be pruned and trained high with plenty of room. A six or seven-foot wire or wood trellis made sufficiently strong with the plants set nine feet each way, is not too little for good results. Some growers succeed with twice as many plants in the same space, however. It should not be forgotten that the plant is a perennial, not an annual, and comes to perfection in three years. For the best results it should be treated as a fruit tree, and pruned accordingly. About four canes should be allowed to grow from a root and trained to suit. After reaching the length desired the tip should be pinched off so that the vine will not expend any more energy in that direction, but will give attention to fruit bearing. Pinch back the long and low laterals when necessary, and cut off the sprouts not wanted. It is well to allow one or two new canes to grow each year, to take the place of old vines, which should be cut out after a few years in order to have nice fruit. The bloom is shell pink, the size of a peach bloom, berries jet black, oblong in shape, and have a port wine flavor.

No other berry will so amply repay the labor expended upon it. The fruit is one of the best sellers in the market, starting to ripen after blackberries are about gone, and continuing until frost. Almost coreless and very rich, they need very little sugar in cooking. They have a flavor all their own, and are surpassingly good for pies, jellies and jams. As a tonic and regulator for the sick they are appreciated either fresh or cooked. No comparison can properly be made between this and blackberries. They are good shippers when not too ripe, and do not rapidly spoil on the vines. As a commercial berry it has no equal.

Instead of growing so much of the fruit inside the vine, like blackberries, which causes so much trouble in picking, they send out their laterals all on the outside, which hang out and over on each other entirely outside the vines, and enables the pickers to fill their baskets rapidly.

From the fact of its native land being extremes in severity of climate, it is the hardest berry known, and will resist drouth and cold more than any other berry. Having a root like a small tree which strikes down deep to moisture, it is especially recommended to growers in dry districts. It is undoubtedly the coming berry.

The **GIANT HIMALAYA BERRY** is fine for covering old buildings, walls, summer houses, etc. It looks fine trained to a post on the lawn, tying the canes to the post, and when they reach the top, pinch them back and they will branch out and form a bush or **Weeping Tree** that is a beautiful sight in July, with its shell pink blossoms.

It crops in the North from July to frost and much longer in the southern states. It is believed to be the hardest berry grown in the United States today. It is an all-around berry in every respect, and many appetizing dishes may be prepared from them.

The plant shown on back cover was made from a photograph taken in July, 1910. It was trained upon a large trellis and loaded with ripe and green fruit just as shown in the photograph and produced berries until frost. Do not fail to set a few plants this spring.

Instructions for cultivation and booklet of receipts for cooking, canning and preserving free with every order.

We offer good strong plants by mail, carefully packed, as follows: 30c. each, 3 for 60c., 6 for \$1.00, 15 for \$2.00, 25 for \$3.00, postpaid. **Safe Arrival Guaranteed.**

PAN-AME

AN STRAWBERRY

Pan-American Strawberry

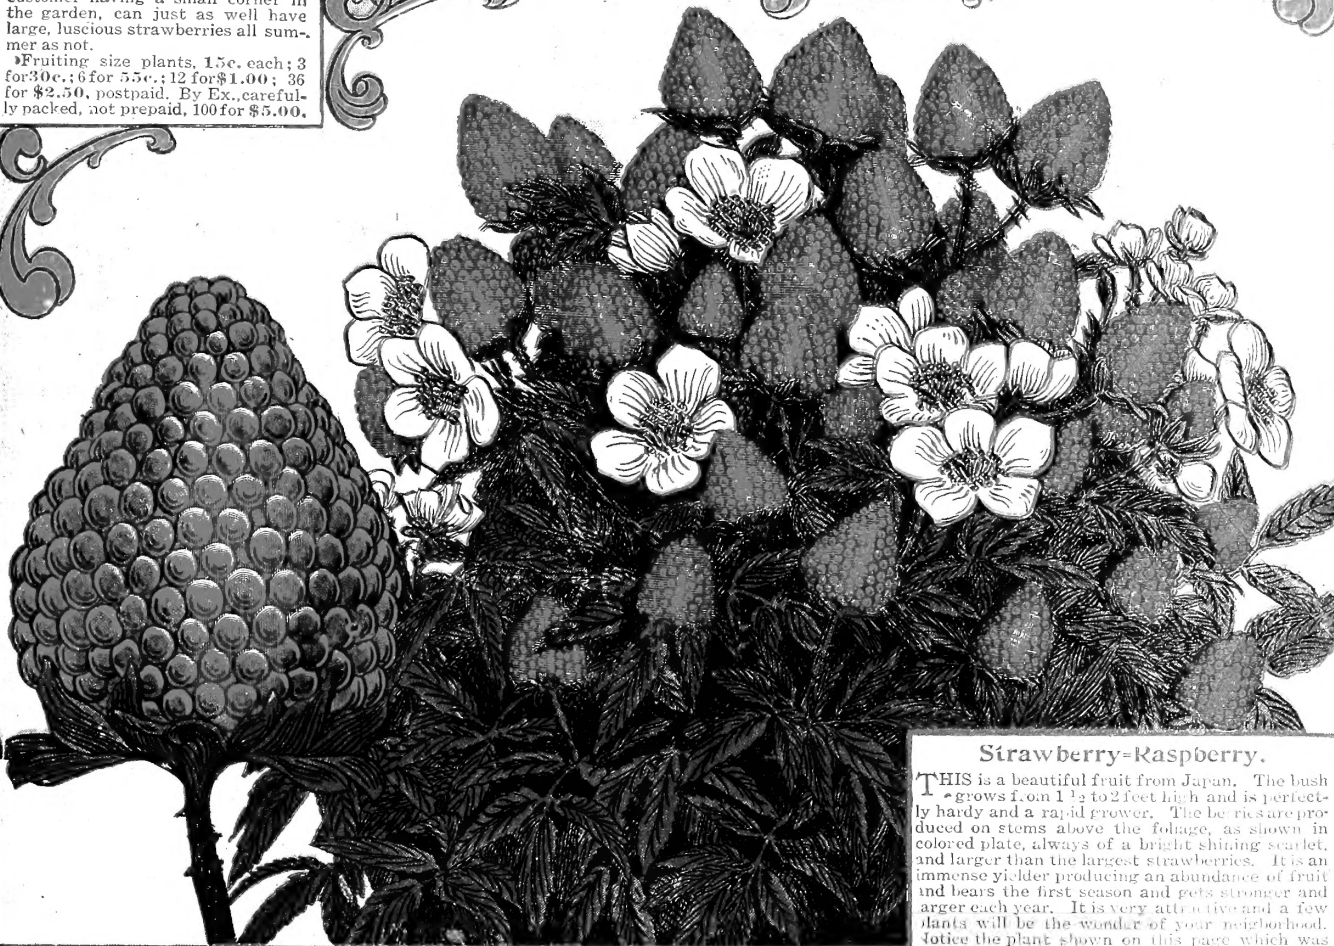

THIS is a Wonderful Strawberry and we want all our customers to grow it.

The plant shown in colors was made from a photograph taken Sept. 26th, which shows it full of ripe and green fruit. It begins to fruit with other early strawberries, and does not stop bearing, but continues to fruit until late in the fall. The plants are hardy, are of medium size, strong, thrifty growers, and have a perfect blossom. The fruit is of good size, bright red in color, and excellent flavor.

What would be more attractive in the garden than Pan-American Strawberry Plants producing fruit all summer?

This Berry is not an experiment, but one that will prove a great attraction wherever grown, and every customer having a small corner in the garden, can just as well have large, luscious strawberries all summer as not.

•Fruiting size plants, 15c. each; 3 for 30c.; 6 for 55c.; 12 for \$1.00; 36 for \$2.50, postpaid. By Ex., carefully packed, not prepaid, 100 for \$5.00.

Strawberry-Raspberry.

THIS is a beautiful fruit from Japan. The bush grows from 1 1/2 to 2 feet high and is perfectly hardy and a rapid grower. The berries are produced on stems above the foliage, as shown in colored plate, always of a bright shining scarlet, and larger than the largest strawberries. It is an immense yielder producing an abundance of fruit and bears the first season and gets stronger and larger each year. It is very attractive and a few plants will be the wonder of your neighborhood. Notice the plant shown on this page which was drawn from one growing in the field.

•Plants 15c. each; 3 for 35c.; 6 for 60c.; 12 for \$1.00, postpaid. Plants may be started from seed. •Kt., 8c.; 3 pkts., 20c.
